* Information on blood lead laboratory results reporting requirements by state is available at the ABLES program website http://www.cdc.gov/niosh/topics/ABLES/State-Contacts.html

† A total of 40 states submitted data in 2008 and 2009: Alabama, Alaska, Arizona, California, Connecticut, Florida, Georgia, Hawaii, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Utah, Vermont, Washington, Wisconsin, and Wyoming.

§ A total of 38 of the 40 states (all except Indiana and Kentucky) provided data on industry in 2009 and 37 in 2008 (all except Alabama, Indiana, and Kentucky).

¶ Interventions include 1) conducting follow-up interviews with physicians, employers, and workers; 2) investigating worksites; 3) providing technical assistance; 4) providing Occupational Safety and Health Administration (OSHA) referrals for consultation and enforcement; and 5) developing and disseminating educational materials and conducting outreach programs.

** Additional information available at http://www.osha.gov/OshDoc/Directive_pdf/CPL_03-00-0009.pdf.

†† Engineering controls and good work practices are the preferred methods of minimizing exposures to airborne lead at the worksite. Engineering control methods that can be used to reduce or eliminate lead exposures can be grouped into three main categories: 1) substitution, 2) isolation, and 3) ventilation. Additional information available at http://www.osha.gov/dts/osta/otm/otm_v/otm_v_3.html#21.

§§ Additional information available at http://www.osha.gov/pls/oshaweb/owadisp.show_document?p_table=fact_sheets&p_id=1611.

What is already known on this topic?

Lead exposure among adults remains almost exclusively an occupational health problem in the United States, although the health effects from lead exposure are well characterized and controls to reduce lead exposure for workers exist.

What this report adds?

During 2008–2009, the prevalence of U.S. adults with blood lead levels (BLLs) ≥25 µg/dL continued to decrease, to 6.3 per 100,000 employed adults in 2009 from 14.0 in 1994. The highest prevalences of elevated BLLs continue to be found among workers in the manufacturing, construction, and mining industries.

What are the implications for public health practice?

Measures to improve lead exposure surveillance and preventive interventions focused in the manufacturing, construction, and mining industries should be implemented by government agencies, employers, and worker-affiliated organizations.

APPENDIX B

DEPARTMENT OF COMMUNITY HEALTH

HEALTH LEGISLATION AND POLICY DEVELOPMENT

BLOOD LEAD ANALYSIS REPORTING

Filed with the Secretary of State on September 25, 1997. These rules take effect 15 days after filing with the Secretary of State.

(By authority conferred on the community public health agency by section 5111 of Act No. 368 of the Public Acts of 1978, as amended, section 8 of Act No. 312 of the Public Acts of 1978, and Executive Reorganization Order No. 1996-1, being §§333.5111 and 325.78, and 330.3101 of the *Michigan Compiled Laws*)

R 325.9081 Definitions.

Rule 1. (1) As used in these rules:

(a) "Blood lead analysis report form" means the form used to report the required reportable information for blood that has been analyzed for lead.

(b) "Agency" means the community public health agency.

(c) "Physician/provider" means a licensed professional who provides health care services and who is authorized to request the analysis of blood specimens. For this purpose, provider may also mean the local health department.

(2) The term "local health department," as defined in Act No. 368 of the Public Acts of 1978, as amended, being §333.1101 et seq. of the Michigan Compiled Laws, has the same meaning when used in these rules.

R 325.9082 Reportable information.

Rule 2. (1) Reportable information is specifically related to blood samples submitted to clinical laboratories for lead analysis.

(2) Upon initiating a request for blood lead analysis, the physician/provider ordering the blood lead analysis shall complete the client information (section I) and the physician/provider information (section II) of a blood lead analysis report form designated by the agency or shall complete another similar form that ensures the inclusion of the same required data and shall provide all of the following information:

(a) All of the following information with respect to the individual tested:

(i) Name.

(ii) Sex.

(iii) Racial/ethnic group.

(iv) Birth date.

(v) Address, including county.

(vi) Telephone number.

(vii) Social security number and Medicaid number, if applicable.

(viii) If the individual is a minor, the name of a parent or guardian and social security number of the parent or guardian.

(ix) If the individual is an adult, the name of his or her employer.

(b) The date of the sample collection.

(c) The type of sample (capillary or venous).

(3) The blood lead analysis report form or a document with the same data shall be submitted with the sample for analysis to a clinical laboratory that performs blood lead analysis.

(4) Upon receipt of the blood sample for lead analysis, the clinical laboratory shall complete the laboratory information (section III) and provide all of the information required and/or submitted by the physician/provider and the following:

(a) The name, address, and phone number of the laboratory.

(b) The date of analysis.

(c) The results of the blood lead analysis in micrograms of lead per deciliter of whole blood rounded to the nearest whole number.

R 325.9083 Reporting responsibilities.

Rule 3. (1) All clinical laboratories doing business in this state that analyze blood samples for lead shall report all blood lead results, rounded to the nearest whole number, for adults and children to the Community Public Health Agency, Childhood Lead Poisoning Prevention Program (CPHA/CLPPP), 3423 N.M.L. King Jr. Blvd., Lansing , MI 48909. Reports shall be made within 5 working days after test completion.

(2) Nothing in this rule shall be construed to relieve a laboratory from reporting results of a blood lead analysis to the physician or other health care provider who ordered the test or to any other entity as required by state, federal, or local statutes or regulations or in accordance with accepted standard of practice, except that reporting in compliance with this rule satisfies the blood lead reporting requirements of Act No. 368 of the Public Acts of 1978, as amended, being §333.1101 et seq. of the Michigan Compiled Laws.

R 325.9084 Electronic communications.

Rule 4. (1) A clinical laboratory may submit the data required in R 325.9083 electronically to the agency.

(2) For electronic reporting, upon mutual agreement between the reporting laboratory and the agency, the reporting shall utilize the data format specifications provided by the agency.

R 325.9085 Quality assurance.

Rule 5. For purposes of assuring the quality of submitted data, each reporting entity shall allow the agency to inspect copies of the medical records that will be submitted by the reporting entity to verify the accuracy of the submitted data. Only the portion of the medical record that pertains to the blood lead testing shall be submitted. The copies of the medical records shall not be recopied by the agency and shall be kept in a locked file cabinet when not being used. After verification of submitted data, the agency shall promptly destroy the copies of the medical records.

R 325.9086 Confidentiality of reports.

Rule 6. (1) The agency shall maintain the confidentiality of all reports of blood lead tests submitted to the agency and shall not release reports or any information that may be used to directly link the information to a particular individual, unless the agency has received written consent from the individual, or from the individual's parent or legal guardian, requesting the release of information.

(2) Medical and epidemiological information that is released to a legislative body shall not contain information that identifies a specific individual. Aggregate epidemiological information concerning the public health that is released to the public for informational purposes only shall not contain information that identifies a specific individual.

R 325.9087 Blood lead analysis report form.

Rule 7. The blood lead analysis report form reads as follows:

MICHIGAN DEPARTMENT OF COMMUNITY HEALTH
BLOOD LEAD ANALYSIS REPORT
DATA/INFORMATION REQUIRED BY ADMINISTRATIVE RULE # R325.9082 AND R 325.9083

PATIENT INFORMATION
To be completed by Parent/Guardian or Patient

APPENDIX C

SUMMARY OF MICHIGAN'S LEAD STANDARDS

In 1981, under the authority of the Michigan Occupational Safety and Health Act (MIOSHA), Michigan promulgated a comprehensive standard to protect workers exposed to lead in general industry (i.e., R325.51901 - 325.51958). That standard was most recently amended in October, 2000. In October 1993, MIOSHA adopted by reference the federal Occupational Safety and Health Administration's (OSHA) Lead Standard for Construction (i.e., 29 CFR 1926.62). That standard was most recently amended October 18, 1999. Both the MIOSHA Lead Exposure in Construction Standard (Part 603) and the Lead Exposure in General Industry Standard (Part 310) establish an "action level" (30 micrograms of lead per cubic meter of air [ug/m^3] averaged over an eight-hour period) and a permissible exposure limit (50 ug/m^3 averaged over an eight hour period) for employees. Both standards require employers to conduct initial exposure monitoring and to provide employees written notification of these monitoring results. If employee exposure levels exceed the permissible exposure limit (PEL), employers are required to develop a written compliance program that addresses the implementation of feasible engineering and/or work practice controls to reduce and maintain employee exposures below the PEL. The Lead Exposure in Construction Standard (Part 603) also allows the use of administrative controls to achieve this objective. An employer's obligations concerning hygiene facilities, protective work clothing and equipment, respiratory protection, medical surveillance and training under the Lead Exposure in Construction Standard (Part 603) are triggered initially by job tasks and secondarily by actual employee exposure level to lead. Under the Lead Exposure in General Industry Standard (Part 310), these potential obligations are triggered by actual employee exposure levels to lead. Medical surveillance and training are triggered by exposures above the action level (AL), whereas protective clothing and equipment, respiratory protection and hygiene facilities are triggered by exposures above the PEL.

The medical surveillance program requirements for Michigan's Lead Exposure in General Industry Standard (Part 310) versus those required in Lead Exposure in Construction Standard (Part 603) do vary. Under the Lead Exposure in General Industry Standard (Part 310), a medical surveillance program must be implemented which includes periodic biological monitoring (blood tests for lead and zinc protoporphyrin [ZPP] levels), and medical exams/consultation for all workers exposed more than 30 days per year to lead levels exceeding the AL. Under the Lead Exposure in Construction Standard (Part 603), a distinction is made between "initial medical surveillance" (consisting of biological monitoring in the form of blood sampling and analysis for lead and ZPP levels) and secondary medical surveillance (consisting of follow-up biological monitoring and a medical examination/consultation). The initial medical exam is triggered by employee exposure to lead on any day at or above the AL. The secondary medical exam is triggered by employee exposures to lead at or above the AL for more than 30 days in any 12 consecutive months period.

Michigan's Lead Exposure in General Industry Standard (Part 310) mandates that employees exposed at or above the AL must be removed from the lead exposure when:

- A periodic blood test and follow-up blood test indicate that the blood lead level (BLL) is at or above 60 micrograms per deciliter (µg/dL) of whole blood.
- Medical removal is also triggered if the average of the last three BLL or the average of all blood sampling tests conducted over the previous six months, whichever is longer, indicates the employees blood lead level is at or above 50 µg/dL. Medical removal is not required however, if the last blood sampling test indicates a blood lead level at or below 40 µg/dL of whole blood.
- When a final medical determination reveals that an employee has a detected medical condition which places that employee at an increased risk of material impairment to health from the lead exposure.

The Lead Exposure in Construction Standard (Part 603) mandates removal of an employee from a lead exposure at or above the AL when:

- A periodic and follow-up blood test indicates that an employee's BLL is at or above 50 µg/dL; or
- There is a final medical determination that an employee has a detected medical condition which places that employee at an increased risk of material impairment to health from the lead exposure.

When an employee can return to work at their former job also differs by standard. The Lead Exposure in General Industry Standard (Part 310) allows an employee to return to his or her former job status under any of the following circumstances:

- If the employee's BLL was at or above 70 µg/dL, then two consecutive blood tests must have the BLL at or below 50 µg/dL.
- If the employee's BLL was at or above 60 µg/dL or due to an average BLL at or above 50 µg/dL, then two consecutive BLL must be at or below 40 µg/dL.
- For an employee removed due to a final medical determination, when a subsequent medical determination no longer detects a medical condition which places the employee at an increased risk of material impairment to health from exposure to lead.

The Lead Exposure in Construction Standard (Part 603) allows the employer to return an employee to their former job status under these circumstances:

- If the employee's BLL was at or above 50 µg/dL, then two consecutive blood tests must have the employee's BLL at or below 40 µg/dL.
- For an employee removed due to a final medical determination, when a subsequent medical determination no longer has a detected medical condition which places the employee at an increased risk of material impairment to health from exposure to lead.

Both the Lead Exposure in General Industry (Part 310) and Lead Exposure in Construction (Part 603) Standards have a medical removal protection benefits provision. This provision requires employers maintain full earnings, seniority and other employment rights and benefits of temporarily removed employees up to 18 months on each occasion that an employee is removed from exposure to lead. This includes the right to their former job status as though the employee had not been medically removed from the job or otherwise medically limited.

Provisions of Lead Exposure in General Industry (Part 310) and Lead Exposure in Construction (Part 603) Standards

Workers exposed to lead have a right to: an exposure assessment, respiratory protection, protective clothing and equipment, hygiene facilities, medical surveillance, medical removal and training. The triggering mechanisms that activate these rights are primarily based upon employee lead exposure levels. However, under the Lead Exposure in Construction Standard (Part 603), many of these rights are initially triggered by the specific work activity being performed.

Exposure Assessment

Air monitoring must be conducted to determine employee airborne lead exposure levels when a potential lead exposure exists. Under the Lead Exposure in Construction Standard (Part 603), however, specific work activities are identified/categorized that require "interim protection" (i.e., respiratory protection, personal protective clothing and equipment, work clothes change areas, hand washing facilities, biological monitoring and training) until air monitoring has been performed that establishes that these lead exposure levels are within the acceptable limits (AL or PEL).

Respiratory Protection

Respiratory protection is required whenever employee exposure levels exceed the PEL and as an interim control measure under the Lead Exposure in Construction Standard (Part 603). The level of respiratory protection required is dependent upon the actual employee exposure level or by the job activities identified in the Lead Exposure in Construction Standard (Part 603).

Protective Clothing/Equipment

Protective clothing/equipment (i.e., coveralls or similar full body clothing; gloves, hats, shoes or disposable shoe coverlets; and face shield, vented goggles, or other applicable equipment) is required whenever employee exposure levels exceed the PEL and as an interim protection measure under the Lead Exposure in Construction Standard (Part 603).

Hygiene Facilities

Hygiene facilities (i.e., clothing change areas, showers, eating facilities) are required whenever employee exposures to lead exceed the PEL. Except for shower facilities, these same hygiene facilities must be provided as interim protection under the Lead Exposure in Construction Standard (Part 603). The construction employer must, however, provide hand washing facilities in lieu of the shower facility as an interim protection.

Medical Surveillance

Medical surveillance (i.e., medical exam and consultation) is required when workers are exposed to lead at or exceeding the AL for more than 30 days a year. Biological blood sampling and analysis to determine lead and ZPP levels is required initially under the Lead Exposure in Construction Standard (Part 603) when employee lead exposure is at or exceeds the AL on any single day. Under the Lead Exposure in General Industry Standard (Part 310), it is required when employees are exposed to concentrations of airborne lead greater than the A.L. for more than 30 days per year.

Medical Removal

Workers covered by the Lead Exposure in General Industry (Part 310) Standard have the right to be removed from airborne lead exposures at or above the AL when their periodic and follow-up blood lead level is at or above 60 µg/dL or when an average of the last three BLLs or the average of all blood sampling tests conducted over the previous six months, whichever is longer, indicates the employee blood lead level is at or above 50 µg/dL. However, under this later removal criteria, they are not required to be removed if the last blood sampling test indicates a blood lead level at or below 40 µg/dL.

Workers covered by the Lead Exposure in Construction Standard (Part 603) have the right to be removed from airborne lead exposures at or above the AL on each occasion that a periodic and follow-up blood sample test indicate that the employee's blood lead level is at or above 50 µg/dL.

Under both the Lead Exposure in General Industry (Part 310) and Lead Exposure in Construction (Part 603) Standards, workers also have the right to be removed from airborne lead exposures at or above the AL whenever there is a final medical determination that has detected that they have a medical condition that places them at an increased risk of material impairment to health from exposure to lead.

Training

Under the Lead Exposure in General Industry Standard (Part 310) and Lead Exposure in Construction (Part 603), employees exposed to any level of airborne lead must be informed of the contents of appendices A and B from that standard.

Under both the Lead Exposure in General Industry (Part 310) and Lead Exposure in Construction (Part 603) Standards, employees who are exposed at or above the AL on any day or who are subject to exposure to lead compounds which may cause skin or eye irritation must be provided comprehensive training covering all topics specified in those standards.

Also, under the Lead Exposure in Construction Standard (Part 603), employees involved in any of the specified work activities requiring interim controls, must receive training prior to initiating those activities that addresses the recognition and avoidance of unsafe conditions involving lead and the specific regulations applicable to the worksite that have been established to control or eliminate the hazards associated with exposure to lead.

APPENDIX D

Table 1. **Health– based management recommendations for lead-exposed adults**

Volume 115; Number 3; March 2007 Environmental Health Perspectives

Blood lead level (µg/dL)	Short-term risks (lead exposure <1 year)	Long-term risks (lead exposure ≥ 1 year)	Management
<5	None documented	None documented	None Indicated
5-9	Possible spontaneous abortion Possible postnatal developmental delay	Possible spontaneous abortion Possible postnatal developmental delay Possible hypertension and kidney dysfunction	Discuss health risks Reduce lead exposure for women who are or may become pregnant
10-19	Possible spontaneous abortion Possible postnatal developmental delay Reduced birth weight	Possible spontaneous abortion Possible postnatal developmental delay Hypertension and kidney dysfunction Reduced birth weight Possible subclinical neurocognitive deficits	Discuss health risks Reduce lead exposure for women who are or may become pregnant Decrease lead exposure Increase biological monitoring Consider removal from lead exposure to avoid long-term risks if exposure control over an extended period does not decrease BLL<10 µg/dL or if medical condition present that increases risk with continued exposure
20-29	Possible spontaneous abortion Possible postnatal developmental delay Reduced birth weight	Possible spontaneous abortion Possible postnatal developmental delay Hypertension and kidney dysfunction Reduced birth weight Possible subclinical neurocognitive deficits	Remove from lead exposure if repeat BLL measured in 4 weeks remains ≥20 µg/dL
30-39	Spontaneous abortion Possible postnatal developmental delay Reduced birth weight	Spontaneous abortion Possible postnatal developmental delay Hypertension and kidney dysfunction Reduced birth weight Possible subclinical neurocognitive deficits Possible nonspecific symptoms*	Remove from lead exposure
40-79	Spontaneous abortion Possible postnatal developmental delay Reduced birth weight Nonspecific symptoms* Neurocognitive deficits Sperm abnormalities	Spontaneous abortion Possible postnatal developmental delay Hypertension Kidney dysfunction/neuropathy Subclinical peripheral neuropathy Reduced birth weight Neurocognitive deficits Nonspecific symptoms* Sperm abnormalities Anemia Colic Possible gout	Remove from lead exposure Refer for prompt medical evaluation Consider chelation therapy for BLL > 50 µg/dL with significant symptoms or signs of lead toxicity
≥90	Spontaneous abortion Possible postnatal developmental delay Reduced birth weight Nonspecific symptoms* Neurocognitive deficits Sperm abnormalities Encephalopathy Anemia Colic	Spontaneous abortion Possible postnatal developmental delay Hypertension Neuropathy Peripheral neuropathy Reduced birth weight Neurocognitive deficits Nonspecific symptoms* Sperm abnormalities Anemia Colic Gout	Remove from lead exposure Refer for immediate/urgent medical evaluation Probable chelation therapy

*Medical conditions that may increase the risk of continued exposure include chronic renal dysfunctions (serum creatinine > 1.5 mg/dL for women or protein urial, hypertension , neurologic disorders and cognitive dysfunction. Non specific symptoms may include headache, fatigue, sleep disturbance, anorexia, constipation, orthralgia, myalgia, and decreased libido.

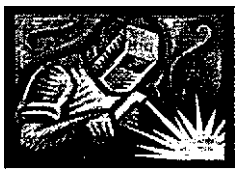
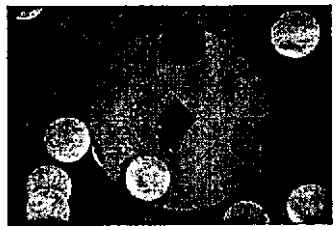
Robert L. Scott, Ph.D., Acting Coordinator and Data Manager

**HHLPPP is responsible for tracking childhood lead poisoning in Michigan.*



Occupational exposure to lead accounts for 95% of adult elevated blood lead levels in the

Michigan's 2011 lead surveillance show that of the 18.8% of individuals with elevated BLLs from non-occupational sources, 78.9% are exposed from a hobby related to guns.



The Adult Blood Lead Epidemiology and Surveillance (ABLES) Program is a state-based surveillance program of laboratory-reported adult blood lead levels. In 2009, the ABLES program updated its case definition for an Elevated Blood Lead Level for surveillance purposes as a blood lead concentration ≥ 10 µg/dl. The public health objective of the ABLES program is objective 20.7 in *Healthy People 2010*, which is to reduce the rate of adults (age 16 or older) who have blood lead levels of 25 micrograms per deciliter (µg/dL) or greater. The ABLES program aims to accomplish this objective by building state capacity to initiate or improve adult blood lead surveillance programs which can accurately measure trends in adult blood lead levels and which can effectively intervene to prevent lead over-exposures.

ABLES
Adult Blood Lead Epidemiology & Surveillance
82 Pb 207.2

There are many resources available to help employers, employees, health care professionals and others understand more about lead exposure, prevention and medical management. Links to these resources can be found at: www.oem.msu.edu.

The Lead Contamination Control Act of 1988 authorized the Centers for Disease Control and Prevention (CDC) to initiate program efforts to eliminate childhood lead poisoning in the United States. As a result of this Act, the CDC Childhood Lead Poisoning Prevention Program was created, with primary responsibility to:

- *Develop programs and policies to prevent childhood lead poisoning.*
- *Educate the public and health-care providers about childhood lead poisoning.*
- *Provide funding to state and local health departments to determine the extent of childhood lead poisoning by screening children for elevated blood lead levels, helping to ensure that lead-poisoned infants and children receive medical and environmental follow-up, and developing neighborhood-based efforts to prevent childhood lead poisoning.*
- *Support research to determine the effectiveness of prevention efforts at federal, state, and local levels.*

The cost benefit is clear: resources spent to prevent lead poisoning are an investment in each child's life-long health, quality of life, learning, and earning potential. If lead hazards were remediated in every Michigan residence and daycare setting built prior to 1978, childhood lead poisoning from residential paint would be eliminated.

HOMESERVE℠
Protecting homeowners in Michigan

Peel and affix this label

MR. PAUL J. GARSON
1407 WOODLAWN PARK DR.
FLINT, MI 48503-2768

325

Date:	1/12/16
Status:	Not Covered

** Important Information Regarding Your Water Service Line **

Dear Paul J. Garson,

This letter is to inform you that as a homeowner you are responsible for the full cost of repairing your exterior water line. We have found that your property at 1407 Woodlawn Park Dr. is not covered with Exterior Water Service Line Coverage from HomeServe.

The water service line buried underground on your property could fail without warning, leaving you responsible for the cost of repair or replacement. Replacement of this line can be expensive—costing you thousands of dollars in unforeseen expenses—which could burden finances.

This protection is available for eligible Flint homeowners.

Benefit Amount:	$6,000 annually with multiple service calls for covered repairs 30-day wait period with a money-back guarantee
Available For:	City water and Private well lines
Monthly Rate:	~~$5.49~~ $2.74
Property Address:	1407 Woodlawn Park Dr.
City:	Flint

* * * Important * * *

You can now receive 50% off the regular monthly price shown above for the *first year*. Take action to help protect the buried water line on your property. Complete and return the enclosed form—remember to affix your address label—or call 1-877-444-7750 to accept this *optional* coverage. For fastest processing, please visit CoveragePlans50.com.

Please respond within 30 days.

HomeServe USA Repair Management Corp. ("HomeServe"), with corporate offices located at 601 Merritt 7, 6th Floor, Norwalk, CT 06851, is an *independent company separate from your local utility or community* and offers this optional service plan as an authorized representative of the contract issuer, AMT Warranty Corp., 59 Maiden Lane, 43rd Floor, New York, NY 10038.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/09/2016 08:00:00
Operational Period End:	02/16/2016 08:00:00
Situation Report No.	39
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/13/2016 08:00:00
SEOC Hours of Operation End:	02/13/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 13, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.

JIC:
- JIC (Shanon Banner) was on call this weekend.
- On Monday (State holiday), she will be in the SEOC in the morning, and working from her office in the afternoon.
- JIC will be back up on Tuesday.

Recovery Branch:
- Attended Local brief, SEOC State Agency briefing meetings, Distribution Process meetings.
- Team priority visited today: Water distribution and rapid response.
- Team priority scheduled tomorrow: Visit the 83 addresses of City of Flint residents where there is no valid record of having been contacted. Continue with Rapid Response when needed.
- 8 American Red Cross Teams scheduled for Sunday, February 14, 2016.

o Total homes visited:
□ 23,169 (round 3 total).
□ 788 (today).
o Water cases (liters calculated by multiplying # of cases x 12):
□ 154,644liters or 12,887 cases (round 3 total).
□ 5,292 liters or 441 cases (today).
o Replacement cartridges:
□ 5,173 (round 3 total).
□ 305 (today).
o Faucet filters:
□ 7,752 (round 3 total).
□ 96 (today).

Planning Section:
- Published Sit Rep #39.
- Submitted daily Governor's report with research and clarifications.
- Participated in daily calls and meetings with UCG, state agencies and distribution process.
- Updated the Flint Water Timeline.

Operations Section:
- Attended 0830 UCG briefing conference call in SEOC.
- Conducted 0930 and 1600 State Agency Briefings.
- Attended 1030 and 1830 Distribution Process meetings.
- Responded to questions from Representative Kildee's office.
- Directed question on POD hours from the UCG to the State Director.
- Filed accident report of state EMC falling in SEOC to MSP Operations (Safety Officer), EMHSD command, and DTMB facilities.
- Discussion ensued about National Guard mission which has a current end date of Feb 16 (Tuesday).
- Warehouse Numbers as of 1800:

□ Water (liters):
- 734,755 liters or 61,230 cases.

□ Filters (faucet):
- 47,132.

□ Replacement cartridges:

• 375,514.
□ Test Kits (prepped):
• 28,823.
• PODs (Number as of 1700 2/12):
□ Water (cases):
• 32,544 liters or 2,712 cases.
□ Filters (faucet):
• 85.
□ Replacement Cartridges:
• 317.
□ Test kits:
• 88.

Finance Section:
• Update Spending Plan.
• Reviewing Agency Expenditures for inclusion as Category B eligible costs.
• Begin updates to cost reports for upcoming week submittal.

GIS Branch Updates:
• Meeting with ARC about lists for Red Cross missions.
• MSHDA/HUD Homes.
• Water Pressure Contours Map.
• Water Results Test.
• Filter points.
• Daily update Maps.

DTMB:
• Addressing parking issues at the Flint State Office Building parking ramp.
• Procured first aid kits for warehouses.
• Providing rights to DEQ SharePoint site.

DHHS-CH (weekly):
• The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to work with federal partners in the UCG on prioritized requests for assistance.
• MDHHS continues planning efforts in support of lead blood level testing for children age 6 and under.

DEQ:
• Deployed Sentinel water sampling collection crews and continued data collection and monitoring.
• Continued assembling data for EPA Emergency Administrative Order and second EPA request.
• Reviewed incident objectives to reflect Director's priorities for upcoming week.
• Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.
• Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 234 of 402 homes were visited.

Unified Coordination Group (UCG):
• There is a public meeting at noon today that EPA staff will attend on "When is this over?".
• New mental health teams are in today. They had an orientation at the UCG from 0930-1030 to discuss objectives and tasks.
• MDEQ teams did 180 home inspections and discovered 5 lead lines.

Local EOC:
• Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
• Approximately 210 households have agreed to be sentinel monitoring points for long-term water testing as of 02/13/2016.
• Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
• Sentinel Site Monitoring Teams will rally at 1000 instead of 0900 on 02/14/2016 to avoid low temperatures in earlier morning hours.
• Planning for transition from state agency support personnel to local personal in EOC.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

12. Develop and implement a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations.
5. Continue to maintain adequate staffing to support operational requirements.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
9. Enhance situational awareness and common operating picture of all activities.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
3. Improve and maintain the public information strategy and process.
6. Develop an overview of possible assistance programs.
4. Develop a long term public health and services plan.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
2. Ensure accurate tracking and accounting of all commodities.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 12. The JIC was operational until 9:30 p.m. on Feb. 11.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality, Health and Human Services and Treasury. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
• Media hotline staff answered more than 10 emails and phone calls, ranging from the news media asking to embed with sentinel teams to inquiries about the status of the water pipes in Flint.
• MDHHS Chief Medical Executive Dr. Eden Wells joined Senator Stabenow, Mayor Weaver, Dr. Hanna-Attisha to join the Children's Health Fund to deliver a mobile medical clinic that will provide medical care to children in Flint.
• Created a media monitoring report and looked for misinformation.
• Updated a Daily JIC Activities log to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
• Key state agency PIOs staffed the Flint Water Interagency Coordinating Committee for media. Two media outlets attempted to

attend the meeting, but were advised about the LiveStreaming service available at www.michigan.gov/snyderlive. The news media was unhappy about not being able to attend in person.
• Issued a news release about a National Guard soldier saving a Flint resident's life. National Guard Spec. Charles Colwell was made available for media interviews at Flint Fire Station No. 1. Interviews were conducted with WEYI-TV 25, WNEM-TV5 and WJRT-TV 12.
• Continued routing public information materials for approval, including fact sheets on breast feeding and lead poisoning, lead and children fact sheet by the Michigan Alliance for Families, Frequently Asked Questions fact sheet, and supporting children and families fact sheet.
• Drafted a news release about the boil water advisory being lifted. The JIC intends to issue the news release upon approvals and official notification from partners.
• Held a media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint. More 10 news media outlets attended, including local and regional members.
• Completed staffing for the next two weeks.

Agriculture and Rural Development (MDARD)

MDARD's activities for 2/12/2016 included the following:
We have addressed the resource request from Genesee County regarding blood testing for pets. MDARD will cover the costs of the MSU Diagnostic Center's tests for lead in blood and the sample form and index code have been provided. However, the other portion of the request, to test for copper, is per the State Veterinarian not best done through a blood test and an alternative has been suggested for those pet owners concerned about copper exposure.

American Red Cross (ARC)

The American Red Cross deployed 6 teams on Saturday, 2/13/16: 4 rapid response teams in partnership with AmeriCorps NCCC and 2 mobile teams.

The Volunteer Reception Center is operating today from 9am to 5pm. The plan is for the VRC to operate on the same schedule tomorrow.

Approximately 8,400 water test kits were assembled by VRC volunteers today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Maintaining media awareness regarding situation and community activities. Advised senior leadership of forthcoming FOIA process request. Engaged in constituent outreach regarding request for informational documents.

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

Additional addresses of medically dependent individuals in the 48502 zip code were provided to GIS to be added to the medically dependent map and to be reviewed to make sure these addresses have been touched by the water and filter distribution strategy.

Corrections (MDOC)

Warehouse 2 is fully functioning and has been receiving loose, non-pallet water donations.

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward.

2 hand pallet jacks arrived at the warehouse today from ALTA Equipment.

We are continuing to work with Finance and MDOC assets to capture total employee payroll information and expenditures.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC.

LARA plumbing supplies were delivered to the warehouse today. LARA employees were on-site to inventory.

122 test kits were delivered from Flint to Lansing today. 122 were residential. No MDARD.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

• Deployed Sentinel water sampling collection crews and continued data collection and monitoring.

• Continued assembling data for EPA Emergency Administrative Order and second EPA request.

• Reviewed incident objectives to reflect Director's priorities for upcoming week.

• Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.

□ Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 233 of 402 homes were visited (changed 234 to 233 homes visited at 7:15pm).

Human Services (MDHS)

Participated in the SEOC Distribution Process Meetings at 10:30 and 18:30. No new action items.

Continue to review activities to provide support and assistance to assigned Human Services branch.

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team.

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

LARA continuing efforts to plan and schedule faucet replacements for Flint schools. LARA is working with MDOC to track and store incoming material at the warehouse.

Translation services for various documents continue to be provided as needed.

Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 1313002016.

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN).

3. POC: 1LT Roland, John G. Cell: Email: john.g.roland2.mil@mail.mil.

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502.

5. SITUATION OVERVIEW: 1-125 IN has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has 62 Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. Signs have been printed off for the POD Buildings. Requesting approval to get the signs laminated from the purchasing office.

1.) TF Flint OIC, 2LT Benke, is actively seeking approval from Dana and/or Kim at the purchasing office for laminating.

b. A press conference was held at the EOC in regards to the DEQ sentinel teams and the data that has been collected within homes.

8. PERSONNEL: Soldiers are currently assigned to the POD operations. : Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION: Water boil advisory will be lifted.

10. LOGISTICS: In support of TF Flint

a. Schupon has placed an order for more instruction cards attached to recycle bags.

11. COMMUNICATIONS: No communications issues at this time.

P: RRF cell phones alternate for WRTs.
A: Personal cell phone.
C: 800 MHz radios issued to PODs and WRTs.
E: Runner.

12. NARRATIVE: N/A.

13. COMMANDER'S EVALUATION:
• AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
• An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes is being built to assist the incoming unit. When the incoming OIC has been selected, I would like to establish communications with them in regards to the aforementioned items before they report to Flint.
• OUT (last 24 hours)
Bottled water-5034 Water (Gallons)-43 Lead Testing Kits-131
Pitcher (23 cup)-0 Brita Faucet Filter-52 Brita Replacement Cartridge-153
Pur Filter-117 Pur Replacement Filter-407

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:

Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles

Summary

This is the fourteenth annual report on surveillance of blood lead levels (BLLs) of Michigan residents and adults whose blood was tested in Michigan. It is based on data collected as a result of regulations promulgated October 11, 1997 by the Michigan Department of Community Health (MDCH) to address the health hazard of exposure to inorganic lead. MDCH regulations require laboratories to report all blood lead analyses for both adults and children. The Adult Blood Lead Epidemiology and Surveillance (ABLES) Program was founded nationally in 1992 to track laboratory reports of elevated BLLs in U.S. adults. Michigan is one of the 41 states that participate in this program.

Summary, continued...

This report summarizes BLLs of Michigan residents and adults whose blood was tested in Michigan defined as sixteen years and older. In 2011, Michigan ABLES received 16,018 blood lead tests for 13,850 individuals ≥16 years of age. Six hundred and twenty-five (4.5%) individuals had BLLs ≥ 10 µg/dL; 116 (18.6%) of those 625 had lead levels ≥ 25 µg/dL and 13 (11.2%) of the 116 had BLLs ≥ 50 µg/dL.

There were 160 more blood lead tests and 574 less individuals reported in 2011 compared to 2010 (Figure 1). The number and the percent of individuals with BLLs ≥10 µg/dL increased from 598 (4.1%) in 2010 to 625 (4.5%) in 2011. The number and percent of individuals with BLLs ≥25 µg/dL increased from 102 (0.7%) in 2010 to 116 (0.8%) in 2011. The number of individuals with BLLs ≥ 50 µg/dL went from six (0.04%) in 2010 to thirteen (0.09%) in 2011. For twelve consecutive years, from 1999 to 2010, there was a downward trend for BLLs ≥ 10 µg/dL and BLLs ≥ 25 µg/dL from the previous year (Figure 2). However, in 2011 the number of BLLs ≥ 25 µg/dL were increased from 103 in 2009 and 102 in 2010 to 116 in 2011. These trends occurred among both occupational and non-occupational exposures (Figure 2). Examining trend separately for work and non work exposures showed a downward trend until 2005 with no further decrease in BLLs ≥ 10 µg/dL from 2006 onward (Figure 3).

The adults with BLLs ≥10 µg/dL were likely to be men (95.4%) and white (83.5%). Their mean age was 44.9. They were most likely to live in Wayne (19.9%), Macomb (8.2%) or Oakland (7.5%) counties. Occupational exposure remains the predominant source of lead exposure (81.2%). In Michigan, lead exposure resulting in BLLs ≥ 10 µg/dL typically occurs where individuals: perform abrasive blasting to remove lead paint on outdoor metal structures such as bridges, overpasses or water towers; cast brass or bronze fixtures; fabricate metal products; or are exposed to lead fumes or dust from firing guns or retrieving spent bullets at firing ranges.

Among adults with BLLs ≥ 10 µg/dL, lead exposure from firing ranges, as well as reloading and casting activities associated with firearms, is the most common cause of non-occupational exposure (79.6%) and 14.9% of all reported known exposure, both occupational and non-occupational.

Figure 1: Number of Adults Reported with Tests for Blood Lead, Michigan 1998-2011

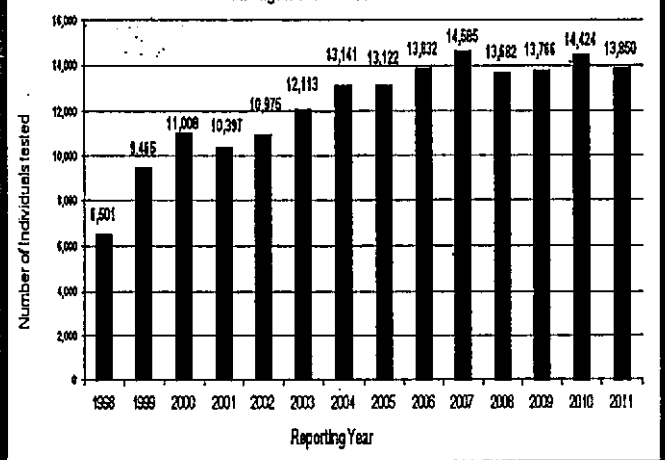

Figure 2: Number of Adult BLLs ≥ 10 µg/dL and ≥ 25 µg/dL, Michigan 1998-2011

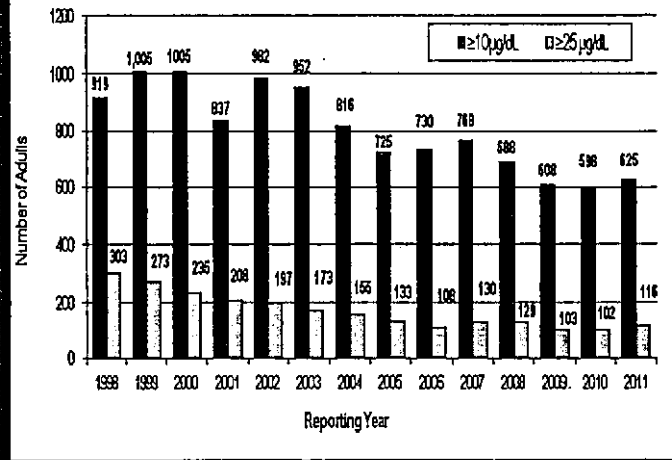

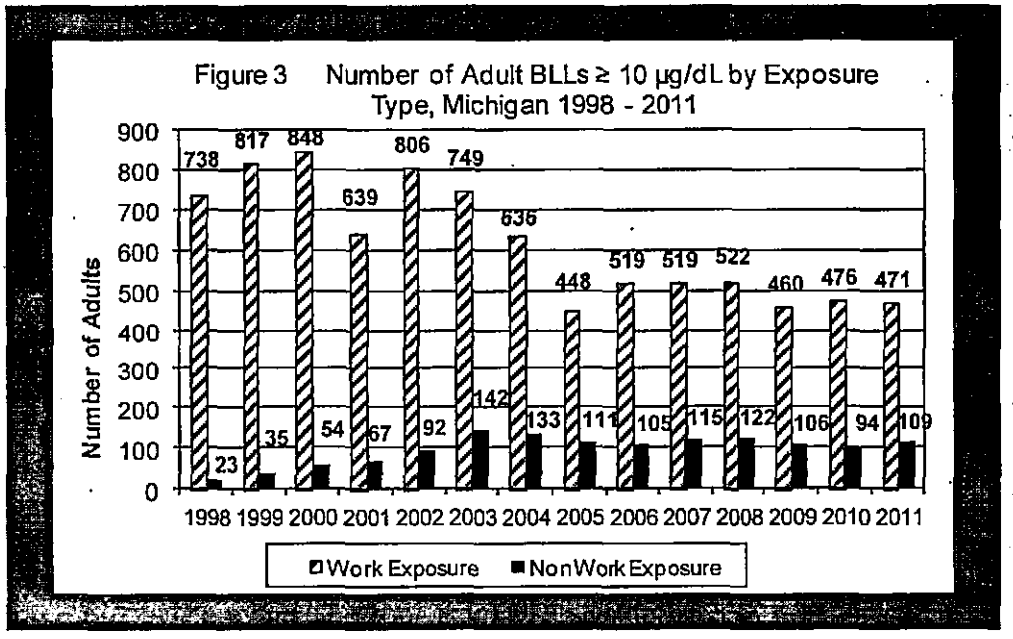

Firing ranges are a source of lead exposure where individuals qualify for both work and recreational marksmanship standards in commercial as well as private recreation ranges. Private gun clubs and ranges, run by members and volunteers, are not under the jurisdiction of workplace regulations as these regulations only cover businesses with paid employees. Outreach efforts to educate this group of lead-exposed hobbyists remains a challenge.

The fourteenth year of operation of an adult blood lead surveillance system in Michigan proved successful in continuing to identify individuals with elevated BLLs and sources of exposures that could be remediated to reduce lead exposure. Outreach and intervention activities this past year included written contact with 170 individuals, follow-up interviews with 105 lead-exposed individuals and distributing resources on diagnosis and management of lead exposure to 52 healthcare providers who tested patients with elevated blood lead levels. A "how to" guide for home maintenance and renovation from the U.S. Department of Housing and Urban Development was provided to individuals, when renovation was the source of exposure to lead. Three educational brochures continued to be distributed this past year: one on working safely with lead, the second on controlling lead exposure in firing ranges and a third brochure for reducing lead exposure when reloading firearms or casting lead as a hobby. Copies of these brochures and informational literature are at www.oem.msu.edu under "Resources for Adult Blood Lead (ABLES)." In addition, collaboration with MDCH provided a brochure for women of childbearing age and information on the risk of take home lead exposure to occupationally-exposed adults identified with children under the age of six.

In 2011, MIOSHA inspections were conducted and reports completed at eight companies due to elevated blood lead laboratory reports with seven (87.5%) resulting in lead-related citations. Details of inspections completed in 2011 are included in this report.

Occupational exposure remains the predominant source of lead exposure (81.2%). In Michigan, lead exposure resulting in BLLs ≥10 µg/dL typically occurs where individuals: perform abrasive blasting to remove lead paint on outdoor metal structures such bridges, overpasses or water towers; cast brass or bronze fixtures; fabricate metal products; or are exposed to lead fumes or dust from firing guns or retrieving spent bullets at firing ranges.

Background

This is the fourteenth annual report on surveillance of BLLs of Michigan residents and adults whose blood was tested in Michigan. BLLs, including children, have been monitored by the state since 1992. From 1992 to 1995, laboratories performing analyses of blood lead levels, primarily of children, voluntarily submitted reports to the State. The Michigan Department of Community Health (MDCH) promulgated regulations effective October 11, 1997, that require laboratories to submit reports of both children and adults to the MDCH for any blood testing for lead. Coincident with the promulgation of this regulation in 1997, Michigan received federal funding from the Centers for Disease Control and Prevention (CDC), to monitor adult BLLs as part of the ABLES program. Currently 41 states have established lead registries through the ABLES program for surveillance of adult lead absorption, primarily based on reports of elevated BLLs from clinical laboratories. The most recent report of adult blood lead surveillance from 40 states that was published in the *Morbidity and Mortality Weekly Report*, July 1, 2011 / 60(25);841-845 is in Appendix A.

2011 is the fourteenth year with complete laboratory reporting in Michigan since Michigan Department of Community Health lead regulations became effective on October 11, 1997.

All clinical laboratories conducting business in Michigan that analyze blood samples for lead must report all Michigan residents' blood lead results to the Michigan Department of Community Health, Childhood Lead Poisoning Prevention Program (MDCH/

THE MICHIGAN ADULT BLOOD LEAD REGISTRY

Reporting Regulations and Mechanism

Since October 11, 1997, laboratories performing blood lead analyses are required to report the results of all blood lead tests to the MDCH (R325.9081-.9087 – Appendix B). Prior to these regulations, few reports of elevated lead levels among adults were received.

The laboratories are required to report blood sample analysis results, patient demographics, and employer information to MDCH in an electronic file (Appendix B). The health-care provider ordering the blood lead analysis is responsible for forwarding the patient information, the physician/provider information and the specimen collection information to the laboratory. Upon receipt of the blood sample for lead analysis, the clinical laboratory is responsible for completion of the laboratory information. All clinical laboratories conducting business in Michigan that analyze blood samples for lead must report all adult and child blood lead results to the MDCH, Childhood Lead Poisoning Prevention Program (CLPPP) within five working days.

All blood lead results on individuals 16 years or older are forwarded to MSU for a potential interview and then to the Michigan Occupational Safety and Health Administration (MIOSHA) in Michigan Department of Licensing and Regulatory Affairs (LARA) for a potential work-place follow-up. MSU is designated a bona fide agent of the State to conduct this activity.

Laboratories

Employers providing blood lead analysis on their employees, as required by MIOSHA must use a laboratory which meets OSHA proficiency testing for blood lead analysis to be in compliance with the lead standard. Figure 4 details the eight OSHA approved laboratories

in Michigan.

Data Management

When files of BLL results are received at the MDCH, they are reviewed for completeness. For those records where information is missing, paper copies are created and returned to the physician/provider to complete. Lead Registry staff import files of BLL results into a computerized database. Each file imported into the database is visually checked for any data entry errors, duplicate entries, missing data, and illogical data. These quality control checks are performed weekly.

Case Follow-Up

Adults whose BLL is 25 µg/dL or greater are contacted for an interview. Interviews are conducted of individuals with BLLs ranging from 10 to 24 µg/dL if the source of their lead exposure cannot be identified from the reporting form. A letter is sent to individuals explaining Michigan's lead surveillance program and inviting them to answer a 15-20 minute telephone questionnaire about their exposures to lead and any symptoms they may be experiencing. The questionnaire collects patient demographic data, work exposure and history information, symptoms related to lead exposure, information on potential lead-using hobbies and non-work related activities, and the presence of young children in the household to assess possible take-home lead exposures among these children. Trained interviewers administer the questionnaire.

Figure 4 Michigan Laboratories meeting OSHA proficiency testing for blood lead analysis

MICHIGAN BLOOD LEAD LABORATORIES*

Laboratory Name	*City*
DMC University Laboratories	Detroit
Marquette General Health Systems	Marquette
Michigan Department of Community	Lansing
Mt Clemens General Hospital	Mt. Clemens
Quest Diagnostics	Auburn Hills
Regional Medical Laboratories	Battle Creek
Sparrow Health System	Lansing
Warde Medical Laboratories	Ann Arbor

*Laboratories which meet OSHAs accuracy requirements in blood lead proficiency testing as of January 25, 2013. For a complete listing of OSHA approved blood lead laboratories, visit the OSHA web site at http//www.osha.gov/SLTC/bloodlead/program.html

MICHIGAN OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION REQUIREMENTS

Medical Monitoring and Medical Removal

The MIOSHA requirements for medical surveillance (i.e. biological monitoring) and medical removal are identical to those of Federal OSHA. The requirements for medical removal differ for general industry and construction. For general industry, an individual must have two consecutive BLLs above 60 µg/dL or an average of three BLLs greater than 50 µg/dL before being removed (i.e. taken pursuant to the standard or the average of all blood tests conducted over the previous six months, whichever is longer). For construction, an individual needs to have only two consecutive blood lead level measurements taken pursuant to the standard above 50 µg/dL. However, an employee shall not be required to be removed if the last blood-sampling test indicates a blood lead level ≤ 40 µg/dL. If monitoring shows lead levels above 30 µg/m³ of air (MIOSHA's action limit) but below 50 µg/m³ of air (PEL), an employer also must repeat monitoring every six months, repeat training annually, provide medical surveillance, including blood analysis for lead and zinc protoporphyrin, medical exams and consultation, provide medical removal pro-

tection for employees with excessively elevated blood lead levels. See Appendix C for a more detailed description of the requirements. It should be noted that in the absence of a specific exposure to lead, 95% of BLLs in the adult general population in the U.S. are below 3.8 µg/dL for men and below 2.8 µg/dL for women (1). Also of note, in this past year CDC recommended that BLLs five µg/dL or greater in children should be considered elevated. CDC did not review this issue for adults (2). They had previously considered blood leads of ten µg/dL or greater as a level of concern.

Dissemination of Surveillance Data

Biannual data summaries, without personal identifiers, are forwarded to the Program's funding agency, the National Institute for Occupational Safety and Health (NIOSH). NIOSH compiles reports from all states that require reporting of BLLs and publishes them in the Morbidity and Mortality Weekly Report (MMWR) (3). See Appendix A for the most recent publication of ABLES surveillance results for the period 2008 -2009.

Results

This is the fourteenth year with complete laboratory reporting in Michigan since the lead regulations became effective on October 11, 1997. A summary of all the reports of adult BLLs received in 2011, as well as more detailed information from all interviews completed since 1997 of those adults with a BLL of 25 µg/dL or greater, are included in this report. Also included are the Michigan Occupational Safety and Health Administration (MIOSHA) inspections completed in 2011 at the work sites where these individuals were exposed to lead.

This report also provides information on individuals interviewed since 1997 who had BLLs ranging from 10-24 µg/dL where the source of lead exposure was not identified in the original report submitted from the laboratories. Given the medical evidence of health effects at levels as low as 5 µg/dL (4-7), analysis of available information on BLLs ranging from 5-9 µg/dL is also discussed in this report.

Blood Lead Levels Reported in 2011

Number of Reports and Individuals

Between January 1 and December 31, 2011, the State of Michigan received 16,018 blood lead test reports for individuals 16 years of age or older. Because an individual may be tested more than once each year, the 16,018 reports received were for 13,850 individuals (Table 1). Until 2007, the overall trend for the number of individuals tested each year has shown a gradual increase (Figure 1). The initial steeper increase in 1999 and 2000 probably was secondary to better compliance by the laboratories with the 1997 reporting regulation. The increase in more recent years is assumed secondary to increased testing while the drop in numbers of tests noted in 2008 and 2009 was likely a reflection of the recent Michigan economic downturn rather than reduced testing compliance.

The following descriptive statistics are based on adults (≥ 16 years) tested in 2011. Where more than one BLL result was reported in 2011, statistics are based on the highest BLL reported for each individual.

Distribution of Blood Lead Levels

In 2011, 625 (4.5%) of the 13,850 adults reported had BLLs ≥ 10 µg/dL; 116 of those 625 had BLLs ≥ 25 µg/dL and 13 of 116 had BLLs≥ 50 µg/dL (Table 1).

A total of 12,495 (90.2%) of adults reported in 2011 had BLL less than 5 µg/dL, and 730 (5.3%) were from individuals whose blood lead was 5 – 9 µg/dL. Individuals with BLL 5 – 9 µg/dL are not routinely contacted, however when the source of lead exposure was identified, 148 of 169 (87.6%) individuals were identified as occupationally exposed. One hundred and twenty-one (81.8%) of these 148 had been tested in previous years and 51 (42.1%) showed a decrease in their BLL. Among the 509 individuals whose blood lead was 10 – 24 µg/dL, 389 (76.4%) individuals had their source of lead exposure identified as occupational as compared to the 116 individuals with BLLs ≥ 25 µg/dL where 82 (70.7%) individuals had their source of lead exposure identified as occupational.

There was a marked decline in the overall number of individuals with elevated blood lead from occupational exposure from 2000 to 2005, with the number remaining fairly stable from 2006 to 2011 (Figure 5). For non-work exposures, elevated blood lead showed a decline from 2003 to 2006, a slight increase in 2007 and 2008 and then a little change from 2009 to 2011 (Figure 6).

*Age was unknown for 1 additional individual.

GENDER AND AGE DISTRIBUTION

All Blood Lead Levels

Sixty percent of the adults reported to the Registry were male, and almost forty percent were females (Table 2). The mean age was 44.0 and median age 43. The age distribution is shown in Table 3.

BLLs ≥ 10 µg/dL

For the 625 adults reported to the Registry with BLLs ≥ 10 µg/dL, 596 (95.4%) were men and 29 (4.6%) were women. The mean age was 44.9 and median age was 45.

RACE DISTRIBUTION

All Blood Lead Levels

Although laboratories are required to report the patients' race, this information is frequently not provided. Race was missing for 8,825 (63.7%) of the 13,850 adults reported. Where race was known, 4,231 (84.2%) were reported as Caucasian, 640 (12.7%) were reported as African American, 59 (1.2%) were reported as Asian/ Pacific Islander, 58 (1.2%) were reported as Native American, and 37 (0.7%) were reported as Multiracial/ Other (Table 4).

BLLs ≥ 10 µg/dL

For adults with BLLs greater than or equal to 10 µg/dL where race was indicated, 338 (83.5%) were

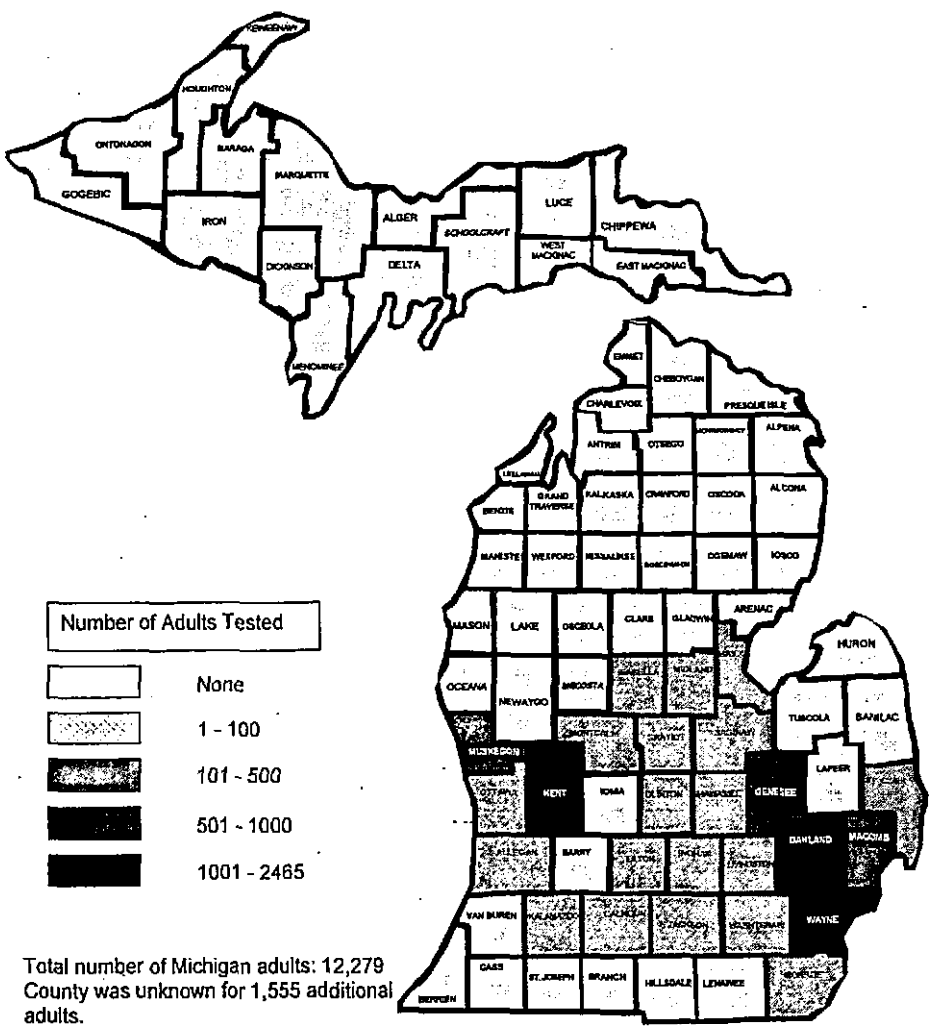
Table 4 Distribution of Race Among Adults Tested for Blood Lead, Michigan 2011

	All Blood Lead Levels		Blood Lead Levels ≥10 µg/dL	
Race	Number	Percent	Number	Percent
Caucasian	4,231	84.2	338	83.5
African American	640	12.7	34	8.4
Native American	58	1.2	13	3.2
Asian/Pacific Islander	59	1.2	7	1.7
Multiracial/Other	37	0.7	13	3.2
TOTAL	5,025 *	100.0	405 **	100.0

*Race was unknown for 8,825 additional individuals.

**Race was unknown for 220 additional individuals.

Figure 7 Geographic Distribution of Adults Tested for Lead by County of Residence, Michigan 2011



Wayne and Kent counties had the highest number of adults tested with 2,603 and 1,250 respectively.

reported as Caucasian, 34 (8.4%) were reported as African American, 13 (3.2%) were reported as native American, 13 (3.2%) were reported as Multiracial/Other, and 7 (1.7%) were reported as Asian/Pacific Islander, (Table 4).

GEOGRAPHIC DISTRIBUTION

County of residence was determined for 12,279 of the 13,850 adults reported to the Registry. They lived in all of Michigan's 83 counties. The largest number of adults tested in 2011 lived in Wayne County (2,603, 21.2%), followed by Kent County (1,250, 10.2%) and Oakland County (1079, 8.8%). The county was unknown for 1,555 adults tested for blood lead. (Figure 7 and Table 5).

Figure 8 and Table 5 show the county of residence of the 564 adults with BLLs ≥ 10 µg/dL where county of residence could be determined. The largest number of adults reported with a BLL ≥ 10

(Continued on page 12)

County of residence was determined for 12,279 of the 13,850 adults reported to the Registry. They lived in all of Michigan's 83 counties.

**County was unknown for 51 additional adults and 10 lived out of state.
***County was unknown for 16 adults and 1 lived out of state.

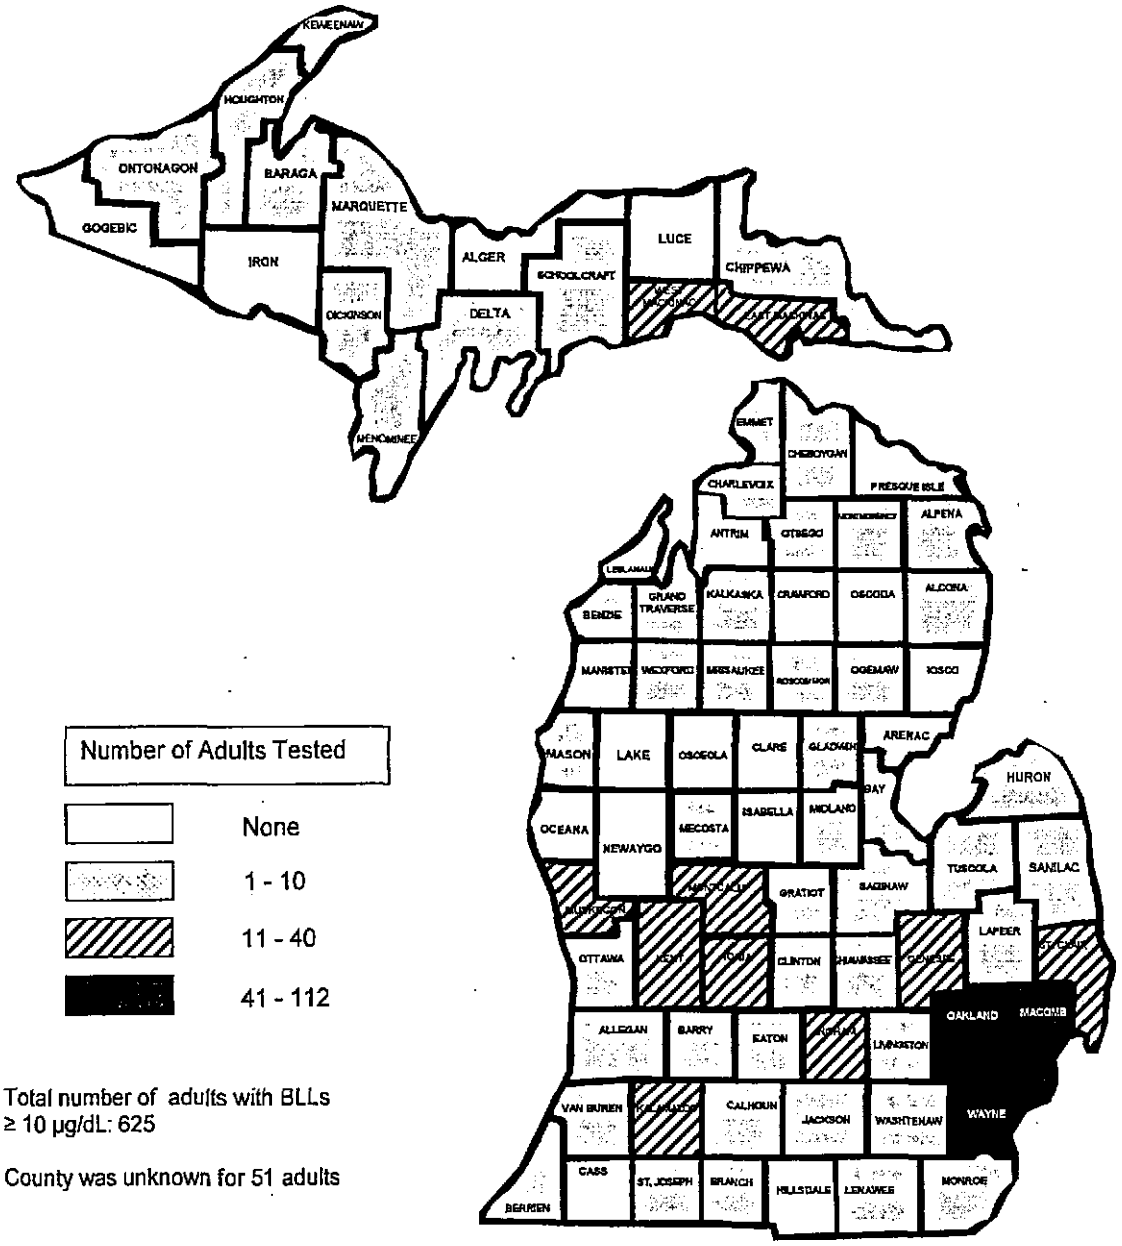
(Continued from page 9)

µg/dL were from Wayne County (112, 19.9%), followed by Macomb County (46, 8.2%) and Oakland County (42, 7.4%). The county was unknown for 51 adults with BLLs ≥ 10 µg/dL.

Figure 9 and Table 5 show the county of residence for the 99 adults with BLLs ≥ 25 µg/dL where county of residence could be determined. The largest number of adults reported with a BLL ≥ 25 µg/dL were from Wayne County (17, 17.2%), followed by Macomb County (12, 12.1%) and Oakland (8, 8.1%). The county was unknown for 16 adults with BLLs ≥ 25 µg/dL.

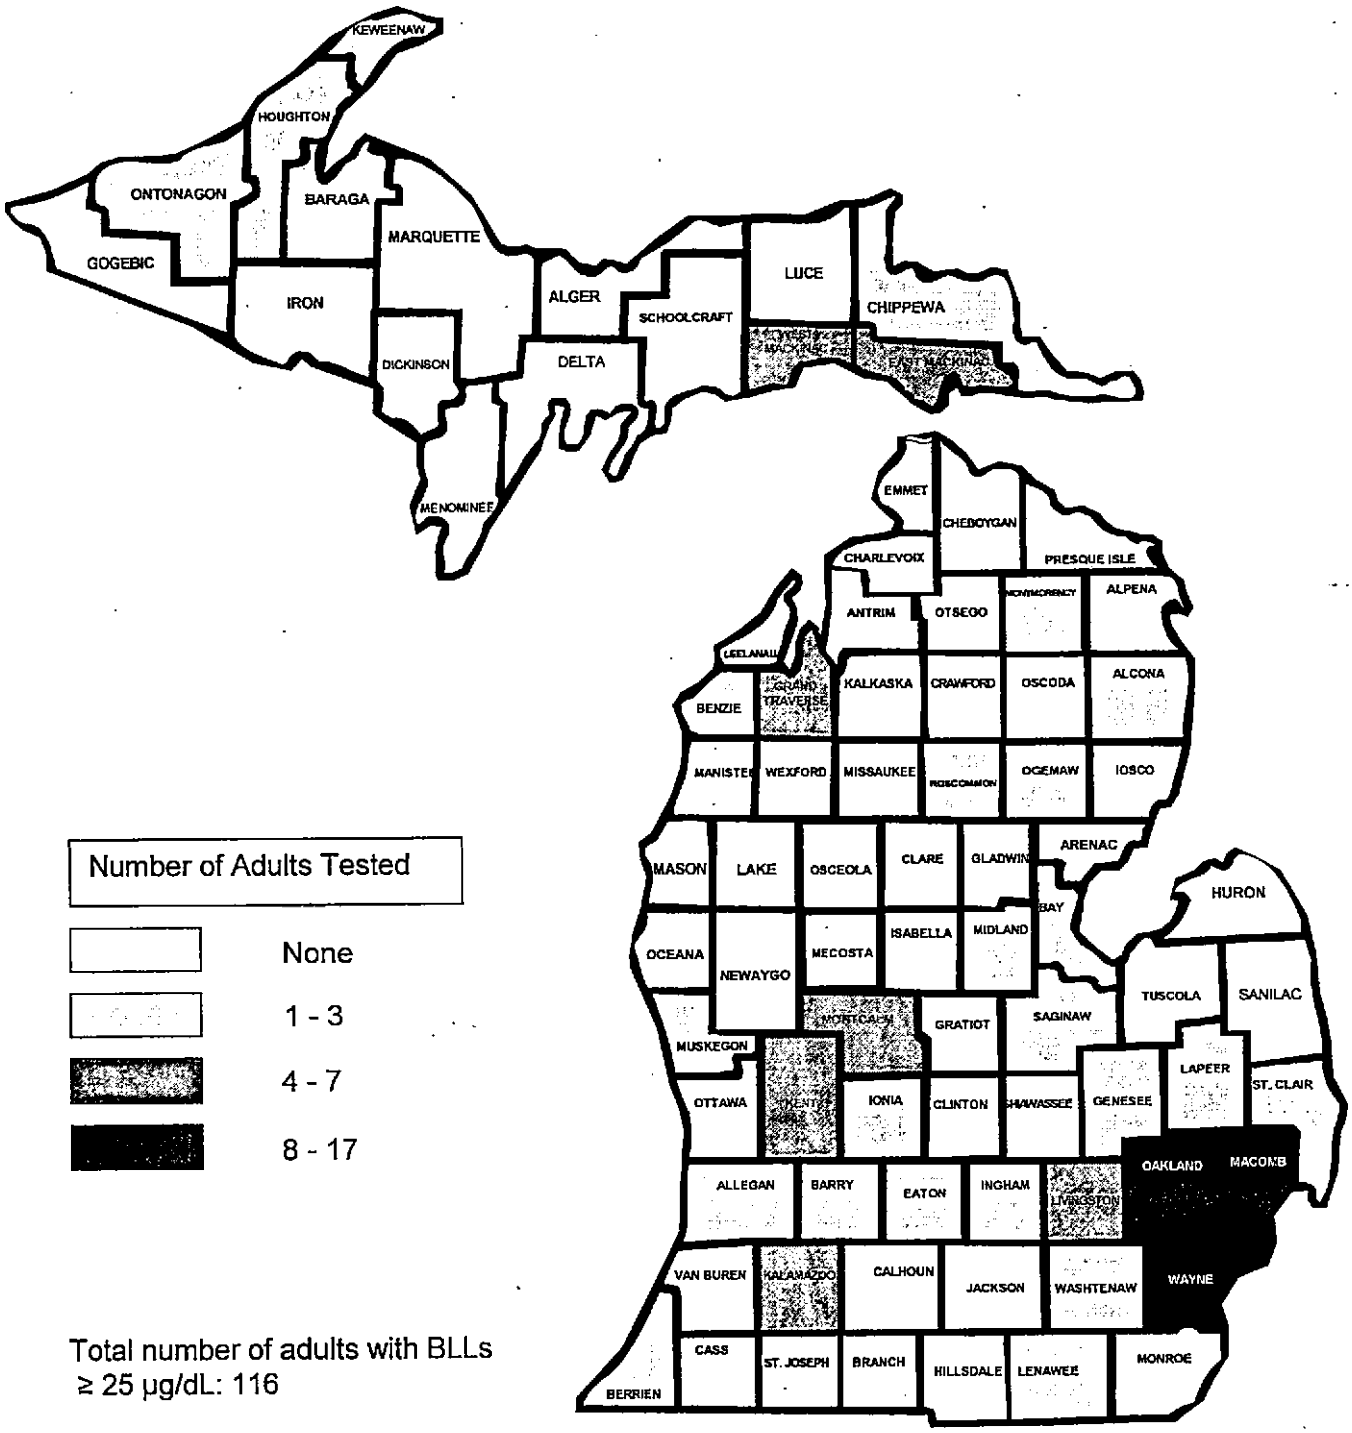
The largest number of adult BLLs reported in 2011 lived in Wayne County (2,603, 21.2%), followed by Kent County (1,250, 10.2%) and Oakland County (1,079, 8.8%).

Figure 8 **Geographic Distribution of Adults Tested with BLLs ≥ 10 µg/dL by County of Residence, Michigan 2011**



Wayne, Macomb and Oakland had the largest number with 112, 46 and 42 respectively.

Figure 9 **Geographic Distribution of Adults Tested with BLLs ≥ 25µg/dL by County of Residence, Michigan 2011**



Total number of adults with BLLs ≥ 25 µg/dL: 116

County was unknown for 16 adults

Wayne, Macomb and Oakland counties had the largest number with 17, 12 and 8 respectively.

Table 5 shows the percentage of tested adults, within each county, with BLLs ≥10 µg/dL and BLLs ≥ 25 µg/dL. Mackinac (29.2%), Huron (28.0%), Schoolcraft (25.0%) and Saint Clair (23.9%) counties had the highest percentages of adults with BLL ≥10 µg/dL within their respective counties. Alcona (11.1%), Mackinac (9.2%), Benzie and Ontonagon (9.1%) counties had the highest percentage of tested adults with BLL ≥ 25 µg/dL.

GENDER DISTRIBUTION

Figure 10 and Table 6 show the incidence rates of BLL ≥ 10 µg/dL by county for women. There were 28 women reported in 2010 with a BLL ≥ 10 µg/dL, where county was known. Huron (7/100,000), Marquette (4/100,000), Clinton, Lapeer, Lenawee, Macomb and Muskegon (3/100,000) had the seven highest incidence rates.

Three women (10.7%) with elevated blood lead had their exposure from work: one from a correctional institution, one from a sporting goods firing range and one from construction remodeling. One woman (3.6%) with elevated blood lead had her exposure both from work (public safety) and hobby (firearms).

Twelve women (42.9%) with elevated blood leads had non -work exposures: six from firearms, two from pottery

**Total number of men in all 83 counties of Michigan age 16+ years; 7/1/2011 County Characteristics Resident Population Estimates, U.S. Census Bureau *http://www.census.gov/popest/counties/asrh/files/cc-est2009-agesex-26.csv*

***Rate per 100,000 men, age 16+ years.

making , one from leather tooling, one from home remodeling, one from making stained glass, and one from a gunshot wound. Source of exposure was unknown for twelve of the 28 women.

Figure 11 and Table 7 show the incidence rates of BLL of 10 µg/dL and above by county for men. There were 536 men reported in 2011 with a BLL ≥ 10 µg/dL where county of residence could be determined. Mackinac (407/100,000), Montcalm (89/100,000) and Ionia, (80/100,000) had the highest incidence rates per 100,000 men based on the 2011 County Characteristics Resident Population Estimates from the U.S. Census Bureau. The overall incidence rate for men was 14 times higher than that for women (14/100,000 vs. 1/100,000) in 2011.

SOURCE OF EXPOSURE

For 471 (81.2%) individuals, work was the identified source. For 109 (18.8%) individuals non-occupational activities were identified as the source of exposure. Table 8 shows the non-work related source of exposure of lead for 108 individuals with BLLs ≥10 µg/dL reported in 2011. Of those 109, three non-occupational activities predominated. Eighty-six (78.9%) individuals were exposed from a hobby related to guns, seven (6.4%) were exposed due to a retained bullet fragment and six (5.5%) were exposed due to home remodeling. For an additional 15 individuals, source of exposure is still being investigated. For 30, the source was still unknown after an interview with the individual or review of medical records.

Table 9 shows the occupational sources of lead for individuals reported in 2011. The most frequent reports were on individuals in the construction sector (44.6%) and manufacturing (31.7%).

Figure 12 shows the geographic distribution of the twenty-five non-construction companies that reported at least one adult with a BLL of 25 µg/dL or greater in Michigan during 2011. For two of these companies, we were unable to determine county and one was located out of state. These twenty-five companies included an auto and home supply store, a university and police department shooting ranges, an automotive repair shop, distribution

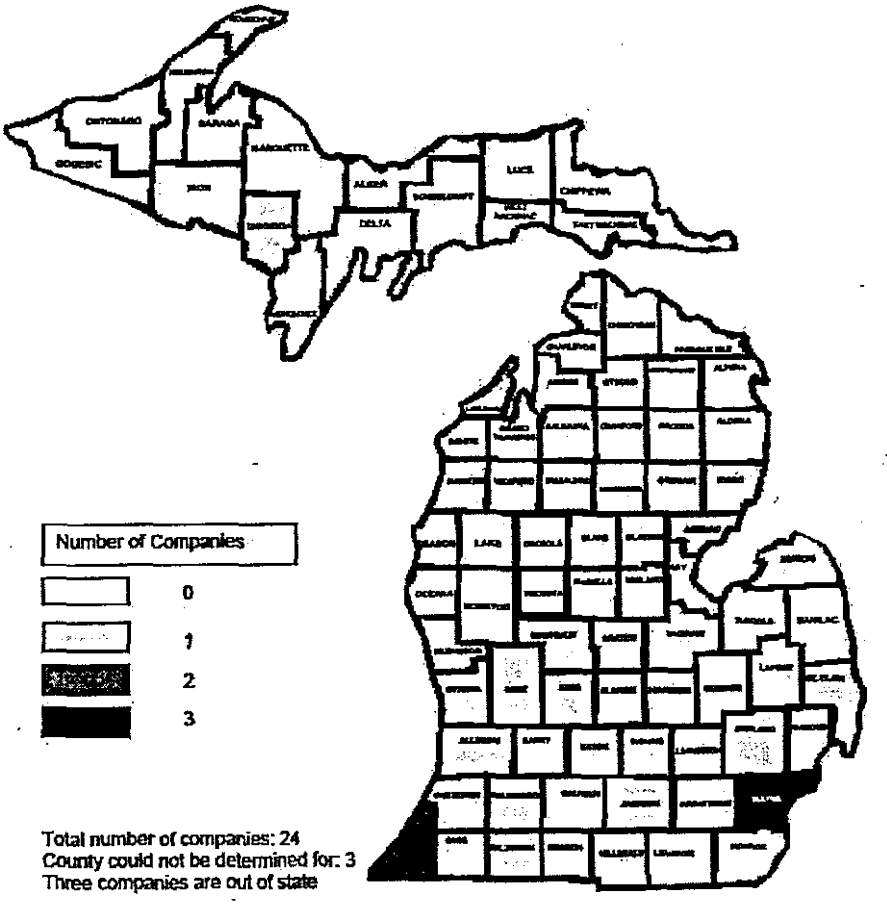
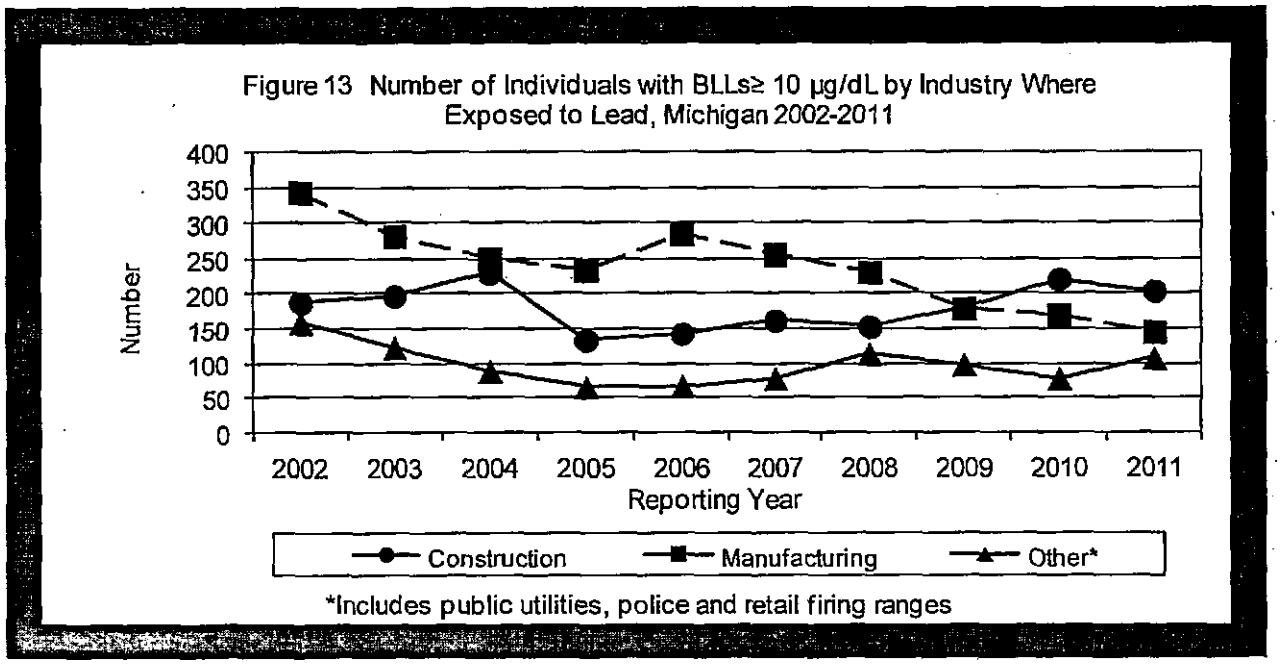
*Standard Industrial Classification.

**Another 14 were work-related, however, the industry was unknown.

Figure 12 Geographic Distribution of Non-Construction Companies Reporting Adult BLLs ≥ 25 µg/dL in Michigan, 2011





and warehousing of scrap and waste materials, wholesale distribution of electrical power equipment, primary metal industries, metal stamping companies, and indoor firing ranges. Of the 471 individuals with blood lead ≥ 10 µg/dL where exposure occurred at work, 134 (28.5%) were from these twenty-five companies. Of the 82 individuals with blood lead ≥ 25 µg/dL and exposure occurred at work, 42 (51.2%) were also from these twenty-five companies.

The recent BLLs have generally been decreasing across all types of occupational sources. Although some of this reduction is due to improvements in work place controls, some of the decrease is presumed to be secondary to closure of manufacturing facilities. Construction is a more frequent source of lead exposure than manufacturing and if the previous trend continues, "Other" which includes public utilities, police and public firing ranges will also be a more frequent source than manufacturing (Figure 13).

SUMMARY OF INDUSTRIAL HYGIENE INSPECTIONS

Follow up of elevated blood lead testing -- 2011

Two of the eight 2011 inspections were conducted in the construction industry, the other six inspections were done by the MIOSHA general industry division and included a university's shooting range, a battery plant, two commercial firearm shooting ranges, a facility that rebuilds and fabricates water turbine engines, and an electroplating facility. There was an additional general industry inspection of a non-ferrous metals processing plant conducted in 2010 that was included in this report because it was not included in the 2010 Annual Report.

One of the construction inspections was completed at a general contractor as the result of four employees with blood lead levels of 33, 40, 47 and 51µg/dL. All seven citations issued pertained to lead exposure due to a job that involved removing a staircase and cleaning de-

SUMMARY OF INDUSTRIAL HYGIENE INSPECTIONS, con't...

bris within the structure. The employer was cited for not determining if any employee performing manual demolition within a structure built prior to the 1900s, was exposed to lead at or above the action level of 30 µg/m^3; for not providing employees adequate respiratory protection, adequate personal protective clothing, change areas, biological monitoring, or training; not implementing engineering and work practice controls, including administrative controls, to reduce and maintain employee exposure to lead to or below the permissible exposure limit to the extent such controls are feasible; not establishing a written compliance program for lead prior to commencement of the job; not providing an adequate training program concerning lead hazards; not making a copy of the "Lead Exposure in Construction" rules and appendices readily available to all affected employees.

In 2011 MIOSHA inspections were conducted and reports completed at eight companies referred by ABLES due to elevated blood lead laboratory reports. Seven of the eight (87.5%) received lead related citations for violation of lead-related standards.

A university's department of military science was inspected as the result of a retired employee with a blood lead level of 39 µg/dL. The indoor rifle range had four shooting lanes. Its ventilation system was not working and had never been used. No respiratory protection was worn by students, the university's police, local municipal police or members of the National Guard who used the range. The MIOSHA inspection found detectable amounts of lead on commonly touched surfaces. The university did not establish a continuing and effective housekeeping protocol to minimize accumulations of lead at the range. One lead citation was issued.

An electrical apparatus and equipment wiring supplies, and construction materials company was inspected as the result of two employees with blood lead levels of 32 and 46 µg/dL. The company repairs and sells new batteries for industrial-type trucks and other industrial applications. The employees used propane and oxygen to weld lead terminals and other equipment onto batteries being serviced. All seven citations issued pertained to lead exposure and included: one employee was exposed to lead at a concentration of more than 50 µg/m^3 of air, averaged over an 8-hour period; the employer had employees exposed to lead above the permissible exposure limit and the action level and the employer did not perform the required exposure monitoring; a written compliance program was not established and implemented to reduce exposures to, at or below the permissible employee exposure limit solely by means of engineering and work practice controls; the employer had not provided and required the use of appropriate respiratory protection; surfaces in the workplace were not maintained as free as practicable from accumulation of lead; employees who worked in areas where airborne exposures to lead were greater than the permissible employee exposure limit did not shower at the end of each work shift; the following warning sign was not posted in each work area where the permissible employee exposure limit was exceeded: "WARNING; LEAD WORK AREA; POISON; NO SMOKING OR EATING."

A gun range was inspected as a result of an

employee with an elevated blood lead level of 66 µg/dL. All four citations issued pertained to lead exposure and included: employee monitoring that was conducted demonstrated that an employee was exposed above the action level, and that employees had potential exposure to lead from surfaces and there was a possibility of skin and eye irritation, and the facility did not institute a training program for the affected employees; surfaces in the workplace were not maintained as free as practicable from accumulations of lead; a medical surveillance program was not instituted for each employee who was or may have been exposed to concentrations of lead greater than the action level for more than 30 days a year.

An internal combustion engines company was inspected as a result of an employee with elevated blood lead level of 30 µg/dL. The company was cited for four lead citations and eight non-lead citations. The lead citations included: when initial monitoring revealed that an employee's exposure to lead-containing dust was at or above the action level, monitoring was not repeated at least once every six months; the firm had no written compliance program to reduce the airborne lead level to, at or below the PEL; the firm had not provided employees with any information and training on the health effects of lead exposure; the firm had not performed routine housekeeping to prevent the lead-containing dust from accumulating on surfaces outside the blasting/painting room.

A firearm shooting range was inspected as a result of two employees with elevated blood lead levels of 84 and 39 µg/dL. The company was cited for 10 lead and three non-lead violations. The lead citations included: an employee was exposed to lead at a concentration of more than 50 µg/m^3 of air, averaged over an 8-hour period; range assistants were exposed to lead greater than the exposure limit while assisting customers in the gun range; when an employee was exposed to lead above the permissible exposure limit for more than 30 days each year, engineering and work practice controls were not implemented to reduce and maintain employee exposure to at or below 50 µg/m^3; a written respiratory protection program was not established and implemented for required respirator use; surfaces in the workplace were not maintained as free as practicable from accumulation of lead – wipe samples showed surface contamination of lead as high as 13,000 µg/100cm^2 behind the range, and 2,200 µg/100cm^2 on the sales floor; it was not ensured that food or beverages were not present or consumed, tobacco products were not present or used, and cosmetics were not applied in areas where employees were exposed to lead concentrations greater than the permissible employee exposure limit; clean change rooms were not provided for employees who worked in areas where airborne exposure to lead was greater than the permissible employee exposure limit without regard to the use of respirators; showers were not provided; biological monitoring was not made available in the form of blood sampling and analysis for lead and zinc protoporphyrin levels to each employee who was or may have been exposed to concentrations of lead greater than the action level for more than 30

When an individual from a company is identified with a blood lead value of 25 µg/dL or greater, a MIOSHA enforcement inspection is conducted to assess that company's compliance with the lead standard.

SUMMARY OF INDUSTRIAL HYGIENE INSPECTIONS, con't...

days a year; a training program was not instituted for all employees who were subjected to exposure to lead at or above the action level or for whom the possibility of skin irritation existed from exposure to lead; a written compliance program was not established and implemented to reduce exposures to, at or below the permissible employee exposure limit solely by means of engineering and work practice controls; a written hazard communication program was not developed or implemented for employees using cleaning chemicals to clean restrooms and other common areas; no written certification was identified for sales associates who cleaned the restrooms and other common areas using personal protective equipment.

A plating and polishing manufacturer that makes lead anodes two days a year was inspected as a result of an employee with an elevated blood lead level of 25 µg/dL. The company was cited for 2 lead and 3 non-lead violations. The lead citations included: not determining if an employee might have been exposed to lead at or above the action level; the employees were not informed of the contents of appendices A and B of part 310, Lead regulation.

An inspection of a highway, bridge and street construction company found no violations of MIOSHA regulations identified while inspecting a small bridge blasting and re-painting job as a result of an employee with elevated blood lead level of 30 µg/dL.

A scrap and waste materials wholesale distribution company was inspected as a result of an elevated blood lead of 65 µg/dL. The company was cited for 28 non-lead violations. No inspection was conducted in 2011 because the 2010 inspection addressed many violations.

Of the nine companies inspected, eight were identified by an elevated blood lead report collected because of a required medical surveillance program and one was reported by a private health care provider.

Case Narratives

Thirteen Individuals with a BLL ≥ 50 µg/dL in 2011

Work-Related (10 Individuals)

A Caucasian male in his 50s, employed at a company that does wrecking and demolition work, had an elevated BLL of 58 µg/dL in February 2011. His March BLL was 51 µg/dL. He was tested eleven more times and his BLLs varied between 11 and 45 µg/dL. He reported that he has been cutting steel with a cutting torch for three and a half years. When the blood test was taken, he reported that he has been working as a metal recycler and that he had been working outside in the torching area.

A Caucasian male in his mid 40s, employed as a carpenter for a construction company, had an elevated BLL of 51 µg/dL in March 2011. His June BLL was 33 µg/dL. He had a history of previous lead exposure in 2006 when his BLL was 29 µg/dL.

Three men employed at an indoor shooting range had elevated BLLs. The first employee, a Caucasian male of Hispanic origin in his late 30s, employed as the manager, had an elevated BLL of 72 µg/dL in April 2011. The second employee, a male in his early 20s had an elevated BLL of 84 µg/dL in March and 79 in April 2011. The third employee, a Caucasian male in his early 20s had an elevated BLL of 61 µg/dL in April 2011.

A Caucasian male in his mid 20s, employed as the manager at an indoor shooting range, had an elevated BLL of 66 µg/dL in April 2011. He has been employed there for 7 months.

A Caucasian male of Hispanic origin in his late 20s had an elevated BLL of 65 µg/dL in May 2011. He has been employed at a manufacturing company of alloy carbon and resulfurized steel bars and rolled steel as a "picker/sorter". The employee reported working in a small area with no respirator.

An African-American male in his mid 60s, diagnosed with lead toxicity in 2009, continued to have a high BLL, 64 µg/dL, in 2011. His exposure to lead was suspected to be from several sources which include independent employment in renovation of older homes and bullet fragments lodged near his spine since 1985. In August 2009, he reported that doctors removed all operable bullet fragments. His highest BLL of 144 µg/dL, was in January 2009, his lowest level of 52 µg/dL in April 2010. He also reported stopping all renovation and work activities due to his failing kidney function and overall health. Contact was made with Detroit Health Department for further investigation of other possible sources.

In 2011, Michigan ABLES received 16,018 blood lead tests for 13,850 individuals ≥16 years of age. Six hundred and twenty-five (4.5%) individuals had BLLs ≥ 10 µg/dL; 116 (18.6%) of those 625 had lead levels ≥ 25 µg/dL and 13 (11.2%) of the 116 had BLLs ≥ 50 µg/dL.

A Caucasian male in his late 20s, employed at a bridge painting and sandblasting company, had an elevated BLL of 56 µg/dL in September 2011. The employee had been sandblasting bridges to remove paint and cleaning up sand. The employee reported working with no respirator or earplugs.

A Caucasian male in his mid 50s, diagnosed with lead toxicity in 1999, continued to have high BL, 51, in November 2011. He used to be employed at a company repairing and selling industrial equipment for trucks. He is a battery repair technician and has been employed at a battery factory for more than 10 years.

Non Work-Related (3 Individuals)

A Caucasian male in his mid 60s, diagnosed with lead toxicity in 2003, continued to have high BLL, 51 µg/dL, in September 2011. His exposure to lead was suspected to be from casting. He has been melting lead for casting bullets, and diving weights.

A Caucasian male in his mid 60s had an elevated BLL of 59 in April 2011. He is a competitive shooter. He also reported that he stripped paint from wooden doors at home two years ago, and paint from windows of a house built in 1912, six years ago.

An African American female in her mid 50s, had an elevated BLL of 70 µg/dL in November 2011. The source of exposure could not be determined from patient's interview or from patient's doctor but no work exposure was identified.

Fourteen Years of Interviews of Adults with BLLs of 10 µg/dL or Greater

Between October 15, 1997, and December 31, 2011, there were 2,016 questionnaires completed over the telephone of adults with BLLs ≥ 10 µg/dL. The following summary of interview data is based on the 2,016 completed questionnaires.

Most of the 2,016 completed questionnaires were of males (90.2%), which is slightly higher but parallels the gender distribution from the 2011 year lead level reports ≥ 10 µg/dL. Although based on small numbers, the very highest BLLs (≥ 60 µg/dL) showed a higher percentage of African-Americans compared to lower blood lead levels. The percentage of current smokers increased with increasing blood lead levels. The group with the highest lead levels had the youngest mean age of 37.5 (Table 10).

The types of lead-related symptoms reported during the interviews, by lead level, are presented in Table 12. Only individuals who had daily or weekly

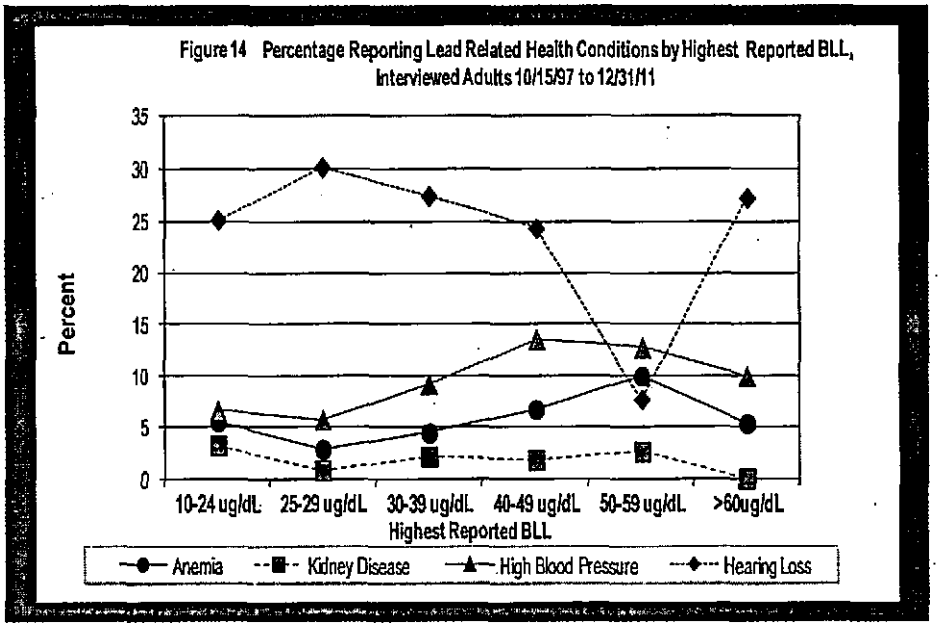
symptoms were included in this table. Loss of 10+ pounds without dieting, continued loss of appetite, frequent joint pain/ soreness, pains in belly, headache, depression, being tired, feeling nervous, waking up at night, ,being irritable and unable to concentrate were statistically significant associated with increasingly higher levels of blood lead. Having any gastro-intestinal, musculoskeletal or nervous symptoms was also statistically associated with increas-



the primary metals industry (non-ferrous foundries). These two industries also showed the highest percentage of workers with the higher blood leads (≥ 25 µg/dL) (Table 15). Table 16 lists the types of working conditions by highest reported lead level. Workers with the highest lead levels reported they were less likely to be tested at work as part of a company screening, have work clothing laundered at work, wash

(Continued from page 26)

ingly higher levels of blood lead.

Table 13 and Figure 14 show the reporting of other health conditions, anemia, kidney disease, high blood pressure and hearing loss, by lead level category. Of these health conditions, only high blood pressure was significantly associated with increasing blood lead levels.

The number of years worked by highest lead level showed that higher blood lead level results were more likely to occur in shorter term workers (i.e. workers in a lead exposed job for five or fewer years) (Table 14). The type of industry by lead level shows that 32.6% worked in special trade construction and 19.0% worked in

Of the types of lead-related symptoms reported during the interviews, loss of 10+ pounds without dieting, continued loss of appetite, frequent joint pain/soreness, pains in belly, headache, depression, being tired, feeling nervous and being irritable and unable to concentrate were statistically significant as associated with increasingly higher levels of blood lead. Having any gastro-intestinal, musculoskeletal or nervous symptoms was also statistically associated with increasingly higher levels of blood lead.

hands before eating or wear respirators as part of their lead work practices. As expected, workers more likely to have been removed from the job had the higher blood lead levels.

Figures 15 and 16 shows the trends in the percent of working conditions and personal habits, by interview year, for the last fourteen years of surveillance. There is variation between years in both the working conditions and personal habits reported over time with no clear overall improvement (Figures 15 and 16).

The questionnaire also asks about children in the household, in order to document the potential for and extent of take-home lead. Five hundred and one (25.4%) of the households where an adult had an elevated lead level had children age 6 and younger living or spending time in the home (Table 17). Children from only 146 (33.0%) of these 501 households were tested for blood lead. Among the 146 households where the child's blood test results were reported, 48 (34.5%) reported a

DISCUSSION

An individual may have a blood lead test performed as part of an employer medical-screening program or as part of a diagnostic evaluation by their personal physician. Whatever the reason for testing, the results are then sent by the testing laboratories to the MDCH as required by law. If the individual reported is an adult, the report is then forwarded to MSU and maintained in the ABLES program lead registry. Individuals with a blood lead level of 25 µg/dL or greater, and individuals with BLLs of 10-24 µg/dL, where lead exposure source is not already known, are contacted by mail and then by a trained interviewer for a voluntary telephone interview. The interview includes detailed demographic information, exposure history and the presence and nature of lead related symptoms. When an individual with a blood lead value of 25 µg/dL or greater is occupationally exposed at a company that has not had a recent MIOSHA inspection, an enforcement inspection is conducted to assess that company's compliance with the lead standard.

In 2011, there were 625 adults with BLLs ≥ 10 µg/dL. Approximately 95.5% were men. The mean age was 44.9. They were predominately white (83.5%) and lived in a band of counties stretching across the southern part of the state from Muskegon to St. Clair. The source of exposure to lead was predominately occupational in origin (81.2%). Exposure occurred during demolition of lead painted metal structures and abrasive blasting to remove paint or during the fabricating of non-ferrous metal parts and metal products.

Evaluation of fourteen years of interviews shows that individuals with the highest blood leads were more likely to be younger (Table 10). We attribute this finding to a higher percentage of younger workers in construction doing abrasive blasting on metal structures. Also younger, less experienced workers may be given the dirtier, less desirable tasks.

In 2011, thirteen adults were reported with BLLs over 50 µg/dL, the maximum blood lead level allowed in the workplace. Nine of the thirteen adults were exposed to lead exclusively at work (four from shooting ranges, one from a wrecking and demolition company, one from carpentry in a construction industry, one from bridge painting and sandblasting in the construction industry, one from repairing and selling industrial equipment for trucks, one from sorting activities in an alloy carbon and resulfurized steel bars and rolled steel shape manufacturer). A retained bullet from a gunshot wound and home renovation activities contributed to the tenth individual's elevated blood lead level. There were three individuals with non-work exposure to lead. Casting activities caused an individual to have blood lead levels elevated over 50 µg/dL. Competitive shooting activities and home remodeling caused elevated blood lead levels. The source of exposure that caused elevated blood lead levels in the thirteenth individual could not be determined, although no work exposure was identified.

Lead exposure remains an important public health concern in the U.S. Environmental Protection Agency (EPA) regulations requiring removal of lead from commercial products such as gasoline, house paint and solder in plumbing pipes and food cans, have greatly reduced exposure to lead in the general population. Average BLLs in the general

population have dropped from 15 ug/dL in the 1970s to the current 1.12 µg/dL (1).

Occupational exposure has not declined as steeply as environmental lead exposure. Data from 40 state lead surveillance systems shows that nationally, 95% of adult elevated lead exposure is work-related (3). Occupational Safety and Health Administration (OSHA) lead standards, established in 1978 for general industry and in 1993 for construction, set the level for removal of a worker from lead exposure in general industry at 60 µg/dL or two consecutive values above 50 µg/dL and construction at 50 µg/dL. These levels were established when general population levels from environmental exposure were much higher than they are today.

Michigan is one of 41 states conducting surveillance of elevated blood lead levels. Michigan requires the reporting of all BLL results, not just elevated levels. Major benefits for reporting all BLLs are the ability to calculate the rates of elevated BLLs in specific groups of interest, to monitor compliance with the testing requirements of the lead standard, and to facilitate the tracking of reports from particular employers to monitor their progress in reducing workers' exposures to lead.

Thirty years of lead toxicity research has demonstrated that lead exposure at levels previously thought to be of little concern can result in an increased risk of adverse chronic health effects, especially if the exposure is maintained for many years, thereby resulting in a progressively larger cumulative dose (4-7). Levels as low as 5 ug/dL have been associated with adverse cardiovascular and neurologic health effects (4-7).

Our interviews with workers show that the current allowable level of lead is also associated with acute symptoms involving the gastrointestinal, musculoskeletal and nervous systems (Table 12). The presence of these symptoms is additional support for the need to lower the allowable blood lead level. Sixty-four percent of individuals in Michigan with blood lead below the general industry allowable level of 60 µg/dL had daily or weekly symptoms consistent with lead toxicity (Table 12). Long term adverse effects of lead can occur even without overt symptoms.

Both the International Agency for Cancer (IARC) and the National Toxicology Program have classified lead to be a probable human carcinogen (8,9), primarily based on findings for lung and stomach cancer, with brain and kidney cancer also being elevated in some studies. Others studies show that lead exposure increases blood pressure in adults (3), making both mortality from stroke and heart disease outcomes of interest. High lead exposure is known to cause non-malignant kidney disease (10), but it is not known if lower levels contribute to this outcome.

Michigan occupations with lead exposure include abrasive blasting to remove lead paint from outdoor metal structures such as bridges, overpasses or water towers; casting brass or bronze fixtures; fabricating metal products; or exposure to lead fumes or dust from firing guns or retrieval of spent bullets at firing ranges. While the use of lead in non-battery products has declined in the U.S., the use of lead worldwide continues to grow, especially in battery applications. Recycling the growing amount of

"e-waste" created by discarded electronic and lead battery consumer products and the increased demand for raw metals and specifically recycled lead worldwide puts a new group of workers at risk to significant exposure to lead.

Since 2002, the Michigan ABLES project has sent letters to laboratories which provide blood lead analysis for Michigan residents, recommending the laboratories lower their upper limit of normal blood lead levels to correspond with current medical knowledge of the adverse health effects of lead. All but one of the laboratories providing blood lead analyses in Michigan, have lowered the upper limit of normal to 10 µg/dL. Given the recent decision by CDC to consider blood leads in children of 5 µg/dL or greater to be elevated and the increasing scientific knowledge about the toxicity of lead at these low levels, we plan to once again contact labs about lowering the upper limit of normal they report out to health care-providers. Recommendations for medical management on lead exposed individuals begin at 5 µg/dL and interpretative language for the health-care providers who ordered the blood lead needs to be compatible with these recommendations since laboratory reports are often their main source of information (11). The March 2013 update of the Fourth Annual CDC Report shows that blood leads in the general population are continuing to fall and the 95th confidence limit for the upper limit of normal in 2009-2010 was 3.57 µg/dL (1.52-2.03) (1).

A further problem for Michigan families is that adults working in lead occupations may bring lead home on their shoes or clothes and expose their spouse and children. Only one in three families with someone exposed to lead at work report that their young children are tested for elevated lead. When these children are tested, almost 35% are found to have an elevated blood lead level (Table 17). While the number of children being tested for lead statewide has markedly increased, there has only been a slight increase of blood lead testing for the children of lead-exposed workers. Michigan's Childhood Lead Prevention Program reports in the 2009 Annual Report on Blood Lead Levels on Adults and Children in Michigan, a successful reduction of the percentage of confirmed elevated BLLs from 7.2% in 1999 to less than 1% of the children tested in 2009. The main focus of Michigan's childhood lead program has been to increase blood lead testing in lower socioeconomic children who predominantly reside in older Michigan housing, which is most likely to contain lead paint. Increased focus needs to be made on lead workers' children who, when tested, have confirmed BLLs ≥ 10 µg/dL 34.5% of the time. There has been ongoing collaboration with the Michigan Childhood Lead Prevention Program to improve this situation and workers exposed to lead should be encouraged to test their children for lead exposure.

In its fourteenth year of operation, the surveillance system for lead continued to prove successful in identifying large numbers of adults with elevated lead levels and sources of exposure that could be remediated to reduce exposures in Michigan. The reduction in elevated blood lead levels, particularly from occupational exposures with an exception of BLLs ≥ 50 µg/dL which has doubled since last year, has appeared to plateau (Figure 5). This plateau along with the reports of individuals that show a lack of improvement in workplace conditions and preventive personal habits to reduce lead exposure at the facilities where they are employed (Figures 15 and 16) has us con-

cerned that the progress in previous years to reduce lead exposure has stalled.

Continued outreach is planned to the medical community on the recognition and management of potential lead-related medical problems in both individuals and their young families. A new OSHA PEL, substitutes of safer compounds, along with expanding education and outreach for employers and workers and their families would all contribute to lower blood lead levels. Ongoing surveillance in future years will continue to target and evaluate intervention activity to reduce exposure to lead.

Adult Blood Lead Epidemiology and Surveillance — United States, 2008–2009

Weekly
July 1, 2011 / 60(25);841-845

Lead exposure can result in acute or chronic adverse effects in multiple organ systems, ranging from subclinical changes in function to symptomatic, life-threatening toxicity. Despite improvements in public health policies and substantial reductions in blood lead levels (BLLs) in adults, lead exposure remains an important health problem worldwide. Approximately 95% of all elevated BLLs reported among adults in the United States are work-related (1), and recent research has raised concerns regarding the toxicity of BLLs as low as 5 μg/dL (2,3). CDC's state-based Adult Blood Lead Epidemiology and Surveillance (ABLES) program tracks laboratory-reported elevated BLLs. To update rate trends and identify industry subsectors and nonoccupational activities with high lead exposures, CDC collected and analyzed 2008–2009 data from 40 state ABLES programs. The results of that analysis indicated that a decline in the prevalence of elevated BLLs (≥25 μg/dL) was extended, from 14.0 per 100,000 employed adults in 1994 to 6.3 in 2009. Industry subsectors with the highest numbers of lead-exposed workers were battery manufacturing, secondary smelting and refining of nonferrous metals, and painting and paper hanging. The most common nonoccupational exposures to lead were shooting firearms; remodeling, renovating, or painting; retained bullets (gunshot wounds); and lead casting. The findings underscore the need for government agencies, employers, public health professionals, health-care providers, and worker-affiliated organizations to increase interventions to prevent workplace lead exposure, and the importance of conducting lead exposure surveillance to assess the effectiveness of these interventions.

State ABLES programs 1) collect data on adult BLLs from laboratories and physicians through mandatory reporting requirements; 2) assign unique identifiers to each adult to account for multiple BLL records; 3) follow-up on adults with BLLs ≥25 μg/dL with laboratories, health-care providers, employers, or workers to ensure completeness of information (e.g., the industry where the adult is employed and whether the exposure source is occupational, nonoccupational, or both); and 4) code the industry where the adult worked using the 1987 Standard Industrial Classification (SIC) or the 2002 North American Industry Classification System (NAICS). The requirement for laboratories and health-care providers to notify state authorities about BLLs varies among ABLES states, ranging from the reporting of all BLLs to only BLLs ≥40 μg/dL.* Most ABLES states submit data on all BLLs to CDC's National Institute for Occupational Safety and Health (NIOSH), including records from adults whose BLLs fall below the state reporting requirement.

Adults were defined as persons aged ≥16 years. For adults with more than one BLL record in a given year, only the highest BLL was included. Elevated BLLs were defined as blood lead concentrations ≥25μg/dL. Prevalence numerators were either "state residents" (adults residing in the reporting state) or "state residents and nonresidents" (all adults reported by a state) with elevated BLLs (a distinction in the data since 2002); both employed and unemployed persons were included in the numerators. Denominators were the annual employed population aged ≥16 years for the period 2008–2009, as obtained from the U.S. Bureau of Labor Statistics (4). To calculate annual state

prevalences, the numbers of adults with elevated BLLs from each of the 40 states reporting† were divided by the state's annual employed population and expressed as a rate per 100,000 employed adults. The combined state numerators and denominators for each year were then used to calculate national (40-state) prevalence rates for 2008–2009. The percentage of adults with BLL ≥40 µg/dL among adults with BLL ≥25µg/dL in each industry subsector was used to identify industry subsectors with the highest lead exposures. Additional information regarding interpretation of specific state ABLES data, definitions, and rate calculations is available at the ABLES program website (5).

A total of 40 states submitted data in both 2008 and 2009. Overall, the prevalence of elevated BLLs (≥25 µg/dL) among state residents and nonresidents declined from 14.0 adults per 100,000 employed adults in 1994 (4) to 7.4 in 2008 and 6.3 in 2009. Rates were slightly lower (7.1 and 6.1 respectively) when only state resident adults were included (Figure 1). The number of states with high prevalence of elevated BLLs (i.e., ≥20 adults per 100,000 employed adults) decreased from six of 17 states in 1994 to three of 40 states in 2009 (Figure 2). ABLES states reported 9,325 and 7,674 state resident adults with elevated BLLs in 2008 and 2009, respectively. State resident prevalence of elevated BLLs for 2008 ranged from 0.5 per 100,000 employed adults (Hawaii) to 37.6 (Pennsylvania); and for 2009, from 0.3 (Hawaii) to 32.0 (Pennsylvania). Prevalence of state resident and nonresident adults with BLLs ≥40 µg/dL declined from 3.5 in 1994 to 1.2 in 2008 and 0.9 in 2009. In 2008, these rates ranged from 0.2 (Arizona) to 6.5 (Pennsylvania) and in 2009, from zero (Alaska and Wyoming) to 4.2 (Pennsylvania).

Thirty-seven states in 2008 and 38 states in 2009 submitted data on industry and exposure source (8,450 and 7,112 state resident adults with elevated BLLs, respectively).§ Among all reported cases of elevated BLLs, exposures at work accounted for 6,081 (71.9%) in 2008 and 4,998 (70.1%) in 2009 (Table). Among only those cases with known exposure type (i.e., occupational or nonoccupational), occupational exposures accounted for 94.8% of cases in 2008 and 93.8% in 2009. The greatest proportions of adults with elevated BLLs were employed in three main industry sectors: manufacturing (72.1% in 2008 and 72.3% in 2009), construction (13.2% in 2008 and 14.4% in 2009), and mining (6.6% in 2008 and 5.1% in 2009). Industry subsectors with the highest numbers of workers with elevated BLLs were manufacturing of storage batteries, secondary smelting and refining of nonferrous metals, and painting and paper hanging (Table). Industry subsectors with the greatest proportions of adults with BLLs ≥40 µg/dL among adults with BLLs ≥25 µg/dL were painting and paper hanging; bridge, tunnel, and elevated highway construction; copper foundries; special trade contractors; and heavy construction industries (Table). Nonoccupational exposures accounted for 337 (4.0%) and 328 (4.6%) of all adult cases in 2008 and 2009, respectively. The most common nonoccupational exposures were from shooting firearms; remodeling, renovating, or painting; retained bullets; and lead casting (Table).

Reported by

Editorial Note

Job activities known to involve the use or disturbance of lead include the following: handling of lead-containing powders, liquids, or pastes; production of dust or fumes by melting, burning, cutting, drilling, machining, sanding, scraping, grinding, polishing, etching, blasting, torching, or welding lead-containing solids; and dry sweeping of lead-containing dust and debris (3). Since 1994, ABLES surveillance results indicate an overall decreasing trend in the prevalence of elevated BLLs in U.S. adults and a decrease in the number of states with the highest rates (i.e., ≥20 adults per 100,000).

This decrease, in part, might be attributable to a decline in the number of manufacturing jobs with potential for lead exposure over time and prevention measures that have been enacted since the early 1990s, including 1) improved interventions by state ABLES programs,[†] worker-affiliated organizations, and federal programs such as the Occupational Safety and Health Administration (OSHA) National Emphasis Program to reduce lead exposure[§§] and 2) measures implemented by industry (e.g., engineering and work practice controls,[¶] and respiratory protection). However, the decrease in rates also might reflect low employer compliance with testing and reporting requirements (*6*).

ABLES data also underscore that elevated BLLs among adults are almost exclusively an occupational health problem in the United States. Those states with higher rates of elevated BLLs might represent 1) states where higher proportions of workers are employed in high-risk industries (e.g., lead-related manufacturing, construction activities involving lead paint exposure, and lead mining), 2) states where workers in high-risk areas are less likely to be protected by engineering and workplace controls, or 3) states where greater compliance with testing requirements by employers and reporting requirements by laboratories result in larger numbers of reported cases of elevated BLLs. Similar to findings in previous years, the 2008–2009 data indicate that five industry subsectors accounted for approximately 65% and 14 subsectors accounted for approximately 80% of adults with elevated BLLs who were exposed at work. Higher lead exposures likely are present in those industries with the greatest proportions of elevated BLLs ≥40 µg/dL.

ABLES data are used to track *Healthy People 2020* objective OSH-7, to reduce the prevalence of persons who have elevated BLLs from work exposures (*7*). The *Healthy People 2020* target incorporates the new ≥10 µg/dL operational definition for elevated BLLs established by ABLES consistent with guidance from the Association of Occupational and Environmental Clinics and the Council of State and Territorial Epidemiologists (*8*).

The findings in this report are subject to at least four limitations. First, the number of adults with elevated BLLs reported to ABLES likely is underreported because some employers might not provide BLL testing to all lead-exposed workers as required by OSHA regulations and because some laboratories might not report all tests as required by state regulations (*9*). Second, because denominators are the numbers of employed persons, aged ≥16 years, unemployed adults who might be at risk for lead exposure, although included in the numerator, are not included in the denominator. Third, although state ABLES programs ascertain the work-relatedness of a lead exposure by following up with laboratories, physicians, employers, or workers, the possibility of misclassification of occupational versus nonoccupational cases cannot be excluded. Finally, analyzing lead exposures using a threshold of 25 µg/dL likely underestimates harmful occupational lead exposure because lead-related toxicity can occur at levels as low as 5 µg/dL and the *Healthy People 2020* target is set at 10 µg/dL.

Progress toward meeting the *Healthy People* 2020 target for reducing the prevalence of adults with BLLs ≥10 µg/dL from workplace lead exposures can be aided by improving 1) worker protection programs developed and maintained by employers[††]; 2) government activities such as ABLES programs, which can effectively intervene to prevent lead exposures and the OSHA National Emphasis Program to reduce lead exposure; 3) research and interventions by stakeholder organizations; and 4) education of the public regarding preventing nonoccupational exposures. Emphasis should be placed on those industries identified in this report with the highest numbers of workers with elevated BLLs: manufacturing of storage batteries, secondary smelting and refining of nonferrous metals, painting and paper hanging, and bridge, tunnel, and elevated highway construction.

Acknowledgments

What is already known on this topic?

Lead exposure among adults remains almost exclusively an occupational health problem in the United States, although the health effects from lead exposure are well characterized and controls to reduce lead exposure for workers exist.

What this report adds?

During 2008–2009, the prevalence of U.S. adults with blood lead levels (BLLs) ≥25 µg/dL continued to decrease, to 6.3 per 100,000 employed adults in 2009 from 14.0 in 1994. The highest prevalences of elevated BLLs continue to be found among workers in the manufacturing, construction, and mining industries.

What are the implications for public health practice?

Measures to improve lead exposure surveillance and preventive interventions focused in the manufacturing, construction, and mining industries should be implemented by government agencies, employers, and worker-affiliated organizations.

APPENDIX B

DEPARTMENT OF COMMUNITY HEALTH

HEALTH LEGISLATION AND POLICY DEVELOPMENT

BLOOD LEAD ANALYSIS REPORTING

Filed with the Secretary of State on September 25, 1997. These rules take effect 15 days after filing with the Secretary of State.

(By authority conferred on the community public health agency by section 5111 of Act No. 368 of the Public Acts of 1978, as amended, section 8 of Act No. 312 of the Public Acts of 1978, and Executive Reorganization Order No. 1996-1, being §§333.5111 and 325.78, and 330.3101 of the Michigan Compiled Laws)

R 325.9081 Definitions.

Rule 1. (1) As used in these rules:

(a) "Blood lead analysis report form" means the form used to report the required reportable information for blood that has been analyzed for lead.

(b) "Agency" means the community public health agency.

(c) "Physician/provider" means a licensed professional who provides health care services and who is authorized to request the analysis of blood specimens. For this purpose, provider may also mean the local health department.

(2) The term "local health department," as defined in Act No. 368 of the Public Acts of 1978, as amended, being §333.1101 et seq. of the Michigan Compiled Laws, has the same meaning when used in these rules.

R 325.9082 Reportable information.

Rule 2. (1) Reportable information is specifically related to blood samples submitted to clinical laboratories for lead analysis.

(2) Upon initiating a request for blood lead analysis, the physician/provider ordering the blood lead analysis shall complete the client information (section I) and the physician/provider information (section II) of a blood lead analysis report form designated by the agency or shall complete another similar form that ensures the inclusion of the same required data and shall provide all of the following information:

(a) All of the following information with respect to the individual tested:

(i) Name.

(ii) Sex.

(iii) Racial/ethnic group.

(iv) Birth date.

(v) Address, including county.

(vi) Telephone number.

(vii) Social security number and Medicaid number, if applicable.

(viii) If the individual is a minor, the name of a parent or guardian and social security number of the parent or guardian.

(ix) If the individual is an adult, the name of his or her employer.

(b) The date of the sample collection.

(c) The type of sample (capillary or venous).

(3) The blood lead analysis report form or a document with the same data shall be submitted with the sample for analysis to a clinical laboratory that performs blood lead analysis.

(4) Upon receipt of the blood sample for lead analysis, the clinical laboratory shall complete the laboratory information (section III) and provide all of the information required and/or submitted by the physician/provider and the following:

(a) The name, address, and phone number of the laboratory.

(b) The date of analysis.

(c) The results of the blood lead analysis in micrograms of lead per deciliter of whole blood rounded to the nearest whole number.

R 325.9083 Reporting responsibilities.

Rule 3. (1) All clinical laboratories doing business in this state that analyze blood samples for lead shall report all blood lead results, rounded to the nearest whole number, for adults and children to the Community Public Health Agency, Childhood Lead Poisoning Prevention Program (CPHA/CLPPP), 3423 N.M.L. King Jr. Blvd., Lansing , MI 48909. Reports shall be made within 5 working days after test completion.

(2) Nothing in this rule shall be construed to relieve a laboratory from reporting results of a blood lead analysis to the physician or other health care provider who ordered the test or to any other entity as required by state, federal, or local statutes or regulations or in accordance with accepted standard of practice, except that reporting in compliance with this rule satisfies the blood lead reporting requirements of Act No. 368 of the Public Acts of 1978, as amended, being §333.1101 et seq. of the Michigan Compiled Laws.

R 325.9084 Electronic communications.

Rule 4. (1) A clinical laboratory may submit the data required in R 325.9083 electronically to the agency.

(2) For electronic reporting, upon mutual agreement between the reporting laboratory and the agency, the reporting shall utilize the data format specifications provided by the agency.

R 325.9085 Quality assurance.

Rule 5. For purposes of assuring the quality of submitted data, each reporting entity shall allow the agency to inspect copies of the medical records that will be submitted by the reporting entity to verify the accuracy of the submitted data. Only the portion of the medical record that pertains to the blood lead testing shall be submitted. The copies of the medical records shall not be recopied by the agency and shall be kept in a locked file cabinet when not being used. After verification of submitted data, the agency shall promptly destroy the copies of the medical records.

R 325.9086 Confidentiality of reports.

Rule 6. (1) The agency shall maintain the confidentiality of all reports of blood lead tests submitted to the agency and shall not release reports or any information that may be used to directly link the information to a particular individual, unless the agency has received written consent from the individual, or from the individual's parent or legal guardian, requesting the release of information.

(2) Medical and epidemiological information that is released to a legislative body shall not contain information that identifies a specific individual. Aggregate epidemiological information concerning the public health that is released to the public for informational purposes only shall not contain information that identifies a specific individual.

R 325.9087 Blood lead analysis report form.

Rule 7. The blood lead analysis report form reads as follows:

MICHIGAN DEPARTMENT OF COMMUNITY HEALTH
BLOOD LEAD ANALYSIS REPORT
DATA/INFORMATION REQUIRED BY ADMINISTRATIVE RULE # R325.9082 AND R 325.9083

APPENDIX C

SUMMARY OF MICHIGAN'S LEAD STANDARDS

In 1981, under the authority of the Michigan Occupational Safety and Health Act (MIOSHA), Michigan promulgated a comprehensive standard to protect workers exposed to lead in general industry (i.e., R325.51901 - 325.51958). That standard was most recently amended in October, 2000. In October 1993, MIOSHA adopted by reference the federal Occupational Safety and Health Administration's (OSHA) Lead Standard for Construction (i.e., 29 CFR 1926.62). That standard was most recently amended October 18, 1999. Both the MIOSHA Lead Exposure in Construction Standard (Part 603) and the Lead Exposure in General Industry Standard (Part 310) establish an "action level" (30 micrograms of lead per cubic meter of air [ug/m^3] averaged over an eight-hour period) and a permissible exposure limit (50 ug/m^3 averaged over an eight hour period) for employees. Both standards require employers to conduct initial exposure monitoring and to provide employees written notification of these monitoring results. If employee exposure levels exceed the permissible exposure limit (PEL), employers are required to develop a written compliance program that addresses the implementation of feasible engineering and/or work practice controls to reduce and maintain employee exposures below the PEL. The Lead Exposure in Construction Standard (Part 603) also allows the use of administrative controls to achieve this objective. An employer's obligations concerning hygiene facilities, protective work clothing and equipment, respiratory protection, medical surveillance and training under the Lead Exposure in Construction Standard (Part 603) are triggered initially by job tasks and secondarily by actual employee exposure level to lead. Under the Lead Exposure in General Industry Standard (Part 310), these potential obligations are triggered by actual employee exposure levels to lead. Medical surveillance and training are triggered by exposures above the action level (AL), whereas protective clothing and equipment, respiratory protection and hygiene facilities are triggered by exposures above the PEL.

The medical surveillance program requirements for Michigan's Lead Exposure in General Industry Standard (Part 310) versus those required in Lead Exposure in Construction Standard (Part 603) do vary. Under the Lead Exposure in General Industry Standard (Part 310), a medical surveillance program must be implemented which includes periodic biological monitoring (blood tests for lead and zinc protoporphyrin [ZPP] levels), and medical exams/consultation for all workers exposed more than 30 days per year to lead levels exceeding the AL. Under the Lead Exposure in Construction Standard (Part 603), a distinction is made between "initial medical surveillance" (consisting of biological monitoring in the form of blood sampling and analysis for lead and ZPP levels) and secondary medical surveillance (consisting of follow-up biological monitoring and a medical examination/consultation). The initial medical exam is triggered by employee exposure to lead on any day at or above the AL. The secondary medical exam is triggered by employee exposures to lead at or above the AL for more than 30 days in any 12 consecutive months period.

Michigan's Lead Exposure in General Industry Standard (Part 310) mandates that employees exposed at or above the AL must be removed from the lead exposure when:

- A periodic blood test and follow-up blood test indicate that the blood lead level (BLL) is at or above 60 micrograms per deciliter (µg/dL) of whole blood.
- Medical removal is also triggered if the average of the last three BLL or the average of all blood sampling tests conducted over the previous six months, whichever is longer, indicates the employees blood lead level is at or above 50 µg/dL. Medical removal is not required however, if the last blood sampling test indicates a blood lead level at or below 40 µg/dL of whole blood.
- When a final medical determination reveals that an employee has a detected medical condition which places that employee at an increased risk of material impairment to health from the lead exposure.

The Lead Exposure in Construction Standard (Part 603) mandates removal of an employee from a lead exposure at or above the AL when:

- A periodic and follow-up blood test indicates that an employee's BLL is at or above 50 µg/dL; or
- There is a final medical determination that an employee has a detected medical condition which places that employee at an increased risk of material impairment to health from the lead exposure.

When an employee can return to work at their former job also differs by standard. The Lead Exposure in General Industry Standard (Part 310) allows an employee to return to his or her former job status under any of the following circumstances:

- If the employee's BLL was at or above 70 µg/dL, then two consecutive blood tests must have the BLL at or below 50 µg/dL.
- If the employee's BLL was at or above 60 µg/dL or due to an average BLL at or above 50 µg/dL, then two consecutive BLL must be at or below 40 µg/dL.
- For an employee removed due to a final medical determination, when a subsequent medical determination no longer detects a medical condition which places the employee at an increased risk of material impairment to health from exposure to lead.

The Lead Exposure in Construction Standard (Part 603) allows the employer to return an employee to their former job status under these circumstances:

- If the employee's BLL was at or above 50 µg/dL, then two consecutive blood tests must have the employee's BLL at or below 40 µg/dL.
- For an employee removed due to a final medical determination, when a subsequent medical determination no longer has a detected medical condition which places the employee at an increased risk of material impairment to health from exposure to lead.

Both the Lead Exposure in General Industry (Part 310) and Lead Exposure in Construction (Part 603) Standards have a medical removal protection benefits provision. This provision requires employers maintain full earnings, seniority and other employment rights and benefits of temporarily removed employees up to 18 months on each occasion that an employee is removed from exposure to lead. This includes the right to their former job status as though the employee had not been medically removed from the job or otherwise medically limited.

Provisions of Lead Exposure in General Industry (Part 310) and Lead Exposure in Construction (Part 603) Standards

Workers exposed to lead have a right to: an exposure assessment, respiratory protection, protective clothing and equipment, hygiene facilities, medical surveillance, medical removal and training. The triggering mechanisms that activate these rights are primarily based upon employee lead exposure levels. However, under the Lead Exposure in Construction Standard (Part 603), many of these rights are initially triggered by the specific work activity being performed.

Exposure Assessment

Air monitoring must be conducted to determine employee airborne lead exposure levels when a potential lead exposure exists. Under the Lead Exposure in Construction Standard (Part 603), however, specific work activities are identified/categorized that require "interim protection" (i.e., respiratory protection, personal protective clothing and equipment, work clothes change areas, hand washing facilities, biological monitoring and training) until air monitoring has been performed that establishes that these lead exposure levels are within the acceptable limits (AL or PEL).

Respiratory Protection

Respiratory protection is required whenever employee exposure levels exceed the PEL and as an interim control measure under the Lead Exposure in Construction Standard (Part 603). The level of respiratory protection required is dependent upon the actual employee exposure level or by the job activities identified in the Lead Exposure in Construction Standard (Part 603).

Protective Clothing/Equipment

Protective clothing/equipment (i.e., coveralls or similar full body clothing; gloves, hats, shoes or disposable shoe coverlets; and face shield, vented goggles, or other applicable equipment) is required whenever employee exposure levels exceed the PEL and as an interim protection measure under the Lead Exposure in Construction Standard (Part 603).

Hygiene Facilities

Hygiene facilities (i.e., clothing change areas, showers, eating facilities) are required whenever employee exposures to lead exceed the PEL. Except for shower facilities, these same hygiene facilities must be provided as interim protection under the Lead Exposure in Construction Standard (Part 603). The construction employer must, however, provide hand washing facilities in lieu of the shower facility as an interim protection.

Medical Surveillance

Medical surveillance (i.e., medical exam and consultation) is required when workers are exposed to lead at or exceeding the AL for more than 30 days a year. Biological blood sampling and analysis to determine lead and ZPP levels is required initially under the Lead Exposure in Construction Standard (Part 603) when employee lead exposure is at or exceeds the AL on any single day. Under the Lead Exposure in General Industry Standard (Part 310), it is required when employees are exposed to concentrations of airborne lead greater than the A.L. for more than 30 days per year.

Medical Removal

Workers covered by the Lead Exposure in General Industry (Part 310) Standard have the right to be removed from airborne lead exposures at or above the AL when their periodic and follow-up blood lead level is at or above 60 µg/dL or when an average of the last three BLLs or the average of all blood sampling tests conducted over the previous six months, whichever is longer, indicates the employee blood lead level is at or above 50 µg/dL. However, under this later removal criteria, they are not required to be removed if the last blood sampling test indicates a blood lead level at or below 40 µg/dL.

Workers covered by the Lead Exposure in Construction Standard (Part 603) have the right to be removed from airborne lead exposures at or above the AL on each occasion that a periodic and follow-up blood sample test indicate that the employee's blood lead level is at or above 50 µg/dL.

Under both the Lead Exposure in General Industry (Part 310) and Lead Exposure in Construction (Part 603) Standards, workers also have the right to be removed from airborne lead exposures at or above the AL whenever there is a final medical determination that has detected that they have a medical condition that places them at an increased risk of material impairment to health from exposure to lead.

Training

Under the Lead Exposure in General Industry Standard (Part 310) and Lead Exposure in Construction (Part 603), employees exposed to any level of airborne lead must be informed of the contents of appendices A and B from that standard.

Under both the Lead Exposure in General Industry (Part 310) and Lead Exposure in Construction (Part 603) Standards, employees who are exposed at or above the AL on any day or who are subject to exposure to lead compounds which may cause skin or eye irritation must be provided comprehensive training covering all topics specified in those standards.

Also, under the Lead Exposure in Construction Standard (Part 603), employees involved in any of the specified work activities requiring interim controls, must receive training prior to initiating those activities that addresses the recognition and avoidance of unsafe conditions involving lead and the specific regulations applicable to the worksite that have been established to control or eliminate the hazards associated with exposure to lead.

APPENDIX D

Table 1. **Health– based management recommendations for lead-exposed adults**

Volume 115; Number 3; March 2007 Environmental Health Perspectives

Blood lead level (µg/dL)	Short-term risks (lead exposure <1 year)	Long-term risks (lead exposure ≥ 1 year)	Management
<5	None documented	None documented	None Indicated
5-9	Possible spontaneous abortion Possible postnatal developmental delay	*Possible spontaneous abortion* Possible postnatal developmental delay Possible hypertension and kidney dysfunction	*Discuss health risks* Reduce lead exposure for women who are or may become pregnant
10-19	Possible spontaneous abortion Possible postnatal developmental delay Reduced birth weight	Possible spontaneous abortion Possible postnatal developmental delay Hypertension and kidney dysfunction Reduced birth weight Possible subclinical neurocognitive *deficits*	Discuss health risks Reduce lead exposure for women who are or may become pregnant Decrease lead exposure Increase biological monitoring *Consider removal from lead exposure to* avoid long-term risks if exposure control over an extended period does not decrease BLL<10 µg/dL or if medical condition present that increases risk with continued exposure
20-29	Possible spontaneous abortion Possible postnatal developmental delay Reduced birth weight	Possible spontaneous abortion Possible postnatal developmental delay Hypertension and kidney dysfunction Reduced birth weight Possible subclinical neurocognitive deficits	Remove from lead exposure if repeat BLL measured in 4 weeks remains ≥20 µg/dL
30-39	Spontaneous abortion Possible postnatal developmental delay Reduced birth weight	Spontaneous abortion Possible postnatal developmental delay Hypertension and kidney dysfunction Reduced birth weight Possible subclinical neurocognitive deficits *Possible nonspecific symptoms**	Remove from lead exposure
40-79	Spontaneous abortion Possible postnatal developmental delay Reduced birth weight Nonspecific symptoms* Neurocognitive deficits Sperm abnormalities	Spontaneous abortion Possible postnatal developmental delay Hypertension Kidney dysfunction/neuropathy Subclinical peripheral neuropathy Reduced birth weight Neurocognitive deficits Nonspecific symptoms* Sperm abnormalities Anemia Colic Possible gout	Remove from lead exposure Refer for prompt medical evaluation Consider chelation therapy for BLL > 50 µg/dL with significant symptoms or signs of lead toxicity
≥90	Spontaneous abortion Possible postnatal developmental delay Reduced birth weight Nonspecific symptoms* Neurocognitive deficits Sperm abnormalities Encephalopathy Anemia Colic	Spontaneous abortion Possible postnatal developmental delay Hypertension Neuropathy Peripheral neuropathy Reduced birth weight Neurocognitive deficits Nonspecific symptoms* Sperm abnormalities Anemia Colic Gout	Remove from lead exposure Refer for immediate/urgent medical evaluation Probable chelation therapy

*Medical conditions that may increase the risk of continued exposure include chronic renal dysfunctions (serum creatinine > 1.5 mg/dL for women or protein urial, hypertension , neurologic disorders and cognitive dysfunction. Non specific symptoms may include headache, fatigue, sleep disturbance, anorexia, constipation, orthralgia, myalgia, and decreased libido.

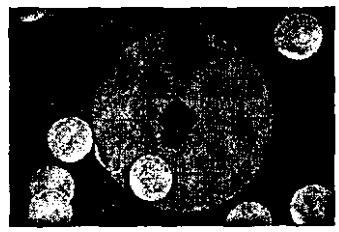
**HHLPPP is responsible for tracking childhood lead poisoning in Michigan.*

Occupational exposure to lead accounts for 95% of adult elevated blood lead levels in the

Michigan's 2011 lead surveillance show that of the 18.8% of individuals with elevated BLLs from non-occupational sources, 78.9% are exposed from a hobby related to guns.



The Adult Blood Lead Epidemiology and Surveillance (ABLES) Program is a state-based surveillance program of laboratory-reported adult blood lead levels. In 2009, the ABLES program updated its case definition for an Elevated Blood Lead Level for surveillance purposes as a blood lead concentration ≥ 10 µg/dl. The public health objective of the ABLES program is objective 20.7 in *Healthy People 2010*, which is to reduce the rate of adults (age 16 or older) who have blood lead levels of 25 micrograms per deciliter (µg/dL) or greater. The ABLES program aims to accomplish this objective by building state capacity to initiate or improve adult blood lead surveillance programs which can accurately measure trends in adult blood lead levels and which can effectively intervene to prevent lead over-exposures.

ABLES
Adult Blood Lead Epidemiology & Surveillance
82 Pb 207.2

There are many resources available to help employers, employees, health care professionals and others understand more about lead exposure, prevention and medical management. Links to these resources can be found at: www.oem.msu.edu.

The Lead Contamination Control Act of 1988 authorized the Centers for Disease Control and Prevention (CDC) to initiate program efforts to eliminate childhood lead poisoning in the United States. As a result of this Act, the CDC Childhood Lead Poisoning Prevention Program was created, with primary responsibility to:

- *Develop programs and policies to prevent childhood lead poisoning.*
- *Educate the public and health-care providers about childhood lead poisoning.*
- *Provide funding to state and local health departments to determine the extent of childhood lead poisoning by screening children for elevated blood lead levels, helping to ensure that lead-poisoned infants and children receive medical and environmental follow-up, and developing neighborhood-based efforts to prevent childhood lead poisoning.*
- *Support research to determine the effectiveness of prevention efforts at federal, state, and local levels.*

The cost benefit is clear: resources spent to prevent lead poisoning are an investment in each child's life-long health, quality of life, learning, and earning potential. If lead hazards were remediated in every Michigan residence and daycare setting built prior to 1978, childhood lead poisoning from residential paint would be eliminated.

Important Questions & Answers

What am I responsible for?
As a homeowner, you are responsible for the exterior water service line on your property. In some towns, the service line beyond the property boundary to the main connection may remain the homeowner's responsibility, but it is not included in this coverage.

Does this coverage include well lines?
Yes, coverage provides for repair or replacement of the water service line on your property regardless of whether you are connected to a city water main or private well.

Does my homeowners insurance or local utility company cover this?
Most basic homeowners insurance policies and local utility companies do not cover repair or replacement of the water service line. If you find you have similar coverage, you can contact HomeServe to cancel and you will receive a refund of your service agreement fee, less any claims paid (where applicable).

Who is eligible for coverage?
A residential homeowner with sole responsibility for the exterior water service line may be eligible. Residences not affixed to a permanent foundation, recreational vehicles and properties used for commercial purposes are not eligible for coverage. If you live in a development community with a condominium, co-op or homeowners association, your exterior water service line may not be an individual homeowner's responsibility, so please check with your association before accepting this coverage.

What should I know about this coverage?
What's covered: Coverage provides, up to the benefit amount, for the covered cost to repair or replace a leaking or permanently blocked exterior water service line from your property boundary or well casing to the external wall of your home that is damaged due to normal wear and tear, not accident or negligence.
Not covered: Repair to any exterior water service line that branches off the main line, accidents and damage or negligence caused by you or others. Additional exclusions apply. To see full Terms and Conditions with complete coverage and exclusion details prior to enrolling call 1-877-444-7750 or go to CoveragePlans50.com.

When can I make a service call?
Your plan starts the day your form is processed, and there is an initial 30-day waiting period before you can make a service call, giving you 11 months of coverage during the first year. This prevents service calls on pre-existing conditions and helps keep the coverage affordable.

What is the cancellation policy?
You may cancel within 30 days of your start date for a full refund; cancellations after the first 30 days will result in a pro-rata refund less any claims paid (where applicable).

What is the term of my service agreement?
Your coverage is based on an annual contract. For E-Z Pay, credit card or debit card customers: regardless of the payment frequency you select, your service agreement will be automatically renewed annually on the same payment terms selected, at the then-current renewal price. Your coverage will remain in effect unless you call to discontinue.

What is E-Z Pay?
E-Z Pay is a paperless and stress-free way to pay for your coverage. Payments are automatically debited from the bank/checking account of your choice as your payment becomes due, at no additional cost.

What quality of repair can I expect?
Local, licensed and insured plumbers perform all covered repairs, which are guaranteed against defects in materials and workmanship for one year.

Who is HomeServe?
HomeServe is an independent company providing emergency home repair services and protection solutions to homeowners across the U.S. If you have questions about this mailing or to be removed from our mailing list, call 1-855-321-9871.

Frequently Asked Questions About
Lead in Flint Water

MDHHS
Michigan Department of Health & Human Services

- Lead is hard to avoid completely. It can be found in old paint, water pipes and brass water faucets, in dirt, at some job sites, and in metal used for some hobbies.
- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are little and still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a NSF-approved filter.
  - Find a NSF-approved filter at http://www.gchd.us/docs/lead_filter_information.pdf.
  - If you use City of Flint water, you can call 211 to find out where you can pick up a free water filter.
- Some filters can remove up to 99% of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Change the filter cartridge as often as you should.
  - Run only cold water through the filter.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop. Use the tips below to know when it's best to use filtered water:

Lead in Water

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- **You can't see, smell, or taste lead in water.**
- **Lead won't change the color of your water.**
- **The only way to know what your home's lead levels are is by having your water tested in a lab.**

Please call the Flint Water Department at 810-787-6537 to request a free or low-cost water test.

In The Kitchen

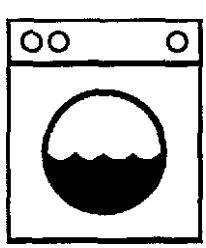
Use filtered tap water for:

- Drinking (including making coffee, drink mixes, juice, baby formula)
- Cooking (even if you boil the water, the lead will stay in the water and food)
- Washing fruits and vegetables

You can use unfiltered tap water for:

- Washing your hands
- Washing dishes
- Wiping down countertops

Cleaning



You can use unfiltered tap water for:

- Mopping floors
- Washing clothes

Your washing machine and dryer won't put lead from the water into the air of your home.

v. 10/21/2015

In the Bathroom

Use <u>filtered</u> tap water for:

- Brushing kids' teeth

You can use <u>unfiltered</u> tap water for:

- Showers
- Baths (don't let kids drink the water as they play in the tub)
- Brushing your teeth (if you are an adult)

Lead will not cause rashes or other skin problems. However, if chlorine levels or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

Caring for Pets

Use <u>filtered</u> tap water for:

- Pets' water bowls

You can use <u>unfiltered</u> tap water for:

- Baths

If you notice your pet acting differently than normal, please contact your vet.

Other Sources of Lead in Your Home

Lead Paint

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

Dirt

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

Dust

- The dust in your home can contain tiny amounts of both the paint and the dirt that contain lead.

Hobbies & Jobs

- Solder, fishing sinkers, bullets, and stained glass framing materials are some of the items in your home that may contain lead. You could also track home lead dust from your job site.

Have Questions?

For more information about protecting yourself and your family from lead, please visit:

<u>www.michigan.gov/lead</u>

Or you can call the Michigan Department of Health and Human Services at:

1-800-648-6942

The staff at this number will help direct you to the best department that can answer your questions about lead in your home.

To request a free or low-cost water test, please call the Flint Water Department at:

1-810-787-6537

To find out if you can get a free water filter, please call 211.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/16/2016 08:00:00
Operational Period End:	02/23/2016 08:00:00
Situation Report No.	44
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/18/2016 08:00:00
SEOC Hours of Operation End:	02/18/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 18, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Worked on potential donated warehouse opportunities.
- Long term recovery plan.

JIC:
- Continued routing public information materials for approval, including updated information on recycling, testing your water, and keeping kids safe. Received and posted additional translated materials to www.michigan.gov/flintwater.
- Capt. Kelenske gave an in-person interview with Steve Carmody of Michigan Public Radio.
- JIC staff assisted with a Governor Snyder press avail at the Flint State Office Building.
- Received and uploaded videos in American Sign Language and additional translated materials on www.michigan.gov/flintwater. Issued a news release about the availability of these materials.

Recovery Branch:
- Attended UCG Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings.
- Team Priority Visited Today: 5 teams in the field – Mobile Home Parks and list of addresses showing as having no contact.
- Team Priority Scheduled Tomorrow: Begin visiting the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- 5 American Red Cross Teams scheduled for Friday, February 19, 2016.

o Total homes visited:
- 26,724 (round 3 total)*
- 854 (today).

o Water cases (liters calculated by multiplying # of cases x 12):
- 192,576 liters or 16,048 cases (round 3 total)*
- 7,608 liters or 634 cases (today).

o Faucet filters:
- 7,917 (round 3 total)*
- 80 (today).

o Replacement cartridges:
- 7,123 (round 3 total)*
- 378 (today).

o Water Test Kits:
- 3,051 (round 3 total)*
- 150 (today)

*Totals updated to reflect newest information.

Planning Section:
- Developed and approved Sit Rep #44.
- Updated burn rates and projection costs, per request.
- Updated Flint Water Timeline.
- Participated in daily UCG, state agency, and distribution process meetings.
- Developed daily Governor's Report.

Operations Section:
- Participated in Unified Coordination Group briefing.
- Facilitated SEOC Agency briefings.
- Participated in Distribution Process meeting.

• Worked on situation report and press release.
• Warehouse Numbers as of 1800:
□ Water (liters):
• 754,553 liters or 62,879 cases.
□ Filters (faucet):
• 68,006.
□ Replacement cartridges:
• 427,808.
□ Test Kits (prepped):
• 34,932.
• PODs (Number as of 1700 2/17):
□ Water (cases):
• 55,860 liters or 4,655 cases.
□ Filters (faucet):
• 98.
□ Replacement Cartridges:
• 368.
□ Test kits:
• 194.

Finance Section:
• Review state agency costs reports submitted for the weekly status update.
• Identify additional lodging in Flint that can be direct billed to MSP for JIC and EOC staff working in Flint.
• Review agenda and reporting template for SBO meeting at MSP HQ on Friday.

GIS Branch Updates:
• Meeting with MDHHS, MDEQ, and Governor's Representative to discuss coordination of data.
• Updated Water Test Results dataset and created new maps.
• Working to fulfill FOIA request.
• Parcel Pairing.
•Added Sentinel Site Data to Governor's Web Map in ArcGIS Online
• Updated map of Access and Functional Needs Individuals for Recovery Unit
• GIS coordination call with Unified Coordination Group

DTMB:
• Continue to provide DTMB management SEOC updates.

DHHS-CH:
• Forwarded a request for a licensed medical professional, who has knowledge of lead, legionella, rashes, and other water health related concerns to be stationed at GCHD-EH division to assist with communicating MDEQ water results and health risks.
• Received information regarding a request for a webinar series, similar to the webinars currently being provided on Wednesdays to healthcare providers, be offered for Genesee County Intermediate School District (GCISD) personnel that is tailored to educators in Flint.
• Requested that the CHECC provide the SEOC with a CDC point of contact for the Commissioner of the Hispanic Latino Commission to reach out to for information on lead and lead poisoning, at the request of the Department of Civil Rights SEOC representative.
• Received information from the CHECC and UCG regarding the funding announcement given this afternoon by DHHS. This information was provided to the State Director and SEOC Operations Chief. Secretary Sylvia M. Burwell announced that $500,000 in funding will be provided to Hamilton Community Health Network, Inc. (HCHN) and Genesee Health System (GHS).

DEQ:
• Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.
• Secured vehicles and equipment for the Sentinel Sampling 2 crews.
• A collector App was developed by DNR GIS today to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.
• Provided information on a high lead-content test result from a Flint residence to the Governor's Office and Director by the 1pm press conference.
• Began planning for next phase of testing and data collections.

Unified Coordination Group (UCG):
• EPA canvassing team distributed EPA factsheets at 50 different locations throughout Flint and made contacts with parties interested in having EPA provide updates at their organizational meetings.
• CDC Epi Team continued to utilize a geocode database to assist the state with analysis of BLLs in children.
• UCG Daily Sit Rep available in MI CIMS.

Local EOC:
• National Guard completing transition to new unit on 02/18/2016.
• US Secretary of Health and Human Services Burwell visited Fire Station 5 POD and met with local stakeholders. LOFR attended site visit to brief on emergency response activities and answer questions.
• IC briefed University of Michigan All Hazards Team on emergency response activities, covering items such as volunteer management, communications strategies, etc.
• IC responded to FOIA request by MSU Law Clinic regarding distribution and usage of water by inmates in jail.
• Coordinating local volunteer needs for CDC outreach teams.
• 16 teams with MDEQ personnel out in the field support sentinel monitoring program and identification of lead service lines.
• Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels.
• Southern Baptist Disaster Relief out in the field with five teams for distribution of supplies to affected populations with access and functional needs.

Injuries:
• None reported today.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted [illegible]
12. Approve and begin implementation of a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations and expenditures.
2. Ensure accurate tracking and accounting of all commodities.
3. Continue to improve and maintain public information processes and strategies with all partner agencies.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
9. Continue to enhance situational awareness and common operating picture of all activities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.

Damage Assessment Summary

Joint Information Center / Public Information Officer

Flint Joint Information Center Daily Update

February 18, 2016

Situation Report

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 18.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, Michigan Departments of Environmental Quality, Agriculture and Rural Development, Health and Human Services and Transportation. The Genesee County Sheriff and American Red Cross were also present.

Tasks accomplished:
- Called local Flint schools to inquire about meetings and community events.
- Media hotline staff answered fewer than 10 emails and phone calls that ranged from media inquiries about Flint water to groups looking to send machines to help with pipe issues.
- Created a media monitoring report and looked for misinformation; found none.
- Issued a news release about a recycling event on Saturday with MSU student athletes.
- Issued a news release about Michigan.gov/flintwater hosting key information in American Sign Language and four other languages.
- Continued routing public information materials for approval, including updated information on recycling, testing your water, and keeping kids safe. Received and posted additional translated materials to www.michigan.gov/flintwater.
- Received and uploaded videos in American Sign Language and additional translated materials on www.michigan.gov/flintwater. Issued a news release about the availability of these materials.
- Drafted social media posts for approval and distribution.
- Continued printing emails from JICNews and JICManager email accounts for submitting to FOI staff.
- Updated the Daily JIC Activities log to catalog actions completed for the day and planned products and events for the week.
- Capt. Kelenske gave an in-person interview with Steve Carmody of Michigan Public Radio.
- JIC staff assisted with a Governor Snyder press avail at the Flint State Office Building.

Agriculture and Rural Development (MDARD)

As of 10:00 on 2-18-16:
- 26 water assessments were completed
- 26 In-Use samples were collected.
- 2 sampling appointments have been scheduled.
- No new results

As of 1600, 2-18-16:

We are preparing to rotate out staff with six replacement food inspectors and 2 sanitarians from Genesee County Health Department. Training will start on Monday, February, 22, 2016

Staff spoke with the Genesee County Land Bank about garden projects on their properties and provided them with links to MSUE bulletins

An updated pet health document was provided to the JIC for approval. This clarifies that pets in homes with greater than 150 ppb lead in water should be provided with bottled water. Once approval is received these documents can be distributed.

American Red Cross (ARC)

The American Red Cross deployed 5 Water Response Teams on Thursday, 2/18/16. We plan to deploy 5 teams tomorrow as well.

The Volunteer Reception Center (VRC) was operating today from 9am to 5pm, and the plan is for those hours to continue daily, through Sunday. 76 event-based volunteers (EVB) were processed through the VRC by 4 pm today. 73 EVBs were placed on projects today.

46 boxes of bottle recycling kits were assembled today (4,600 kits).

Civil Rights (MDCR)

Continue to monitor media and state agency activities for issues impacting underrepresented, at-risk, and populations with barriers to services and information. Facilitated contact between Commissioner with Hispanic Latino Commission with questions on lead and lead poisoning and MDCH/CDC point of contact. Notified staff as to community groups active in recovery.

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

Forwarded a request for a licensed medical professional, who has knowledge of lead, legionella, rashes, and other water health related concerns to be stationed at GCHD-EH division to assist with communicating MDEQ water results and health risks. The request is currently being routed by SEOC Logistics through donations management personnel in order to determine if any offers for the donation of personnel/volunteers can be identified to fulfill this request. The request was also forwarded by the CHECC to the UCG for assistance.

Received information regarding a request for a [illegible]
healthcare providers, be offered for Genesee County Intermediate School District [illegible]
in Flint. This request was forwarded to the SEOC MDE EMC to coordinate with the CHECC as appropriate.

Requested that the CHECC provide the SEOC with a CDC point of contact for the Commissioner of the Hispanic Latino Commission to reach out to for information on lead and lead poisoning, at the request of the Department of Civil Rights SEOC representative. This connect was made between the Commissioner and the DHHS Liaison Officer in the CHECC. The DHHS LNO will work with the CDC representatives in the UCG to communicate with the Commissioner as requested.

Received information from the CHECC and UCG regarding the funding announcement given this afternoon by DHHS. This information was provided to the State Director and SEOC Operations Chief. Secretary Sylvia M. Burwell announced that $500,000 in funding will be provided to Hamilton Community Health Network, Inc. (HCHN) and Genesee Health System (GHS). Each entity will each receive $250,000 in emergency supplemental funding to hire additional personnel and provide more lead testing, treatment, outreach, and education to meet the increased need for health services in the Flint community. The funds will come in as a "One Time Supplemental Grant," with no match/no repayment options.

The DHHS ASPR released Site Specific Guidance for blood lead level testing and follow-up care for children exposed to lead. This document has been posted to MICIMS in the MDCH Activity Log.

Continue to work with the JIC, LARA, CHECC, and the SEOC PIO to ensure that the translated flyer for pregnant women are processed for approval and that the English and Spanish versions are ready to be printed and sent to the GCHD.

Corrections (MDOC)

Warehouse 2 was fully operational today. The 7th Day Adventists were on site to job shadow.MDOT is dedicating 2 employees to the effort. DTMB continues to dedicate 2 trucks with drivers.

A box truck operated by MDOC staff was involved in a minor vehicle accident in the parking lot of POD #3. A van struck the side of the box truck. There was minor damage to the box truck and the van's front end was damaged. No injuries or violations were issued. A Police report was completed by Flint PD. We also had a box truck operated by MDOC staff back into the overhang of POD #3. No damage to the vehicle, police report completed by Flint PD.

The permanent replacement battery was delivered today for the forklift at Warehouse 2.
To following safety concerns at are still in process at Warehouse 1:
-Security staff to restrict access (In process)
-Floor tape designating machine and pedestrian areas (Tape arrived today and will be placed on the floor by the weekend)

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward.

We have been assigned assess and prepare a permanent staffing structure and equipment analyses for all warehouse operations.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week. Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC

306 DEQ and 12 were MDARD test kits were delivered from Flint to Lansing today.

Education (MDE)

MDE staff and Genesee ISD business and program staff met on Flint Emergency Fund reporting requirements.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

- Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.
- A collector App was developed by DNR GIS to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC. Display currently operational.
- Began planning for next phase of testing and data collections.

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team.

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.

Faucet Project information is being prepared for the affected facilities. LARA continuing efforts to plan and schedule faucet replacements for Flint facilities. LARA is working with MDOC to track and store incoming material at the warehouse.

Translation services for various documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language. Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort with state agencies. Arrangements in progress for assistance to various ethnic communities to provide services.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 1811152016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

11. COMMUNICATIONS: No communications issues at this time.

P: RRF cell phones alternate for WRTs
A: Personal cell phone
C: 800 MHz radios issued to PODs and WRTs.
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan.
• An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes has been handed of per RIP/TOA
• OUT (last 24 hours)
Bottled water-5,231 Water (Gallons)-228 Lead Testing Kits-230
Pitcher (23 cup)-0 Brita Faucet Filter-37 Brita Replacement Cartridge-170
Pur Filter-75 Pur Replacement Filter-284

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles

23 cup Water Pitchers		0	0	2808	2808	0

This is the daily 2-1-1 summary on the Flint Water Response for Monday, February 15, 2016

GENERAL INFORMATION:

- **There will be an informational meeting one of the class action lawsuits** on Tuesday, February 16, 2016 from 6:30 pm – 8:30 pm at 432 N. Saginaw Street, Flint, MI in the North Bank Grand Ballroom at University of Michigan Flint Campus. More information at www.flintwaterclassaction.com. The web site is operated by one of the law firms filing a suit.
- **United Way Worldwide announces details of Beyoncé's Formation World Tour benefitting Flint** *with proceeds to support United Way of Genesee County's work to help the people of Flint dealing* with the Flint Water Crisis. Fans will have an opportunity to donate to the Flint Water Fund after purchasing their tickets. Every $10 donated is an entry for an upgrade to the best house seats at each concert. *US Tour tickets go on sale February 22nd.*

CALL VOLUME:

Central Michigan 2-1- 1was closed today for the Presidents' Day holiday. SW Michigan 2-1-1 partner, which regularly handles after hours and weekend calls for Central Michigan, reported a few waves of calls that pushed wait times to approximately 10 minutes for short periods.

Call summary for the week of February 8-14

- 777 callers used the Flint Water prompt to reach a 2-1-1 agent.
- *1009 referrals were provided (1.3/caller) and there were 30 unmet needs recorded.*
  - The majority of calls came from zip codes 48504 and 48505
  - The most common requests were for Drinking (Bottled) Water, Water Filters, and Tap Water Testing.
  - 17 calls were to donate or volunteer.

SPECIAL NEEDS/REQUESTS

☐ **American Sign Language interpretation may be available for Flint-area events** through a professor at Mott Community College. Email Tom Page at Michigan 2-1-1 for contact information: tpage@uwmich.org.

☐ **Good360, a 501(c)(3) nonprofit that coordinates bulk donations from corporate partners, has identified a potential source of high-capacity water filters** for restaurants, churches, shelters and other businesses that are not currently eligible for free water filters. These are filtering systems, not faucet filters. ***Good360 is working to verify these filters meet NSF standards for lead and copper, but is asking for feedback if there is a need by local businesses and agencies for this kind of filtering option.***

RUMOR/SCAM CONTROL

- A community agency in Flint notified Michigan 2-1-1 that a client said they received a referral from 2-1-1 to a clinic asking for payment to do a child lead screening test. Central Michigan 2-1-1 verified there are no children's lead testing clinics in the database that charge a fee. The only locations in the 2-1-1 database are coordinated by the Health Department, either onsite or at various community locations. As of this time adults are charged a fee for lead testing. 2-1-1 has asked the community agency to seek additional information to assist with 2-1-1's investigation.

☐ Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these

efforts. **Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**

- https://www.facebook.com/IamShiftingParadigms/posts/821354508011097
- https://pages.giveforward.com/emergency/page-42jxcw4/
- http://www.plumfund.com/charity-fundraising/help-flint-mi-residents-relocate

UNRESOLVED

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**

1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

☐ **2/10/16 UPDATE:** Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

☐ **From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

☐ **From 2/11/16: Community partners report Flint residents concerned about 2-1-1 sharing their personal information.** Service agencies in Flint report some residents are afraid to call 2-1-1 or choose the Flint Water prompt due to concerns that 2-1-1 is tracking and reporting their needs and personal information to government agencies.
Update 2/12/16: 2-1-1 is reviewing the language of the phone prompts and hold messages to determine the best way to reassure callers that **2-1-1 calls are confidential and 2-1-1 will *never* release information without first receiving permission from the caller.**

☐ **From 2/12/16:** 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. **CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?**

Rumor Control | Health & Water Quality/Safety Concerns | Taxonomy Terms |Q&A | Printed Materials

Background Information:

Early January, Flint Water situation has been declared a State of Emergency and the Governor's Office got involved to set up resources. The concern is the lead and general quality of the water, piping, lead poisoning risk and health impacts. January 17, President Obama Signed a Declaration of Emergency releasing FEMA assistance for 90 days. Here's the press release. 2-1-1 is being advertised as the place to give and get help.

Many residents are upset at the situation and lack of steps being taken to fix the situation and the government is hopeful the partnership with us to get information to people and help assess the situation from people (unmet needs, trends, etc) will help them take steps – certainly along with other things they're doing! ***It's really important we express empathy and compassion to these callers, take time to listen, offer the help we can, record unique situations and report them to the partners – please email Jennie Pollak (jennifer.pollak@lifewayscmh.org) and I'll pass them up!***

The relief efforts include bottled water giveaway sites, water testing giveaways sites, water filter sites, homebound delivery of supplies, recycling centers, lead poison testing, as well as organized bottled water & monetary donation sites and volunteer organization.

Rebuild efforts have begun being announced. A lead pipe removal plan was announced on 2/9/16 by Flint Mayor Karen Weaver and will be led by retired Brigadier General Michael McDaniels. The plan will replace **residential** lead pipes with copper and is expected to begin by the end of March. There's no cost to homeowners. State Funding requests have been proposed.
www.detroitnews.com/story/news/michigan/flint-water-crisis/2016/02/09/flint-mayor-announces-lead-pipe-removal-plan/80052634/

Canvas efforts are in place to visit all residents, door to door in the City of Flint, providing filters, testing kits & drinking water. Teams are starting in neighborhoods with the highest lead concentration first. If the resident is not home, a flyer will be left instructing them to call 2-1-1. Treat these caller as a new caller, assessing their ability to pick up supplies or need for delivery. Canvas teams will make a second pass to reach residents.

Rumor Control – Record Referrals as OOD Disaster Related Rumor Control

Niagara Bottle E.Coli Rumor – Refer callers to Niagra Bottle Company website or the Consumer Affairs Dept to see if the bottles they've received were recalled. The recall was issued Summer 2015 from 2 Pennsylvania plants. www.niagarawater.com/consumer-notice/ Save OOD Referral for **Disaster Related Rumor Control** and Agency: **Niagara Bottling Company**

Lead found in Bottled Water Received by Fire Stations – See official press release of <Dept of Environmental Quality Total Dissolved Solids> testing performed of bottled water. There's over 21 bottles of water that were tested – Sparklettes and Star Wars are some of the brands. Save OOD Referral for **Disaster Related Rumor Control** and Agency: **Joint Information Center.**

FEMA Relocation Assistance – There is no relocation assistance currently being provided as this is a Declared Emergency, not Declared Disaster. Please let residents know relief efforts are focused on water resources, testing and health support. Save OOD Referral for **Disaster Related Rumor Control** and Agency: **FEMA.**

Health and Water Quality/Safety Concerns; several questions and concerns have been reported – safe to bathe, cook, etc. Refer to <WATER SAFETY FLYER> for basic information or refer for additional questions/concerns. Save referral for **Water Quality Assurance** for **Central Michigan 2-1-1** when basic information is provided and to another agency when referral is provided.

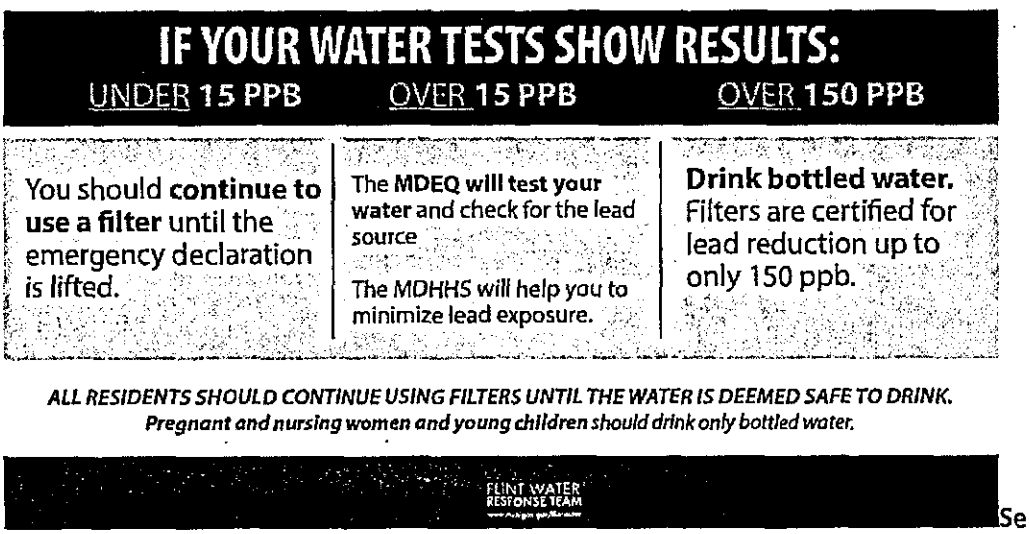
Q&A:

Lead Test Results Received: Several residents have called asking what to do after receiving their test results. Please advise as directed below. Residents will receive their results in the mail (we're hearing 3-4 weeks) after returning the sample, and results will be posted online to www.michigan.gov/flintwater as soon as they're processed. Click "Testing Results" to see residential results. Please do not share individual household results, but instead direct them to find the file online. We are not lead testing experts! Please record this call as Water Testing Information (saved in OOD box). If you're able to answer their question, save the agency as Central Michigan 2-1-1 (saved in dropdown list). If you refer to the website, save agency as www.michigan.gov/flintwater (saved in dropdown list).



Se

Class Action Lawsuits – An informational meeting about the Class Action Suits will be held at UofM Flint Tuesday, February 16th. Information is noted in the ACLU record. A few lawsuits have been filed against the City of Flint and Governor Snyder, etc. regarding the Water Situation. If callers want more information or to join, refer them to the ACLU by Taxonomy term: **Class Action Litigation.**

Lead Poisoning Results – Lead poisoning results will be received by the clinic or doctor that performed the bloodwork and follow up will be arranged; however if a family is concerned about positive lead poisoning test results for their child, please refer to **Case/Care Management** programs. If the child has Medicaid, refer to CHAP through the Greater Flint Health Coalition **(Case/Care Management)**. If another form of insurance, please refer the Genesee County Health Department **(Case/Care Management*Lead Poisoning)**.

Governor Constituent Services – Constituent Services is available for residents to share concerns, complaints, etc. Many Flint callers are upset, remember to be empathetic and understanding for what they are experiencing, but if we are not able to resolve their concern, or provide referrals, or if they are

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/09/2016 08:00:00
Operational Period End:	02/16/2016 08:00:00
Situation Report No.	39
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/13/2016 08:00:00
SEOC Hours of Operation End:	02/13/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (February 13, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Fielded resource requests.
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls.

JIC:
- JIC (Shanon Banner) was on call this weekend.
- On Monday (State holiday), she will be in the SEOC in the morning, and working from her office in the afternoon.
- JIC will be back up on Tuesday.

Recovery Branch:
- Attended Local brief, SEOC State Agency briefing meetings, Distribution Process meetings.
- Team priority visited today: Water distribution and rapid response.
- Team priority scheduled tomorrow: Visit the 83 addresses of City of Flint residents where there is no valid record of having been contacted. Continue with Rapid Response when needed.
- 8 American Red Cross Teams scheduled for Sunday, February 14, 2016.

o Total homes visited:
□ 23,169 (round 3 total).
□ 788 (today).
o Water cases (liters calculated by multiplying # of cases x 12):
□ 154,644liters or 12,887 cases (round 3 total).
□ 5,292 liters or 441 cases (today).
o Replacement cartridges:
□ 5,173 (round 3 total).
□ 305 (today).
o Faucet filters:
□ 7,752 (round 3 total).
□ 96 (today).

Planning Section:
- Published Sit Rep #39.
- Submitted daily Governor's report with research and clarifications.
- Participated in daily calls and meetings with UCG, state agencies and distribution process.
- Updated the Flint Water Timeline.

Operations Section:
- Attended 0830 UCG briefing conference call in SEOC.
- Conducted 0930 and 1600 State Agency Briefings.
- Attended 1030 and 1830 Distribution Process meetings.
- Responded to questions from Representative Kildee's office.
- Directed question on POD hours from the UCG to the State Director.
- Filed accident report of state EMC falling in SEOC to MSP Operations (Safety Officer), EMHSD command, and DTMB facilities.
- Discussion ensued about National Guard mission which has a current end date of Feb 16 (Tuesday).
- Warehouse Numbers as of 1800:

□ Water (liters):
- 734,755 liters or 61,230 cases.

□ Filters (faucet):
- 47,132.

□ Replacement cartridges:

□ Test Kits (prepped):
• 28,823.
• PODs (Number as of 1700 2/12):
□ Water (cases):
• 32,544 liters or 2,712 cases.
□ Filters (faucet):
• 85.
□ Replacement Cartridges:
• 317.
□ Test kits:
• 88.

Finance Section:
• Update Spending Plan.
• Reviewing Agency Expenditures for inclusion as Category B eligible costs.
• Begin updates to cost reports for upcoming week submittal.

GIS Branch Updates:
• *Meeting with ARC about lists for Red Cross missions.*
• MSHDA/HUD Homes.
• Water Pressure Contours Map.
• Water Results Test.
• Filter points.
• Daily update Maps.

DTMB:
• Addressing parking issues at the Flint State Office Building parking ramp.
• Procured first aid kits for warehouses.
• *Providing rights to DEQ SharePoint site.*

DHHS-CH (weekly):
• The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to work with federal partners in the UCG on prioritized requests for assistance.
• MDHHS continues planning efforts in support of lead blood level testing for children age 6 and under.

DEQ:
• Deployed Sentinel water sampling collection crews and continued data collection and monitoring.
• *Continued assembling data for EPA Emergency Administrative Order and second EPA request.*
• Reviewed incident objectives to reflect Director's priorities for upcoming week.
• Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.
• Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 234 of 402 homes were visited.

Unified Coordination Group (UCG):
• There is a public meeting at noon today that EPA staff will attend on "When is this over?".
• New mental health teams are in today. They had an orientation at the UCG from 0930-1030 to discuss objectives and tasks.
• MDEQ teams did 180 home inspections and discovered 5 lead lines.

Local EOC:
• Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
• Approximately 210 households have agreed to be sentinel monitoring points for long-term water testing as of 02/13/2016.
• Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
• Sentinel Site Monitoring Teams will rally at 1000 instead of 0900 on 02/14/2016 to avoid low temperatures in earlier morning hours.
• Planning for transition from state agency support personnel to local personal in EOC.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

12. Develop and implement a comprehensive long term recovery and transition plan.
11. Ensure accurate tracking and accounting of all donations.
5. Continue to maintain adequate staffing to support operational requirements.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
9. Enhance situational awareness and common operating picture of all activities.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWCC, and the US Department of Health and Human Services Unified Coordination Group (UGC).
3. Improve and maintain the public information strategy and process.
6. Develop an overview of possible assistance programs.
4. Develop a long term public health and services plan.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
1. Ensure all households within impacted community have required resources and are included in DEQ water sampling plan.
2. Ensure accurate tracking and accounting of all commodities.

Michigan Department of Health and Human Services
Public Act 3 of 2016
FY16 Flint Supplemental #2 (January 2016)

	Appropriation	Contractual FTEs	GF	State Restricted	Federal	Gross	Detailed Description
FLNT16-01	Food Inspections		$ 200,000			$ 200,000	
							- These funds would be used to support Genesee County's Food Safety Division which has delegated authority from MDARD for inspection and response activities at licensed food service establishments (i.e. restaurants, schools, hospitals, etc.).
							- These funds will go to support an additional field inspector and the backfill of the Environmental Health Manager.
							- The additional inspector is needed to assist with the implementation of the new restaurant and food service facilities water sampling requirement which will require initial and complaince review inspections. Inspection rate intervals will also likely increase because County Health Officials will need to perform additional compliance reviews given the latest emergency declaration.
							- The Environmental Health Manager is necessary to coordinate inspection and compliance review schedules, coordinate with other county resources for data collection and reporting at the state and county levels, and coordinate other IT issues related to system monitoring.
							- These staff will be limited term staff. Currently the approp for local health department food safety is part of the public health budget and DHHS has always funded the state portion of this function.
							- These funds have not been increased in years.
FLNT16-02	Other Medical and Behavioral Health Concerns		$ 275,000			$ 275,000	
	- Med Team						-These funds will finance a team of experts to assess any potential linkages from the increase in Legionaire's disease with the changeover from the Detroit to Flint water systems.
FLNT16-03	Water Resources		$ 4,612,800			$ 4,612,800	
							-To reflect the ramping up of distribution efforts to local health entities and other community partners, an increase in supply is required for purchases related to water filters, faucet mounts, replacement cartridges and bottles.
FLNT16-04	Cost for epidemiologists to conduct detailed analysis of EBL reports	2	$ -	$ -	$ 145,000	$ 145,000	
							- Supports two contract epidemiologists (MPHI) to analyze blood levels in City of Flint to conduct more specific detailed analysis not currently conducted.
							- Positions support the review and analysis of the EBL reports for all 13 high risk communities to analyze specifically by zip code, at a more granular level as opposed to county level.
							- Positions support the analysis of patterns and trends to determine the appropriate next steps and will coordinate with health department.
							- Previous supplemental did not include epidemiologists with a more detailed focus on blood lead analysis.
							- Epidemiologists will take data that shows where investigations have occurred, where purchases have been made, to determine whether the high risk areas have been addressed.
							- Overlay zip code data with those addresses that have received filters to determine how many homes are in the highest need have received filters and where we need to focus our energy in getting out filters.
							- Use available Maternal and Child Health Block Grant funding.

	Appropriation	Contractual FTEs	GF	State Restricted	Federal	Gross	Detailed Description
FLNT16-05	Lead abatement - Field Contractual	3.5		$ 1,510,000		$ 1,510,000	
							- Costs reflect contractual and service costs to abate lead from 100 additional homes in the City of Flint. October supplemental funded the abatement of 250 homes.
							- Contractual funds will support 3.5 FTEs, 2.5 field consultants to conduct abatement and one to assist with client application and form processing
							- Abatement activities include the replacement of plumbing components, faucets, aerators and fixtures.
							-We have contractual and state staff that currently do this to identify the plan and cost. They will use ETC reports to identify which homes need abatement.
							-These funds do not pay for ETC. These funds pay for contractors to pay for the physical changes to the home, including window, wall or floor replacements.
							-Use Healthy Michigan Fund available lapse funding
FLNT16-06	Additional lead investigations	0		$ 90,000		$ 90,000	
	- ETC						- Will support ongoing ETC Inc. contract activities that are determining the sources of lead exposure and develops a plan via a report to the family's nurse case manager to reduce and or mitigate lead exposure.
							-ETC determines all the environmental samples in the home including paint, soil and dust.
							-Samples are all sent to their labs to determine what the highest readings of lead are and a plan to remediate.
							-Reports are generated after lead analysis and shared with nurse case manager to determine a follow up health plan for the family.
FLNT16-07	Nurse Case Mgt and NFP	1	500000	$ 25,000	$ 45,000	$ 570,000	
	-Nurse Family Partnership $500,000						-Funds support the increased testing and follow up necessary with the new homes being investigated.
	-One FTE / contract nurse case manager $70,000						-Nurse case managers provide follow up with families, provide nutrition counseling, and coordination with Environmental Blood Level (EBL) investigations through ETC.
							-We expect with the increased testing that the additional nurse / case management will focus on those kids that have already been found to have elevated levels, will manage the health care of those children, will work with the parents to ensure they have everything they need.
							- The additional nurse case manager will be necessary as part of the recent ramp up to address intensified EBL investigations and was not accounted for in the previous supplemental.
							- This individual will provide referrals to relevant benefits/services such as WIC, SNAP benefits, etc.
							- *GCHD have noted that nutrition counseling is a big problem and they're looking at this position being the coordinated link between nutrition education and other medical needs.*
							- Will inform families that if children eat iron rich diets, then their bodies won't absorb lead as opposed to those who are malnourished.
FLNT16-08	GCHD and Food Bank	2	$ 1,037,200		$ 120,000	$ 1,157,200	
	- GCHD Contract $120,000						-Contractual FTEs will work with the Genesee County Health Department (GCHD) to build educational efforts in that community to develop a more detailed education plan.
	-Food bank - $1,037,200						-The FTEs will direct people on where to get healthy food, faucets, and where they can get follow up care.
							- $1 million to expand food bank partnerships in the City of Flint
							- Their work will be part of the promotion of all the healthy behaviors that helps to treat these problems.
							- *Flint is already one of the high risk communities for lead exposure in paint, soil and other environmental areas. GCHD has noted that there is big demand on educating the community.*
							- This educational component was not part of the previous supplemental.
							- Funds will help with media promotions and will send community groups and community educations out to various individuals working on the lead issue.

	Appropriation	Contractual FTEs	GF	State Restricted	Federal	Gross	Detailed Description
FLNT16-09	Ed & Access- CAHC, PtoP, CHAP		$ 1,570,000			$ 1,570,000	
	- CAHCs $550,000						- This proposal will provide funds to support the programs operated by the two existing Child and Adolescent health centers.
	- P to P expansion $720,000 & 6.0 FTEs						- *Programs will provide medical and other related support services in every school in Flint.*
	- CHAP $200,000						- Funding will also go to support the Children's Healthcare Access Program to assist clients to establish a primary care medical home or to obtain the timely and essential services as recommended by their primary care provider.
							- These funds are intended to reduce emergency room usage and promote the best evidence based care for the children and provide support for Medicaid children related to transportation, case management, mental health services, and nutrition education access.
							- Proposal also includes funding to expand the Pathways to Potential model to provide support to City of Flint residents connecting them to the proper benefits and getting them the services they need.
							- CAHC are onsite medical clinics in the schools to provide health education and if parents sign consent forms they treat the children for minor issues.
							- They have a general practicitioner.
							- Flint currently has Adolescent Health Centers in high schools (some upper middle schools) - (not child health centers) currently
FLNT16-10	Nutrition – WIC		$ 30,000	$ 927,000		$ 957,000	
	- Co-locate WIC staff $872,000						- This proposal will finance the cost of WIC staff that will be co-located within schools and other health centers to increase WIC enrollment and increase the access and availability of WIC benefits.
	- Lactation consultant $ 85,000						- Currently, children up to the age of 5 receive services through WIC; this funding would enable children ages 5-10 to receive nutrition education and counseling as well as screening and referral to other social services. ($55,000 Federal & $30,000 GF)
							- DHHS would need to negotiate this proposal with the federal government to receive federal funding.
							- This funding request also dedicates one lactation consultant to the Genesee County Health Department to promote and support breastfeeding education, provide services to protect children from lead exposure, and promote cognitive development.
							- Research shows that children who are breastfed are healthier and have better immunity against diseases.
							- Assume Medicaid funding for the lactation consultant.
							- Have two existing clinics (not necessarily at capacity).
FLNT16-11	Behavioral Health and MC3		$ 1,335,000	$ 2,535,000	$	$ 3,870,000	
	- Money to CMHs $3,670,000						- *Directly appropriated to CMH to fund crisis services and additional behavioral health and developmental services. ($2,535,000 Federal & $1,135,000 GF)*
	- MC3 expansion $200,000 GF						- Funds care coordination between key involved entities such as schools, county and local agencies, mental health providers, health providers as well as case management for children and families.
							- Funds an expansion of the Michigan Child Care Collaborative (MC3) program into Genesee County to provide support to PCP and pediatric offices and clinical services to children and families.
							- MC3 is a new program that is only parts of the state and expansion is strongly supported.
							- Funding supports treatment of children with blood lead levels equal to or higher than 10 and also treatment of lead-associated Attention-deficit/hyperactivity Disorder (AD/HD).
							- Treatment includes diagnostic testing, nurse visits, environmental health assessment of home.
							- Assume Medicaid funding.
FLNT16-12	CMH Crisis Counseling		$ 500,000			$ 500,000	
							- Crisis support and counseling through Community Mental Health organizations.
	Total FY16 Supplemental Funding Request	8.5	$ 10,060,000	$ 2,552,000	$ 2,845,000	$ 15,457,000

Is this something that would warrant looking into and for potential fraudulent activities or at least educating folks on a possible scam?

Subject: List of those on on the Flint Water System

Importance: High

I need a list of all addresses of those on the Flint water system. Apartments need to be shown as such with the number of apartments. Also, all franchise customers need to identified. Would like full address and names if possible.

Would like no later than Friday or sooner. Who can do this??

Thanks in advance.

Yes this makes sense. I will forward to the MIOC. There is an analyst that works exclusive to flint, may be a product that they can put together as a briefing.

I will follow up and let you know.

Subject: Safety bulletins/advisories for the Flint area

Andy,

Educate me on the process. Since MSP no longer has "boots on the ground" with the door to door teams, we lost that safety officer briefing that would tell the teams and folks working on the response/recovery that there are potential safety concerns. Issues like recent shootings, maybe a rash of assaults, B&Es, or gang violence in a particular area in Flint would be nice to know on a daily basis or even every few days? I'm guessing the Flint city police department isn't sharing any hot information to the rest of the public safety entities about up-ticks? I'm sure the Flint post has a pulse on some of the issues that are developing. Does the fusion center get info daily or as needed that comes from Flint exclusively?

We have liaisons down in the unified coordination group and local EOC (in Flint) and it would be nice to be able to give them some info about any recent crime trends, BOLS, or anything else related to the safety of all there.

Does that make sense?

Hello Ray,

It was nice speaking to you today. Attached is our contact listing with our main phone numbers in the State Emergency Operations Center and cell phone numbers for our team working in our Logistics and Operations positions.

Our Recovery Branch is still compiling the list of the vulnerable population group. I spoke to them and their initial draft report has 1900 addresses. This will increase as we get more information from other community resources.
I will send you the list once they feel comfortable with the data. It will be a fluid document but will give you an idea for planning purposes.

Have a good evening,
Kristi

Subject: Reminder: Send your agency activity bullet points

Hello -

This is a reminder that your agency's daily activity bullet points will be due within 90 minutes.

ACTIONS:
1. Compile a short list (5-7) of bullet pointed major activities for today.
2. Email the completed bullet points to msp-seocda1@michigan.gov.

Bullet points are due by 5p.m.

Thanks very much,

Subject: RE: FW: HSFE70-16-Q-0028 (FM-3700B)

I believe MDEQ has provided us information that states these filters are acceptable as a lead removing filter. From what I found though is the FM 2000B filter is a Basic faucet mount and the FM 3700B is an Advanced faucet mount. They both state they remove 99% of lead. The Advanced further states *that it removes 96% of mercury, and has MineralClear which filters water over natural minerals for a crisp refreshing taste. This only available with Advanced and Ultimate faucet filters.*

So I would not say they are a like & kind substitution overall , but for removing lead they are. Furthermore, I do not see that we had purchased the FM 2000B in the past.

Gents-

One of the contractors failed to fulfil our purchase order (see below) for a quantity of 20,000 PUR Faucet Mount Filter FM3700B. However, there is a proposal for the FM-2000B (this is part of the list Kendal provided.... see attached) that can be delivered this Friday 2/12/16. Do you want me to go forward with this buy or wait till the FM-3700B becomes available in the next 2 weeks? Please advise.

Thanks

Subject: Re: FW: HSFE70-16-Q-0028

Good evening Mr Jones,

The agreed delivery date in the Purchase Order was 2/9/16. Corrected termination notice below.

Contract HSFE70-16-P-0028 is hereby terminated in its entirety effective immediately, 2/8/16..

Atlas Coolers agreed to provide the contracted item and to deliver by 2/9/16 by 12pm.

This will impose a negative performance record for Atlas Coolers in the Contract Performance Assessment Reporting System (CPARS).

Thank you,
Kimberly Coakley

Hello Kimberly,

I am not sure if you have received my message or not regarding this purchase order. We were given notice today that the manufacture would not be able to fulfill this order by tomorrow due to supply demand. It would have to be pushed out for a few weeks while they catch up.

I do however have another PUR filter that has the same internal filter but is a different color that is available immediately in these quantities. It is a PUR FM200B filter as in the attached picture. I have also attached documentation on it for your review. Please let me know how you would like to proceed. We do apologize for the inconvenience.

Thank you,
Ben Jones

Hi Mr. Jones,

Thank you for your time this morning. Could you also verify the attached are what you have quoted and not an equivalent and send a revised quote without the tax?

Please confirm that the items you would be shipping meet the below requirement.

"To ensure the products meet health and safety codes, filters must be NSF Standard 53 compliant and all filters must be in the original sealed box/packaging."

Thank you,

Kimberly Coakley

Contracting Officer

Subject: RE: 2-1-1 Update Flint Water Response for Wednesday, February 17, 2016

Sorry, for the delay on this. The punchline for the two questions is:

1. I will ask someone to look into the websites cited. It is difficult to get information on organizations that are only web based, but we will see what we can do.

2. We are not actively investigating organizations that are soliciting donations in Flint, and we do not have a registry of vetted organizations. We have small staffs that cover consumer protection and charitable trusts. We do not have the resources to investigate every registered charity, but do make sure that charities meet the reporting and registering requirements. If there is a specific complaint we can follow up.

Hi Kyle,

Please see the highlighted section below. Can you check to see if DHHS is already looking into this with the Attorney General's Office? DHHS is the lead with 211 so even though the JIC receives these daily reports, we usually don't get involved us the question is directed specifically to us or we are asked by DHHS. Thanks!!

See Ron's message below. Highlighted section is at bottom of email.

I highlighted copy that may be worthwhile to pass along to the AG's PIO? They may have a website or information that can provide clarity to United Way 2-1-1.

This is the daily 2-1-1 summary on the Flint Water Response for Wednesday, February 17, 2016

GENERAL INFORMATION

- **Invitation to visit the Central Michigan 2-1-1 Center:** Jennie Pollak, Manager of Central Michigan 2-1-1 at LifeWays Community Mental Health in Jackson, is extending an invitation for Flint Water Response partners to visit the center and have a first-hand experience observing 2-1-1 in action. If you are interested, please email Tom Page at tpage@uwmich.org.

CALL VOLUME

Call volume from Flint residents appears to be stabilizing for the moment between 150-160 calls per day and around 200 distinct referrals (many callers have multiple needs and receive more than one referral).

CORRECTION

- Yesterday's item on shower filter distribution reported 200 filters were handed out in 15 minutes. News reports indicate there were 75 shower filters distributed in seven minutes. The report says cars were backed up for half a mile with residents seeking a shower filter.
  View the news report at http://www.abc12.com/home/headlines/Chaotic-water-filter-give-away-369026911.html

SPECIAL NEEDS/REQUESTS

☐ **Requests for shower filters dominated calls to 2-1-1 today** following yesterday's report of shower filter distribution at Berston Field House by native Flint basketball star Deanna Nolan. Callers asked when and where will shower

filters be distributed again. 2-1-1 is informing callers that, as of today, there are no official plans to distribute shower filters.

NOTE: The demand for shower filters was first reported by 2-1-1 on 1/26/16. The national organization Good360 has identified a corporate donor that is willing to provide shower filters below cost if there is interest in addressing this demand and distribution plan for making these filters available

RUMOR/SCAM CONTROL

☐ **On 2/16/16 Michigan 2-1-1 received a report that DHHS is looking at rehousing options** for residents in housing that 'environmental investigators' have deemed hazardous for human habitation.

2/17/16 UPDATE: 2-1-1 is following up with an identified lead from MDHHS for specific circumstances indicating how they would like 2-1-1 to respond on a case by case basis.

UNRESOLVED

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**

1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

☐ **2/10/16 UPDATE:** Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

☐ **From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

☐ **From 2/12/16:** 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. **CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?**

☐ **From 2/15/16: Good360, a 501(c)(3) nonprofit that coordinates bulk donations from corporate partners, has identified a potential source of high-capacity water filters** for restaurants, churches, shelters and other businesses that are not currently eligible for free water filters. These are filtering systems, not faucet filters. ***Good360 is working to verify these filters meet NSF standards for lead and copper, but is asking for feedback if there is a need by local businesses and agencies for this kind of filtering option.***

☐ **From 2/15/16:** Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. **Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**

- https://www.facebook.com/IamShiftingParadigms/posts/821354508011097
- https://pages.giveforward.com/emergency/page-42jxcw4/
- http://www.plumfund.com/charity-fundraising/help-flint-mi-residents-relocate

☐ **From 2/16/16: The Attorney General's Office is contacting organizations that are soliciting support for Flint,** according to one community partner, to verify their legitimacy and prevent scams or misuse of funds. **Is there a contact at the AG's office who can provide a list of vetted organizations to answer questions about the legitimacy of suspect organizations?**

MSP-SEOCOPSC

From: plangc
Sent: Thursday, February 18, 2016 8:20 PM
To: Kelenske, Chris (MSP)
Cc: MSP-SEOCSDEM; MSP-SEOCOPSC
Subject: Daily Summary
Attachments: 20160218_Residents_Sampled_Results-Copper.pdf; 20160218 _Residents_Sampled_Results-Lead.pdf; 2015-10-01 City of Flint Water Contamination-Shortage SitRep 44 2016-02-18.pdf

Capt. Kelenske,

Below is a summary of events for today. Peter Manning has reviewed the Sit Rep. The Operations Section Chief (F/Lt Covey) reviewed and approved also.

Update 2/18/16 – 45th Day (44th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #44.
2. Maps: Residential Water Sampling Results for lead and copper.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Begin visiting the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- 5 American Red Cross Teams scheduled for Friday, February 19, 2016.

Items to Note

- US Department of Health and Human Services visited Fire Station #5 POD today. Per Lt. Roach the visit went very well.
- MDEQ has initiated the lead of 15 sentinel monitoring field support teams today which are targeting the identification of lead service lines.
- American Red Cross Teams visited the final three mobile home parks today and 34 identified homes.

- United States Secretary of Health and Human Services Secretary Sylvia M. Burwell announced that $500,000 in funding will be provided to Hamilton Community Health Network, Inc. (HCHN) and Genesee Health System (GHS).
- MDHHS-CH Forwarded a request for a licensed medical professional, who has knowledge of lead, legionella, rashes, and other water health related concerns to be stationed at GCHD-EH division to assist with communicating MDEQ water results and health risks.

Unified Coordination Group (UCG):

- EPA canvassing team distributed EPA factsheets at 50 different locations throughout Flint and made contacts with parties interested in having EPA provide updates at their organizational meetings.
- CDC Epi Team continued to utilize a geocode database to assist the state with analysis of BLLs in children.
- UCG Daily Sit Rep available in MI CIMS.

Local EOC:

- National Guard completing transition to new unit on 02/18/2016.
- US Secretary of Health and Human Services Burwell visited Fire Station 5 POD and met with local stakeholders. LOFR attended site visit to brief on emergency response activities and answer questions.
- IC briefed University of Michigan All Hazards Team on emergency response activities, covering items such as volunteer management, communications strategies, etc.
- IC responded to FOIA request by MSU Law Clinic regarding distribution and usage of water by inmates in jail.
- Coordinating local volunteer needs for CDC outreach teams.
- 16 teams with MDEQ personnel out in the field support sentinel monitoring program and identification of lead service lines.
- Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels.
- Southern Baptist Disaster Relief out in the field with five teams for distribution of supplies to affected populations with access and functional needs.

Subject: Water crisis march, Flint, 02/19/2016
Attachments: march route.jpg

All information that we have is basically outlined in this article:
http://www.mlive.com/news/flint/index.ssf/2016/02/details_on_national_march_with.html

The march is definitely happening tomorrow, as there was some confusion today with a stage being built on the Water plant property without the City's permission, which subsequently had to be taken down again.

Traffic being shut down between Metropolitan Baptist Tabernacle and the Water plant will impact the supply route between the warehouse and Fire Station 5 POD, if Dort Hwy is the primary supply route (traffic shut down at Dort/Stewart).
The Water plant is also in proximity to Fire Station 6, so that POD might be indirectly impacted (however, supply between Clio Rd warehouse and the POD would not be an issue).

Kevin,

Below is the status of the 5 addresses you provided.

-The Property was marked as abandoned on 1/16/16. . If the resident is claiming no contact, we will put them on the RRT list.

- Parcel is marked as unvisited. We will put it on the RRT list

it-This is not listed within the City's Parcel Database. If the resident is claiming no contact, we will put them on the RRT list.

- Parcel is marked as unvisited. We will put it on the RRT list

This parcel was marked as abandoned on 1/17/16. . If the resident is claiming no contact, we will put them on the RRT list.

Thank you so much for bringing this to our attention. We will move forward with these and hope to have them visited as soon as possible.

Thanks,

Alex

Subject: GC EOC weekend staffing

Lt. Covey,

As discussed over the phone, I am trying to find out if I should report to the local EOC over the upcoming weekend, 02/20-02/21/2016.
The EOC will be open over the weekend. According to the schedule that was sent out last week, I am not assigned for the weekend. With Jay being demobilized and Lt. Roach working remotely, this would mean that there is no EMHSD staff is assigned to Flint over the weekend. That raises the question if without EMHSD staff here, the Planning Section at the SEOC would still need to receive bullet points and a daily SitRep at the end of the day?

It is my understanding that during most emergencies, local EOCs do not provide that kind of information to the SEOC on a daily basis. If it is necessary to provide the information, I would need to report to the EOC for at least some time in the afternoon.

The local EMC is trying to get MICIMS access through Mark DuCharme (who is a MICIMS trainer) for the new Logistics staff here on Friday, 02/19/2016. If local staff gets access to MICIMS, he would not have the need for me to staff here - as weekends are a lot less busy than weekdays.

Please let me know if you need me at the County EOC on Saturday and Sunday. If so, I would probably report here for 4-5 hours each afternoon.

Thanks,
Henrik

On the last tele town hall Rep Neely gave us an area of homes not contacted. We went to the area and the homes were abandoned....see below email chain.

Sweeney followed up but can you confirm with him or the jic to see if anyone followed up with Rep Neeley. Also, if the Rep has addresses we can double check them.

Below is the status of the 5 addresses you provided.

-The Property was marked as abandoned on 1/16/16. . If the resident is claiming no contact, we will put them on the RRT list.

- Parcel is marked as unvisited. We will put it on the RRT list

-This is not listed within the City's Parcel Database. If the resident is claiming no contact, we will put them on the RRT list.

- Parcel is marked as unvisited. We will put it on the RRT list

This parcel was marked as abandoned on 1/17/16. . If the resident is claiming no contact, we will put them on the RRT list.

Thank you so much for bringing this to our attention. We will move forward with these *and hope to have them visited as soon as possible.*

Thanks,

Alex

Alex-

As we discussed, based on the streets given to us in the below email chain, our GIS folks checked their records and found 5 residences that have not been confirmed to have been "touched" by any of our voluteers. The addresses they show needing contact are as follows:

Can you check to see what you have in your records? If in fact no one has been to these residences can you send a Rapid Response Team (RRT) to them?

Thanks

Dan-

We were just looking for those four streets that were given to us on the Legislative Briefing Conference Call. The streets we wrote down were Mackin, Chevrolet, Balling and McClelland. We can only find two streets that match in the city, Chevrolet and Mackin. These streets are near the elementary school but not the high school (as mentioned on the call)

Can you put me in touch with the person that made the statements on the call reference these streets so I can track down more information to better help us identify the houses we need to get to?

Thank you

AS OF **February 17, 2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38730** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38447 (99.3%)** of the parcels have been engaged as part of response efforts
- **30057 (77.6%)** of the parcels have been confirmed have some form of filter
- **12367 (31.9%)** of the parcels have volunteered for water testing

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **27168** residential parcels that have the ability to use the Flint Water System. Of these

- **27088 (99.7%)** of of the parcels have been engaged as part of response efforts
- **24095 (88.7%)** of the parcels have been confirmed have some form of filter
- **10986 (40.4%)** of the parcels have volunteered for water testing

Please let me know if you need anything else.

Bonnie:

I apologize. I must have gotten disconnected. I wanted to introduce myself. My name is Abby Goolsby. I am the Division manager for UPS that services your location. I would also like to set you up with my local management team. I have included 3 emails.:

Ryan Wildeman – Flint North manager
Mark Rothwell – Flint North supervisor

These two will be your primary point of contact should you need any UPS assistance. The center phone number is 810-720-6443.

As a contingency, you can also contact Bud Keefer, Flint South manager at 810-720-6444.

We would like to coordinate a facility visit at your convenience in the next week if that is possible. We will be ready to make the pickups as soon as the technology/hardware is setup and you are ready to go.

My contact information is as follows:

Abby Goolsby
Cell -
agoolsby@ups.com

Please do not hesitate to contact us. We look forward to working with you.

Sincerely,
Abby

Henrik,

- Since I am still in Flint, is it still the status quo that I don't have to submit printed materials at this time? I'll be back at the office next week, so I could start printing on Monday.

You can print on Monday. They have plenty of information to keep them busy.

- If we submit printed emails, do we still have to forward these emails to MSP-FOIAProject@michigan.gov, or does the forward only apply to emails we will send from now on?

Start sending emails to the FOIA email once you have printed everything else.

- With my estimate of documents sent out last week, I also advised them that I had permanently deleted approximately 1,800 emails, as the browser-based Outlook doesn't allow you to archive any files, and I was running out of mailbox space several times a day. Any update on the restoration of these emails?

There is a way to potentially do it from your computer. It was on the instruction sheet. Try it Monday, otherwise, they might be lost. I believe DTMB has the capability to pull the last 30 days only, but I'm not sure if we're pursuing that or not.

Let me know if you have other questions.

Thanks,
Bri

Thursday, February 18, 2016
HHS awards $500,000 in funding to Flint health centers
FLINT, Mich. – U.S. Department of Health and Human Services Secretary Sylvia M. Burwell today announced $500,000 in funding to help two area health centers increase and expand activities in response to the lead contamination of Flint's water.

Following a tour of the Hamilton Community Health Network, Inc. (HCHN), Burwell and HHS Assistant Secretary for Preparedness and Response Dr. Nicole Lurie, who is leading the federal response and recovery effort in Flint, announced that HCHN and Genesee Health System (GHS) will each receive $250,000 in emergency supplemental funding to hire additional personnel and provide more lead testing, treatment, outreach, and education to meet the increased need for health services in the Flint community.

"We are focused on supporting the people of Flint by helping to ensure they have access to clean water and the health services they need to mitigate the effects of lead exposure," said Burwell. "This additional funding will allow health centers in Flint to enhance their lead testing efforts and quickly hire more staff for community outreach and to better meet the needs of the people they serve."

In addition to touring HCHN, Burwell met with community members and elected officials, including Governor Rick Snyder, about the federal government's response and recovery effort. The focus of the federal response is to work at every level of government to support state and local officials in ensuring Flint has access to safe water, and there is a clear understanding of the impact of lead exposure on residents' health in order to mitigate the damage.

"Primary care, which includes ongoing lead screening, follow up, and continued attention to a child's development, is important for children in Flint," Lurie added. "The funding we're announcing today is one of many ways we are supporting health recovery for the community, and we will continue to look across federal programs, including in health, nutrition and education, to assist the people of Flint."

Last week, during a meeting with members of House Democratic leadership and the Michigan delegation, Burwell and Lurie confirmed that HHS anticipates being able to quickly approve a number of requests, including a major Medicaid coverage expansion for children and pregnant women in Flint that would include blood-lead level monitoring, behavioral health services nutritional support, and comprehensive targeted case management, among other services.

More than 1,300 health centers, supported by Health Resources and Services Administration, operate approximately 9,000 service delivery sites in every U.S. state, D.C., Puerto Rico, the Virgin Islands and

the Pacific Basin. These health centers employ more than 170,000 staff who provide care for nearly 23 million patients. For millions of Americans, including some of the most vulnerable individuals and families, health centers are the essential medical home where they find services that promote health, diagnose and treat disease and disability, and help them cope with environmental challenges that put them at risk.

- Since I am still in Flint, is it still the status quo that I don't have to submit printed materials at this time? I'll be back at the office next week, so I could start printing on Monday.

You can print on Monday. They have plenty of information to keep them busy.

- If we submit printed emails, do we still have to forward these emails to MSP-FOIAProject@michigan.gov, or does the forward only apply to emails we will send from now on?

Start sending emails to the FOIA email once you have printed everything else.

- With my estimate of documents sent out last week, I also advised them that I had permanently deleted approximately 1,800 emails, as the browser-based Outlook doesn't allow you to archive any files, and I was running out of mailbox space several times a day. Any update on the restoration of these emails?

There is a way to potentially do it from your computer. It was on the instruction sheet. Try it Monday, otherwise, they might be lost. I believe DTMB has the capability to pull the last 30 days only, but I'm not sure if we're pursuing that or not.

Let me know if you have other questions.

Thanks,
Bri

Subject: RE: FOIA Plan Update

All,

I have a few concerns regarding the FOIA plan:

- Since I am still in Flint, is it still the status quo that I don't have to submit printed materials at this time? I'll be back at the office next week, so I could start printing on Monday.
- If we submit printed emails, do we still have to forward these emails to MSP-FOIAProject@michigan.gov, or does the forward only apply to emails we will send from now on?
- With my estimate of documents sent out last week, I also advised them that I had permanently deleted approximately 1,800 emails, as the browser-based Outlook doesn't allow you to archive any files, and I was running out of mailbox space several times a day. Any update on the restoration of these emails?

Thanks,
Henrik

Please review the attached plan for FOIA printing. The instructions are for when in the SEOC. Do not change your computer to the printer in the instructions, it is for use in the SEOC. Use the printer your computer is currently connected to for printing from your computer and personal email or use another one in the EMHSD office area. However, there is helpful information for use in any location. Please remember to ensure that your default printer settings are set for single sided printing before you begin.

Thanks for the heads up. The locals should be working with each other. The SEOC would only need to be in the mix if it exceeded their capacity to handle the situation. CERT can only be called out at the local level; the SEOC/State cannot call out CERT.

Subject: Volunteer Reception Center help needed in Flint

Good morning:

I received an email from one of my local health department contacts in Lapeer County. She indicated that the Volunteer Reception Center was in need of volunteers to help with the center and wanted to let me know that if there were any groups in my six counties that were interested in helping, then to contact the following two people:

If you or your group of volunteers have any interest, please contact Rachel Wenzlick, Volunteer Coordinator of United Way of Genesee County at 810.762.5823 or rwenzlick@unitedwaygenesee.org.

Justin Bays is also working with organizing the VRC.

Recovery Operations
American Red Cross
Justin.Bays2@redcross.org

There is also a site: www.flintvolunteer.org

I thought of the local MRC and CERT groups and thought that I would pass this along, just in case. You may all be already connected with the situation and what they need, but I thought I would pass this along as an FYI.

Thank you.

Melissa DeRoche

Subject: RE: Question

Good afternoon!

So this is a tricky question. There are a few different ways and many different applications that will do what you are requesting. Some software can pull text messages from the device, and some will pull the text messages from a backup. With that being said, the recommended software, software that would be usable for litigation purposes, would be the expensive enterprise software used for forensics, like Celebrite. Luckily for us, the MSP Cyber team has these tools already, which would be the place I would check for assistance with this (Jim Ellis would be a good first point of contact).

Let me know if you'd still like me to find an acceptable 3rd party application, the biggest problem with this is that they typically don't establish the proper chain of custody needed for litigation purposes.

Thanks!

Subject: Question
Importance: High

I received a question today from my counterpart at MSP about mass copying text messages from a phone; iPhone and Android. They would need the messages to retain their original time stamp. Is there a good way of doing this? Possibly a software application we could buy or maybe an app. They need to be able to print them out or provide a PDF of the text string. This is in preparation for the FOIA requests that are likely coming their way.

Figured I'd reach out to you since this is your realm. Any insight you could provide would be helpful.

Hi Kyle,

Please see the highlighted section below. Can you check to see if DHHS is already looking into this with the Attorney General's Office? DHHS is the lead with 211 so even though the JIC receives these daily reports, we usually don't get involved us the question is directed specifically to us or we are asked by DHHS. Thanks!!

Subject: 2-1-1 Update Flint Water Response for Wednesday, February 17, 2016

This is the daily 2-1-1 summary on the Flint Water Response for Wednesday, February 17, 2016

GENERAL INFORMATION

- **Invitation to visit the Central Michigan 2-1-1 Center:** Jennie Pollak, Manager of Central Michigan 2-1-1 at LifeWays Community Mental Health in Jackson, is extending an invitation for Flint Water Response partners to visit the center and have a first-hand experience observing 2-1-1 in action. If you are interested, please email Tom Page at tpage@uwmich.org.

CALL VOLUME

Call volume from Flint residents appears to be stabilizing for the moment between 150-160 calls per day and around 200 distinct referrals (many callers have multiple needs and receive more than one referral).

CORRECTION

- Yesterday's item on shower filter distribution reported 200 filters were handed out in 15 minutes. News reports indicate there were 75 shower filters distributed in seven minutes. The report says cars were backed up for half a mile with residents seeking a shower filter.
  View the news report at http://www.abc12.com/home/headlines/Chaotic-water-filter-give-away-369026911.html

SPECIAL NEEDS/REQUESTS

☐ **Requests for shower filters dominated calls to 2-1-1 today** following yesterday's report of shower filter distribution at Berston Field House by native Flint basketball star Deanna Nolan. Callers asked when and where will shower filters be distributed again. 2-1-1 is informing callers that, as of today, there are no official plans to distribute shower filters.
NOTE: The demand for shower filters was first reported by 2-1-1 on 1/26/16. The national organization Good360 has identified a corporate donor that is willing to provide shower filters below cost if there is interest in addressing this demand and distribution plan for making these filters available

RUMOR/SCAM CONTROL

☐ **On 2/16/16 Michigan 2-1-1 received a report that DHHS is looking at rehousing options** for residents in housing that 'environmental investigators' have deemed hazardous for human habitation.
2/17/16 UPDATE: 2-1-1 is following up with an identified lead from MDHHS for specific circumstances indicating how they would like 2-1-1 to respond on a case by case basis.

UNRESOLVED

- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**
  1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.
- ☐ **2/10/16 UPDATE:** Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

- ☐ **From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

- ☐ **From 2/12/16:** 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. **CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?**

- ☐ **From 2/15/16: Good360, a 501(c)(3) nonprofit that coordinates bulk donations from corporate partners, has identified a potential source of high-capacity water filters** for restaurants, churches, shelters and other businesses that are not currently eligible for free water filters. These are filtering systems, not faucet filters. ***Good360 is working to verify these filters meet NSF standards for lead and copper, but is asking for feedback if there is a need by local businesses and agencies for this kind of filtering option.***

- ☐ **From 2/15/16:** Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. **Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**
  - https://www.facebook.com/IamShiftingParadigms/posts/821354508011097
  - https://pages.giveforward.com/emergency/page-42jxcw4/
  - http://www.plumfund.com/charity-fundraising/help-flint-mi-residents-relocate

- ☐ **From 2/16/16: The Attorney General's Office is contacting organizations that are soliciting support for Flint,** according to one community partner, to verify their legitimacy and prevent scams or misuse of funds. **Is there a contact at the AG's office who can provide a list of vetted organizations to answer questions about the legitimacy of suspect organizations?**

Hi Michelle

I posted this to MI-CIMS since the OSC and PSC were asked by DCH in the SEOC if it had been posted.
Do you want me to do this from now on when a new UCG IAP comes out .. any preference? As long as someone posts it, I don't think it matters who. Just trying to ensure expectations are met.

Thanks, Carol

Hi Kyle,

Please see the highlighted section below. Can you check to see if DHHS is already looking into this with the Attorney General's Office? DHHS is the lead with 211 so even though the JIC receives these daily reports, we usually don't get involved us the question is directed specifically to us or we are asked by DHHS. Thanks!!

See Ron's message below. Highlighted section is at bottom of email.

I highlighted copy that may be worthwhile to pass along to the AG's PIO? They may have a website or information that can provide clarity to United Way 2-1-1.

Subject: 2-1-1 Update Flint Water Response for Wednesday, February 17, 2016

This is the daily 2-1-1 summary on the Flint Water Response for Wednesday, February 17, 2016

GENERAL INFORMATION

- **Invitation to visit the Central Michigan 2-1-1 Center:** Jennie Pollak, Manager of Central Michigan 2-1-1 at LifeWays Community Mental Health in Jackson, is extending an invitation for Flint Water Response partners to visit the center and have a first-hand experience observing 2-1-1 in action. If you are interested, please email Tom Page at tpage@uwmich.org.

CALL VOLUME

Call volume from Flint residents appears to be stabilizing for the moment between 150-160 calls per day and around 200 distinct referrals (many callers have multiple needs and receive more than one referral).

CORRECTION

- Yesterday's item on shower filter distribution reported 200 filters were handed out in 15 minutes. News reports indicate there were 75 shower filters distributed in seven minutes. The report says cars were backed up for half a mile with residents seeking a shower filter.
  View the news report at http://www.abc12.com/home/headlines/Chaotic-water-filter-give-away-369026911.html

SPECIAL NEEDS/REQUESTS

☐ **Requests for shower filters dominated calls to 2-1-1 today** following yesterday's report of shower filter distribution at Berston Field House by native Flint basketball star Deanna Nolan. Callers asked when and where will shower filters be distributed again. 2-1-1 is informing callers that, as of today, there are no official plans to distribute shower filters.
NOTE: The demand for shower filters was first reported by 2-1-1 on 1/26/16. The national organization Good360 has identified a corporate donor that is willing to provide shower filters below cost if there is interest in addressing this demand and distribution plan for making these filters available

RUMOR/SCAM CONTROL

☐ **On 2/16/16 Michigan 2-1-1 received a report that DHHS is looking at rehousing options** for residents in housing that 'environmental investigators' have deemed hazardous for human habitation.
2/17/16 UPDATE: 2-1-1 is following up with an identified lead from MDHHS for specific circumstances indicating how they would like 2-1-1 to respond on a case by case basis.

UNRESOLVED

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**
1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

☐ **2/10/16 UPDATE:** Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

☐ **From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

- ☐ **From 2/12/16:** 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. **CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?**

- ☐ **From 2/15/16: Good360, a 501(c)(3) nonprofit that coordinates bulk donations from corporate partners, has identified a potential source of high-capacity water filters** for restaurants, churches, shelters and other businesses that are not currently eligible for free water filters. These are filtering systems, not faucet filters. ***Good360 is working to verify these filters meet NSF standards for lead and copper, but is asking for feedback if there is a need by local businesses and agencies for this kind of filtering option.***

- ☐ **From 2/15/16:** Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. **Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**

Hello Ray,

It was nice speaking to you today. Attached is our contact listing with our main phone numbers in the State Emergency Operations Center and cell phone numbers for our team working in our Logistics and Operations positions.

Our Recovery Branch is still compiling the list of the vulnerable population group. I spoke to them and their initial draft report has 1900 addresses. This will increase as we get more information from other community resources.
I will send you the list once they feel comfortable with the data. It will be a fluid document but will give you an idea for planning purposes.

Have a good evening,
Kristi

Hi Kyle,

Can you confirm that if a person needs help with filter installation they can call 211? A few weeks ago, the Plumbers and Pipefitters were assisting with installation. The feds are asking about this information, so I want to ensure that is still the case.

Who does 211 provide this information to? Local EOC for follow-up?

Thanks,
Shanon

Subject: RE: List of those on on the Flint Water System

Sir,

We can currently provide this list with property owner and tax payer for single tenant properties (residential, commercial, and industrial). However, multi-tenant remains a challenge as there currently is a single file that contains all of the unit level information.

That said, we had a meeting with ESRI (mapping vendor) yesterday and specifically discussed this issue. As part of this we developed a strategy for building this list per your guidance. The key note that was discussed with ESRI is that Computer Aided Dispatch (CAD) systems are most often used nationally by local jurisdictions when they do similar work to pull master lists from.

As such, we began coordination yesterday with state CAD administrators to try and get the data from them. However, they noted that the information they have is dated and we would need to go direct with Genesee County for this information. We plan to attempt to go direct with them today. That said, the state administrators also noted that the county CAD does not appear to be comprehensive based on the dated information they have.

Knowing CAD would also potentially be an incomplete list, we believe the solution that needs to be executed is to use "address standardization" tools to combine all of our known lists together. Currently, DTMB/CSS has a tool they use for this in house and we have begun coordination to pass them information and build the dataset. DTMB/CSS already has the ability to pull from common state addressing sources (secretary of state, licensing sources, etc.). However, we would need to provide our field team activity, CAD Data, and potentially a master list from postal service to DTMB/CSS to really flesh things out.

I write all of this detail to highlight that the building of this list may take more time than we are being allotted, although, it is achievable. Especially, when you consider that we have significant labor to do still to fulfill the FOIA request (approximately 10-20 staff hours). With the FOIA, I would anticipate we could complete this by the middle of next week to have something for you.

As an alternative (not knowing the intended use of the master list), ESRI also noted that many large municipalities use crowd sourcing apps when they are facing incomplete lists to address citizen issues until a list can be built. We can built a crowd sourcing app very quickly based on mission need. Example may include a website citizens can go to, to notify the state that they need a replacement cartridge, or where they could submit photos of their water meters for plumbers to evaluate if they are led based on appearance.

Subject: Change in hours

Hi Kyle,

I had a conversation with Kevin this evening in which we discussed that there may no longer be a need for the JIC to be staffed until 8 p.m., and therefore the SEOC PIO would not need to be staffed until 8 p.m. either. Can you check with SEOC command to find out if we can transition next week to only staffing the JIC and SEOC PIO until 6 p.m.?

Our media hotline runs until 5 p.m. and we are no longer issuing press releases after 5 p.m. unless it is an urgent or emergency situation. Key PIOs tend to remain in the JIC until well after 8 p.m. (and probably will next week too), but most of the JIC staff leaves around 6 p.m. already.

Thanks,
Shanon

Subject: 2-1-1 Update Flint Water Response for Wednesday, February 17, 2016

This is the daily 2-1-1 summary on the Flint Water Response for Wednesday, February 17, 2016

GENERAL INFORMATION

- **Invitation to visit the Central Michigan 2-1-1 Center:** Jennie Pollak, Manager of Central Michigan 2-1-1 at LifeWays Community Mental Health in Jackson, is extending an invitation for Flint Water Response partners to visit the center and have a first-hand experience observing 2-1-1 in action. If you are interested, please email Tom Page at tpage@uwmich.org.

CALL VOLUME

Call volume from Flint residents appears to be stabilizing for the moment between 150-160 calls per day and around 200 distinct referrals (many callers have multiple needs and receive more than one referral).

CORRECTION

- Yesterday's item on shower filter distribution reported 200 filters were handed out in 15 minutes. News reports indicate there were 75 shower filters distributed in seven minutes. The report says cars were backed up for half a mile with residents seeking a shower filter.
  View the news report at http://www.abc12.com/home/headlines/Chaotic-water-filter-give-away-369026911.html

SPECIAL NEEDS/REQUESTS

☐ **Requests for shower filters dominated calls to 2-1-1 today** following yesterday's report of shower filter distribution at Berston Field House by native Flint basketball star Deanna Nolan. Callers asked when and where will shower filters be distributed again. 2-1-1 is informing callers that, as of today, there are no official plans to distribute shower filters.
NOTE: The demand for shower filters was first reported by 2-1-1 on 1/26/16. The national organization Good360 has identified a corporate donor that is willing to provide shower filters below cost if there is interest in addressing this demand and distribution plan for making these filters available

RUMOR/SCAM CONTROL

☐ **On 2/16/16 Michigan 2-1-1 received a report that DHHS is looking at rehousing options** for residents in housing that 'environmental investigators' have deemed hazardous for human habitation.

how they would like 2-1-1 to respond on a case by case basis.

UNRESOLVED

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**
1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

☐ **2/10/16 UPDATE:** Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

☐ **From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

☐ **From 2/12/16:** 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. **CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?**

☐ **From 2/15/16: Good360, a 501(c)(3) nonprofit that coordinates bulk donations from corporate partners, has identified a potential source of high-capacity water filters** for restaurants, churches, shelters and other businesses that are not currently eligible for free water filters. These are filtering systems, not faucet filters. ***Good360 is working to verify these filters meet NSF standards for lead and copper, but is asking for feedback if there is a need by local businesses and agencies for this kind of filtering option.***

☐ **From 2/15/16:** Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. **Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**

- https://www.facebook.com/IamShiftingParadigms/posts/821354508011097
- https://pages.giveforward.com/emergency/page-42jxcw4/
- http://www.plumfund.com/charity-fundraising/help-flint-mi-residents-relocate

☐ **From 2/16/16: The Attorney General's Office is contacting organizations that are soliciting support for Flint,** according to one community partner, to verify their legitimacy and prevent scams or misuse of funds. **Is there a contact at the AG's office who can provide a list of vetted organizations to answer questions about the legitimacy of suspect organizations?**

Cc: Budde, Brian (MSP)
Subject: RE: Flint social media / protests

Jesse Jackson is planning a protest today. https://www.facebook.com/events/678522502289988/

There is an event in Facebook showing 44 people are coming from Detroit to join the protest. There isn't an event in Facebook to determine how many from Flint will be participating.

http://moratorium-mi.org/rebuild-flint-march-and-rally/

Thanks,

Sue

Subject: Monday 9:30 Briefing

Follow Up Flag: Follow up
Flag Status: Flagged

Captain Kelenske would like you to adjust the time of the morning briefing from 9:30 a.m. to 10:00 a.m., on Monday February 22.

Please send a smart message indicating the time change to 10:00 a.m. for Monday February 22, but ONLY for this coming Monday, this is NOT a regular schedule change.

This information should be included in the afternoon brief, as well as weekend briefs to assure everyone is aware of the time change for Monday.

I have also requested a list of each SEOC position that includes a brief description of the function of those positions.

I will also need a list of state agencies who have a representative seated/active in the SEOC.

I need this information by 3:00 today. Please let me know if you have questions.

Subject: FW: 2-1-1 Update Flint Water Response for Wednesday, February 17, 2016

FYI

From: Tom Page [mailto:tpage@uwmich.org]
Sent: Thursday, February 18, 2016 7:44 PM
To: Bob Tonander <btonander@gryphon.org>; JICManager <JICManager@michigan.gov>; Holmes, Virginia (DHHS) <HolmesV@michigan.gov>; Jamie Gaskin <jgaskin@unitedwaygenesee.org>; Eisner, Jennifer (DHHS) <EisnerJ@michigan.gov>; Jennifer Pollak (jennifer.pollak@lifewayscmh.org) <jennifer.pollak@lifewayscmh.org>; Thelen, Richard (DHHS) <ThelenR4@michigan.gov>; Leix, Ron (MSP) <LeixR@michigan.gov>
Subject: 2-1-1 Update Flint Water Response for Wednesday, February 17, 2016

This is the daily 2-1-1 summary on the Flint Water Response for Thursday, February 18, 2016

GENERAL INFORMATION

- State of Michigan has developed Flint Water materials in Spanish, Mandarin Chinese, Arabic and Hmong. Translated documents are available in the "Alternative Language Resources: Español - 中文 - العربي" area of www.michigan.gov/flintwater. Federal partners have resources available in Spanish, traditional Chinese, simple Chinese, Vietnamese, and Korean at www.epa.gov/flint.

  The State is working on making critical information available in American Sign Language, including this ASL video on adult lead exposure risk: www.youtube.com/watch?v=eSnHQ_oqt_w&feature=youtu.be

CALL VOLUME

2-1-1 provided 159 referrals for Flint residents on February 17. Top requests were for drinking water, water testing, and lead screening. A summary of daily Flint water referrals can be viewed online at http://mi211.211counts.org/ by clicking on the drop-box labeled "LAST YEAR" to select one of the alternate default options, or to choose a specific range. Then, under the "Top Request Categories" box, click on "Disaster. This will update the display in the upper right section of the screen to display a breakdown of Flint-related referrals.

SPECIAL NEEDS/REQUESTS

- No special needs or requests to report today.

RUMOR/SCAM CONTROL

- The Attorney General's Office is prepared to investigate potential scams. These can be reported to the Charitable Trust Section at ct_email@michigan.gov. The office also issued a press release with tips on how to avoid falling victim to con artists:
  CONSUMER ALERT: http://www.michigan.gov/ag/0,4534,7-164-17337_20942-375279--,00.html

UNRESOLVED

☑ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

RESOLUTION: A city-wide canvass was done twice, after which time the additional [illegible] airmen were demobilized, and door-to-door efforts became targeted only to homes without filters or to homebound individuals. Currently, door to door efforts only involve a very small number homes that do not have a water filter so that list is not being released publically to avoid scams from targeting these homes.

☑ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**
1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.
2/10/16 UPDATE: Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.
RESOLUTION: Based on clear statements from MDHHS and the CDC that Flint water is safe for bathing, demand for shower filters will no longer be reported in this section as an unresolved issue. 2-1-1 will continue tracking requests for shower filters from residents as an unmet need as one data point to track demand for these filters.

☑ **From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.
RESOLUTION: Dr. Eden Wells with MDHHS hosts a weekly webinar with providers. She will be making a focus of one of her upcoming webinars to healthcare providers a discussion on oral health and fluoridation concerns.

☐ **From 2/12/16:** 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. **CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?**

☑ **From 2/15/16:** Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. **Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**

- *https://www.facebook.com/IamShiftingParadigms/posts/821354508011097*
- *https://pages.giveforward.com/emergency/page-42jxcw4/*
- *http://www.plumfund.com/charity-fundraising/help-flint-mi-residents-relocate*

☑ **From 2/16/16: The Attorney General's Office is contacting organizations that are soliciting support for Flint,** according to one community partner, to verify their legitimacy and prevent scams or misuse of funds. **Is there a contact at the AG's office who can provide a list of vetted organizations to answer questions about the legitimacy of suspect organizations?**

RESOLUTION: Regarding the two above items -- the Attorney General's Office provided guidance to 2-1-1 addressing the items from both 2/15 and 2/16. The office clarified the AG does not vet the legitimacy of organizations, but they do investigate complaints to ensure any organizations soliciting funds are in compliance with the charitable solicitation laws which require registration with basic information about the charity and regular reporting, as well as reviewing misstatements and misrepresentations. The Charitable Registry can be searched at www.ag.state.mi.us/CharitableTrust/

Some legitimate charities, including the American Red Cross and Salvation Army, do not appear in the Attorney General's database because they are exempt. Call the Attorney General's Charitable Trust Section at 800-769-4515 if you have questions.

Good morning BJ,
Are you or the local EOC aware of a local delegation visiting pod 5 today? DTMV is asking, and if this is happening, they would like to have some of their command there. I have no other details.
Thanks,
Gabe

Subject: RE: 2-1-1 Update Flint Water Response for Wednesday, February 17, 2016

Sorry, for the delay on this. The punchline for the two questions is:

1. I will ask someone to look into the websites cited. It is difficult to get information on organizations that are only web based, but we will see what we can do.

2. We are not actively investigating organizations that are soliciting donations in Flint, and we do not have a registry of vetted organizations. We have small staffs that cover consumer protection and charitable trusts. We do not have the resources to investigate every registered charity, but do make sure that charities meet the reporting and registering requirements. If there is a specific complaint we can follow up.

Hi Kyle,

Please see the highlighted section below. Can you check to see if DHHS is already looking into this with the Attorney General's Office? DHHS is the lead with 211 so even though the JIC receives these daily reports, we usually don't get involved us the question is directed specifically to us or we are asked by DHHS. Thanks!!

This is the daily 2-1-1 summary on the Flint Water Response for Wednesday, February 17, 2016

GENERAL INFORMATION

- ***Invitation to visit the Central Michigan 2-1-1 Center:*** Jennie Pollak, Manager of Central Michigan 2-1-1 at LifeWays Community Mental Health in Jackson, is extending an invitation for Flint Water Response partners to visit the center and have a first-hand experience observing 2-1-1 in action. If you are interested, please email Tom Page at tpage@uwmich.org.

CALL VOLUME

Call volume from Flint residents appears to be stabilizing for the moment between 150-160 calls per day and around 200 distinct referrals (many callers have multiple needs and receive more than one referral).

CORRECTION

- Yesterday's item on shower filter distribution reported 200 filters were handed out in 15 minutes. News reports indicate there were 75 shower filters distributed in seven minutes. The report says cars were backed up for half a mile with residents seeking a shower filter.

View the news report at http://www.abc12.com/home/headlines/chaotic-water-[illegible]

SPECIAL NEEDS/REQUESTS

☐ **Requests for shower filters dominated calls to 2-1-1 today** following yesterday's report of shower filter distribution at Berston Field House by native Flint basketball star Deanna Nolan. Callers asked when and where will shower filters be distributed again. 2-1-1 is informing callers that, as of today, there are no official plans to distribute shower filters.
NOTE: The demand for shower filters was first reported by 2-1-1 on 1/26/16. The national organization Good360 has identified a corporate donor that is willing to provide shower filters below cost if there is interest in addressing this demand and distribution plan for making these filters available

RUMOR/SCAM CONTROL

☐ **On 2/16/16 Michigan 2-1-1 received a report that DHHS is looking at rehousing options** for residents in housing that 'environmental investigators' have deemed hazardous for human habitation.
2/17/16 UPDATE: 2-1-1 is following up with an identified lead from MDHHS for specific circumstances indicating how they would like 2-1-1 to respond on a case by case basis.

UNRESOLVED

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**
1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

☐ **2/10/16 UPDATE:** Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

☐ **From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

☐ **From 2/12/16:** 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. **CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?**

☐ **From 2/15/16: Good360, a 501(c)(3) nonprofit that coordinates bulk donations from corporate partners, has identified a potential source of high-capacity water filters** for restaurants, churches, shelters and other businesses that are not currently eligible for free water filters. These are filtering systems, not faucet filters. ***Good360 is working to verify these filters meet NSF standards for lead and copper, but is asking for feedback if there is a need by local businesses and agencies for this kind of filtering option.***

☐ **From 2/15/16:** Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. **Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**
- https://www.facebook.com/IamShiftingParadigms/posts/821354508011097
- https://pages.giveforward.com/emergency/page-42jxcw4/
- http://www.plumfund.com/charity-fundraising/help-flint-mi-residents-relocate

according to one community partner, to verify their legitimacy and prevent scams or misuse of funds. **Is there a contact at the AG's office who can provide a list of vetted organizations to answer questions about the legitimacy of suspect organizations?**

Gabe

All information that we have is basically outlined in this article:

http://www.mlive.com/news/flint/index.ssf/2016/02/details_on_national_march_with.html

The march is definitely happening tomorrow, as there was some confusion today with a stage being built on the Water plant property without the City's permission, which subsequently had to be taken down again.

Traffic being shut down between Metropolitan Baptist Tabernacle and the Water plant will impact the supply route between the warehouse and Fire Station 5 POD, if Dort Hwy is the primary supply route (traffic shut down at Dort/Stewart).
The Water plant is also in proximity to Fire Station 6, so that POD might be indirectly impacted (however, supply between Clio Rd warehouse and the POD would not be an issue).

Subject: RE: GC EOC weekend staffing

Henrik,
Can someone else (over the weekend) put together bullets and send them to planning? I don't think it necessarily needs to be in MICIMS. Due to the importance of this event, I think someone needs to send a summary each day from the local EOC and I have to believe that they can have someone put that together (other than you).
Let me know.

>
> Lt. Covey,
>
> As discussed over the phone, I am trying to find out if I should report to the local EOC over the upcoming weekend, 02/20-02/21/2016.
> The EOC will be open over the weekend. According to the schedule that was sent out last week, I am not assigned for the weekend. With Jay being demobilized and Lt. Roach working remotely, this would mean that there is no EMHSD staff is assigned to Flint over the weekend. That raises the question if without EMHSD staff here, the Planning Section at the SEOC would still need to receive bullet points and a daily SitRep at the end of the day?
>
> It is my understanding that during most emergencies, local EOCs do not provide that kind of information to the SEOC on a daily basis. If it is necessary to provide the information, I would need to report to the EOC for at least some time in the afternoon.
>
> The local EMC is trying to get MICIMS access through Mark DuCharme (who is a MICIMS trainer) for the new Logistics staff here on Friday, 02/19/2016. If local staff gets access to MICIMS, he would not have the need for me to staff here - as weekends are a lot less busy than

weekdays.

Please let me know if you need me at the County EOC on Saturday and Sunday. If so, I would probably report here for 4-5 hours each afternoon.

Thanks,
Henrik

Subject: Field Team Statistics for February 17, 2016

AS OF **February 17, 2016** AT 1700 USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38730** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **38447 (99.3%)** of the parcels have been engaged as part of response efforts
- **30057 (77.6%)** of the parcels have been confirmed have some form of filter
- **12367 (31.9%)** of the parcels have volunteered for water testing

We are also tracking that there are 30188 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **27168** residential parcels that have the ability to use the Flint Water System. Of these

- **27088 (99.7%)** of of the parcels have been engaged as part of response efforts
- **24095 (88.7%)** of the parcels have been confirmed have some form of filter

- **10986 (40.4%)** of the parcels have volunteered for water testing

Please let me know if you need anything else.

Subject: Staffing

Shanon,

Captain Kelenske has asked that you reach out to other state agencies for support in the JIC. There are several significant initiatives coming up within the division that require his attention over the next several weeks. Captain suggests contacting those agencies not directly involved in this event that could assist and learn about operations at the same time.

Ron is planning to be there tomorrow, so if someone could be lined up, he could do some training with them.

Keep me posted, and THANK YOU!!

Subject: RE: Question

Good afternoon!

So this is a tricky question. There are a few different ways and many different applications that will do what you are requesting. Some software can pull text messages from the device, and some will pull the text messages from a backup. With that being said, the recommended software, software that would be usable for litigation purposes, would be the expensive enterprise software used for forensics, like Celebrite. Luckily for us, the MSP Cyber team has these tools already, which would be the place I would check for assistance with this (Jim Ellis would be a good first point of contact).

Let me know if you'd still like me to find an acceptable 3rd party application, the biggest problem with this is that they typically don't establish the proper chain of custody needed for litigation purposes.

Thanks!

Subject: Question
Importance: High

I received a question today from my counterpart at MSP about mass copying text messages from a phone; iPhone and Android. They would need the messages to retain their original time stamp. Is there a good way of doing this? Possibly a software application we could buy or maybe an app. They need to be able to print them out or provide a PDF of the text string. This is in preparation for the FOIA requests that are likely coming their way.

Figured I'd reach out to you since this is your realm. Any insight you could provide would be helpful.

Thank you,

Subject: Volunteer Reception Center help needed in Flint

Good morning:

I received an email from one of my local health department contacts in Lapeer County. She indicated that the Volunteer Reception Center was in need of volunteers to help with the center and wanted to let me know that if there were any groups in my six counties that were interested in helping, then to contact the following two people:

If you or your group of volunteers have any interest, please contact Rachel Wenzlick, Volunteer Coordinator of United Way of Genesee County at 810.762.5823 or rwenzlick@unitedwaygenesee.org.

Justin Bays is also working with organizing the VRC.
Recovery Operations
American Red Cross
Justin.Bays2@redcross.org

There is also a site: www.flintvolunteer.org

I thought of the local MRC and CERT groups and thought that I would pass this along, just in case. You may all be already connected with the situation and what they need, but I thought I would pass this along as an FYI.

This is the daily 2-1-1 summary on the Flint Water Response for Wednesday, February 17, 2016

GENERAL INFORMATION

- **Invitation to visit the Central Michigan 2-1-1 Center:** Jennie Pollak, Manager of Central Michigan 2-1-1 at LifeWays Community Mental Health in Jackson, is extending an invitation for Flint Water Response partners to visit the center and have a first-hand experience observing 2-1-1 in action. If you are interested, please email Tom Page at tpage@uwmich.org.

CALL VOLUME

Call volume from Flint residents appears to be stabilizing for the moment between 150-160 calls per day and around 200 distinct referrals (many callers have multiple needs and receive more than one referral).

CORRECTION

- Yesterday's item on shower filter distribution reported 200 filters were handed out in 15 minutes. News reports indicate there were 75 shower filters distributed in seven minutes. The report says cars were backed up for half a mile with residents seeking a shower filter.
  View the news report at http://www.abc12.com/home/headlines/Chaotic-water-filter-give-away-369026911.html

SPECIAL NEEDS/REQUESTS

☐ **Requests for shower filters dominated calls to 2-1-1 today** following yesterday's report of shower filter distribution at Berston Field House by native Flint basketball star Deanna Nolan. Callers asked when and where will shower filters be distributed again. 2-1-1 is informing callers that, as of today, there are no official plans to distribute shower filters.

NOTE: The demand for shower filters was first reported by 2-1-1 on 1/26/16. The national organization [illegible] has identified a corporate donor that is willing to provide shower filters below cost if there is interest in addressing this demand and distribution plan for making these filters available

RUMOR/SCAM CONTROL

☐ **On 2/16/16 Michigan 2-1-1 received a report that DHHS is looking at rehousing options** for residents in housing that 'environmental investigators' have deemed hazardous for human habitation.
2/17/16 UPDATE: 2-1-1 is following up with an identified lead from MDHHS for specific circumstances indicating how they would like 2-1-1 to respond on a case by case basis.

UNRESOLVED

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**
1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

☐ **2/10/16 UPDATE:** Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

☐ **From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

☐ **From 2/12/16:** 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. **CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?**

☐ **From 2/15/16: Good360, a 501(c)(3) nonprofit that coordinates bulk donations from corporate partners, has identified a potential source of high-capacity water filters** for restaurants, churches, shelters and other businesses that are not currently eligible for free water filters. These are filtering systems, not faucet filters. ***Good360 is working to verify these filters meet NSF standards for lead and copper, but is asking for feedback if there is a need by local businesses and agencies for this kind of filtering option.***

☐ **From 2/15/16:** Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. **Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**
- https://www.facebook.com/IamShiftingParadigms/posts/821354508011097
- https://pages.giveforward.com/emergency/page-42jxcw4/
- http://www.plumfund.com/charity-fundraising/help-flint-mi-residents-relocate

☐ **From 2/16/16: The Attorney General's Office is contacting organizations that are soliciting support for Flint,** according to one community partner, to verify their legitimacy and prevent scams or misuse of funds. **Is there a contact at the AG's office who can provide a list of vetted organizations to answer questions about the legitimacy of suspect organizations?**

To: MSP-SEOCPIO
Subject: Help with filter installation

Hi Kyle,

Can you confirm that if a person needs help with filter installation they can call 211? A few weeks ago, the Plumbers and Pipefitters were assisting with installation. The feds are asking about this information, so I want to ensure that is still the case.

Who does 211 provide this information to? Local EOC for follow-up?

Thanks,
Shanon

Subject: RE: Items to Note

A couple items come to mind...we might want to vet before adding to any report:

It was discovered yesterday that 7-8 mobile home parks had been listed as "commercial property" vs residential, so these residences had not been visited yet with water filters or water. These homes are being visited over the course of yesterday and today.

There were also 134 homes found to not have yet been visited. These will also be addressed today.

Captain Kelenske has requested a complete listing of all addresses (residential, business, etc) on the Flint Water System. GIS is working on this, anticipating it may take until early next week go accomplish.

A complete analysis is being completed of value added for takeover of warehouse currently run by DOC staff

To: MSP-SEOCSDEM
Cc: MSP-FOIAProject
Subject: FW: Change in hours

The JIC is asking to reduce their hours as noted:

Hi Kyle,

I had a conversation with Kevin this evening in which we discussed that there may no longer be a need for the JIC to be staffed until 8 p.m., and therefore the SEOC PIO would not need to be staffed until 8 p.m. either. Can you check with SEOC command to find out if we can transition next week to only staffing the JIC and SEOC PIO until 6 p.m.?

Our media hotline runs until 5 p.m. and we are no longer issuing press releases after 5 p.m. unless it is an urgent or emergency situation. Key PIOs tend to remain in the JIC until well after 8 p.m. (and probably will next week too), but most of the JIC staff leaves around 6 p.m. already.

Thanks,
Shanon

Andy,

Educate me on the process. Since MSP no longer has "boots on the ground" with the door to door teams, we lost that safety officer briefing that would tell the teams and folks working on the response/recovery that there are potential safety concerns. Issues like recent shootings, maybe a rash of assaults, B&Es, or gang violence in a particular area in Flint would be nice to know on a daily basis or even every few days? I'm guessing the Flint city police department isn't sharing any hot information to the rest of the public safety entities about up-ticks? I'm sure the Flint post has a pulse on some of the issues that are developing. Does the fusion center get info daily or as needed that comes from Flint exclusively?

We have liaisons down in the unified coordination group and local EOC (in Flint) and it would be nice to be able to give them some info about any recent crime trends, BOLS, or anything else related to the safety of all there.

Does that make sense?
Gabe

All:

I would like to provide you with an update:

1. Currently, all water coming into Genesee County for distribution is being collected and stored at Meijer. They have an excess of water and have asked us to collect eight pallets to make room for more water coming in from other Meijer locations. The ARC collected the eight pallets of water and has agreed to help with distribution.
2. The distribution continues to take place at the Flint fire departments. In addition, the State Police and GC Sheriff's office have started to do door-to-door distribution for those who are homebound.

emergency providers can coordinate efforts. Our Business Manager, Bill Goodwill, will be representing TSA at the meeting.

4.

Blessings!

Subject: Flint Water

Kevin,
Just got done talking with Lansing EOC and Major Sjogren.
Flint has approx 119K people in need of fresh water.
Lansing wanted to know if we had other water suppliers that might be able to provide fresh water. Major suggested I ask you about Anheuser Busch bottling company. thoughts were they probably helping in the Floods down there.

So at this time I am asking for advise as to where to get water and how to get it to 119 K people at 3 gallons a day for how long we do not know.

And then Bathing and Showering is a problem also. especially for the young, elderly, and immune deficient. any ideas there too.

Please let me know any ideas you may have.

Blessings

- I agree to verify my truck's fuel level is 11/16 before leaving the premises. I will return the vehicle with the same amount of fuel as when dispatched and/or agree to pay a $3.50 per gallon convenience fee for the estimated fuel I do not replace. If returned with less than a 1/4 tank, I agree to also pay a $30.00 service fee. U-Haul does not reimburse if this truck is returned with more fuel than what is printed on the receipt gauge. U-Haul pays for oil (save receipts).

U-Haul liability for injury or death is limited to $20,000 per person up to $40,000 per accident and only if the vehicle is operated by the lessee or the lessee`s immediate family member. The lessee may be liable to U-Haul and the injured person/estate for any amount awarded because of injury or death.

- U-Haul provides the Customer with minimum limits of protection required by that state or province where arises any claim, suit or cause of action. This provided protection is in excess or secondary to any insurance coverage(s) of the Customer. Customer assumes Sole Responsibility for any and all liability that exceeds the applicable minimum limits of protection for that state or province.

- I understand that this equipment must be returned to the same U-Haul location where it was rented. I understand that the minimum rental charge for equipment returned to a different location is twice the amount of the current One Way rate from this U-Haul location to the actual drop-off location.
- I understand that the equipment rented is water resistant and not water proof.
- I acknowledge that I have received the appropriate User Instructions and acknowledge my responsibility to fully read and understand these User Instructions before operating the equipment.
- I understand that I will receive an email link to review the rental process and the U-Haul Store employees to feedback to U-Haul any compliments, concerns or requests that I have about my rental.
- I understand that I can also contact U-Haul Customer Service at uhaul.com/contact/email.aspx
- I understand that I am financially responsible for all damages to equipment.
- I agree to submit all *legal* claims in accordance with the U-Haul Arbitration Agreement, incorporated by reference, and available at uhaul.com/arbitration or from my local U-Haul representative.

- I agree that distracted driving is dangerous and that driving while distracted is likely to lead to an accident/crash causing serious injury or death. I agree not to use a hand held mobile phone (other than for an emergency call) and not to text while driving any U-Haul truck or towing any U-Haul Trailer, Tow Dolly or Auto Transport. My agreement not to do so is material to U-Haul's decision to enter into this Agreement. My failure to comply is material breach of this Agreement.
- The following shall be admissible as evidence of negligence and breach of contract in any lawsuit or arbitration: 1) that the driver of the U-Haul truck, or vehicle towing any U-Haul Trailer, Tow Dolly or Auto Transport was texting while driving; 2) that the driver of the U-Haul truck, or vehicle towing any U-Haul Trailer, Tow Dolly or Auto Transport, was using any mobile phone (other than hands free or for an emergency call) while driving.
- I acknowledge that I have received and agree to the terms and conditions of this Rental Contract and the Rental Contract Addendum.

Subject: RE: FEMA Congressional Update #2 on Flint, Michigan

I have a process question that I believe Richard already answered but I would like to clarify. In the event that federal assistance is requested by the Governor, and the President declares a "state of emergency," am I correct in stating that Individual Assistance *and* Category A and B of Public Assistance would both be eligible forms of assistance to be provided by the feds? Thank you.

Yes the state has purchased water today.

4 trucks today
12 trucks tomorrow
8 trucks a day from Thursday through Saturday
Total = 76,608 cases purchased by the State of Michigan
There are donations also still coming in as well

Subject: FYI- Flint JIC logistics

Jeannette and Penny,

I wanted to thank you both for all of your hard work to make the JIC facility happen and ensure the needs of our staff are met, including IT, food and hotels. The JIC room is perfect and the location is very convenient. Our staff are also very happy to have lunches delivered to us with direct billing, especially since our busiest times are around lunch.

Ron continues to be our on-site logistics person and I know you're both working with him to get our needs met when they arise.

Ron- the Flint JIC wouldn't have happened without your pre-planning, setup, IT coordination, building access requests, etc. Great work!

This couldn't have happened without all of your efforts.

Thanks much!

FYI to Planning and Ops since I won't be here tomorrow:

Just assigned a task to DHHS (Jennifer Lixey) for the use of their 100,000 square foot space called "Diplomat", which should not be publicized. This space will be used to send all of our shipments to and we will pull from this space to restock the GCCard. So GCCard essentially becomes the staging area and Diplomat is our warehouse.

2 Additional volunteers were requested from ARC to assist with fire station distribution.

Filters provide best access to safe drinking water in Flint

Flint residents are encouraged to use water filters as their primary source for water consumption and cooking needs.

"The best way to ensure safe drinking water in your home is to have a water filter properly installed on your tap," said Dr. Eden Wells, chief medical executive with the Michigan Department of Health and Human Services. "Water filters make your water safe to consume, and provide the most sustainable solution for having access to safe water in your home."

Donated water continues to be distributed to the five water resource sites at Flint fire stations, but to ensure residents have immediate, ongoing access to safe water residents should install filters to their taps. Free water filters and replacement cartridges are available at the water resource sites.

A key priority continues to be ensuring the necessary resources are made available for all residents.

"We recognize the urgency of getting water resources to the residents of Flint," Capt. Chris Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the Michigan State Police (MSP) Emergency Management & Homeland Security Division. "To help ensure the necessary resources continue to be available at the water resource sites, the state is expanding their partnership with the American Red Cross to utilize their warehousing, inventory and transportation capabilities for stored water resources."

In addition, water resource teams will begin going door-to-door in Flint neighborhoods on Tuesday to distribute clean water resources. The water resource teams, consisting of state personnel and MSP troopers, will be distributing bottled water, water filters, replacement cartridges and water testing kits.

If a resident is not home when a team stops by, a flyer with information on how to receive these free water resources will be left at their residence.

Additional resources are available at www.michgian.gov/flintwater and by calling 2-1-1.

Subject: RE: Security concerns at Fire Stations

To all,

I was never contacted by Lt. B.J. Roach regarding the below security concerns. So, I made contact with Lt. Amy Dehner at 4:37 p.m. regarding their concerns. Lt. Dehner advises there are no current security concerns at the Fire Stations. Lt. Dehner advised the only concern was for volunteers at Fire Station#6, which is not in a good neighborhood, being left alone at the station if the fire personnel responded to a call. This is being monitored by the Fire Chief. If fire personnel responds to a call, Genesee County Dispatch will send a marked unit to sit at the station.

There are no additional resources being requested at this time.

> 2. Logistics:
> - Need to get flyers, water, filters, refill cartridges and water testing kits to the comcast office in Flint. The comcast trucks can have the materials in them while they make service calls to customers in Flint. In addition to the materials, need to send someone to train comcast workers on filter installation. Will also need a way for them to let us know who they give filers too. NEED: who is your lead? Let's put them in contact with Comcast ASAP
> - Comcast has said they can have employees who can go door to door on the weekend
>
> > This will be handled through the **local EOC logistics**. As we are currently combining all incoming commodities to one location, we will be able to deploy to Comcast through

that process. Along with the commodities will be tracking cards to be completed to include addresses and items given.

3. Additional Public Info:
- Comcast can put up a video on On Demand with how to install water filters. Need to have a video for that. Perhaps the video that is on the mi.gov/flintwater website. Can we ask whoever made that video to add a graphic overlay that says: Call 211 for water resource center locations

DHHS is researching the developer of this video, and we will learn capabilities to overlay with 211 information.

- Comcast Call: We have asked comcast to look into calling their customers with a PSA on where water resource centers are
- After these are implemented need a press release saying the partners who have helped us and what they have done

JIC Manager, Nicole Lisabeth, will coordinate this message and press release.

OTHER ITEMS TO CONSIDER
- Do we need assistance coordinating the logistics? (Volunteers, water distribution, and partnering/tracking how outside groups are helping. i.e Comcast)

This will be coordinated through the local EOC Logistics, Jay Eickholt

- We should do a Reverse 911 call to all houses tomorrow morning from MSP with information on where the centers are and to call 211

If this is done, it needs to clearly express that supplies are available on an ongoing basis to prevent the perception of resource shortage. Nicole, please determine message that could be considered for approval by command.

Please let me know if you have any questions.

Thank you,
Tori Sachs

Subject: NWS Webinar - Update

Status from the 1:00 pm webinar with NWS from GR – Weather for next 24 – 36 hours (January 11th and 12th):

Conditions with this system will be very different from the last front that went through late last week. This storm will bring:

- VERY HAZARDOUS TRAVEL beginning Monday late afternoon/evening and continuing through the day on Tuesday.
- Monday evening and both Tuesday commutes are expected to be heavily impacted with rapidly changing road conditions and visibility.
- Light and fluffy snow, blowing snow and times of white out conditions are likely.
- Very cold air continues – time to frostbite of exposed skin is less than 30 minutes.
- North/South roads are expected to have the worst conditions due to blowing snow across treated roadways.
- Winds expected to be 15 to 25 mph with gust of around 30 mph.
- Worst of the conditions expected between 8 pm Monday through 4 pm on Tuesday.
- Many cancellations and closures are expected.
- Greatest snowfall amounts expected along the Lake Michigan shoreline where they could see in excess of 1 foot of snow.
- East of Battle Creek will see less snowfall with the Lansing and Flint areas looking at 2 to 4 inches; possibly more localized.
- Snow near the lakeshore could continue into Wednesday.

Our favorite meteorologist Jim finished up by emphasizing "Incredibly Hazardous Travel" is the biggest concern.

Slide deck is attached and likely will be uploaded into MI CIMS by NWS.

Subject:	SEOC Update 2/16/16 - Flint Water - Limited Distribution
Attachments:	2015-10-01 City of Flint Water Contamination-Shortage SitRep 42 2016-02-....pdf

Update 2/16/16 – 43rd Day (42nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Obtain decision briefing on long term distribution plan.
- Obtain further information on sentinel team data.
- Obtain information on rash occurances.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #42.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Water distribution and supplies requested.
- 5 American Red Cross Teams scheduled for Wednesday, February 17, 2016.

Items to Note

- A Congressional/Legislative conference call was held today at 2:30 PM.
    - No concerns from the call.
- MDEQ commenced development of a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
- Southern Baptist Disaster Relief took over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field.
- Local EOC IC is coordinating with MSU College of Veterinary Medicine and MDARD for development of blood lead level testing program for companion animals.
- GIS is generating a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.

- GIS generating a list of total residences that potentially will be using a water filter that use water from the City of Flint.
- DTMB Real Estate researching options for a 200,000 sq. ft. warehouse for long term distribution plan, preferably on the bus line.

Unified Coordination Group (UCG):

- CDC will meet with state on rash complaints/test results.
- Attended Command/Control subgroup this afternoon. Group would like to change the name to coordination.
  - Should include state reps on each subgroup.

Local EOC:

- Sentinel monitoring teams collected 273 water samples at yesterday.
- Elevated lead and copper task force were out in the field today.
- Local EOC IC attended Community Stakeholders meeting.
- Local EOC Liaison attended Community Stakeholders and long term distribution process meeting.

Chris

Update 2/15/16 – 42nd Day (41st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #41.
2. Weekly List of Events.
3. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.

Key items for tomorrow to note are:

- There will be a Congressional/Legislative conference call on Tuesday, February 16 at 2:30 PM
- Southern Baptists will be at the local EOC in the morning and will be taking over rapid response activities from the NCCC teams.

Items to Note

- Published IAP #10.
- Throughout the Sentinel Site Monitoring Team mission last week, 241 households have agreed to be sentinel monitoring points for long-term water testing.
- Sentinel Site Monitoring Collection Teams starting to collect samples at sentinel monitoring points on 02/15/2016. The teams will collect samples bi-weekly at each monitoring point.
- Per MDEQ, based on the population, the City of Flint needs 60 samples for their compliance monitoring for this monitoring period under the Lead and Copper Rule. These compliance sampling sites must be "Tier 1" sites, and at least half of them must be lead service lines. They wanted all of the compliance sites to be lead service lines. They were hoping that the 402 sentinel sites would produce at least 60 sites with lead service lines. However, they now know they will need to do some more searching to find even the minimum number of sites for compliance monitoring

Unified Coordination Group (UCG):

- Developed Situation Report
- CDC/ASTDR field team representative attended community meeting at local church where an estimated 50 community members were in attendance.

Local EOC:

- In processed Southern Baptist Disaster Relief Group. Southern Baptist Disaster Relief taking over rapid response deliveries for NCCC teams on 02/16/2016.
- 140 water samples picked up at sentinel monitoring points by 1600 on 02/15/2016. Will be close to completing pick up at all 241 locations before end of day.
- Discussing lead and copper exposure of animals in City of Flint with MSU College for Veterinary Medicine.
- Introducing local staff to EOC positions and processes.
- Evaluating potentially culturally sensitive messages on water donated through one specific source. Holding water at warehouse until confirmation that displayed messages are not offensive.
- Sit Rep # 35 published.

Chris

Update 2/14/16 – 41th Day (40th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.
2. Governor's Report (no graphs due to edits being made in the burn rates).

Key items for tomorrow to note are:

- 5 American Red Cross Teams scheduled for Monday, February 15, 2016. Team Priority Scheduled tomorrow is to continue water distribution and rapid response.
- It was announced at the 6:30 pm distribution process meeting that the NCCC will continued their volunteer mission through 2/22/2016. ARC will return their iPads to the local EOC for the Southern Baptists teams to use for data collection. Southern Baptists will be at the local EOC to train on the iPads tomorrow, and will begin their mission on Tuesday.

Items to Note

- There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties.
- National Guard mission has been extended through 3/16/2016.
- SEOC Logistics is working with Flint Schools to identify alternative locations to store water. Additionally, Logistics is continuing to fulfill resource requests for Warehouse #2, based on the Memorandum of Agreement with the Seventh Day Adventist. Recovery Branch is working to outline the transition between National Civilian Community Corp (NCCC) and Southern Baptists for the Flint Water Response Teams.
- 5 American Red Cross Teams were deployed today. The teams visited the 83 addresses of City of Flint Residents where there was no valid record of having been contacted. Continued with Rapid Response.
    - JIC requested that information about recycling and scams be included in daily Flint Water Response email sent by the Governor's Office; both items were included in the message that went out at 11 a.m. today.

Unified Coordination Group (UCG):

- One sequential testing team is set up to do outreach at 40 residences, along with eight filter grabs.
- Health and Medical Task Force will be meeting with the US Behavioral Health for a team meeting, to integrate with the Flint Recovery Group. They will also begin setting up for the incoming team with nurse case managers who are arriving today.
- UGC Public and External Affairs: Surgeon General will be arriving tomorrow for a two day visit.
- American Red Cross had a 3:00 pm meeting to review the ARC Recovery Framework, and to identify the federal representatives who will be on the recovery groups.
- The UCG advised they will work on getting infographics to make the website less confusing.

Local EOC:

- Sentinel outreach campaign statistics:
    - 402 homes were initially contacted for the program.
    - 241 of those households have agreed to be sentinel monitoring points for long-term water testing.
    - Identified 10 lead service lines.
    - 17 households declined to participate.
    - Developed SitRep #34.
    - Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Coordinating scheduling of blood lead level testing clinics in support of goal to test all children under the age of six by April 1.

Update 2/13/16 – 40th Day (39th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal. We are still waiting for the City of Flint to provide us the appropriate information to assist with this.

Attached:

1. Sit Rep #39.
2. Governor's Report

* There were no Water Sampling Results Maps available today. Will work with GIS to provide maps for tomorrow.

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Sunday, February 14.
- ARC will visit the 83 addresses of City of Flint Residents where there is no valid record of having been contacted. Continue with Rapid Response when needed.

Items to Note

- Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.
- Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 234 of 402 homes were visited
- SEOC staff continues to work to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 41 event-based volunteers were assigned and active on projects today.
- Discussion ensued about National Guard mission which may have a current end date of February 16 (Tuesday). This mission will continue until the long term distribution plan is ready to be implemented.

Unified Coordination Group (UCG):

- There was a public meeting at noon today that EPA staff attended on "When is this over?".
- New mental health teams are in today. They had an orientation at the UCG from 0930-1030 to discuss objectives and tasks.
- MDEQ teams did 180 home inspections and discovered 5 lead lines.

Local EOC:

- Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Sentinel Site Monitoring Teams will rally at 1000 instead of 0900 on 02/14/2016 to avoid low temperatures in earlier morning hours.
- Planning for transition from state agency support personnel to local personal in EOC.

Chris

Update 2/12/16 – 39th Day (38th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #38.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor's Report

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Saturday, February 13 – extra vehicles on hand for surge in event based volunteers.

Items to Note

- Elevated Lead and Copper Initial Assessment Task Force is beginning identification of companion animals in visited homes for start of dog blood level testing.
- The JIC issued news release this afternoon upon lifting of boil water advisory. They also held media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Per MDEQ, all of the results from the samples collected in response to the water main break were non-detect for coliform bacteria.

- SEOC staff is working to estimate record numbers to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 80 volunteers were active across the operation today (56 event based, 15 ARC, 9 NCCC).

Unified Coordination Group (UCG):

- WQTF: Has a new team listed in the ICS-204 community involvement teams.
- Transitioned to using vulnerable populations as standard language instead of special populations.

Local EOC:

- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Sentinel teams inspected approximately 170 homes since 02/10/2016, Initial Assessment Task force inspected approximately 65 homes with elevated lead levels and 30 days with elevated copper levels since 02/04/2016.
- Planning for staffing and transition from state agency support personnel to local personnel at Genesee County EOC.
- Liaison Officer and Incident Commander visited UCG and made contact with the Federal Health Coordinating Officer.
- Boil Water Advisory issued by City of Flint in response to water transmission line break was lifted at approximately 1700.

Subject: SEOC Update 2/11/16 - Flint Water - Limited Distribution

Update 2/11/16 – 38th Day (37th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.

    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #37.

   * There are no Water Sampling Results Maps available for today. GIS is resolving a problem with the maps and they will be available tomorrow. Some anomalies in the data were discovered that are being corrected.

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 8 American Red Cross Teams scheduled for Friday, February 12, 2016.
- The second warehouse will open tomorrow on Pierson Road. This warehouse will primarily receive donations that are not on pallets.

Items to Note

- MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses.
- U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend.
- MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. Each team is composed of 1 local resident, 1 licensed plumber and 1 MDEQ staff person providing training on water sampling to residents throughout the City of Flint. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. Over 100 homes were visited yesterday on Day 1 of the effort.
- Attended Community Stakeholder meeting. In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is composed of 1 licensed plumber, 1 law enforcement officer from Flint PD, 1 MDEQ staff person and 1 MDHHS representative. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. Our goal is to provide these visits and assessment within 48 hours of receiving the results.

Unified Coordination Group (UCG):

- WQTF: 1st round of sequential results in a week-week and a half, this paired with the MDEQ sentinel site sampling will provide a good picture of how the system is improving.
- HMTF: Met with the Mass Transportation Authority (MTA), they have a lot of resources to get people to places of interest e.g. care facilities, good food sources, etc.
- PEATF: Dr. Mona, Chelsea Clinton, and Dr. Lurie are in town. A lot of community outreach going on over the weekend. Surgeon General will be in town next week.

Local EOC

- Attended Community Stakeholder meeting.
- Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
- Developing logistics procedures to aid transition to local EOC staff.
- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.

Chris

Update 2/10/16 – 37th Day (36th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Meet with Seventh Day Adventists on warehouse plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #36.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor Report

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 10 American Red Cross Teams scheduled for Thursday, February 11, 2016.

Items to Note (Items in RED are new from when the Governor's Report, "Items to Note" was produced)

- Tasked NG to develop a white paper on what a modern day Civilian Conservation Corps program would look like if implemented in Flint.
- Boil water advisory has been issued in the City of Flint by the local utility due to a broken water main.
- MDEQ implemented Sentential Sampling Program today.
- The long term recovery continued meeting today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.
- In conjunction with Michigan Department of Education, USDA visited a Flint elementary school and health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From the visit, came a USDA media release that highlighted the efforts between the USDA, MI Department of Education and all Health/Human Service partners to expand nutrition programs.
- The American Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of partners.
- SEOC staff met with UPS representatives today re: delivering cartridges to functional/mobility needs citizens. UPS is prepared to assist in this partnership and will provide service at no charge. UPS suggested treating each delivery as a separate package so each can be effectively tracked, and would be able to begin deliveries within the 2-3 week window.

Unified Coordination Group (UCG):

- EPA: Additional team to provide Residual Chlorine testing (2 teams today).

- WQTF: Discussion of state/federal messaging regarding the water main break in addition to the City's.
- EPA: 1,000 samples collected at over 150 homes. Sequential testing at several homes today.
- USDA: Announcing official response to the state's request for expanding WIC funds for blood level. Testing support and expanding program up to the age of 10.
- HUD: Made contact with 100% (2,350) private residences that receive HUD assistance, all have filters installed. Public housing starting today with housing commission to test all properties within a week. Using in-house staff.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief discussing long-term distribution plans with representatives from City of Flint and SEOC in Lansing (on 02/09, 02/10 and 02/11/2016).
- Elevated Lead and Copper Initial Assessment Task Force out in the field, visited 6 homes (provided information at 8 additional homes).
- Ten Sentinel Site Monitoring Teams out in the field, visited 30 homes (provided information at 50 additional homes).
- Expecting increased demand for bottled water and filter cartridges due to Boiled Water Advisory in response to water transmission line break. Aligning additional supplies for appropriate resupply at Fire Station PODs.
- Managing donations and volunteers with Michigan Community Service Commission, ARC and United Way of Genesee County.

Chris

Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.

- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street).
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.
- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9
- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.

- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.
- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.
- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5OrqzcSefg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.
- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.

- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD

9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.
- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD

4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field

3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field
5 personnel
One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field
1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
    - 80 Complexes
    - 4170 Units
    - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.
- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
    - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.
- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.
- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.

- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.
- Attended long term recovery meeting held by state VAL.
  - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
  - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.
- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.

    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.
- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Captain,
Mr. Carmody is looking to discuss what trends we have seen with filters, testing kits and water. Those are the commodities and goods he is looking to discuss (as of this point in time). Basically, are the requests decreasing for these items, did the water main break cause a spike in the requested items? My guess is he might ask about our current supply and if we feel we have enough, ect

Hi Steve,

We're seeing an overall downward trend for bottled water, water filters and lead testing kits at our water response sites.

For the water main break on Dort Highway, there was a slight jump for resources. It looks like there was a little bit of an increase for replacement cartridges, too.

I've attached a few charts I received from the State Emergency Operations Center. It sort of gives a picture of what's going on.

Thanks,

Ron

Hello,

I'm not sure who to send this question to.

I was wondering have you seen any trends in bottled water, water filter or lead testing distribution.

Are people in Flint picking up the same amount of bottled water every day since the start of the city wide distribution?

Are people asking for more water filters? Was there a spike in demand after the water main break this month near Dort Highway?

What about demand for lead testing kits?

I was wondering have you seen any trends in bottled water, water filter or lead testing distribution.

Are people in Flint picking up the same amount of bottled water every day since the start of the city wide distribution?

Are people asking for more water filters? Was there a spike in demand after the water main break this month near Dort Highway?

What about demand for lead testing kits?

Importance: High

The goal from the DEQ plan is below:

GOAL: To conduct initial outreach visit to every residence within the Flint Water Emergency footprint within 48 hours of receipt of laboratory data that indicates water sample levels in excess of 150 ppb.

Has this been done, Yes or no, for all homes in excess of 150 ppb? If not, what is needed to do this.

Subject: Conservation Corps and Long Term Commodity Distribution
Attachments: COA - Michigan Youth Conservation Corps White Paper.docx; Local Hire Program Mtg Notes 2016-02-12.docx; Bullet Points on Long Term Distribution Course of Action.docx; Long-term Distro COA Presentation revised 11Feb pptx

Attached are a few documents that eventually will come together to form a more solid plan.

One of the attached is how a conservation corps would potentially work in MI. There is some missing information in the document but it lays out courses of action with utilizing Seeds of Traverse City as a group to assist us. Seeds is an ecology based youth conservation organization that was created in 1999 in Traverse City. They currently have operations in the Upper Peninsula, Traverse City Area, and Sleeping Bear Dunes. They are a 501 (c)3 organization that has the capacity to expand their operations into Flint.

I am also sending the notes from my staff on the local hire program and I believe TIA sent you the potential list of jobs which was also a part of this meeting.

Lastly, are bullet points from the course of action I believe is appropriate to push the distribution of commodities from the current PODs to 9 PODs (one in each ward) with local citizens hired to staff the PODs. I also attached all the COAs we looked at (the ppt) and COA1 and COA4 scored the best. The recommendation was COA4 with some modifications I made.

COA4 – Long-term Distribution

- These would be mostly portable PODs (parking lots, near bus stops, etc).
- Churches and other organizations could be credentialed to get some commodities (I believe water only is appropriate due to the current status of homes with filters). Many faith based organizations are currently only providing water.
- If possible, we should go to water only at the PODs under this COA (or if we need to, go with a week of all commodities and then move to water only). We have almost 90% of the homes on the water system with filters which is why the water only at the PODs seems appropriate. We always reserve the right to add commodities as needed for groups such as populations that for whatever reasons need additional support.
- We will continue with rapid response teams for homebound or other functional need issues.
- The COA selected is for filter replacements to be shipped by a third party. This would likely be two filters every other month per home on the water system or what we end up with deciding but I do not believe we need to do this every month based on current filter life. Cost is TBD at this time.
- This would eventually phase out the NG from PODs.
- Requires 81 personnel to be hired under the jobs program.

This all needs to be distilled and finalized with more details but the city, county, state, and FEMA were involved in this. Sean believes the Mayor will be on board and I advised him she would likely be the one delivering the message to show the city wants this. Let me know if this direction seem appropriate and we will finalize with more details.

Captain,
Mr. Carmody is looking to discuss what trends we have seen with filters, testing kits and water. Those are the commodities and goods he is looking to discuss (as of this point in time). Basically, are the requests decreasing for these items, did the water main break cause a spike in the requested items? My guess is he might ask about our current supply and if we feel we have enough, ect

Michigan Radio wants to do an interview about the downward trend for Flint water supplies. Is it possible for Captain Kelenske, Tony Katarsky or F/Lt. Gabe Covey to do the interview.

If in-person doesn't work, we can arrange for a phone interview.

Thanks,

Ron

Hi Steve,

We're seeing an overall downward trend for bottled water, water filters and lead testing kits at our water response sites.

For the water main break on Dort Highway, there was a slight jump for resources. It looks like there was a little bit of an increase for replacement cartridges, too.

I've attached a few charts I received from the State Emergency Operations Center. It sort of gives a picture of what's going on.

Thanks,

Ron

Alex-

As we discussed, based on the streets given to us in the below email chain, our GIS folks checked their records and found 5 residences that have not been confirmed to have been "touched" by any of our voluteers. The addresses they show needing contact are as follows:

Can you check to see what you have in your records? If in fact no one has been to these residences can you send a Rapid Response Team (RRT) to them?

Thanks

In addition, most homes have received faucet filters. Filtered tap water should be the primary water source used, with bottled being used to supplement, unless there is an existing reason why the filtered tap water cannot be consumed.**
> 2. WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?);**

3. Residents complaining that they are not permitted to get enough water to meet their needs from the POD; **PODs are not limiting the amount of water residents can take. The guideline is one case per visit, however, if more is needed, they are allowed to take additional cases. Bottled water should be used to supplement the tap water – unless there is a specific reason the filtered tap water cannot be used, citizens should be using filtered water more so than bottled water.**
4. Residents complaining that having to visit the POD daily is too burdensome; **Again, greater use of filtered tap water would alleviate this concern. Most water consumption should be filtered tap water unless a specific reason exists that prevents the use of the filtered tap water (pregnant women, children under 6, etc.)**
5. Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled. **Consumption of filtered tap water would assist with this.**
6. Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly? **We are currently looking at JOBs programs and grant opportunities to hire individuals to sustain operations. However, we will also continue to use volunteer agencies. Volunteers have been an invaluable resource in partnering with the state for response efforts and will continue to be a key component.**
7. Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI) They completed their initial door – to – door mission, so those members were demobilized. The National Guard was brought in to assist with getting filters into every home so there would not be a reliance on bottled water – at this time almost every water customer has a filter. Instead of continuing with the National Guard mobilization, we are hoping to use Flint residents to supplement the volunteers. The National Guard is currently managing our points of distribution.***
8. Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI) The city of Flint requested that these five points of distribution be opened and utilized. We are also currently looking at additional and/or alternative points of distribution.***

Subject: FW: Concerns from the field on water distribution

Hi Kevin,

Please see the below questions raised by Representative Kildee's office and the original constituent email. Can you assist in tracking down answers to these questions?

Specifically, it would be helpful to have clarification on who is eligible for home delivery (is elderly sufficient or do you have to be "homebound")? How do you get on a home delivery list? In general, the original email seems to speak to a need for coordination with persons in HUD housing I believe there are some efforts under way via MSHDA already. I also think the Office on Services to the Aging is doing some outreach. Can you please check with the SMEs in the SEOC to see if this is the case?

Lastly, it was suggested that Captain Kelenske might want to address the three questions about the state (why use volunteers, why limit National Guard, and what is being done outside of PODs) on Tuesday's Congressional call If someone can answer these for me, I will work them into his talking points.

Thank you,
Shanon

Shanon,

I had a conversation today with a staffer for Rep. Kildee. They have "heard" from someone on the ground that raised a number of complaints about the way water is being distributed. Below is a list of the complaints they are hearing, and I was wondering if we have heard these elsewhere? I know we are telling people with specific needs to call 2-1-1, but the staffer was wondering if there is a proactive solution to these issues?

- Elderly residents that cannot carry water back to their home/apartment from a POD;
- WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?)**;
- Residents complaining that they are not permitted to get enough water to meet their needs from the POD;
- Residents complaining that having to visit the POD daily is too burdensome;
- Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled.

The staffer also asked the following questions and while I think I addressed them, perhaps we can discuss how to answer more thoroughly.

- Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly?
- Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI)***
- Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI)***

Below is the full email that he used to inform his call to me. Happy to discuss over the phone if any of this is unclear.

FORWARDED EMAIL FROM KILDEE – NO CONTACT INFORMATION INCLUDED

Hey,
Thanks for letting me give you info on my volunteering in Flint . I appreciate being able to share with someone, and hopefully you can send to someone with some power to help these folks

We were at Slidell Senior Housing on W Carpenter road this Sunday. Our charge was to deliver water to residents and assess needs. This is a low-income senior housing HUD complex for seniors and disabled adults. So, the problem is that these residents are expected to carry bottled water up elevators - if there is a grocery cart available they can use that but some of the residents are reliant on walkers. The cases of water being handed out are heavy, and so these folks would have a hard time getting water up to their units if they are beyond the first floor. So that's the first problem.

Secondly, some of the residents mentioned that they were running out

of room in their tiny apartments to store water. One resident had trouble opening up the door because of cases of water near the door - so FIRE HAZARD in terms of residents being able to get out in time if they have barriers with water cases blocking doorways
Third, some of residents had filters for faucets, but at least one couldn't use it because her kitchen faucet was broken. One resident still is getting skin rashes from showering in the water Still others weren't using the water to bathe or shower so besides handing out water we handed out baby wipes so they had something to use for cleansing.

Many of the residents HAD NO IDEA how to get their water tested. These folks are expected to go to a fire station, get a test bottle, take a sample, and get the bottle back to a fire station - these are lower-income older people, many of whom have physical disabilities! There seems to be a real lack of understanding on filter usage as well as how to get water tested . again, these are HUD managed complexes and HUD needs to get involved and work to protect its residents

So, I am meeting with folks from Nat'l Assoc of Social Workers-MI chapter to engage in some advocacy

I proposed the following to NASW-MI

All HUD and Flint Housing Commission units must have their units and building service lines tested for water and this testing must be coordinated and completed by the EPA service teams and not placed on the residents

Water distribution should be available at all Flint Housing Commission/HUD housing sites in the city on a weekly basis - perhaps that means Red Cross sets up at these sites, or Red Cross and local social service agencies partner together to ensure water distribution is on-site (Particularly with the weather likely getting colder and snowier).

These residents have few resources, many of whom are disabled and without adequate transportation, and they should not have extra burdens placed on them due to the Flint water crisis

Thank you so much for listening!

Memorandum for Record:

To: Captain Chris Kelenske, Michigan State Police

From: Lieutenant Colonel Robert Seeley, Michigan Department of Military and Veterans Affairs

Re: White Sheet for Michigan Conservation Corps

Possible Names:

Michigan Conservation Corps
Michigan Youth Conservation Corps
Michigan Youth Corps

Categories

Youth: 15-18 YOA
Member: 18 - 25 YOA
Leader / Mentor: over 25 YOA

Contacted:

Student conservation Association
California Conservation Corps
Texas Conservation Corps
Montana Conservation Corps
Washington Conservation Corps
Conservation Corps of Minnesota and Iowa
Vermont Youth Conservation Corps

Led to: Michigan Community Service Commission
Ginna Holmes, 989-560-5139

Led to: Seeds - Traverse City

Course of Action:

The Youth Conservation Corps model will be utilized for any of the following COA's. The model is a core organization, based on a 501(c)3 organization, that would become the fiduciary and management organization for the State. The existing organizations I spoke with are all tied to state government, but not completely run by state government. They operate as a Non Profit Organization that utilizes some state money (10% of their budget) and contracts with state, county, and local governments as well as for profit companies (90% of their budget) to complete works projects. They are mostly used for conservation and ecology types of projects, such as clearing out state parks, national parks, commercial properties, etc, planting trees, building and maintaining community gardens, beach restorations, etc. They are also used for disaster recovery, some of the Minnesota and Iowa Conservation Corps projects are currently in Missouri where they are clearing out homes from the damage done by flood waters. All of the people I spoke with in these agencies stated that they currently are not operating in urban areas, they do not see why a Conservation Corps would not work in such an area and

concentrate on blight removal, community gardens, and clearing out parks in that urban environment.

Their model is to send in management personnel into the affected area then work with local agencies to hire local, usually displaced, workers to do the work. They use federal, state, and private grant monies to fund the operations, provide training to the individuals hired, and pay the hired workers a competitive wage through the duration of the emergency. They also work to get contracts from governmental agencies to perform work. If they get a contract from the DNR to clear out an area of a State Park, the Conservation Corps would operate in the same manner, sending in administrative people then hire the workers locally, providing them with

COA - 1, Utilize Seeds of Traverse City. Seeds is an ecology based youth conservation organization that was created in 1999 in Traverse City. They currently have operations in the Upper Peninsula, Traverse City Area, and Sleeping Bear Dunes. They are a 501 (c)3 organization that has the capacity to expand their operations into Flint. They currently are looking for ways to expand their capacity. Their method of operations for any of their current operations is 2 crew leaders and 10 - 12 crew members, which fits into the POD organizational structure that we put forward in planning with the POD based planning piece, COA #1 and COA # 2 I believe, for the long range planning put forward. This also works for the food bank option, COA #3, where direct hires from the state could be used to supplement the food banks. Seeds is willing to become the employer of record for the Department of Labor's labor grant that is currently being applied for by the Michigan Works people If we partner with Seeds, and allow them to handle the Flint water crisis, this organization could partner with a state agency and become the Michigan Youth Conservation Corps utilizing this existing foundation. Seeds currently works with Michigan Works in Northern Michigan to hire displaced workers for their projects. They have had contracts with the National Park Service in Munising for the Pictured Rocks National Lakeshore and Sleeping Bear Dunes near Traverse City. They are currently working with the Michigan DNR to get contracts in several northern Michigan State Parks. If they partner with a state agency like MDMVA or Michigan Community Service Commission, they could possibly have easier access to works projects throughout the state.

COA # 2, Utilize the existing Michigan Community Service Commission to begin a Youth Conservation Corps. This COA would take longer to create, and it would cause us to have to find an employer of record outside of the Youth Conservation Corps to begin with in Flint. The Michigan Community Service Commission would have to form a separate organization that would be the Michigan Conservation Corps, which would be worked through Ginna Holmes who is the chair of that Commission. She is currently working with the NCCC in Flint, which is the national civilian conservation corps volunteers. There are several people in the other state conservation corps that would be willing to assist us in creating this organization. Once the organization is created, then they could transition into the role of the Flint water crisis' employer of record and use that as a base to have similar organizations in the other cities.

COA #3, Utilize the Michigan Department of Military and Veterans Affairs to begin a Youth Conservation Corps. This would be the same as COA #2, but would utilize the existing MDMVA structure to enhance their operations and could possibly utilize Michigan Guard Armories.

COA #4, Utilize the Michigan Department of Natural Resources, Parks Division to begin a Youth Conservation Corps. This would operate the same as COA #2, but could utilize existing State Parks and their facilities to enhance their operations.

Recommendation:

I recommend COA #1 and that we utilize the existing structure of Seeds to go forward with this project. We should immediately find a person to partner with Seeds, the DNR seems like the best partner organization for this organization. If the DNR is the partner organization, it would be easier for this organization to grow.

Potential Local Hire Program
Meeting Notes – 2/12/16

Participants

Maggie Sayles, MTED
Tom Weber, MSP/EMHSD
Brianna Briggs, MSP/EMHSD
Zach Baker, MSP/EMHSD
LTC Seeley, National Guard
Alisha Tate-Nadeau, FEMA
Jason Gamble, FEMA
Jeannie Moran, FEMA

Notes

Workforce Innovation and Opportunity Act (WIOA)
National Dislocated Worker Grant/National Emergency Grants

- Handles the humanitarian effort to include training, workforce money for unemployed, temporary work assignments
- Grant funding could be used to support attire, equipment leases, etc.
- Should be thinking about apprenticeships and training for positions that could turn into long-term hiring
- Timeline - USDOL has indicated, with the Presidential Declaration, turnaround could be as quick as 48 hours
- TEGL 2-15 is the guidance document
- Training and background checks could be paid under the grant
- Maximum award? – No indications there is a maximum
    - Estimates put us around at least $12 million, potentially $15 million (additional asks can be made as needs arise)

Who can be the employer of record?

- It can be NGO or a governmental entity (city or county)
- Employer of record would write paychecks
- MI Works would provide case management to employees

****Need to identify at least one employer of record (very important next step)**

- Maggie to provide a list of criteria we could use when approaching potential employers to provide details on what this would entail (would be based on the Fair Labor Standards Act)
- No matter who the employer of record is, the employee should be working closely with MI Works
- Could have multiple employers of record, if needed

General MI Works Information

- Often Workforce Development Agency has a work/school based employment
    - 35 hours work, 5 hours school (training/work enhancement opportunities), generally
- LTC Seeley will provide Maggie with information for the Youth Conservation Corps
    - Could potentially fit as one employer of record
    - Focuses on youth hires (16-24 years of age)
    - Would hire locally in Flint
- Other grants currently being used by MI Works could be realigned to assist in the short term in getting people out there doing some of this work
- They initially pull from people they already have signed up for work opportunities, particularly with special skills.
- MI Works (GST Works – locally) has space in their facility near downtown that could be used for training or meeting space for these operations

**Need to work on list of jobs with descriptions (FEMA and Brianna are putting together based on COAs)

- MI Works could help determine appropriate pay scale for jobs

Maggie – Research

- Reached out to California (received $18 million previously) and received information
- Reached out to Missouri on Joplin tornado response and received some information from them (MO uses this program fairly regularly now after declared disasters)

**-Action items for MSP/EMHSD

Bullet Points on Long Term Distribution Course of Action
Direct Delivery and PODs Approach

Scope

- Direct delivery of filters, cartridges, and pitchers to residences.
- DTMB will go through an RFP process to secure contractor for direct deliveries.
- Utilize PODs primarily for water distribution and recycling.
    - 1 POD per Ward = 9 total PODs
    - Fixed Location: Parking lot next to bus route and/or transportation route based on FEMA IS26 compliant checklist
    - Box truck with just in time commodities
    - Staffing would be provided all or in part by workforce development grants
    - 9 per POD for a total of 81 personnel
- Rapid Response Teams for Access and Functional Needs (AFN)
    - 1 Rapid Response Team per Ward = 9 total Rapid Response Teams
    - 1 Rapid Response Team = 1 Box Truck and 2 personnel
    - Staffing would be provided all or in part by workforce development grants
    - Approximately 3,000 AFN in affected area
- Designated officials will coordinate pickup for franchise customers.

Strengths

- Tracking and protection of personally identifiable information is the contractor's responsibility.
- Places tracking and accounting aspects in the hands of the contractor.
- Provides a convenient and citizen/survivor centric solution.
- This COA may be supplemented by faith and community based distribution centers at their discretion (account for undocumented workers).
- Allows a phased approach transition to community pods for water distribution.
- Scalable PODs operations based on the overall demand for water.
- Follows FEMA approved guidelines for operation of a POD.
- *PODs are Ward based, giving local government more visibility of the operation.*

Weaknesses

- Increases the cost of the response, at least initially.
- Burn rates and other data will not be readily available.
- May require an MOU for the PODs locations.
- Increased possibility for retail fraud.
- Initial setup time will be more extensive.

Other COA Weaknesses

- Faith based courses of action
    - Require excessive number of volunteers to sustain operations
    - Unmanageable number of distribution points
    - Religious sensitivities

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/09/2016 08 00 00
Operational Period End.	02/16/2016 08 00 00
Situation Report No.	42
SEOC Status.	Full
SEOC Hours of Operation Begin·	02/16/2016 08 00 00
SEOC Hours of Operation End:	02/16/2016 20 00 00

Executive Summary

SEOC Update
Accomplished today (February 16, 2016)

The SEOC continues to provide
- Situational awareness.
- Common operating picture/objectives
- Coordination with city/county
- Potential coordination with federal agencies.
- Incident prioritization
- Coordination of life/health safety measures
- Resources.
- Public information control.

Logistics
- Fielded resource requests
- Fielded Rapid Response requests.
- Fielded Governor's office request.
- Facilitated distribution team calls
- Worked on potential donated warehouse opportunities

JIC
- Created a media monitoring report and looked for misinformation
- Updated a Daily JIC Activities log to catalog actions completed for the day and planned news release strategies for the week
- Drafted and intended to issue a news release about the National Guard rotating soldiers in the city of Flint.
- Continued routing public information materials for approval, including fact sheets on recycling, testing water, and keeping Flint kids safe.
- Additional translated news releases were received and routed
- Created a community outreach spreadsheet to keep track of meetings occurring in the city of Flint.

Recovery Branch
- Attended UCG Brief, SEOC State Agency Briefing Meetings, Distribution Process Meetings
- Continued identifying addresses that are unable to be matched with parcels in city's parcel data set.
- Team Priority Visited Today· 5 teams in the field - Water Distribution – turned 211 information over to local EOC and Southern Baptist Teams
- Team Priority Scheduled Tomorrow· Water distribution and supplies requested
- 5 American Red Cross Teams scheduled for Wednesday, February 17, 2016.
- Total homes visited
  - 24,879 (round 3 total)*
  - 1,023 (today)
- Water cases (liters calculated by multiplying # of cases x 12)
  - 178,116 liters or 14,843 cases (round 3 total)*
  - 8,076 liters or 673 cases (today)
- Replacement cartridges
  - 6,331 (round 3 total)*
  - 609 (today)
- Faucet filters
  - 7,792 (round 3 total)*
  - 90 (today)

*Totals updated due to changes in previous data

Planning Section
- Developed and approved Sit Rep #42
- Updated burn rates and projection costs, per request
- Participated in daily UCG, state agency, and distribution process meetings.
- Developed daily Governor's Report.

Operations Section
- Participated in Long Term Recovery planning meeting.
- Participated in Unified Coordination Group briefing
- Facilitated Command/General Staff/SEOC briefing
- Participated in Distribution Process meeting
- Assisted in developing print plan for FOIA request.
- Assisted state agencies in handling requests from Governor's office, media, etc.
- Warehouse Numbers as of 1800

❑ Water (liters)
• 828,374 liters or 69,031 cases.
❑ Filters (faucet)
• 47,132.
❑ Replacement cartridges
• 402,782
❑ Test Kits (prepped)
• 35,854.
• PODs (Number as of 1700 2/15)
❑ Water (cases)
• 59,184 liters or 4,932 cases
❑ Filters (faucet)
• 162
❑ Replacement Cartridges
• 453.
❑ Test kits
• 131.

Finance Section
• Gathering information for meeting with State Budget Office
• Update Category B Financial Spreadsheet.
• Reviewing donation information for potential as future match

GIS Branch Updates
• Update MDEQ water testing layer
• Generate a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited
• Generate a list of total residences that potentially will be using a water filter that use water from the City of Flint
• Compare and contrast 2016 Flint parcel layer with 2015 Flint parcel layer
• Edit Flint Water Resource Team field data to parcel

DTMB
• Provided a dumpster for the Pierson Rd. Warehouse
• Provided seven (7) iPads for DEQ sampling teams.
• DTMB to provide a truck and driver for the Food Bank for Thursday through Saturday
• Procured a replacement fork lift battery for the Pierson Rd. Warehouse.
• Addressing issues with Pierson Rd. Warehouse with landlord, MDOC and 7th Day Adventist.
• DTMB Real Estate researching options for a 200,000 sq ft. warehouse for long term distribution plan, preferably on the bus line

DHHS-CH (weekly)
• The CHECC remains activated at a Level 2, and continue to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD The CHECC continues to provide representation to the UCG to facilitate communication with federal partners
• The CHECC met with senior MDHHS leadership, UCG representatives and team members that have been supporting GCHD Case Management efforts today to continue planning efforts for lead testing and case management activities going forward

DEQ
• Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.
• Reviewed incident objectives to reflect Director's priorities for upcoming week.
• Began developing a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
• Continued monitoring and mapping of school fixture upgrade/replacements
• Began planning for next phase of testing and data collections

Unified Coordination Group (UCG)
• CDC will meet with state on rash complaints/test results
• Attended Command/Control subgroup this afternoon Group would like to change the name to coordination
• Important to include state reps on each subgroup

Local EOC
• Sentinel monitoring teams collected 273 water samples at yesterday
• Elevated lead and copper task force were out in the field today
• Local EOC IC attended Community Stakeholders meeting
• Local EOC Liaison attended Community Stakeholders and long term distribution process meeting

Injuries
• None reported today

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with orginal objective number attached)

1 Ensure all households within impacted community have required resources and are included in DEQ water sampling plan
12 Approve and begin implementation of a comprehensive long term recovery and transition plan
11 Ensure accurate tracking and accounting of all donations and expenditures
2 Ensure accurate tracking and accounting of all commodities
3 Continue to improve and maintain public information processes and strategies with all partner agencies
8 Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWCC, and the US Department of Health and Human Services Unified Coordination Group (UGC)
9 Continue to enhance situational awareness and common operating picture of all activities
7 Gather, analyze, and disseminate GIS data to develop products for future planning

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a m. to 8 p.m. on Feb 16

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality, Health and Human Services and Natural Resources. The Genesee County Sheriff's Office and American Red Cross were also present

Tasks accomplished.
• Media hotline staff answered less than 10 emails and phone calls, ranging from commodity distribution trends at the Water Response Sites to inquiries about volunteering in the city of Flint.

- Created a media monitoring report and looked for misinformation.
- Updated a Daily JIC Activities log to catalog actions completed for the day and planned news release strategies for the week.
- Drafted and intended to issue a news release about the National Guard rotating soldiers in the city of Flint
- Continued routing public information materials for approval, including fact sheets on recycling, testing water, and keeping Flint kids safe Additional translated news releases were received and routed.
- Created a community outreach spreadsheet to keep track of meetings occurring in the city of Flint.

Agriculture and Rural Development (MDARD)

MDARD's field activities for 2/12/16 included.
- 15 assessments conducted (6 initial, 9 follow-up and 2 second follow-up)
- 5 water samples collected.
- 6 water sample requests/appointments were scheduled.

As of 2/5/16, MDARD has completed initial water assessments at all food businesses in the high risk area and has conducted a total of 371 assessments (280 initial/ 91Follow-up). The compliance rate is 77 63% 242 water samples have been collected and 41 are currently scheduled

Also followed up with general information regarding testing of Pb in companion animals in response to question from DEQ desk

Completed request from MSP planning regarding closures of food establishments as result of non compliance, see below

I will be at the SEOC on Wednesday and follow up with Drs Averill and Frank regarding Genesee county companion animal information

American Red Cross (ARC)

The American Red Cross deployed 5 Water Response Teams on Tuesday, 2/16/16

The Volunteer Reception Center was operating today from 9am to 5pm, and the plan is for those hours to continue daily, through Sunday.

A limited number of water bottle recycling kits were assembled today

Civil Rights (MDCR)

Continue to monitor media and state agency activities for issues impacting underrepresented, at-risk, and populations with barriers to services and information Informed senior leadership of current activities and concerns

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

Dr. McFadden reported that to date there is no conclusion regarding the cause of rashes that have been reported, no common presentations on interview. Epidemiological investigations are on-going A dermatologist has offered to do evaluations of individuals with rashes at no charge Dr. McFadden's team will schedule the appointments and MDHHS -Human Services Representative is working with the local EOC to determine a transportation plan for these individuals if required EPA test results of the water from the individuals' homes are expected today.

Shower filters are only NSF/ANSI certified for chlorine Contacted makers of the KDF filters which are used on showers and was informed that due to the high flow rate of showers, the water is not in contact with filters long enough so they are not really designed for more than cosmetic purposes

MDHHS continues to provide volunteers to accompany the MDEQ High Lead Home Teams

Corrections (MDOC)

MDOC began staffing the second warehouse 7 days/week 10-6 effective today MDOT is dedicating 2 employees to the effort DTMB continues to dedicate 2 trucks with drivers

The building owner of Warehouse 2 restricted access to an unsafe area (compressor room) A padlock w/chain and signage was used.

MSP dispatched a unit to Warehouse 2 for an abandoned vehicle with busted windows in the parking lot. The vehicle was not stolen and the issue was turned over to the city PD for disposition.

A temporary replacement battery will be delivered tomorrow for the forklift at Warehouse 2 until the permanent replacement arrives Thursday or Friday.

Met with FEMA VAL regarding safety concerns at Warehouse 1.
-Security staff to restrict access
-Propane storage areas
-Exhaust fumes in warehouse
-Safety Vests
-Floor tape designating machine and pedestrian areas
-First Aid and AED
-Dust Masks

We are addressing the issues and will correct them. A follow up will be in the next Sit-Rep

MDOC will provide a Truck and Driver for the Flint Food Bank for Wednesday, February 17, 2016

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level PODs remained well supplied throughout day and will continue to be well supplied moving forward

We are continuing to work with Finance and MDOC assets to capture total employee payroll information and expenditures.

MDOC continue to staff the SEOC from 0800-2000, 7 days/week Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC

403 DEQ and 0 MDARD test kits were delivered from Flint to Lansing today

Education (MDE)

MDE has a request from Planning to determine if any school days or instructional time has been lost due to the Flint water situation. We have reached out to GISD with a request for this information MDE has received a request from the MEA Region Director for training of teachers of students impacted by Flint water situation

MDE continues to work with MSD on faucet replacement and re-replacement with a new target date of 24 February for completion

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today

Continued documenting compliance with EPA Emergency Administrative Order and second EPA request.

Reviewed incident objectives to reflect Director's priorities for upcoming week

Began developing a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead *service lines*

Continued monitoring and mapping of school fixture upgrade/replacements

Began planning for next phase of testing and data collections

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools

Faucet Project information is being prepared for the affected facilities LARA continuing efforts to plan and schedule faucet replacements for Flint facilities

LARA is working with MDOC to track and store incoming material at the warehouse

Translation services for various documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language

Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort with state agencies

Arrangements in progress for assistance to various ethnic communities to provide services

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1 DTG: 1612002016.

2 UNIT. Points of Distribution (PODs), TF FLINT (1-125 IN)

3 POC Ssg Gazzeny, Darryl L. Cel : Email: armyinfantry31@yahoo com.

4. PRESENT LOCATION Genesee County Local EOC, 1101 Beach St , Flint, MI, 48502

5 SITUATION OVERVIEW 1-125 IN has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs) Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6 OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has Soldiers on ground supporting the mission

7 OPERATIONS Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a Signs have been printed off for the POD Buildings Requesting approval to get the signs laminated from the purchasing office.

1) TF Flint OIC, 2LT Benke has a meeting on 16FEB2016 with Calix Martinez in the city of Flint Plans and Marketing office to have signs designed and printed

b. Soldiers are preparing for the unit change at the PODs.

1) 1-125 IN conducting relief in place within next 24 hours

8. PERSONNEL Soldiers are currently assigned to the POD operations Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8

9 INTELLIGENCE / FORCE PROTECTION

10 LOGISTICS: In support of TF Flint

a 60 cases of recycle bags have been placed at POD locations.

b Recycling trailers are being assessed by schupon on frequency of pickup

11. COMMUNICATIONS No communications issues at this time

P. RRF cell phones alternate for WRTs
A· Personal cell phone.
C 800 MHz radios issued to PODs and WRTs
E· Runner.

12 NARRATIVE: N/A

13 COMMANDER'S EVALUATION
• AAR and operational notes are being consolidated into SOP's to send to JOC to assist in updating the All Hazards Plan
• An operational handoff packet including SOP's, POC's, POD sector sketches, hand-receipts, and other operational notes is being built to assist the incoming unit
• POC needed for incoming unit
• OUT (last 24 hours)
Bottled water-3733 Water (Gallons)-2020 Lead Testing Kits-131
Pitcher (23 cup)-0 Brita Faucet Filter-34 Brita Replacement Cartridge-128
Pur Filter-76 Pur Replacement Filter-243

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC

Department POC's include
Chief Gary Hagler, F/Lt Jennifer Wolf, F/Lt. Steven B Burton

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co EOC for water and filter follow-up

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan gov are being forwarded to the Operations Lt The phone number for the on duty Operations Lieutenant is 517-241-8000

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management SEOC updates and expenditures to-date.

Provided a dumpster for the Pierson Rd. Warehouse.
Provided seven (7) iPads for DEQ sampling teams.
DTMB to provide a truck and driver for the Food Bank for Thursday through Saturday.
Procured a replacement fork lift battery for the Pierson Rd Warehouse.
DTMB Print & Graphics printing multiple print jobs
Added calendar access to two additional DEQ employees.
Addressing issues with Pierson Rd. Warehouse with landlord, MDOC and 7th Day Adventist
DTMB Real Estate researching options for a 200,000 sq ft warehouse for long term distribution plan, preferably on the bus line.

Transportation (MDOT)

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions

DISTRIBUTION
DRAFT/PRE DECISIONAL

Long-Term Distribution COA Facts & Assumptions

Facts

- Move from State to ??? distribution method
- EM Dec expires 14 Apr 16
- Distro COAs included faith based
- DEQ 3rd party H2O safe
- FEMA provide H2O 90 day
- FEMA 3 commodities
- One filter in every residence
- State engaged – high level
- Stewardship {reports, oversight}
- Restore Confidence in Govt F S L

Assumptions

- Move to long term distribution plan in 2-4 weeks
- Move State Distribution
- Distro command defined as
  - H2O filters
  - H2O Cartridges
  - Pitchers
  - H2O Pods
- ***State will maintain commodities past 90 days?**
  - **Does state want to prepurchase commodities other than water?**

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA Criteria

- **Ease of Sustainability (5)**
  - **Must be sustainable for a year or longer with no disruption of service to the affective population. (less is better=fewest days of disruption)**
- **Ease of Implementation (5)**
  - **Time and effort to operationalize COA (less is better=least amount of time and effort)**
- **Cost (1)**
  - **Ability to implementation and sustain (less is better=fewer $$$)**
- **Public Perception (3)**
  - **Public has confidence in the long term distribution plan (less is better=measured as # of negative social media posts)**
- **Survivor Centric (4)**
  - **Most convenience to population (less is better = distance and available hours to pop)**

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA Evaluation

		COA				
Factor	Weight	1	2	3	4	5
Sustainable	5	10	25	16	6	18
Implementation	5	8	18	15	13	11
Cost	1	15	10	13	21	19
Public Perception	3	14	12	8	15	7
Survivor Centric	4	12	14	13	8	14
	Unweighted	59	79	65	63	69
	Weighted	195	317	244	193	241
	Ranking	2	5	4	1	3

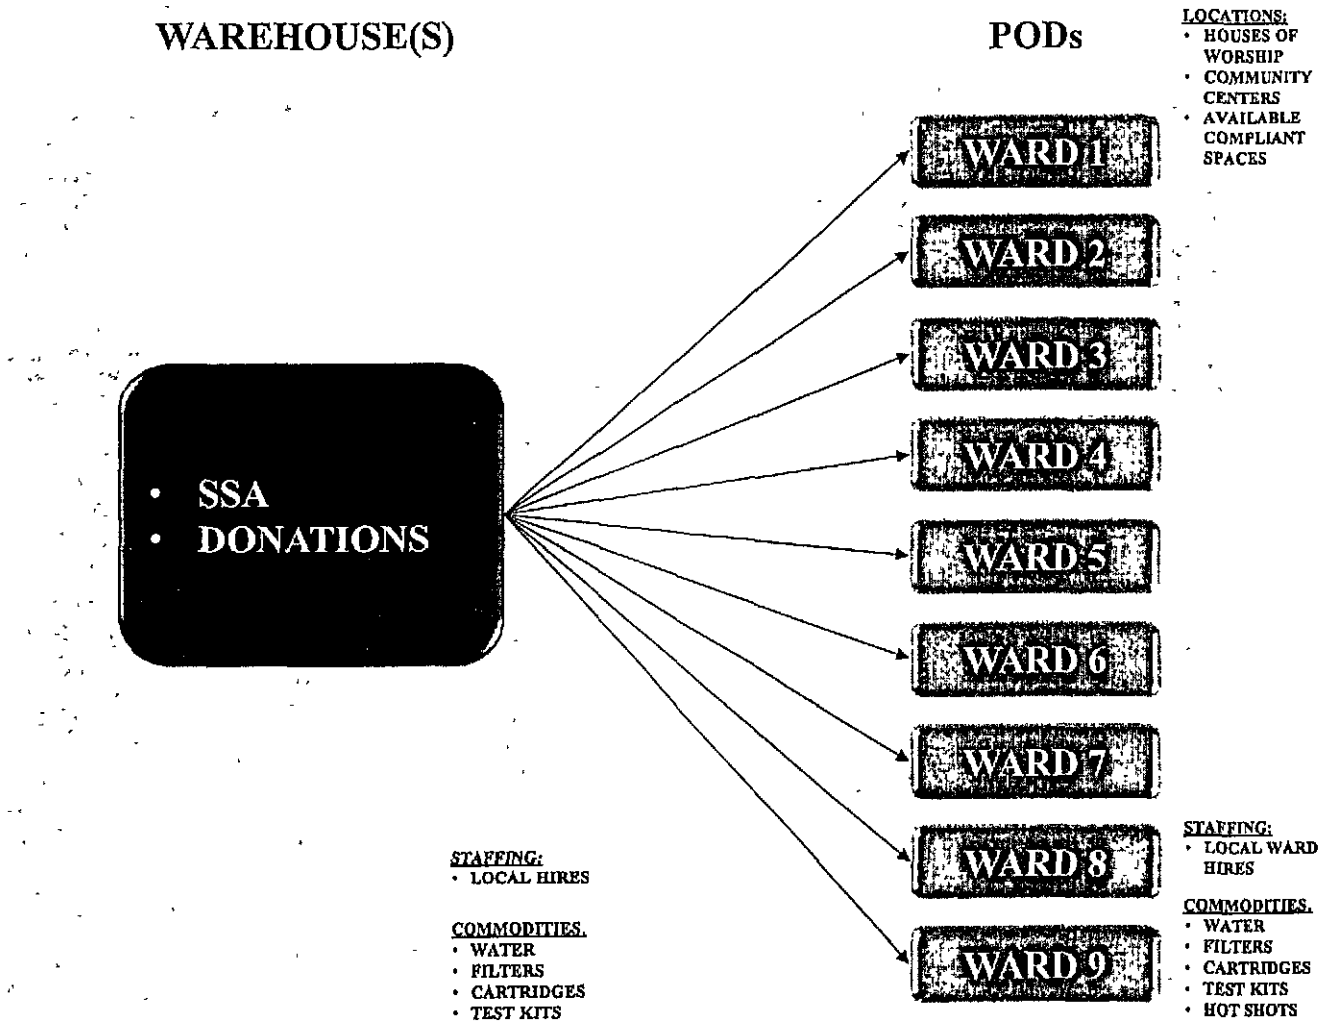
NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #1

- One Point of Distribution (POD) per ward
- IS26 Compliant Use IC26 checklist to ID Locations
- Staffing minimum of 9 per pod for 81 PAX
- Location based upon
  - Fixed Location (parking lots)
  - Utilize semi/box truck w/just in time commodities
  - Parking lot next to bus route &/or transportation route
- Full Service H2O, Filters, cartridges, test kits (only advertise H2O, cartridges and test kits) + recycling
- Rapid response to 211 calls one 16' penskes with 2 pax per POD to address vulnerable population in this COA
  - approx. 3000 question of how many are mobile
  - Potential existing homecare assist delivery
  - Some in assisted living and addressed there.
- This COA will likely be supplemented with faith and community based distribution centers

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #1



NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #1 Talking Points

STRENGTHS

- JUST-IN-TIME DELIVERY
- EFFICIENT, DEVELOPED, AND PROVEN SYSTEM
- ACCOUNTABILITY OF RESOURCES
- *EFFICIENT*
- EASILY LOCATED
- ABILITY TO HAVE ACCURATE BURN RATES
- FOLLOWS FEMA-APPROVED GUIDELINES
- BUY IN ALL LEVELS OF GOVERNMENT
- ON-LINE TRAINING (EMI-IS)
- SCALABLE FLEXIBLE
- BRIDGING STRATEGY USING NG & VOLUNTEERS W/IN LESS THAN 7 DAYS
- WARD BASED
- ROLE FOR FAITH BASED ORGANIZATIONS
- SUSTAINABLE LOCAL JOBS FOR 12 MONTHS
- PROVEN DISTRIBUTION STATEGY
- # OF LARGE SITES TO PICK FROM
- STIMULTATE FLINT ECONOMY
- ON BUS/TRANSPORTATION ROUTES
- NO PREDETERMINED SITES
- COUNCILMEN ACTIVE PARTNERS

RISKS

- POLITICAL RAMIFICATIONS
- STAFFING
  - TRAINING
  - RETENTION
  - VETTING

WEAKNESSES

- STAFF RECRUITMENT AND RETENTION
- LOCATION SEARCH
- TRAINING AND CERTIFICATION
- FUNDING AND FUNDING SOURCE
- FINDING SITES FOR DRIVE-THROUGH PODS
- TRACKING OF COMMODITIES
- NO PREDETERMINED SITES
- *HIGH COST OF BRIDGING STRATEGY~$1M FOR 71 NG PAX PER MONTH*
- STAFF SCALIBILITY LIMITED TO GRANT
- UNKNOWN BURNRATE
- WOULD REQUIRE MOU
- FEMA CAN ONLY PURCHASE THRU 14 APR

EQUIPMENT, POLICY, PROCEDURES, ETC.

- SITE
- EQUIPMENT
- STAFFING
- ADA COMPLIANCE
- ACCOUNTABILITY SYSTEM
- CREDENTIALING
- SKILL-SETS AND TRAINING
- *MIOSHA*
- USER AGREEMENTS
- CONEX BOXES

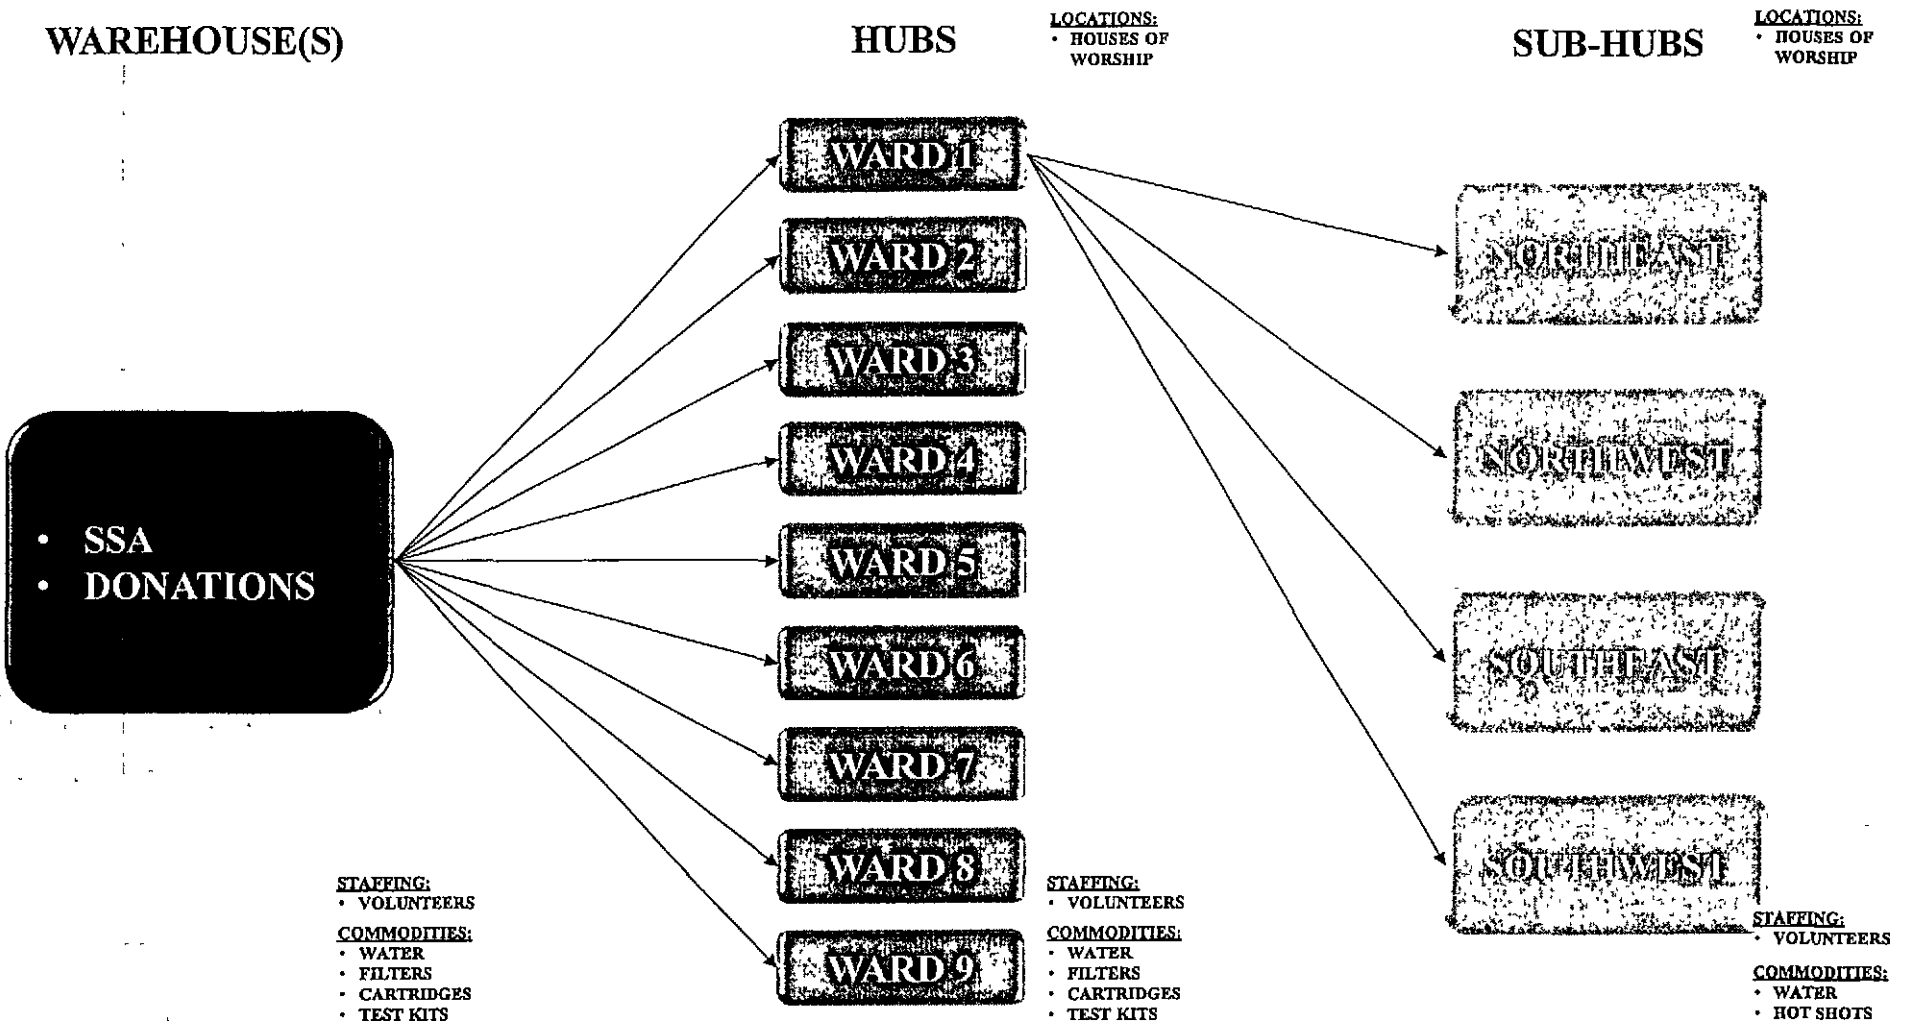
NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #2

- Staffing is utilizing volunteers
- This plan is based on distribution centers to faith based organizations utilizing food bank and Red Cross distribution
- Utilizing one hub in each ward and four sub hubs in each ward.
- Hubs will have all four commodities
- A mobile lead testing clinic twice per week for individuals without insurance at each hub (where receive lead awareness testing, nutrition, and education on lead prevention tips for families
- This COA will likely be supplemented with faith and community based distribution centers
- Sub hubs
  - Recycling center
  - will do water distribution only
  - Transportation to senior citizen complexes in the ward

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #2



NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #2 Talking Points

STRENGTHS

- WHOLE COMMUNITY
- ACCESS TO POPULATION
- LARGER GROUP VIABLE PROPERTY
- STATE INVESTMENT AND COMMUNITY ORGANIZED
- COMMUNTY GENERATED PLAN
- NO LABOR COSTS
- INCORPORATES STRATEGIC PARTNERS
- REDUCES TRAVEL TIME FOR RESIDENTS
- SURVIVORS CAN BE VOLUNTEERS

RISKS

- LOCATION SELECTION/AVAILABILITY: QUANTITY OF SITES
- RELIGIOUS SENSITIVITY (Internal discord among interfaith network)
- POLITICAL RAMIFICATIONS (COMPETING POLITIAL INTERESTS)
- APPEARANCE THAT STATE IS WALKING AWAY AND GIVING MISSION TO FAITH BASED
- COMMUNITY BUY IN MAY BE AFFECTED BY DISRUPTIONS TO LOCAL COMMUNITY ACTIVITIES

WEAKNESSES

- STAFFING OF 459 VOLUNTEERS (ABILITY TO SUSTAIN)
- IDENTIFY 45 SUITABLE FACILITIES THAT MEET IS26
- VOLUNTEERS MUST BE TRAINED AND CERTIFIED
- VOLUNTEERS REQUIRE SPECIFIC SKILLS
- BACKGROUND CHECKS REQUIRED FOR RAPID RESPONSE TEAMS
- HOST ORGANIZATION MUST COMPLY WITH VOLUNTARY LABOR LAWS
- LACK OF CONTINUITY IN STAFF
- DIFFICULT TO MAINTAIN A SUPPLY CHAIN ACCOUNTABILITY OF COMMODITIES
- RAPID RESPONSE TEAMS WOULD NEED TO WORK OUT OF HUBS TO GET FILTER, CARTRIDGES, & TEST KITS
- IMPACTS AND FINANCIAL CONCERNS AT CHURCHES/COMMUNITY CENTERS
- POTENTIAL SUDDEN TERMINATION AFFECTS OPERATIONAL STABILITY
- EXCEEDS SPAN OF CONTROL RELATED TO STAFFING AND SITES
- INTERIOR SPACE REQUIREMENTS STORAGE 10X10 CLIMATE CONTROLED ADMIN FOR 2 PAX INTERNET AND PHONE
- DISRUPTION OF COMMUNITY TRAFFIC FLOW
- POTENTIAL SECURITY COSTS
- BRIDGING STRATEGY UTILIZING THE NG IS NOT VIABLE
- LACK OF EQUIPMENT/WEAR AND TEAR
- RELIGIOUS SENSITIVITY

EQUIPMENT, POLICY, PROCEDURES, ETC.

- 45 SITES
- EQUIPMENT LOG LIST
- STAFFING: VOLUNTEER POLICY CONSIDERATIONS
  - *AGE, ABILITY*
  - INSURANCE
- EBL TESTING IS NOT SUPPORTED BY LOCAL MEDICAL COMMUNITY
- ADA COMPLIANCE
- ACCOUNTABILITY SYSTEM
- CREDENTIALING
- SKILL-SETS AND TRAINING
- MIOSHA
- USER AGREEMENTS
  - RENTAL
  - MOU

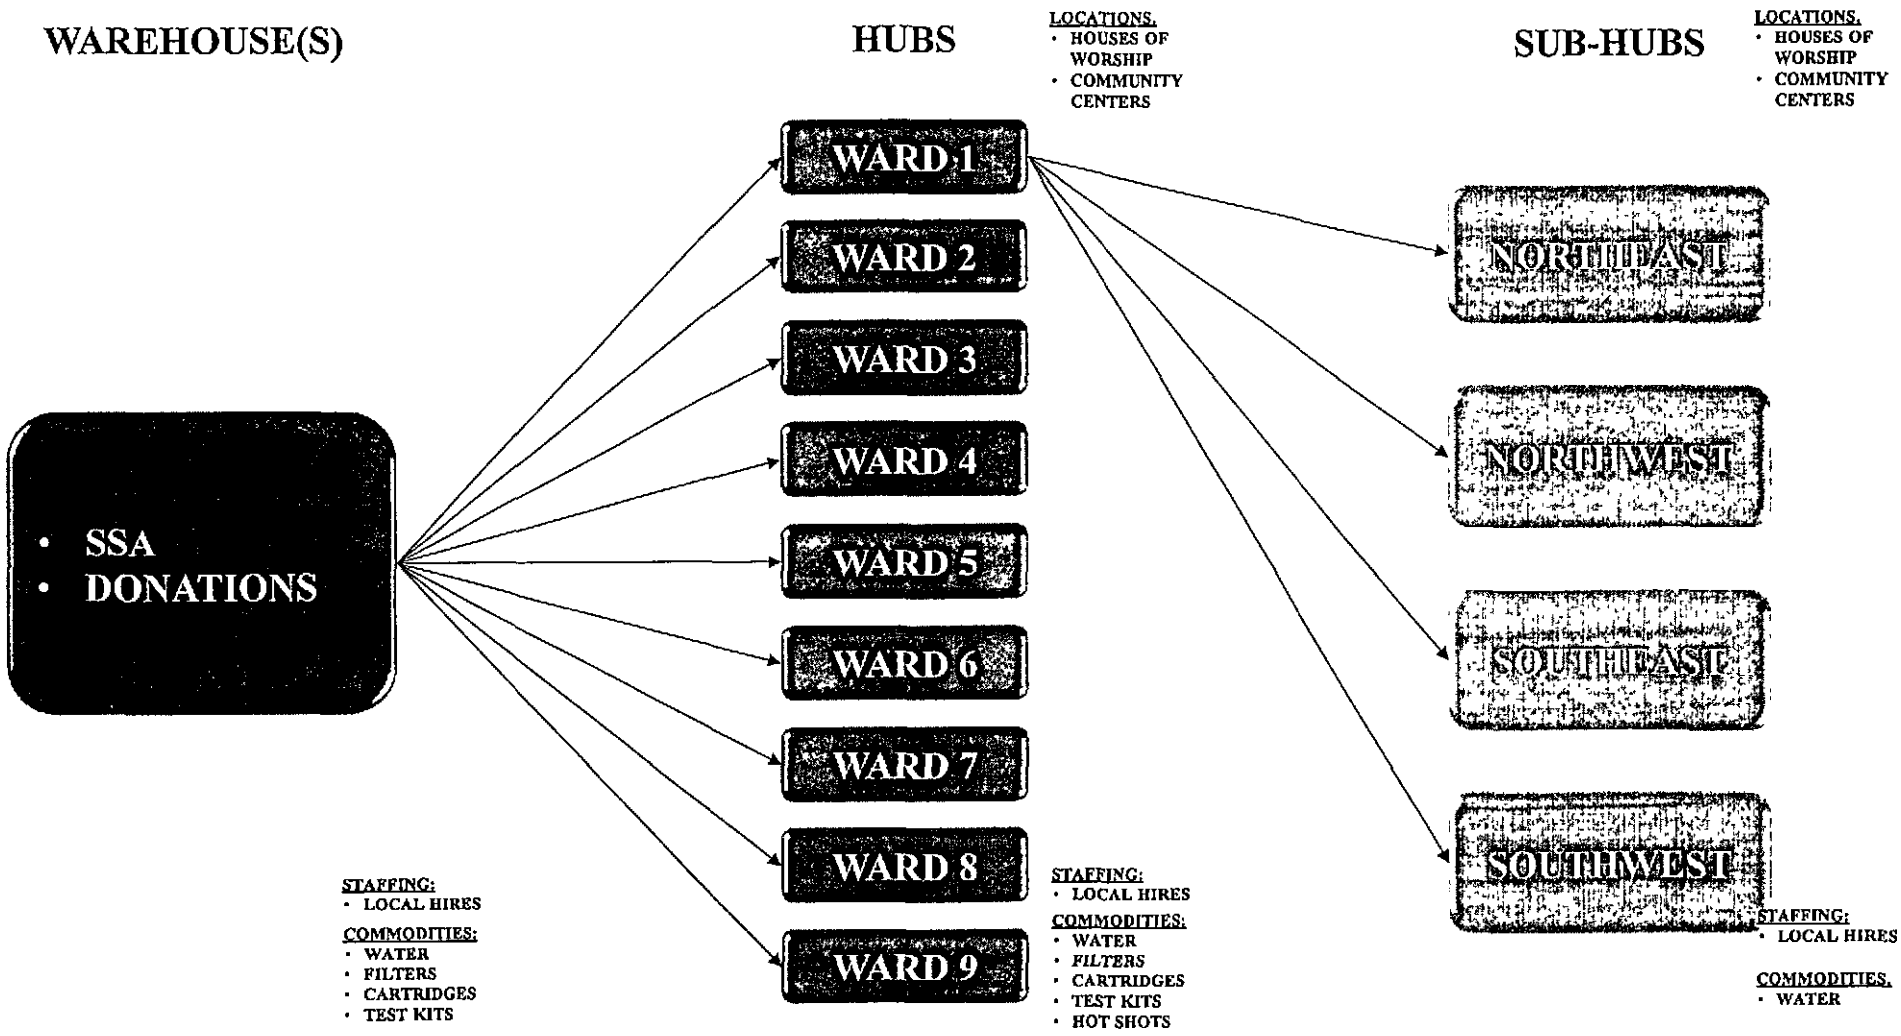
NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #3

- Staffing is hired full and part time
- This plan is based on distribution centers to faith based organizations utilizing food bank and Red Cross distribution
- Utilizing one hub in each ward and four sub hubs in each ward.
- Hubs will have all four commodities
- A mobile lead testing clinic twice per week for individuals without insurance at each hub (where receive lead awareness testing, nutrition, and education on lead prevention tips for families
- This COA will likely be supplemented with faith and community based distribution centers
- Sub hubs
  - Recycling center
  - will do water distribution only
  - Transportation to senior citizen complexes in the ward

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #3



NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #3 Talking Points

STRENGTHS

- WHOLE COMMUNITY
- SKILLED LABOR POOL
- RELIABLE WORK FORCE
- MONEY STAYS WITHIN COMMUNITY
- ACCESS TO POPULATION
- LARGER GROUP VIABLE PROPERTY
- STATE INVESTMENT AND COMMUNITY ORGANIZED

RISKS

- LOCATION SELECTION/AVAILABILITY
- RELIGIOUS SENSITIVITY
- POLITICAL RAMIFICATIONS
- STAFFING
  - LOCAL HIRING
  - TRAINING
  - RETENTION
  - VETTING
- APPEARANCE THAT STATE IS WALKING AWAY AND GIVING MISSION TO FAITH BASED
- POTENTIAL CHANGING COMMUNITY CONCERNS

WEAKNESSES

- STAFFING OF 459 EXCEEDS GRANT CAPACITY (~200)
- FINDING 45 SUITABLE FACILITIES
- TRAINING AND CERTIFICATION
- FUNDING SOURCE
- CONSISTANCY
- ACCOUNTABILITY OF COMMODITIES
- HOW DO RAPID RESPONSE TEAMS GET FILTER, CARTRIDGES, & TEST KITS WORKING FROM SUB HUBS
- IMPACTS AND FINANCIAL CONCERNS AT CHURCHES/COMMUNITY CENTERS
- POTENTIAL SUDDEN TERMINATION
- EXCEEDS SPAN OF CONTROL
- *INTERIOR SPACE REQUIREMENTS STORAGE 10X10 CLIMATE CONTROLED* ADMIN FOR 2 PAX INTERNET AND PHONE
- DISRUPTION OF COMMUNITY TRAFFIC FLOW
- POTENTIAL SECURITY COSTS

EQUIPMENT, POLICY, PROCEDURES, ETC.

- SITES
- EQUIPMENT
- STAFFING
- ADA COMPLIANCE
- ACCOUNTABILITY SYSTEM
- CREDENTIALING
- SKILL-SETS AND TRAINING
- MIOSHA
- USER AGREEMENTS

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #4

- Direct delivery for filters, cartridges, and pitchers,
- PODS water only and recycling
- Rapid Response could use one per Ward
- Designated Officials will arrange pickup for Franchise customers from SSA
- DTMB would issue request for proposals (RFP) for direct delivery of the three commodities
- Tracking and protection of PII is responsibility of contractor
- Write RFP to incorporate an upper limit per household per month
- State to provide addresses
- This COA will likely be supplemented with faith and community based distribution centers
- Distribution Model
  - FEMA procured commodities delivered to SSA
  - Vender assumes commodities at SSA
  - PODs in each of 9 ward using IS26 protocol for water distribution only

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #4 Talking Points

STRENGTHS

- TURN KEY FOR THREE COMMODITIES
- IMPROVED EFFICIENCIES , ACCOUNTING AND TRACKING
- FLEXIBLE AND RESPONSIVE
- CONVIENENT/SURVIVOR CENTRIX
- INDIVIDUAL AGENCY PREEXISTING COMPETENCIES MAXIMIZED
- MEETS ALL IS26 STRENGTHS
- AS DEMAND FOR H2O DECREASES ALLOWS A TRANSITION TO COMMUNITY LED H2O PODS

RISKS

- LOCATION SELECTION/AVAILABILITY
- POLITICAL RAMIFICATIONS
- CONTRACTOR PERFORMANCE
- STAFFING OF PODS
  - INCREASES
  - FUNDING
  - TRAINING
  - EQUIPMENT

WEAKNESSES

- COST
- DUPLICATION OF EFFORT
- UNKNOWN BURNRATE
- WOULD REQUIRE MOU FOR PODS
- NO PREDETERMINED SITES FOR PODS
- TIME REQUIREMENTS TO START
- INCREASED POSSIBILITY FOR RETAIL FRAUD

EQUIPMENT, POLICY, PROCEDURES, ETC.

- SITE
- EQUIPMENT
- STAFFING
- ADA COMPLIANCE FOR WATER PODS
- ACCOUNTABILITY SYSTEM
- CREDENTIALING FOR PODS & RAPIDS RESPONSE TEAMS
- BACKGOUND CHECKS FOR RAPIDS RESPONSE TEAMS
- SKILL-SETS AND TRAINING
- MIOSHA
- USER AGREEMENTS

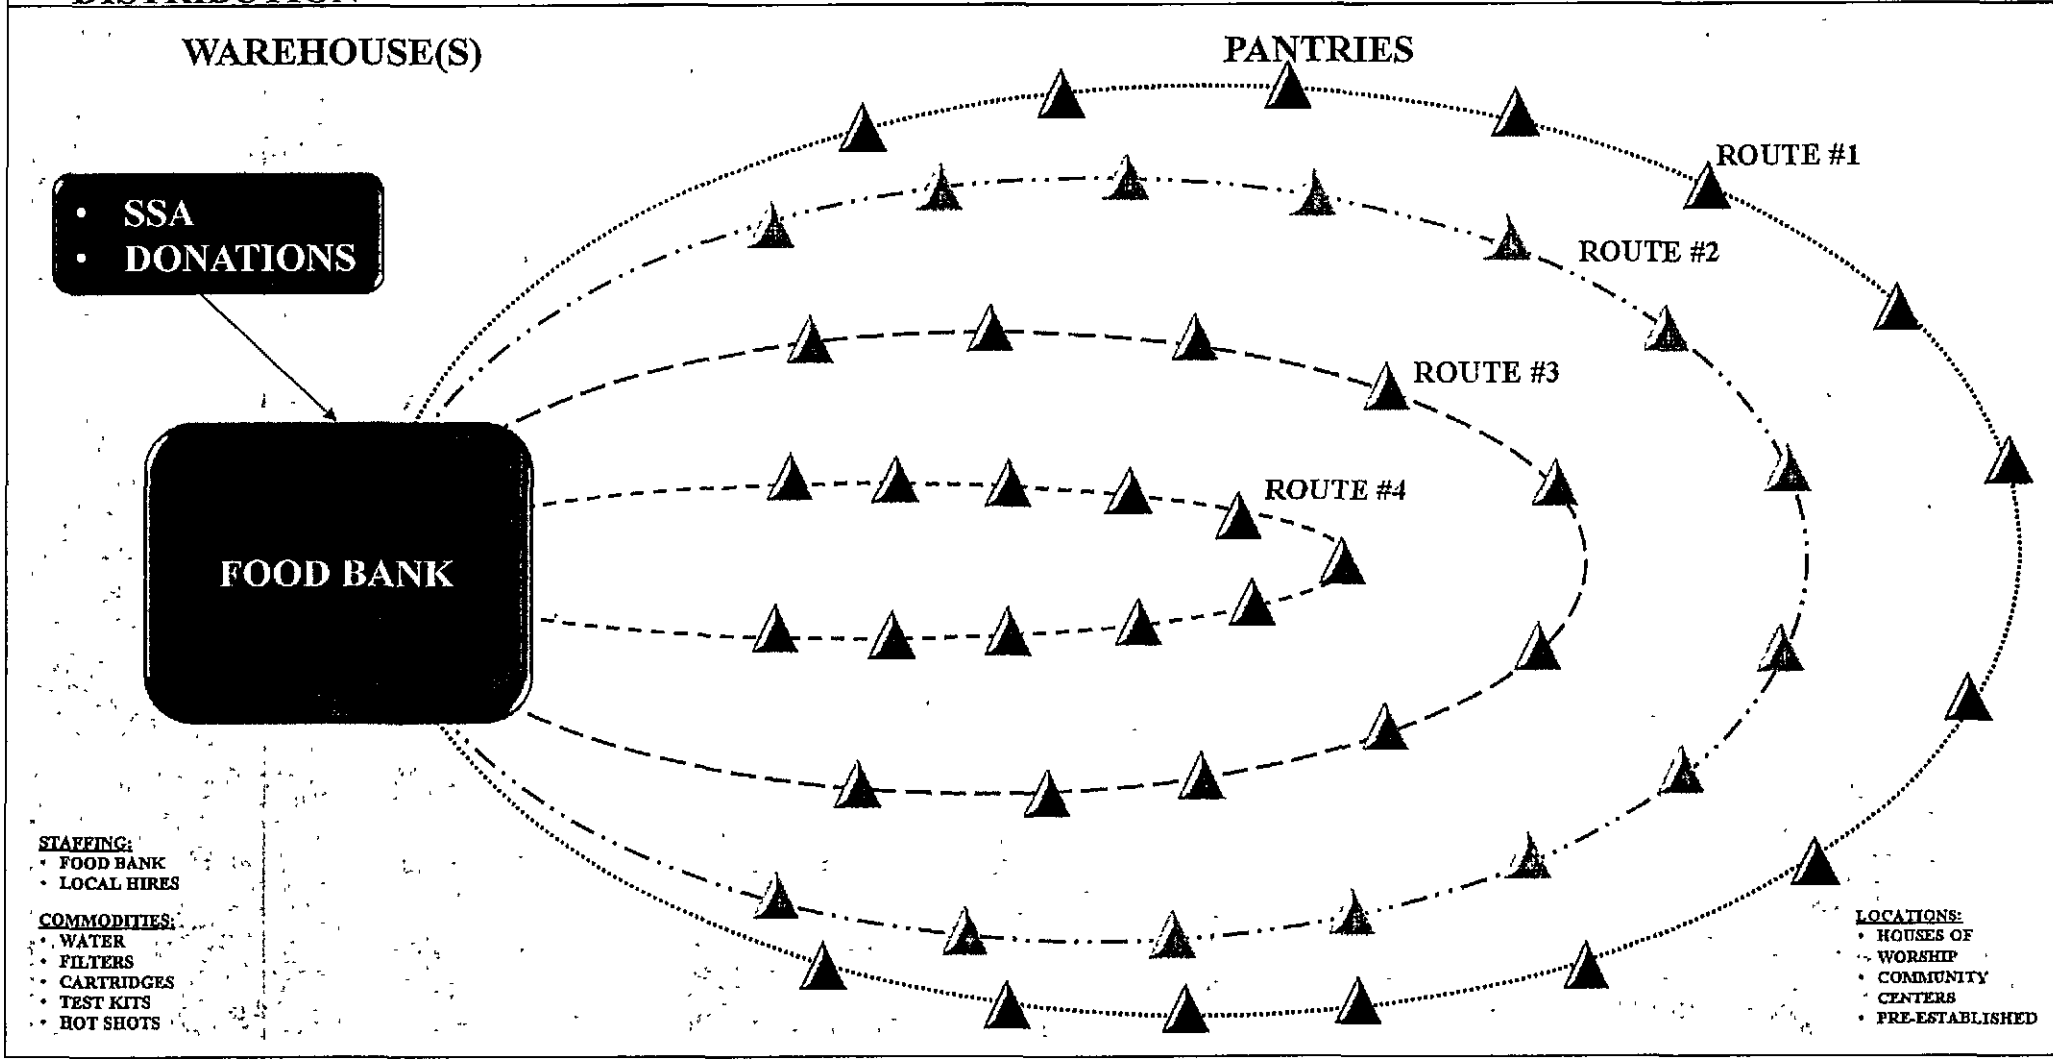
NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #5

- Expands on Food Bank (FB) distribution model
- Expand on existing four routes per week
- Contract with Food Bank of Eastern Michigan for distribution services
- 86 existing pantry locations
- Utilizes existing community partners
- Staffing would be based upon current FB staffing model
- All four commodities at every site
- Mix of paid and volunteer staffing

NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #5



NOT FOR FURTHER DISTRIBUTION

Long-Term Distribution COA #5 Talking Points

STRENGTHS

- RAPID EXECUTION AFTER GRANT IS SIGNED
- COMMUNITY BASED
- TRACKING SYSTEM TO PANTRIES
- GOVERNMENT AND NGO BOTH HAVE ROLES
- HIRED WORKFORCE
  - SUPLEMENTED WITH VOLUNTEER AND FAITH-BASED
- WELL DISTRIBUTED
- PRE-ESTABLISHED LOGISTICS SYSTEM (FOOD BANK ROUTES)
- EXPANSIVE CONNECTION TO PANTRIES
- ALREADY SELECTED SITES

RISKS

- LOCATION SELECTION/AVAILABILITY
- POLITICAL RAMIFICATIONS
- STAFFING
  - INCREASES
  - FUNDING
  - TRAINING
  - EQUIPMENT

WEAKNESSES

- RECRUITMENT OF VOLUNTEERS
- ROUTE ADJUSTMENTS (WILL EACH WARD BE REPRESENTED?)
- IMPACTS TO CURRENT BUSINESS PLAN
- FUNDING SOURCE
- LARGE NUMBER OF LOCATIONS
- CAPACITY/CAPABILITIES (SUITABILITY OF FACILITIES)
- NUMBER OF DELIVERY VEHICLES
- RESTOCKING PROCEDURES FOR PANTRIES
- ACCESSABILITY (ADA, HOURS, TRAFFIC)
- ACCURATE BURN-RATE (LITER/CASES VS POUNDS)
- COMMODITY SOURCE TRACKING MECHANISM TO HOUSEHOLDS
- LOSE CONTROL OF HOURS OF OPERATION AND LOCATION
- TIME FOR RFP PROCESS
- UNKNOWN TOTAL COST
- NOT EVENLY DISTRIBUTED
- UNKNOWN EQUIPMENT STAFFING MODEL, RFP SPACE, INTEREST
- UNKNOWN IF THEY WILL DELIVER CARTRIDGES/FILTERS

EQUIPMENT, POLICY, PROCEDURES, ETC.

- SITE
- EQUIPMENT
- STAFFING
- ADA COMPLIANCE
- ACCOUNTABILITY SYSTEM
- CREDENTIALING
- SKILL-SETS AND TRAINING
- MIOSHA
- USER AGREEMENTS

QUESTIONS

- What is limitation on sites usage i.e churches?
- Are they waivable?
- Max number of personnel support?
- How much advance notice?

Harvey

See the attached. Let me know if this was the direction you wanted to go. I see the subcommittees as providing the Priorities and if they can the objectives. They may even provide some of the tasks but once the Priorities are identified I see the "workers" developing the tasks and objectives as needed. Each subcommittee has three priority sheets and can add more if they want. Let me know of changes.

Chris

Information

Establishing Initial Incident Priorities

Clear initial priorities are important to establishing unity of effort early in the incident response process. When the members of the team clearly understand the intent behind instructions, they are equipped to act decisively and make better decisions. While many things vie for attention, especially in the immediate aftermath of a disaster or emergency, not everything can be a priority. The axiom that if everything is a priority, then nothing is a priority clearly applies to incident management.

Objectives

Good objectives:

- Are concise and stated in the form of a command
- Begin with an action verb (but not "continue" or "maintain")

Tasks

Tasks define specific actions to be performed to achieve a planned outcome. *Tasks specify who, what, where, and when for implementing* strategies to achieve incident objectives. Tasks describe the deployment and direction of resources, based on the strategy to accomplish the incident objectives.

In this case, tasks or tactics can be developed by those personnel at lower levels who will be implementing the priorities and objectives.

John

Attached is an updated spreadsheet that shows amounts of water with known donations pulled from what we would need to buy. Many donations go outside our operation.

The donations are in liters and are already subtracted from the cases/liters column.

Subject: Scheduled Donations

Unfortunately at this time, I have no donor that has set a consistent schedule for donations. Many organizations have offered to send frequent trucks of donated water, but are unable to set a schedule for those deliveries. This is due to various reasons, such as availability of the truck and driver or operations of their own business. Target, Walmart, Niagara, and Aqua Hydrate are those that have offered up consistent deliveries, but cannot set a date and time of those.

Thanks.
Wendy

Are they working with the local EOC on this and I agree they should look to fund it with their funds first.

Subject: Fwd: Fork Trucks or Double Fork Jacks

Summary of the below email chain....Food Bank wants us to get them some fork lifts and drivers for their new warehouse. We do not have any at our Clio road warehouse because we contracted that part with the building owner. We were able to get ONE from DOC for Warehouse #2, but that is only because it's staffed by DOC who can operate it. My personal feelings on getting the Food Bank fork lifts and drivers is what happened to that $285k grant they got from United Way to stand up their warehouse?? The Food Bank already told me that the warehouse space itself was donated. In my opinion, we are already supplying them 3 box trucks and drivers and several pallet jacks, I'm not sure at what point we say "we've done all we can do." I'm all about working together but feeling like we are being taken advantage of. They are not going to be cheap and we don't even have them for our warehouses. What happened to all this donated money?? Of course I will do whatever you say, but that is my thoughts on this. Please let me know how you want to proceed.

Following up at the request of Capt. Tafoya on a conversation with Food Bank regarding their additional warehouse across the street and a request the Food Bank has for 2 fork trucks or something equivalent. I don't have any background besides what I've already said and that maybe Wendy was working on this?

Let me know if you know anything and if not Wendy will hopefully know something.

Thanks,
-J

Subject: Re: Donated and Purchased Bottled Water info

Nancy

I have been running from meeting to meeting so I apologize for the delay. We track the water purchased as well as donated into the state run warehouse. But there are a lot of donations that go outside of the state (such as direct to churches) we are not aware. We also know what the state has distributed and currently have a burn rate of ~11,000 cases of water a day through the points of distribution (PODs - fire stations), door to door operations, and Rapid Responses (homebound, functional needs, etc). We have tracked where we put filters and replacement cartridges. While we started to track water it was slowing down the process too much and was causing concerns with safety. We tracked some if they also picked up a filter and when we went door to door but when going to the PODs the delay was causing safety concerns from a traffic perspective.

I hope this helps and can discuss more as we have obtained a lot of data as we went door to door as we used an App to track this real time.

As of 2/4/16, we have distributed 272,017 cases of water.

Let me know if you need additional or want to discuss.

Chris

Move forward. We may have to adjust hours or other parts to this at some point though. I do want to see if we can incorporate a jobs program into this. Working on it now but just be mindful of that. The G wants to provide jobs for local residents and this would be a great place to have that.

Chris,
I am requesting a cell phone and state email account for Major Kevin Weise. Jeff Pratt has provided him with a state contractor ID, access to the 5th floor and parking.

Please let me know if you run into issues and I can get a phone and email set up. Can you please let me know when he has the equipment.

Thanks.

CITY OF FLINT

Dr. Karen W. Weaver
Mayor

Natasha L. Henderson
City Administrator

Thursday, February 04, 2016

To whom it may concern:

On December 14, 2015, I declared a State of Emergency in the City of Flint regarding the lead contamination of the City's water as a result of antiquated and failing infrastructure. Following that, on January 4, 2016, the City submitted an ***Incident Action Plan*** to Genesee County for the consideration of the Board of Commissioners. The State of Michigan elevated the emergency the following day. This plan detailed immediate response and long term solution efforts that will be needed to resolve the water crisis. This plan names several distribution sites that are not listed in this document. Most notably the Brennan Center, Hasselbring Community Center, and the Berston Field House. Each of these sites are currently running an efficient operation distributing water and they have been resupplied weekly by various contributors. It would be an easy process to transition them into full time Distribution Centers as the City has already helped to allocate Red Cross volunteers at some of them. I am hoping you will consider adding them to the plans being drafted by the State of Michigan and its partners in the community. As Mayor and Chief Executive of the City of Flint, I urge governments and other organizations participating in emergency relief and recovery planning to strongly consider the use of these sites in place of Fire Station #1, Fire Station #5, and Fire Station #6 as long term recovery sites.

Additionally, City Hall has been distributing filters and testing kits since October and is currently staffed with volunteers trained to use the ESRI software in order to track distribution efforts. City Hall should also be considered as a Water Resource Center during its hours of operation. Lastly, it is important that the City be included in conversations regarding distribution, relief, and recovery efforts so that all partners can cooperate in concert to achieve a sustainable and successful outcome to this emergency. I assure you that you can count on my cooperation in the effort to bring relief and solutions to the people of Flint. I commend the work that everyone has contributed so far and hope that our cooperative spirit continues to bring a brighter future to Flint.

Regards,

Dr. Karen Weaver, Mayor

Natasha L. Henderson, City Administrator

The SBA has the below for the letter format when we request a disaster through the them. I believe the SBA rates fall around 4%. Is there a way to safety say we have checked on business loans and there are no reasonable rates and terms available to these businesses ... E.g. Can anyone beat the 4% rate? The letter is from the Governor so we want to make sure.

Attached are some maps I thought you may want to see. I have sent two of them to the JIC for potential posting (the Lead and Copper results) after they check with you. If DEQ is already posting the data online then we should be fine to post these. There is more green than red which may be the visual we want.

Subject: Brita POC

Chris,

I went to DEQ (Wolf) and asked for POC and she said that the best way is via a website link. According to DEQ the state has created a link on the Michigan web page that will address filter concerns. The link has been created and tested. We are just waiting for final approval from the Governor's office. The website is good idea as this web site is what Brita can put on their web site and hand out to the public at large versus some generic message.....i.e. ask public health official or the state.

But, I suggest that a real POC for someone Brita can talk to and provide product data and receive State feedback.

Can we talk?

Purpose of the meeting was to understand what they are asking of DEQ, expectations, time commitment, and role(s). In short, they are asking for DEQ to participate in UCG meetings/calls at 0830 each day (0900 this Sunday). They also want DEQ to participate as a Liaison. On M, W, and F, the UCG will include discussion of objectives and they also requested DEQ participation in command and general

staff meetings and tactics to assist in the production of an incident action plan (IAP), but only from the perspective of listening to make sure their tactics don't interfere with any tactics the DEQ may implement rather than incorporating DEQ tactics. They expect to wrap up with tactics by noon on M, W, and F.

I responded that I would inform DEQ *leadership of the specifics of their* request and asked if they could provide a copy of the UCG call information, meeting schedule, and current operational period IAP, which they provided.

From a prior email, I understand Chief Deputy Director Sygo will participate in the UCG meeting/call tomorrow.

Please contact me at . if you have any questions.

There must be at least five (5) businesses to request a disaster declaration. There must be at least one (1) sample business for each county (or political subdivision no larger than a county) which the Governor is requesting be included in the disaster declaration. If the request is for (1) county, there must be at least (5) businesses within the county. If six (6) counties are being requested, there must be at least six (6) businesses, with at least one (1) in each county.

ESTIMATED DISASTER ECONOMIC INJURY WORKSHEET
FOR BUSINESSES

Accurate responses to the questions below will assist in evaluating a request for an economic injury disaster declaration from the U.S. Small Business Administration.

1. Name of Property Owner: The Lunch Studio

   Name of Property Owner: Tracey Wheeler

   Business/Property Address: 444 S. Saginaw Flint MI 48502

   Mailing Address: 444 S. Saginaw Flint Mi. 48502

   Telephone Numbers: Business: 810-424-9868 Home: C

2. **Estimated Adverse Economic Impact**

   Did the disaster economically impact your business? If so, when did the impact start and end? 10-15 (month/year) to 1-29-16 (month/year)

   What were your business' revenues during that period? $ _____

   What were your business' revenues during the same period of the prior year? $ _____

3. Amount of business interruption insurance received or anticipated, if any: $ 0

4. Provide a brief explanation of what adverse economic effects the disaster had on your business:

   Business went down, I had to rent a water softener, R/O, machine and water cooler -

5. How many people did you employ prior to the disaster? 5

   How many people did you employ after the disaster? 5

If your business also suffered property damage, answer the following questions:

6. Estimated dollar loss to:

   Real property (building), if owned: $ _____

   Contents (machinery and equipment, furniture and fixtures, inventory, leasehold improvements, etc): $ _____

7. Insurance recovery received or anticipated for property damages: $ _____

Hi Capt.,

Attached are talking points for tomorrow's Congressional Legislative Conference call at 2:30 p.m. From the state, it will be you and Dr. Wells giving updates. Due to Director Craegh being in DC, DEQ will not report out. I'm not sure who from the feds is confirmed to give an update

We may get an updated agenda from FEMA tomorrow Insp. Matt Bolger will be the JIC Manager for the next two days

Please let him know if you need anything.

It would be interesting to know who she is talking to on this. If SBA is willing to give us the loans with no penalty or payback if we get IA then show us the money. If I am wrong, if I get a contact who she is talking with I will follow up. Maybe she has a higher SBA contact than I do or they can trump our SBA POC.

Subject:	SEOC Update 2/1/16 - Flint Water - Limited Distribution
Attachments:	SitRep27 Flint Water.pdf, Day to Day POD Comparision for FEMA 1-31-16.xlsx; State Agency Weekly Activities 2 1 16.docx; Flint Water Timeline Daily Update DRAFT.docx

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/1/16 – 28th Day (27th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Finalize new Incident Action Plan (IAP) for Operational Period 2/2/16 to 2/9/16.
- Sync up with the UCG to ensure lines of communication and operation are clear.
- Ensure adequate quantities of supplies to support operations.
- Continue investigating a warehousing option for non-palletized donations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Continue to work on SBA application – pends status of Declaration of Emergency appeal.
- Obtain additional information from the City of Flint and Genesee County for appeal.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal. IHP is an Individual Assistance program.

Attached:

1. SitRep 27
2. Flint Water Timeline (DRAFT) – This is a running record I keep so I have it for future reference. This is draft but thought some of you may want it at this time.
3. State Agency Weekly Activities – It was mentioned on the morning call to have a weekly activities sheet. I am certain there are other events to be added but this is from the SEOC personnel.
4. Day to Day POD Comparison Data – Internal for EMHSD and FEMA

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Tuesday, February 2, 2016
- Franchise Customers continue to be targeted for visits with additional to be determined.

Items to Note

- The question came up as to the difference between active residential customers and residential parcels. Customers are on the Flint water system according to what the City of Flint provides us. Residential parcels are those not on the system for numerous reasons to include them having a well or just not connected to the system. We are aware some not on the system have gotten filters. I also do not have a lot of faith in the records provided to us by the city water department. We just received an updated franchise list which had more customers.from the city that is different from the one we were given earlier.
- Received approval to obtain a former Kroger store near Statoin 6 POD. This will greatly alleviate donation management issues. Office space is available at this location if needed.
- 10 ARC Flint Water Response Teams to the field today.
- GIS was not able to develop maps with today's data due to issues with the software. They will be providing maps first thing tomorrow.
- Recovery Branch coordinated meeting with Michigan Community Service Commission (MCSC), Local EOC, and ARC regarding volunteer coordination and reporting.
- JIC is working to set up a legislative and congressional briefing call this week.
- Information reported to the JIC:
    - As of 2/1/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	ARC Paper Data* 1/31/16	Targeted Canvassing Mission 2/1/16
30,770	37,844	11,876	1,135	1,164

*Data from last night that was not available.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	244,933
b. Filters	101,911
c. Filter cartridges	205,820
d. Test kits	33,561

3. Resources purchased:
    a. Cases of water 2,637,324 Liters (additional 1,127,171 Liters donated)
    b. Filters 165,048
    c. Filter Cartridges 389,357
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 American Red Cross Teams scheduled for Tuesday, February 2, 2016.

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/31/16, ARC Data, 1,135 homes were visited yesterday. Data was not included in yesterday's report.
    b. 2/1/16, as of 5 pm, 1,164 homes were visited today
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 11,876
3. **Total number of National Guard on the ground:**
    a.
4. **Total Number of Volunteers each day:**
    a. 50 volunteers on 2/1/16, per ARC.

5. ***Number of homes with filters:**

	Total Number	Number with filters*
Residential parcels	38,831	28,167
Active residential water subscribers	26,673	22,400

*Number does not include franchise customers, will be updated tomorrow morning.

6. **Number of Water filters distributed (each day and to date):**
    a. 1,318 (1,001 FWRT + 317 PODs [1700 1/31 to 1600 2/1]) were distributed since this report yesterday and total distributed to date is 101,911.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 10,443 (1,218 FWRT +9,225 PODs [1700 1/31 to 1600 2/1]) were distributed since this report yesterday and the total distributed to date is 244,933.
8. **Number of testing kits distributed (each day and to date):**
    a. 1,091 (293 FWRT +798 PODs [1700 1/31 to 1600 2/1]) were distributed since this report yesterday and the total distributed to date is 33,184.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
    *this data will not be updated again until Tuesday.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
    *This data will not be updated again until Tuesday
11. **Number of homes with safe drinking water:**
    a. Drinking water (9/3/15 to 2/1/16)*
        i. 5227 out of 5590 (94%) at or below 15ppb (363 tests above)
        ii. <5 ppb: 4594 (82%)
        iii. 5-15 ppb: 633 (11%)
        iv. > 15 ppb: 363 (6%)
        v. > 150 ppb: 48 (0.9%) – DEQ was tasked with getting better information on this as to how many are residences, what steps have been taken with them, how many have been "cleared," and how many are new. They will be working on it first thing tomorrow. Based on sheets I was provided this evening, since the report on Friday:
            1. Saturday there were 4 additional results >150 ppb
            2. Sunday there were 5 additional results >150 ppb
            3. Monday there were 6 additional results >150 ppb
        vi. > 30 ppb: 199 (4%)
        *Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Coordination of rapid response deliveries to homebound residents and special locations.
- Finalized rapid response delivery plan with ARC, Team Rubicon, Michigan Community Service Commission and SEOC.
- IC/Genesee County EMC attended county commission meeting, briefed commission on response efforts, and addressed questions and concerns.
- Addressing public concerns, including rumors of availability of FEMA relocation assistance.
- Coordinating with charter schools outside the city of Flint/Flint water system for supply of water resources to students that are Flint residents.
- Attended conference call with Dow Chemical to discuss potential donation of filter systems. Will provide spec sheets to SEOC Logistics.

Subject: SEOC Update 1/31/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/31/16 – 27th Day (26th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue investigating a warehousing option for non-palletized donations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Finalize SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- **10 American Red Cross Teams scheduled for Monday, February 1, 2016**
- **City Sections Scheduled Tomorrow***: Franchise Customers, Additional to be determined.

*City sections subject to change based on available data updates. Teams will reach out for additional assignments if entire city section is completed during the operational period.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- Information reported to the JIC:
  - As of 1/31/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/31/2016
30,770	37,844	9,577	551*

*Due to an issue with the iPads in the field not all numbers were captured for today's outreach. The additional residences will be entered tonight by ARC and will be included in the data for tomorrow, per Recovery Branch.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	234,490
b. Filters	100,593
c. Filter cartridges	204,736

d. Test kits	32,093

3. Resources purchased:
    a. Cases of water 2,637,324 Liters (additional 996,080 Liters donated)
    b. Filters 165,048
    c. Filter Cartridges 383,282
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 American Red Cross Teams scheduled for Monday, February 1, 2016.

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/31/16, as of 5 pm, 551* homes were visited today
        i. *The numbers are low due to an issue with the iPad input, the additional residences will be inputted tonight and included in tomorrow numbers.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 9,577
3. **Total number of National Guard on the ground:**
    a.
4. **Total Number of Volunteers each day:**
    a. 236 volunteers on 1/31/2016, per ARC.
5. **Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,831	28,081
Active residential water subscribers	26,673	22,334

6. **Number of Water filters distributed (each day and to date):**
    a. 624 (299 FWRT + 325 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and total distributed to date is 100,593.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 7,302 (426 FWRT +6876 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and the total distributed to date is 234,490.
8. **Number of testing kits distributed (each day and to date):**
    a. 581 (251 FWRT +330 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and the total distributed to date is 32,093.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
    *This data will not be updated again until Tuesday.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
    *This data will not be updated again until Tuesday
11. **Number of homes with safe drinking water:**
    a. 5,020 water samples out of 5,356 sampled through **January 31, 2016** are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Addressing various public concerns, including concerns regarding filter efficiency.
- Establishing procedures for receiving incoming donations of loose water at overflow locations.

- Established rapid response delivery plan with ARC and Team Rubicon.
- Coordinated rapid response deliveries to homebound residents and special locations.
- Coordinated with VRC for door-to-door distribution of recycling information and supplies.
- Genesee County Board of Commissioners meeting scheduled for 02/01/2016.

No it was not. She needs to understand that we still are going after Individual Assistance and until we are denied that SBA will not give us the SBA. I am more than willing to discuss with her as I do not believe she has all the information on this. I think she only believe we went after a major disaster declaration with IA. We also went after it under the emergency and have not been denied IA under our appeal.

We have 30 days to appeal and are compiling the mass amounts of data needed form local and state agencies (waiting on the locals – specifically the city).

> >
> > FLINT, Mich. – Michigan Department of Environmental Quality Director Keith Creagh met today with Interim Regional Administrator Robert Kaplan from the U.S. Environmental Protection Agency as part of ongoing interagency cooperation to address the Flint water crisis. The EPA and DEQ have met regularly since a state of emergency was declared in Flint in early January.
> >
> > "These conversations with the EPA are a critical part of our shared response to the emergency in Flint," said Creagh. "We know that moving forward will require all levels of government – along with partners in the business and nonprofit

communities and the community of Flint – to work together with the sense of urgency this crisis demands."

Creagh and the EPA regional administrator have weekly phone calls. In addition, program staff from the DEQ and EPA remain in daily contact to coordinate response. At today's meeting, Creagh and Kaplan along with technical staff from both agencies discussed working together to maximize the data that is being collected to make sure the agencies are closely aligned in their work.

The DEQ is also working in conjunction with the EPA to plan and review the 200 sentinel test sites, enabling both entities to capture the information needed across the entire spectrum of data so we have a better overall analysis of the distribution system.

"We want to have systems and structures in place that will lead us to better conclusions for the people of Flint," Creagh said. "We appreciate the partnership with EPA and other government and non-government agencies."

The discussion included a five-part strategy the DEQ implemented to establish a baseline of data to determine when the water in Flint is safe to drink.

The strategy includes:

- Residential water testing: At-home water testing done by residents is key in guiding experts to areas of concern.

- School testing: Michigan DEQ in collaboration with the Michigan Department of Licensing and Regulatory Affairs (LARA) has tested all 13 public schools in the city and continues to test non-public schools, children's centers and senior centers. The state will retest the public schools once it has completed replacing water fixtures. Fixture replacement has begun at Freeman School, which will be retested after water flushing happens within the next week.

- Food service/restaurant provider testing: Michigan DEQ is working in collaboration with the Michigan Department of Agriculture and Rural Development (MDARD) to test establishments and ensure they are using water filters, flushing water systems properly and using the correct food and water standards.

- Blood level testing: Michigan DEQ is working in conjunction with the Michigan Department of Health and Human Services (MDHHS) to ensure that residents with high blood lead levels have their water tested for lead. Homes with high water lead levels are provided additional services by MDHHS and the Genesee County Health Department to ensure residents' exposure to lead is minimized.

- Flint water distribution system testing: Michigan DEQ and the City of Flint are working to monitor and test the quality of the water as it travels

throughout the city's water distribution system. Additionally, sentinel sites are being established to set a baseline for data collection. Sentinel sites are homes that will be used as representative samples to determine the effectiveness of corrosion controls in reducing lead levels.

"Our ongoing conversations with the EPA will help us solidify this plan so we can have confidence in the outcomes," Creagh said.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and can be found at the five city fire stations. For locations, go to www.michigan.gov/flintwater. Additional information is available at www.michigan.gov/flintwater, or by calling United Way 211.

John

Is this what you were looking for? I had it projected for 90 days, end of fiscal year and then end of calendar year 2016. With donations it is hard to say as they are up and down. Tomorrow I will see if I can extract the donations we have that are consistent for the time frames to see how we can lower the price. The attached is what I would say is close to the high end.

Chris

Subject: Re: Additional Warehouse Lease

Did this get approved on the call? If not, Beth said OK to proceed.

On Feb 1, 2016, at 6:07 PM, Kelenske, Chris (MSP) <KelenskeC@michigan.gov> wrote:

> Paul
>
> We need to open another warehouse due to the amount of donations.
>
> With random donation deliveries, water is being turned away. This is upsetting senators and other legislators, causing stress to logistics, donations, and warehouse staff. It is important to secure additional warehouse space. It appears United Way is unable to assist us with donation funds. We are down to the wire and have exhausted all options.
>
> The location we are looking at is a closed Kroger store at 2629 W. Pierson Road. This space is 74,000 sq. ft., 3 dock doors and a garage door. The owner of this space, Phoenix Property Development LLC, lowered his price of $28.971 plus water, heat, electric and dumpster, to **$21, 581.57 to include everything except the dumpster.** This may only be for 2 months, as Target has just closed a store on Lapeer Street and have spoken about possibly donating that space to us. If that happens, it will be available the beginning of April.
>
> We hope to use this space for all loose donations. Loose donations meaning non-palleted and not shrink-wrapped. This warehouse would have volunteers staffing it to accept, unload, and verify the water is not expired or recalled. They will pallet and shrink-wrap water for redistribution to the PODs and Rapid Response teams. This location could also replace the existing POD at Station 6. This has proven to be a dangerous location as citizens cross 5 lanes of traffic on a busy intersection. The large parking lot would make distribution easier and safer for citizens to receive water, kits, filters and replacement cartridges.
>
> We could also park a 53' Schupan recycling trailer for the on-going recycling program. The trailer would function the same as at the PODs where residents bring their recyclables in clear plastic bags and deposit them inside the trailer.
>
> I was also told there is office space so this also could potentially assist us if we need more room with the Mission Flint team.

I was going to push to Jarod and Rich but wanted to go through the normal channel on this. I can send it to Jarod and Rich if you want. Let me know.

Can we have DEQ add these two data points (tests above 150 ppb, tests above 30 ppb) to their daily report?

State Agency Weekly Activities
Events for the Week of February 1, 2016

Monday, February 1, 2016:

- Recovery Branch. Met with Volunteer Reception Center and Donations Management Program.
- EMHSD Liaison: Unified Coordination Group Planning Meetings at 1100 and 1400.
- MDHHS: Attended the Board of Commissioners meeting in Flint.
- MDHHS: Participated in Mission Flint meeting.
- MDHHS: Participated in MARC meeting with federal partners.
- MDEQ: Met with EPA to discuss sampling protocols on Monday.
- Local EOC: Genesee County Board of Commissioners Meeting. Briefed commissioners, addressed questions and concerns
- Local EOC: Dow Chemical Meeting; discussed potential donation of filter systems.
- Local EOC: Rapid Response Delivery Plan Meeting; finalized plan with ARC, Team Rubicon, and MCSC.
- Local EOC: Plumbers and Pipefitters Union Meeting; discussed filter installation and faucet replacement program.
- Local EOC: Congresswoman Brenda Lawrence brief; EOC tour and briefed on response efforts

Tuesday, February 2, 2016:

- SEOC Volunteer Agency Liaison: Flint Water Operations Plan "Task Force" at 0930 hours.
- SEOC Finance – Meeting with State Budget Office at 1100 hours to discuss collection and reporting of all state agency costs related to the emergency.
- EMHSD Liaison- Meeting with U of M Flint Communications Director at 1430 hours.
- SEOC State Director: Congressional/Legislative Briefing at 1530 hours.
- Local EOC: VOAD meeting to discuss volunteer engagement at 0930 hours.
- MDCR: Community Relations Division Arab American Liaison Charles Schoder will attend a convening by the Genesee Health System to discuss Flint water issues.
- MDHHS- Community Resilience Group Meeting to discuss disaster behavior health with Genesee Health System and SAMHSA, time and location TBD.

Wednesday, February 3, 2016:

- MDEQ: Director giving Congressional Testimony in Washington, D.C.
- EMHSD Liaison: Unified Coordination Group Planning meetings at 1100 and 1400.
- MDHHS: Chief Medical Executive, Dr. Wells, will begin her series of weekly webinars for health professionals in Genesee County at 1200.
- MDCR: The Hispanic/Latino Commission of Michigan will host its business meeting from 12:30-14:45 hours at the Hispanic Center of Western Michigan, in Grand Rapids.
    - LARA Director Zimmer will attend the meeting and discuss possible ways they can be of assistance (Note: This is due to EO2016-3 transferring the three ethnic commissions from MDCR to LARA).

Thursday, February 4, 2016:

- SEOC Volunteer Agency Liaison: Community Partners, facilitated by American Red Cross, 1500 location TBD.
- MDHHS: CDC Crisis Emergency Risk Communication (CERC) Distance Learning Training for Genesee County Health Department staff and volunteers, location and time TBD.

- MDEQ: Follow up meeting with EPA regarding sampling protocols, location and time TBD.
- Local EOC: Community Recycling Coalition Meeting to discuss implementation of recycling plan, short-term and long-term recycling strategy, 1100 hours at Genesee County Administration Building.

Friday, February 5, 2016:

- MDARD (Tentative Event): Possible media event with the Genesee County Chamber at a restaurant highlighting the steps they are taking to protect their customers and that "Flint is open for business." Governor's Communications Director is aware and has the rough draft agenda/talking points.
- EMHSD Liaison- Unified Coordination Group Planning meetings at 1100 and 1400.
- MDEQ: Weekly meeting with City officials, location and time TBD.
- EMHSD: Capt. Kelenske at FWICC and Mission Flint meeting in Flint.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/26/2016 08 00 00
Operational Period End:	02/02/2016 08 00 00
Situation Report No.	27
SEOC Status:	Full
SEOC Hours of Operation Begin:	02/01/2016 08 00 00
SEOC Hours of Operation End:	02/01/2016 20 00 00

Executive Summary

SEOC Update
Accomplished today (February 1, 2016)

The SEOC continues to provide
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county
- Potential coordination with federal agencies
- Incident prioritization
- Coordination of life/health safety measures.
- Resources
- Public information control.

Logistics
- Fielded resource requests.
- Fielded rapid response requests
- Fielded Governor's office requests.
- Facilitated distribution team calls.
- Coordinated warehouse deliveries for donated and purchased water
- Continued to check the status of the Food Bank warehouse

JIC
- Updated internal talking points about the ongoing Flint water emergency
- JIC is planning to issued a news release regarding a meeting between DEQ and EPA, and the continued interagency partnership
- JIC is working to set up a legislative and congressional briefing call this week.

Recovery Branch
- Attended local briefing, SEOC state agency briefing, and distribution process meetings.
- Worked with GIS to develop an area map and spreadsheet with addresses based on data specified as "follow up required" for Red Cross teams
- Worked with GIS to map and analyze city of Flint apartment buildings to send out water response teams
- Worked with GIS to develop a map and street addresses for franchise customers to send out to Red Cross water resource teams.
- Coordinated meeting with MCSC, local EOC, and ARC regarding volunteer coordination and reporting
- Team priority visited today franchise customers
- City sections visited today franchise customers, 22, 33, 4, 7, 1, 32, 13, 12, 15, 37.
- City sections scheduled tomorrow franchise customers, additional to be determined
- 10 American Red Cross teams scheduled for Tuesday, February 2, 2016.

o Data is for 2/1/16 as of 5 00 pm
o Total homes visited
- 11,876 (round 3 total).
- 1,686 (total 1/31).
- 1,164 (today)

o Water cases (liters calculated by multiplying # of cases x 12)
- 87,792 liters or 7,316 cases (round 3 total)
- 13,932 liters or 1,161 cases (total 1/31)
- 5,796 liters or 483 cases (today)

o Replacement cartridges
- 1,866 (round 3 total).
- 144 (total 1/31)
- 473 (today)

o Faucet filters
- 6,228 (round 3 total)
- 407 (total 1/31)
- 437 (today).

Planning Section
- Published Sit Rep #24
- Published IAP #8
- Compiled a list of activities from all state agencies taking place this week for the Governor's office.
- Trained additional Planning Section staff
- Participated in IAP development process to include tactics meeting and planning briefing

Operations Section:
o Attended the unified command group meeting to determine tactics for the operational period
o Facilitate daily local EOC and SEOC state agency briefings
o Participated in the development of the Incident Action Plan including the tactics and planning briefing.
o 20 ARC volunteers were active across the operation today
o 30 event-based volunteers were active across the operation today

o Warehouse Numbers as of 1800
❑ Water (liters)
• 600,882
❑ Filters (faucet)
• 49,016.
❑ Replacement cartridges
• 373,190
❑ Test Kits (prepped)
• 23,795
o PODs (1700 1/31 – 1600 2/1)
❑ Water (cases)
• 110,700 liters or 9,225 cases
❑ Filters (faucet)
• 317.
❑ Replacement Cartridges
• 543
❑ Test kits
• 798

Finance Section
• Developed template for state agency costs to be reported on a weekly basis.
• Created document for Recovery Branch Chief outlining requirements for possibly using donations toward 25% match of federal funds.
• Reviewed state agency costs submitted to date.

GIS Branch Updates
• Prepared for a possible TV interview about GIS.
• Completed and distributed daily maps
• Updated parcels with newest franchise customers.
• Prepared maps for Captain Kelenske to use with Executive Council
• Prepared report on maps for Governor's office
• Created a map of apartments and assisted living centers.

DTMB.
• Provided translation of lead fact sheet and printing for water testing document.
• Provided four drivers to assist with transportation of supplies on Monday, three for the point of distribution sites and one at the food bank.
• Provided assistance to ensure www helpforflint.com and www flintvolunteer.com are not blocked by state network

DHHS-CH
• CHECC remains at a Level 2 activation and continues to staff the hotline for health related questions
• MDHHS participated in the Unified Command Group (UCG) call this morning
• Requested that MDHHS Environmental Health Director include EPA on the notification for homes in Flint that are testing for high lead levels
• Worked with MDHHS PIO and DTMB on the translation of materials on the Flint Water website.

DEQ
• 382 test kits delivered to lab
• Coordinated with the EPA for participation on the High Lead Home Strike Force
• Coordinated with EMHSD to post DEQ reports to the Flint water website.
• Finalized EPA tracking sheet and summary and worked on new tracking spreadsheet for EPA Flint Drinking Water Task Force and Safe Water drinking plan
• Drinking water test results to date (9/3/15 to 2/1/16)
o 5,227 out of 5,590 (94%) are at or below 15ppb

Local EOC Update
• Coordination of rapid response deliveries to homebound residents and special locations.
• Finalized rapid response delivery plan with ARC, Team Rubicon, Michigan Community Service Commission and SEOC
• IC/Genesee County EMC attended county commission meeting, briefed commission on response efforts, and addressed questions and concerns
• Addressing public concerns, including rumors of availability of FEMA relocation assistance
• Coordinating with charter schools outside the city of Flint/Flint water system for supply of water resources to students that are Flint residents
• Attended conference call with Dow Chemical to discuss potential donation of filter systems Will provide spec sheets to SEOC Logistics

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1 Ensure all households within impacted community have required resources
2 Ensure accurate tracking and accounting of all commodities
7 Gather, analyze, and disseminate GIS data to develop products for future planning
10 Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan
3. Improve and maintain the public information strategy and process.
8 Maintain coordination between partner agencies and organizations to include FEMA IMAT and the FWICC

4 Develop a long term public health and services plan
6 Develop an overview of possible assistance programs.
9 Enhance situational awareness and common operating picture of all activities
5 Continue to maintain adequate staffing to support operational requirements

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a m to 8 p m on Feb. 1 The JIC was operational until 11 p.m. on January 31, 2016

State agencies at the JIC included the Michigan State Police, Michigan Community Service Commission, Michigan Economic Development Corporation and Departments of Environmental Quality, Natural Resources, Transportation, Health and Human Services, and Military and Veterans Affairs. The Genesee County Sheriff's Office and the American Red Cross were also present. Tasks accomplished:

• Media hotline staff answered more than 20 emails and phone calls ranging from questions on a meeting between DEQ and EPA officials, pets and lead, and viewing water sample testing

• Key agency PIOs fielded multiple news inquiries throughout the day, including conducting or scheduling interviews with Michigan Radio, Lansing State Journal, Detroit Free Press, and WNEM TV 5

• Updated internal talking points about the ongoing Flint water emergency.

• Continued routing public information materials for approval, including communications from MDHHS and MDARD.

• JIC is planning to issue a news release around 7 p m. regarding a meeting between DEQ and EPA, and the continued interagency partnership. This news release will take the place of the nightly numbers release.

• Updated ICS-204 with new task accomplishments and update work requirements.

Agriculture and Rural Development (MDARD)

As of 2/1/16, MDARD completed water assessments at all 18 food businesses in the high risk area and 105 in the medium risk and 80 in other areas (numbers differ from those reported 1/29/16 due to risk reclassification of some businesses) The overall assessment compliance rate is 69 8% We also have collected 84 water samples to date, with more scheduled for this week

MDARD Environmental Stewardship Division (ESD) Staff has been working with several local entities regarding urban ag/gardening questions related to the Flint Water issue A conference call is schedule for 2/2/16 to better understand how we can coordinate efforts

MDARD Animal Industry Division (AID) held a conference call 1/29/16 with 12 industry/academic/medical/federal partners. The call created situational awareness among partners and stakeholders interested in the pet issue related to Flint water. AID is partnering with MSU College of Veterinary Medicine (CVM) to address animal issues, developing information pieces for the public and for veterinarians (with JIC approval), testing and laboratory issues Also, MSU CVM is working with local MSU staff to identify specific community needs. AID is working with individual veterinarians/pet owners in the area on an individual basis as needed.

American Red Cross (ARC)

The American Red Cross deployed and supported 10 Water Response Teams on Monday
The Volunteer Reception Center (VRC) was in operation today. The VRC will operate from 9am to 5pm through Sunday.
Assembly of water test kits will resume when materials become available

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Maintaining media awareness regarding situation and community activities.

Forwarded Metro Times assessment of Bill Signing event coving Flint Recovery to MSP-SEOCPIO in follow up to last week's discussion on same subject
http://www metrotimes com/blogs/archives/2016/02/01/gov-snyders-flint-aid-bill-signing-a-pr-disaster

Reviewed coverage of Baltimore Pastor Dr. Jamal Bryant's mid-day "The Environmental Justice Rally" today
The assembled group has collected some 47,124 bottles of water. The collection of water will be distributed among six churches: First Trinity M B. Church, 1226 Beach Street, Cathedral of Faith Church of God in Christ 6031 DuPont Street, Christopher Martin, Pastor; Quinn Chapel AME Church 2101 Lippincott Blvd, Rev. Gerald Cardwell, Pastor; United Outreach Ministries 1429 Roosevelt Ave , LeMarcus Keels, Pastor; and Kingdom of Heaven Ministries 2430 Dutcher Road The rally was open to the public and Flint, MI Mayor, Karen Weaver was scheduled to give remarks See more at http://afro com/baltimore-pastor-jamal-bryant-heads-to-flint-to-lead-environmental-justice-water-rally/#sthash.L6Ir1UiT.dpuf

Discussed Hispanic/Latino outreach with LARA and use/distribution of resource materials in Spanish, discussed grass-roots activity vs Water Resource Teams engagement

Discussed with MDE and DHHS data inquiry of individuals who may have left the respective Flint service areas for other Michigan or national points of service - may be a possible avenue for finding at-risk/high risk individuals exposed or entitled to services

Forwarded list of Departmental activities to Planning inquiry:

* Michigan Department of Civil Rights (MDCR) continues to try and track down information/materials that have been or are scheduled to be translated into foreign languages and American Sign Language (ASL) MDCR is also trying to confirm what has actually been distributed on the ground in Flint and to whom/which agency or entity (We have been getting many questions from various organizations related to these communities).

* MDCR Community Relations Division Arab American Liaison Charles Schoder will attend a convening by the Genesee Health System to discuss Flint water issues on 02Feb16 in Flint

* The Hispanic/Latino Commission of Michigan will host its business meeting on Wednesday, 03 Feb from 12.30-14.45 at the Hispanic Center of Western Michigan, 1204 Grandville Ave. SW, Grand Rapids, 49503 LARA Director Zimmer will attend the

meeting and discuss possible ways they can be of assistance (Note: This is due to EO2016-3 transferring the three ethnic commissions from MDCR to LARA)

* MDCR Communications Director Vicki Levengood will be at the JIC 03 Feb and 04 Feb (Wednesday and Thursday)
* MDCR Communications Staff Lisa Collins will be at the JIC 02 Feb and 03 Feb (Tuesday and Wednesday)

Community Health (MDCH)

The CHECC remains active at a Level 2, and continues to staff the hotline to answer any health-related questions that 2-1-1 is unable to answer in order to support GCHD

Contact information for the MDHHS Environmental Health Director was provided to the Paul Smith from the Governor's Office this afternoon at his request, to discuss blood lead level data for a dashboard that is in development

Requested that MDHHS Environmental Health Director include EPA on the notification list for homes in Flint that are testing high for lead, at the request of DEQ The notification is currently being provided to the GCHD EPA would like to be notified at the same time if possible.

Worked MDHHS PIO and DTMB on the translation of materials on the Flint Water website, as well as updating outdated information that is currently on the website at the request of MDARD Forwarded Aerator informational document from the JIC to DTMB for translation as well Working with LARA to ensure all documents are translated in not only Spanish, but also Mandarin and Chinese

Confirmed that Dr Eden Wells will serve as the MDHHS representative for the FEMA-Congressional Call tomorrow. Coordinated with the MDHHS PIO to prepare Dr Wells for that report.

Provided the Flint Blood Lead Count Report by zip code to the SEOC and the Lt Governor's representative in the SEOC, who had requested the information previously

Corrections (MDOC)

We continued operations at the warehouse and all PODs were well supplied

We continue to keep trucks dedicated to delivering to individual PODs and have Rapid Responses ready for any POD that gets to a critical level of supplies

382 Water Samples were collected and delivered to the DEQ Lab in Lansing.

We had 17 employees and an SAI work crew on the ground in Flint today We continue to staff the SEOC from 0800-2000, 7 days/week.

The overhead bay door was damaged yesterday by one of our drivers (Rod Ridgeway). It was reported to the Local EOC and Lt. Russo completed an accident report as there was damage to the facility

Education (MDE)

1 Michigan School for the Deaf Report from MSD that two of the three new drinking fountains were installed this weekend (Jan 30-31) Landlord said he anticipates mid-week, this week, to install final new drinking fountain. Based on that, MSD contacted Joe Madziar, and he indicated next Friday (February 5) would be a tentative date for LARA to schedule Stevens Hall testing
2. MDE completed request for listing of all Food Programs and Organizations within 16 zip code area. This spreadsheet has been uploaded to the Activity Log Marla Moss included narrative that outlines efforts of MDE related to Food Programs that has been included in Activity Log for Education as well

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

382 samples were delivered to the lab this morning

Coordinated with EPA for participation on High Lead Home Strike Force

Coordinated with EMHSD for DEQ to obtain ability to upload DEQ reports to the Flint Water website

Finalized EPA tracking sheet and summary and worked on new tracking spreadsheets for EPA Flint Drinking Water Task Force and Safe Drinking Water Plan

All required postings made it to web by EPA timeline

Human Services (MDHS)

Working with MDEQ on some information regarding water testing.
Went to Flint SOB, met with Chief Deputy & staff. Received direction to support them from the SEOC working with several other

state agencies already engaged
CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team

LARA's Bureau of Services for Blind Persons has staff assigned to and living in Flint. They will be reaching out to these clients covered by BSBP.

LARA's Michigan Office of New Americans is processing translation requests for Arabic, Mandarin and Hmong.

LARA continues to monitor DEQ's test results for Health Care Facilities, Child Care Facilities, Adult Foster Care Homes and Schools.

Military and Veterans Affairs (DMVA)

1. DTG 0113002016

2. UNIT. Points of Distribution (PODs), TF FLINT (1-125 IN)

3 POC.Ssg Gazzeny, Darryl L. Cell· (Email armyinfantry31@yahoo.com

4. PRESENT LOCATION Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5 SITUATION OVERVIEW 1-125 IN ha Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs) Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits

6 OWN SITUATION DISPOSITION /STATUS Currently 1-125 IN has ! Soldiers on ground supporting the mission

7 OPERATIONS· Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs

a. SEOC has the POC with MDOT. Lt. Benke will be linking up with MDOT technician to do a visual reconnaissance

1) Workers from the City of Flint determined that they do not have the capabilities to support the road sign warnings. Local EOC was working through the Genesee County Road Commission and determined that they do not have the recourses to sustain our long term operations.

b. Flint City Electricians have assessed outside lighting issue at station 5 and 8 In addition, they will be fulfilling long requested work order for maintenance on all lighting at those stations Station 8 work order to be initiated NLT 01FEB2016 0730.

8. PERSONNEL ! Soldiers are currently assigned to the POD operations. ‹ Soldiers are assigned ir ə teams at Fire Stations 1, 3, 5, 6 and 8 12 Soldiers were released and conducted reverse RSOI. 12 new Soldiers will report 2JAN2016 in support of TF Flint

9 INTELLIGENCE / FORCE PROTECTION· Michigan militia did establish a presence within the AO The intentions were not harmful and in support of efforts made to resolving issues to residents of Flint

10 LOGISTICS In support of recycle project sponsored by Schupon, the special purpose recycle bags have not been distributed to POD operations.

11 COMMUNICATIONS. No communications issues at this time

P: 800 MHz radios issued to PODs and WRTs.
A RRF cell phones alternate for WRTs
C: Personal cell phone
E· Runner

12. NARRATIVE N/A

13. COMMANDER'S EVALUATION:
• POD operations are still functioning well We are trying to improve the efficiency, professional appearance, and long-term establishment of the POD's, but, overall the POD's operations are remaining successful
• Recycling has been implemented at PODs 1, 5, and 8. Recycling is happening frequently but at a restriction due to the lack of supply of clear recycle bags given from schupan..
• Consolidated Station Report OUT (last 24 hours)
Bottled water-3523 Water (Gallons)-244 Lead Testing Kits-235
Pitcher (23 cup)-0 Brita Faucet Filter-136 Brita Replacement Cartridge-186
Pur Filter-162 Pur Replacement Filter-346

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include
Chief Gary Hagler, F/Lt Jennifer Wolf, F/Lt. Steven B Burton

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water

Contact info for VAAA Executive Director is.
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ All e-mails to MSP-EOC-MDSP@michigan gov are being forwarded to the Operations Lt The phone number for the on duty Operations Lieutenant is 517-241-8000

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management with daily updates and resource requests received

DTMB Print & Graphic Services to provide translation of Lead Fact sheet and printing for water testing document.
DTMB providing four drivers to assist with transportation of supplies on Monday, three for the point of distribution sites and one at the food bank
Provided an AT&T conference line for the JIC to use to conduct media conference call
Provided assistance to ensure www.helpforflint com and www flintwolunteer com sites are not blocked by State network.
Provided building access and parking for employees and Federal partners in the SEOC and Flint State Office Building
Provide Constitution Hall conference room until February 29 for DEQ to use

Transportation (MDOT)

MDOT is providing traffic measures at Fire Station #6 on Pierson Rd and Fire Station #3 on Martin Luther King Blvd.
-4 portable changeable message boards (2 each site)
-100 grabber traffic cones (narrow reflective cones) (50 each site)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

NEWS RELEASE

FOR IMMEDIATE RELEASE
February 1, 2016
Release #: 26

DEQ and EPA Continue Interagency Cooperation Discussions on Flint Water

FLINT, Mich. – Michigan Department of Environmental Quality Director Keith Creagh met today with Interim Regional Administrator Robert Kaplan from the U.S. Environmental Protection Agency as part of ongoing interagency cooperation to address the Flint water crisis. The EPA and DEQ have met regularly since a state of emergency was declared in Flint in early January.

"These conversations with the EPA are a critical part of our shared response to the emergency in Flint," said Creagh. "We know that moving forward will require all levels of government – along with partners in the business and nonprofit communities and the community of Flint – to work together with the sense of urgency this crisis demands."

Creagh and the EPA regional administrator have weekly phone calls. In addition, program staff from the DEQ and EPA remain in daily contact to coordinate response. At today's meeting, Creagh and Kaplan along with technical staff from both agencies discussed working together to maximize the data that is being collected to make sure the agencies are closely aligned in their work.

The DEQ is also working in conjunction with the EPA to plan and review the 200 sentinel test sites, enabling both entities to capture the information needed across the entire spectrum of data so we have a better overall analysis of the distribution system.

"We want to have systems and structures in place that will lead us to better conclusions for the people of Flint," Creagh said. "We appreciate the partnership with EPA and other government and non-government agencies."

The discussion included a five-part strategy the DEQ implemented to establish a baseline of data to determine when the water in Flint is safe to drink.

MORE

The strategy includes:

- Residential water testing: At-home water testing done by residents is key in guiding experts to areas of concern.

- School testing: Michigan DEQ in collaboration with the Michigan Department of Licensing and Regulatory Affairs (LARA) has tested all 13 public schools in the city and continues to test non-public schools, children's centers and senior centers. The state will retest the public schools once it has completed replacing water fixtures. Fixture replacement has begun at Freeman School, which will be retested after water flushing happens within the next week.

- Food service/restaurant provider testing: Michigan DEQ is working in collaboration with the Michigan Department of Agriculture and Rural Development (MDARD) to test establishments and ensure they are using water filters, flushing water systems properly and using the correct food and water standards.

- Blood level testing: Michigan DEQ is working in conjunction with the Michigan Department of Health and Human Services (MDHHS) to ensure that residents with high blood lead levels have their water tested for lead. Homes with high water lead levels are provided additional services by MDHHS and the Genesee County Health Department to ensure residents' exposure to lead is minimized.

- Flint water distribution system testing: Michigan DEQ and the City of Flint are working to monitor and test the quality of the water as it travels throughout the city's water distribution system. Additionally, sentinel sites are being established to set a baseline for data collection. Sentinel sites are homes that will be used as representative samples to determine the effectiveness of corrosion controls in reducing lead levels.

"Our ongoing conversations with the EPA will help us solidify this plan so we can have confidence in the outcomes," Creagh said.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and can be found at the five city fire stations. For locations, go to www.michigan.gov/flintwater. Additional information is available at www.michigan.gov/flintwater, or by calling United Way 211.

Flint Water
DRAFT

Day	Date	Event
	October 1 Thursday	• Genesee County Health Department declares a Public Health Emergency
	December 15 Tuesday	• City of Flint declares a local State of Emergency.
	January 4 Monday	• Local State of Emergency declared by Genesee County along with request for a Governor's Declaration. • Genesee County EOC activated.
1	January 5 Tuesday	• Governor Snyder issues Declaration of Emergency for the City of Flint and the County of Genesee (end of day). • SEOC is activated and will be staffed 0800-1700 beginning January 6. • FEMA Region V contacted to provide update (Watch Desk and State Director call with FEMA Region V Administrator).
2	January 6 Wednesday	• SEOC Staffed (M-F 0800 to 1700), SEOC State Director has call with FEMA Region V, Deputy Administrator, to request LNOs. • Contacted local EM, advised him of 0830 daily call and initiate contact. • JIC established at 4000 Collins Rd, Lansing, MI. • Briefing held with SMEs Dr. Wells and George Krisztian. • 1400 media round table at Collins Road with Capt. Kelenske and Dr. Wells
3	January 7 Thursday	• FEMA LNOs arrive in the evening and have discussion with State Director (via phone). • Initial damage assessment submitted to EMHSD by local jurisdictions (evening). Infrastructure replacement costs only. Information provided to the local EOC on the best methods of identifying health and non-structural impacts for the damage assessment process. • Deployed two EMHSD personnel to the local EOC to assist with command and control.
4	January 8 Friday	• FEMA LNOs arrive at SEOC 0800. • SEOC State Director orders SEOC to stay open 7 days a week, 0800 – 2000 until incident is stabilized. • Media is driving a message of what the locals are doing versus the state. • Held first legislative/congressional conference call. • JIC has been co-located in the City of Flint.

		• Originally we were advised we had 80-90 PODS from the local EM. Identified these as party stores, etc. and not true PODs. Received confirmation of the 8 POD locations but there is confusion in the SEOC as to what the local EOC has coordinated. Five fire stations have been dedicated to be PODs (from the Mayor). Logistics for these locations is being worked on by the SEOC and EOC. • *Finalizing 9 church locations to distribute 2000 filters (200 each) plus water.* • State personnel deployed to (3) assist with incident management functions at the local EOC (not public information)
5	January 9 Saturday	• Third FEMA LNO in SEOC. • 5 PODs open 0900-1600. Staffed by ARC. • Ten state personnel in the local EOC to ensure command and control at the local level. • Working on "one team" messaging. • The County EOC has no support from the City of Flint, liaison is necessary for smooth operations and to serve residents.
6	January 10 Sunday	• 9 Churches provided filters and water for Sunday distribution. ARC assisting. • 5 PODs open 0900-2100 until further notice. • Freeman Elementary School pilot project initiated. • State agencies working to translate materials into multiple languages.
7	January 11 Monday	• Working to identify warehouse for our use. • Media event held at a POD. • Media event held at the Genesee County Office Building. • Some supply issues arose due to the hard time keeping up with the large demand for water. • Working to finalize logistics plan and get the plan in place.
8	January 12 Tuesday	• Focus is on receiving, storing, and increasing quantities of supplies; fine tuning logistics, increasing door to door team; increase collaboration and messaging of collaboration with local agencies. • Four state WRTs plus the Sheriff's Department teams...App developed and used in the field. • EO activating the National Guard. Mission is to replace ARC volunteers in PODs. • Governor requested FEMA to identify a POC for non-Stafford Act resources (Federal agencies acting under their own authority). Approved by FEMA Region V Administrator and LNO Zuelke identified. He will be a liaison to the FWIACC. • *7,824 cases of water arrived (109 pallets)* • Ordered 19,152 cases to arrive 1/13 (109 Pallets), 1/3 going to GCCARD and rest going to warehouse • 12,768 cased to arrive daily beginning 1/14 (177 pallets a day). • PSA video pushed out by the Governor's office.

9	January 13 Wednesday	• Planning for increase in teams. • Draft request for a Presidential Declaration of a Major Disaster and an Emergency sent review. • 5 WRTs in field. • Flint Mass Transportation Authority adding PODs to route. • NG deployed ' personnel to PODS.
10	January 14 Thursday	• Request for Presidential declarations submitted to FEMA. • Current number of citizens who are willing to be sample sites is 114. • Senator Ananich visits SEOC. • Secured 80,000 square foot warehouse. • Email to state employees for volunteer opportunity. • Deployed 8 WRTs. • NG deployed total personnel to PODs.
11	January 15 Friday	• LG visits local and state EOC. • Short session on managing stress held in SEOC. • 10 state/local and 5 ARC WRTs deployed. • Standing requirements for JIC information created. • 7,474 homes visited by FWRTs. • 18,576 cases of water distributed to date; 45,916 filters; 165,382 filter cartridges; 3,217 test kits.
12	January 16 Saturday	• Received Emergency Declaration – limited to Direct Federal Assistance. FCO David Samaniego on site. • Major Disaster Declaration Denied. • Deployed 11 state/local teams and 10 ARC teams. • LG visited local EOC and discussed local EOC operations. • DEQ sampling kits are being received at PODs now. • 20,876 cases distributed; 47,935 filters; 167,401 filter cartridges; 3,322 test kits. • 11,324 homes visited by WRTs to date • 3,850 homes visited
13	January 17 Sunday	• Deployed 11 state/local WRTs and 10 ARC FWRTs. • 4,963 homes visited • Website attacks of Michigan.gov, city of Flint, and Flint township website occur. • Conference call with legislative and congressional representatives. • 16,353 homes visited by WRTs to date. • 27,195 cases of water distributed to date; 50,432 filters; 168,605 cartridges; 4,861 test kits. • Supplies provided to ~14 churches

14	January 18 Monday	• Jesse Jackson in Flint. • Deployed state/local and 10 ARC FWRT. • Resource request sent for MIANG assistance to deliver water, filters, test kits, and replacement filters to residents. • Community Health Emergency Coordination Center was notified that the Center for Disease Control Agency for Toxic Substances & Disease Registry will have a team of 3-5 people coming to Michigan. This team is coming to provide technical assistance as part of their regular mission. • Governor approved the use of the National Guard for the Door to Door Operations in Flint. National Guard personnel arriving on Wednesday (1-20-16). • Media availability event at the Volunteer Reception Center. • Faith based organizations continue to assist with distributing resources. • 5,040 homes visited. • 21,299 home visited to date by FWRT. • 37, 313 cases of water distributed to date; 53,713 filters; 169,520 cartridges; 7,379 test kits.
15	January 19 Tuesday	• White House press release identified the Department of Health and Human Services (DHHS) as the lead for the federal government response to the public health crisis in Flint. HHS will have staff in Michigan in the next few days. • National Guard in-processed [illegible] Soldiers to augment points of distribution operations. • Deployed state/local and 10 ARC FWRT. • Flint video is now on available on Comcast On-Demand. • 2,809 homes visited. • 24,108 to date by FWRT • 77,794 cases of water distributed to date; 69,730 filters; 184,457 cartridges; 16,671 test kits.
16	January 20 Wednesday	• Legislative and Congressional Conference Call. • JIC held a media advisory and news release at 1100 about the Michigan National Guard's increase in support and change in mission. • Governor appeals denial of federal major disaster declaration for Flint. • Dr. Nicole Lurie, Assistant Secretary for Preparedness and Response, US DHHS has arrived. • Deployed [illegible] National Guard/state/local teams and 10 ARC FWRT. • 3,395 homes visited. • 27,503 homes visited to date by FWRT. • 90,377 cases of water distributed to date; 73,229 filters; 185,852 cartridges; 19,866 test kits.

17	January 21 Thursday	• Deployed National Guard/state/local and 10 ARC FWRT • 6,416 homes visited. • 6,416homes visited by FWRT, phase II. • 105,091 cases of water distributed to date; 79,571 filters; 189,428 cartridges; 21,625 test kits. • Dr. Lurie the US DHHS ASPR at the CHECC and SEOC to explain the US DHHS transition.
18	January 22 Friday	• Deployed National Guard/state/local and 15 ARC FWRT. • National Guard is working to deploy 3 cyber personnel to assist at the Michigan Cyber Command Center (MC3). • 6,166 homes visited. • 12,582 homes visited by FWRT, phase II. • 121,404 cases of water distributed to date; 82,687 filters; 191,704 cartridges; 23,415 test kits.
19	January 23 Saturday	• Deployed National Guard/state/local and 40 ARC FWRT. • 14,118 homes visited. • 21,291 homes visited by FWRT, phase II. • 153,005 cases of water distributed to date; 84,505 filters; 195,264 cartridges; 24,866 test kits.
20	January 24 Sunday	• Deployed National Guard/state/local and 19 ARC FWRT. • DEQ confirmed that a multidisciplinary team will be revising the process for home lead level test results being reported to the household. Letters are being revised to reflect one way of reporting the lead levels and actions to be taken. • Beginning Monday 1/25/2016 at 0730 the MDOC will be assuming management duties at the Warehouse. • MDNR and MSP GIS are working to map known lead service lines based off of geographical locations and zip codes. • MIARNG has Soldiers and Airmen deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). • 11,243 homes visited. • 37,943 homes visited by FWRT, phase II. • 164,991 cases of water distributed to date; 91,763 filters; 197,775 cartridges; 28,763 test kits.
21	January 25 Monday	• Held a media availability at Flint Fire Station No. 8 to provide an update on the activities and mission of the water response teams. Maj. Gen. Gregory Vadnais, Spl/F/Lt. Dave Kaiser, Genesee County Sheriff's Office and the American Red Cross participated in the event. • JIC coordinated with FEMA to arrange a Congressional/Legislative briefing for tomorrow afternoon. • MDHHS leadership and CHECC staff met with federal partners from SAMHSA and CDC/HHS today to discuss technical assistance and federal activities.

		• National Guard demobilized canvassing teams. ; Soldiers are currently assigned to the POD operations and cyber mission. • Deployed 11 ARC FWRT. • 2,596 homes visited by ARC as part of the targeted canvassing mission. • 176,118 cases of water distributed to date; 93,048 filters; 198,552 cartridges; 29,320 test kits.
22	January 26 Tuesday	• Operations for the Flint Water Response Teams has shifted to a targeted effort to get filters into homes that we show have not been contacted. • Governor Snyder signed Executive Order 2016-3 transferring the ethnic commissions – the Hispanic/Latino Commission of Michigan (HLC), the Michigan Asian Pacific American Affairs Commission (MAPAAC), and the Commission on Middle Eastern American Affairs (CMEAA) - from MDCR to the Department of Licensing and Regulatory Affairs (LARA). • Michigan's HHS Regional Coordinator will serve as the Federal Health Coordinating Officer (FHCO) within a Unified Coordination Group (UCG) that will be operational this week in an effort to streamline information and coordinate federal activities. • Legislative and Congressional Call with FEMA. • NAACP meeting at U of M Flint. • Deployed 10 ARC FWRT. • 1,350 homes visited by ARC. • 3,946 homes visited to date for targeted canvassing mission. • 186,309 cases of water distributed to date; 94,301 filters; 199,489 cartridges; 29,841 test kits.
23	January 27 Wednesday	• Senate Appropriations Committee meeting. • Press conference at the University of Michigan-Flint's Northbank Center to provide an update about current actions and next steps to address about Flint water. • MDHHS CHECC staff met with the HHS State Coordinator Officer (SCO) regarding what HHS resources will be sent to Michigan, to include a nine person team. The team will consist of the following individuals: Mental Health staff, Sanitarian, Health Educator, Nurse, Nurse Manager, Behavioral Health staff, Risk Communication Developer, and Data Support. • Donations Management team and several branches of State and FEMA met regarding donation and volunteer management, will be meeting weekly. • Deployed 10 ARC FWRT. • 1,020 homes visited by ARC. • 4,966 homes visited to date for targeted canvassing mission. • 196,456 cases of water distributed to date; 95,417 filters; 200,654 cartridges; 30,255 test kits.

24	January 28 Thursday	• Media advisory and coordinated a press conference about recycling with Lt. Gov. Brian Calley at 1200 at Fire Station #1. • Community Partnership meeting, local, state, and FEMA representatives attended. • MDHHS is collective historical blood lead data is being obtained and an accurate display that is clear and understandable is in development. • Deployed 10 ARC FWRT. • 1,768 homes visited by ARC. • 6,734 homes visited to date for targeted canvassing mission. • 207,055 cases of water distributed to date; 97,342 filters; 201,848 cartridges; 30,801 test kits.
25	January 29 Friday	• Began working on SBA loan application. • Deployed 10 ARC FWRTs. • 924 homes visited by ARC. • 7,658 homes visited to date for targeted canvassing mission. • 216,605 cases of water distributed to date; 98, 641 filters; 202,566 cartridges; 31,111 test kits.
26	January 30 Saturday	• Deployed 10 ARC FWRTs. • 1,368 homes visited by ARC teams today. • 9,026 homes visited to date in targeted canvassing mission. • 227,188 cases of water distributed to date; 99,969 filters; 203,932 cartridges; 31,512 test kits.
27	January 31 Sunday	• Deployed 10 ARC FWRTs • 551* homes visited by ARC teams today (number low due to issue with iPads these additional homes will be added to the numbers tomorrow). • 9,577 homes visited to date in targeted canvassing mission. • 234,490 cases of water distributed to date; 100,593 filters; 204,736 cartridges; 32,093 test kits.
28	February 01 Monday	• EMHSD Liaison participated in the Incident Action Plan development for the Unified Coordination Group. • Recovery Branch coordinated meeting with Michigan Community Service Commission (MCSC), Local EOC, and ARC regarding volunteer coordination and reporting. • Deployed 10 ARC FWRT • 1,135 homes were visited by ARC yesterday. Data was not included in daily report. • 1,164 homes visited by ARC teams today. • 11,876 homes visited to date in targeted canvassing mission. • 244,933 cases of water distributed to date; 101,911 filters; 205,820 cartridges; 33,561 test kits.

Subject: Re: status of appeal

I gave a due date of last Friday. I have been in constant contact with Keith Francis, Genesee County Controller, and he needed a couple extra days to get their data pulled together and reviewed. He said I should have it tomorrow. He has been very easy to work with.

The city is another story. Chris DeVriendt has made contact with Shawn Kammer (sorry - don't have my notes with me) and another contact with city DPW with the request and due date. He let me know right from the start that the city has been disengaged and was not expecting much if anything from them. I thought about calling the city myself to see if I got better results.

I have quite a bit of information from state agencies and expect to have everyone accounted for by the end of the week. I have requested weekly updates from the state agencies so getting updated numbers shouldn't be a problem.

Please let me know if you prefer I not reach out to the city myself.

Thanks
Penny

Penny has made the request to the state agencies and the local agencies for the information needed for the appeal. I believe she did this at least at the beginning of last week. It may have been earlier. We are awaiting that info. I have begun a rough draft of a letter, but that's the easy part. The data will be the key.

Penny may have more information on who has replied at this point, but I believe she had indicated information from the locals was proving challenging.

Subject: Additional Warehouse Lease

Importance: High

Paul

We need to open another warehouse due to the amount of donations.

With random donation deliveries, water is being turned away. This is upsetting senators and other legislators, causing stress to logistics, donations, and warehouse staff. It is important to secure additional warehouse space. It appears United Way is unable to assist us with donation funds. We are down to the wire and have exhausted all options.

The location we are looking at is a closed Kroger store at 2629 W. Pierson Road. This space is 74,000 sq. ft., 3 dock doors and a garage door. The owner of this space, Phoenix Property Development LLC, lowered his price of $28.971 plus water, heat, electric and dumpster, to **$21, 581.57 to include everything except the dumpster.** This may only be for 2 months, as Target has just closed a store on Lapeer Street and have spoken about possibly donating that space to us. If that happens, it will be available the beginning of April.

We hope to use this space for all loose donations. Loose donations meaning non-palleted and not shrink-wrapped. This warehouse would have volunteers staffing it to accept, unload, and verify the water is not expired or recalled. They will pallet and shrink-wrap water for redistribution to the PODs and Rapid Response teams. This location could also replace the existing POD at Station 6. This has proven to be a dangerous location as citizens cross 5 lanes of traffic on a busy intersection. The large parking lot would make distribution easier and safer for citizens to receive water, kits, filters and replacement cartridges.

We could also park a 53' Schupan recycling trailer for the on-going recycling program. The trailer would function the same as at the PODs where residents bring their recyclables in clear plastic bags and deposit them inside the trailer.

I was also told there is office space so this also could potentially assist us if we need more room with the Mission Flint team.

I was going to push to Jarod and Rich but wanted to go through the normal channel on this. I can send it to Jarod and Rich if you want. Let me know.

Chris

Thanks for the work on this report format. It is coming together to be very helpful.

Please look at adding a couple sub categories on water test results. For example, the 150 level issue. Also, look at some point such as 30 so we can isolate the more extreme situations. I assume that you are also looking at the geographic distribution of water and blood test results to determine particular problem areas.

Also, what is the difference between active residential customers and residential parcels. People have filters without water service? Also, how are we handling multifarious places?

Thanks
Rick

Take a look at the attached Gov Data document. I want to connect you to the personnel working the numbers...you both can explain what the issues are. There is a delay in getting numbers from the PODs as they are open until 9 p.m. We get our numbers at 5 p.m. which may contribute to why what you add is not adding up ... but that is why I want to connect you to Sam. His number is

I also attached another set of data as a FYI.

To: Calley, Brian (GOV)
Subject: RE: Volunteers

Per the ARC ...

Groups wanting to volunteer should coordinate with Rachel Wenzlick of the United Way. Her email is rwenzlick@unitedwaygenesee.org and she will make the necessary arrangements. There is a website that can be used as well to initiate coordination: www.flintvolunteer.com.
The Volunteer Reception Center (VRC) is located at the American Red Cross Headquarters, 1401 S. Grand Traverse, Flint, and is scheduled to be operating from 9 am to 5 pm now through Sunday. Groups definitely need to coordinate in advance to avoid long waits to be processed through the VRC.

> Keith,

I think you walk a pretty difficult line here as best as you possibly can. Seems like the part where we talk about what the local water department is responsible for is a bit weak because of the EM being a State appointee. We need to be cautious there.

As for the stuff about the EPA, it seems like we should try to take the tact of:

"We are in the middle of a complex and urgent remediation for the City of Flint. To be successful, we (the State) need to have a high performing, trust based partnership with the EPA, US HHS, FEMA and other entities at the local and county level.

The problem with finger pointing is that it makes it difficult to work in tandem to solve real problems for real people depending on us. My comments are intended to address what should have been done differently with 20-20 hindsight at the local, state and federal level. Making mistakes is human. Learning from them and talking about it is not always easy, especially in a political environment.

If my observations today create a lack of cooperation between the State of Michigan and the EPA or any department of the federal government dedicated to solving this problem in Michigan, that would be an unintended consequence of epic proportion. The people of Flint deserve to know that public officials care more about solving problems than about politics and posturing."

Hope this is helpful. You are doing an incredible job in a very difficult situation and I am proud to be your partner.

Regards.

Rich

Subject: SEOC Update 1/31/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/31/16 – 27th Day (26th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue investigating a warehousing option for non-palletized donations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.

- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Finalize SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- **10 American Red Cross Teams scheduled for Monday, February 1, 2016**
- **City Sections Scheduled Tomorrow***: Franchise Customers, Additional to be determined.

*City sections subject to change based on available data updates. Teams will reach out for additional assignments if entire city section is completed during the operational period.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- Information reported to the JIC:
  - As of 1/31/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/31/20
30,770	37,844	9,577	551*

*Due to an issue with the iPads in the field not all numbers were captured for today's outreach. The additional residences will be entered tonight by ARC and will be included in the data for tomorrow, per Recovery Branch.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	234,490
b. Filters	100,593
c. Filter cartridges	204,736
d. Test kits	32,093

3. Resources purchased:

a. Cases of water 2,637,324 Liters (additional 996,080 Liters donated)
b. Filters 165,048
c. Filter Cartridges 383,282
d. Test kits 62,701

4. Teams going out tomorrow:
   a. 10 American Red Cross Teams scheduled for Monday, February 1, 2016.

New Standing Information Requirements

1. **Number of homes visited each day:**
   a. 1/31/16, as of 5 pm, 551* homes were visited today
      i. *The numbers are low due to an issue with the iPad input, the additional residences will be inputted tonight and included in tomorrow numbers.
2. **Total number of homes visited:**
   a. Targeted Canvassing Mission: 9,577
3. **Total number of National Guard on the ground:**
   a.
4. **Total Number of Volunteers each day:**
   a. 236 volunteers on 1/31/2016, per ARC.
5. **Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,831	28,081
Active residential water subscribers	26,673	22,334

6. **Number of Water filters distributed (each day and to date):**
   a. 624 (299 FWRT + 325 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and total distributed to date is 100,593.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 7,302 (426 FWRT +6876 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and the total distributed to date is 234,490.
8. **Number of testing kits distributed (each day and to date):**
   a. 581 (251 FWRT +330 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and the total distributed to date is 32,093.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
      *This data will not be updated again until Tuesday.
10. **Number of people with elevated blood level (kids, adults, total):**
    a Per CHECC: These numbers are only updated bi-weekly
      i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38

ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7

iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22

*This data will not be updated again until Tuesday

11. **Number of homes with safe drinking water:**
    a. 5,020 water samples out of 5,356 sampled through **January 31, 2016** are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Addressing various public concerns, including concerns regarding filter efficiency.
- Establishing procedures for receiving incoming donations of loose water at overflow locations.
- Established rapid response delivery plan with ARC and Team Rubicon.
- Coordinated rapid response deliveries to homebound residents and special locations.
- Coordinated with VRC for door-to-door distribution of recycling information and supplies.
- Genesee County Board of Commissioners meeting scheduled for 02/01/2016.

Subject: Flint reference 1/31

Governor,

Here are the updates for 1/31. (Took a little while to get the new water test breakdown. Shouldn't be a problem in the future.) As noted this morning and on the attachments, the overall totals for commodities distributed jumped much more from 1/29 to 1/30 than they should have based on the daily totals. Captain Kelenske has asked staff at the SEOC to determine the cause of the disconnect and to correct the SEOC records back to the date when the error first occurred.

U.S. ENVIRONMENTAL PROTECTION AGENCY
POLLUTION/SITUATION REPORT
Flint Drinking Water Response - SitRep #9

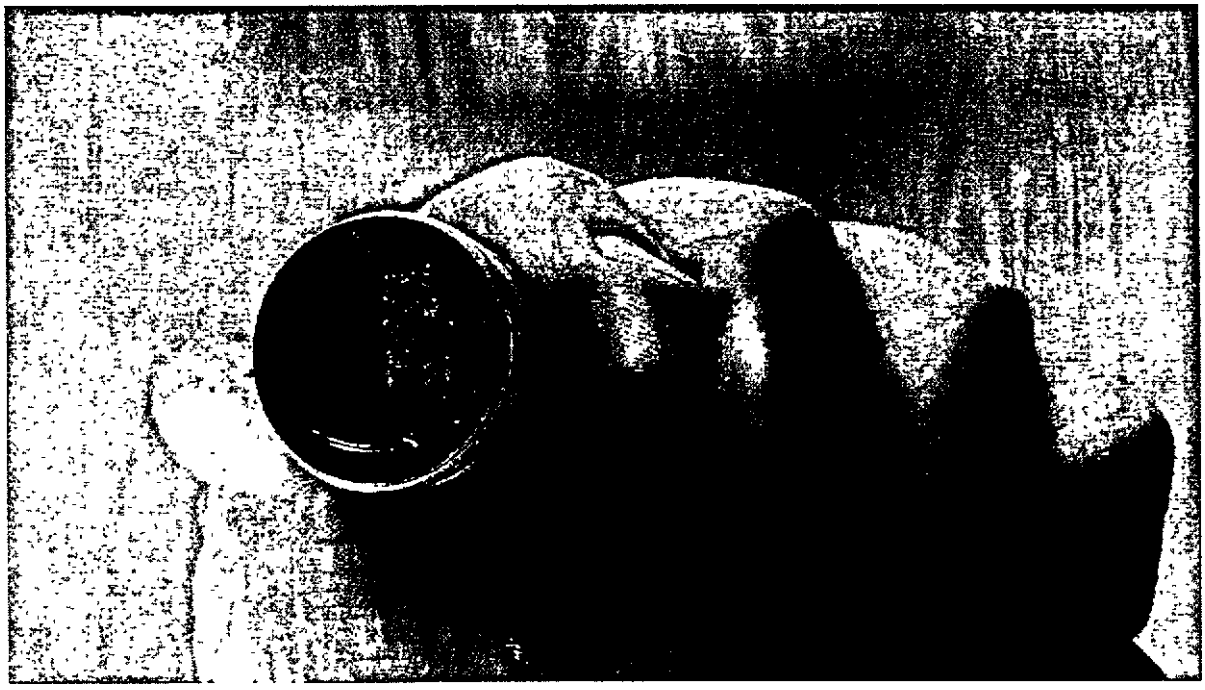
UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
Region 5

Subject: SitRep #9
Flint Drinking Water Response
Flint, MI

To: Flint Drinking Water Response Distribution List

Through: Mark Durno, Unified Command Liaison
From: Jaime Julian, Situation Unit Leader

Date: 1/31/16
Reporting Period: 1/30/16, 1700 hours – 1/31/17, 1700 hours



1 Introduction

U.S. EPA R5 has deployed a team to assist with the Flint Drinking Water Response. EPA is participating as part of a Unified Command Group with Office of the Assistant Secretary for Preparedness and Response (ASPR), the U.S. Environmental Protection Agency (U.S. EPA), the Centers for Disease Control (CDC) the Federal Emergency Management Agency (FEMA). Both ASPR and CDC are a part of Health and Human Services (HHS), which is the lead agency for this response.

1.1 Incident Command Post

The U.S. EPA Incident Command Post (ICP) is at Kettering University at 1300 Bluff Street. The staging area and Mobile Command Post (MCP) are located at this address. The Unified Command Post (UCP) is at 123 E. Union St.

1.2 EPA Operations Objectives

- Ensure health and safety of the public and response personnel.
- Collect, coordinate, manage, and communicate environmental and public health data.
- Determine the effects of reintroduced orthophosphate in reducing lead in the drinking water system through sequential sampling.
- Coordinate with EPA Office of Research and Development (ORD) system assessment of the drinking water system, including chlorine residual monitoring.
- Determine field efficacy of preventive measures.
- Response to health agency requests for environmental sampling.
- Maintain effective communications with HHS, unified command, cooperating agencies, and the public.
- Determine a path forward with the community, coordinating agencies, Michigan Department of Environmental Quality (MDEQ), City of Flint, and health agencies to ensure the safe use of drinking water.

1.3 Unified Command Senior Leadership Objectives

- Provide immediate access to safe water.
- Ensure the safety of and public confidence in the water supply.
- Understand and address immediate health needs from potential lead exposure.
- Mitigate other impacts of the water contamination crisis on the residents of Flint.

2 Activities During Reporting Period

2.1 Operations Branch

- Observed that many aerators/filters were clogged with metal debris/scale from water pipes at homes with high lead levels. Recommending that people clean their aerators/filters.
- Obtained grab samples with Water Branch at homes with highest lead levels.

2.2 Water Branch

- Performed lead sequential sampling at 1 home.
- Canvassed the homes with the highest lead levels to obtain grab samples.
    - 7 homes sampled in yesterday's canvassing.
    - 7 homes sampled in today's canvassing.
- Cleaned aerators/filters at all homes sampled.

2.3 ORD Water Assessment Team

- No updates. Team will return 2/1/16.

2.4 Data Management/GIS Team

- Creating user documentation for samplers. Final draft version anticipated by 2/1/16.
- Developing data management plan for data flow, storage, and retrieval.
- Data collected as of 01/27/16 will be loaded into the Scribe database by 2/1/16.

2.5 Public Affairs/Community Involvement

2.5.1 Public Affairs

- Posted Tweets in English & Spanish encouraging people to clean their aerators. Included a link to the State of Michigan fact sheet. https://twitter.com/EPAGreatLakes
- Working with ORD to develop talking points for Administrator's visit to Flint next week.

2.5.2 Community Involvement

- Assisted Water Branch during sampling efforts.
- Scheduled water sampling for filter sampling and sequential sampling.
- Researched contact info for properties with high lead results to schedule filter sampling.

2.6 Situation Unit

- Developed situation report.
- Updated and reported current staffing levels.
- Printed maps for situation display.
- Developed contact list for distribution.

2.7 Logistics

- Provided logistics support throughout the day for Facilities Management, Shipping & Receiving of UPS items, Mobile Command Post operations, and IT support.
- Made purchases in support of ICP, including coolers for sampling effort.
- Working with Public Affairs to have handouts printed.

2.8 Unified Command Liaison

- Conducted daily review of overall management objectives.
- Integrated HHS and Secretary's Operations Center (SOC) objectives into UCP objectives.
- Assisted UCP operations staff integrate with EPA operations.
- Coordinated GIS requests between UCP and EPA.

3 Staffing/Personnel

As of 1500 hours, 15 personnel were checked into the EPA ICP and 2 at the UCP, bringing the total to 17. The current organizational chart is included as Appendix A. (Please note that the chart does not include all personnel, just the main contacts for each Branch/Team/etc.)

> Here is the original letter addressed to the Governor and a proposed response from Steve Arwood on behalf of the administration to their request. I have cc'd Ari Adler from our team (TEDcomms) as well, so let us know if and when you would like us to proceed with a response. Just wanted to make sure the boxes were checked w/ the Flint team and your comms folks before we did anything. If you want to commandeer our letter for the Governor to respond direct we have no pride of authorship issues here.

Subject: Flint Congressional Letters

Good Afternoon: Thanks for your assistance we are closing part of the loop on the SBA request.

Attached is the original letter received from our delegation requesting investigation into SBA Disaster Loans for Flint.

The second document is our response as requested by Captain Chris A. Kelenske, Deputy State Director of Emergency Management and Homeland Security, Michigan State Police.

The MEDC Response document will be distributed to the delegation once Jeremy clears with GovComms.

Best, Jennifer

Subject: letter to Gov. Snyder on SBA disaster loans

Hi Gloria,

I wanted to flag this letter that Sens. Peters and Stabenow and Rep. Kildee send to Gov. Snyder urging him to request the availability of SBA disaster loans for Flint which are long-term and low interest.

We have been talking to the Flint Chamber to help identify impacted businesses. If we can be of any assistance in facilitating this request ASAP please let me know. Thanks!

Subject: Water and Filter Lists

By the time I get in the office, ~0930, I want a list of water distribution sites, address, hours open, status of water, etc. Info was sent to GIS by Chris D yesterday on water locations and filter locations. I want a map of all these also so we can determine if we need more locations.

This is a priority. Real or perceived, I do not feel we are moving quick enough. I checked some of the tasks and am not seeing entries where work is being done but agencies may just not be entering the info. I am concern that Richard is over tasked. DHHS needs more support so someone get with Richard on that to see if this is accurate and if he needs help.

I have been on the phone with Chris D this morning to discuss some of my concerns.

Right around the corner will be a request for assistance with nutrition support and that will take a lot of resources.

Here's what I have from the Governor's team on information they'd like each night. I didn't touch base with DHHS yet about providing daily information on blood lead level testing. Thanks to Mitch Adelman for getting the ball rolling on the DEQ test results.

The list:

1. # of homes visited each day
2. Total number of homes visited
3. Total # of National Guard on the Ground
4. Total number of volunteers each day
5. # of homes with filters
6. # of Water filters distributed (Each day and to date)
7. Cases of bottled water distributed (Each day and to date)
8. # of Water testing kits distributed (Each day and to date)
9. # of water testing kits returned/sampled (each day and to date)
10. # of people tested for elevated blood levels (Kids, adults, total)
11. # of people with elevated blood levels (Kids, adults, total)
12. # of homes with safe drinking water (Not sure whether it's possible right now to provide this number)

I asked the chief of state to provide standing information requirements so I could provide the gov the same info in my nightly report. So all the below will be filtered into my nightly report versus different state agencies sending him a report each night correct?

Importance: High

Jarrod

Per our discussion, attached are the denial letters for our appeal and IHP and Category B under the Emergency Declaration.

Next steps:
-The major disaster declaration is done. Nothing more can be done.
-We are going to appeal the IHP and Category B denial under the Emergency Declaration. We have 30 days to appeal and have already started to gather the information needed to ensure a strong case is made.

Subject: NG Costs

Per our discussion tonight, I spoke with MG Vadnaise and he is going to start planning for a 200 personnel mission to assist with the Water Response Teams PENDING FINAL APPROVAL by the Governor.

Cost estimate is $425,376 for 6-7 days. I can have a better number tomorrow but this is based on our current costs.

We would start with some NG personnel on the ground Wed with more phasing in. Looking at final day of Sunday. This is also dependent on the NG planning team but I wanted to provide an idea of time in the field.

If this direction is good then we will continue. If this is not a good direction we can shift.

> >
> > "I appreciate the President approving my federal emergency request and supporting Flint during this critical situation," Snyder said. "I have pledged to use all state resources possible to help heal Flint, and **these additional resources** will greatly assist in efforts underway to ensure every resident has access to clean water resources."

Snyder received notice from FEMA this afternoon that emergency relief has been approved in the form of water, water filters, filter replacements and water test kits. The period of assistance is up to 90 days. Under the Stafford Act, resources totaling $5 million can be used for federal emergencies, and the state is required to match 25 percent. If the $5 million is exhausted, Congress has the option to approve additional funding.

The governor had also requested a major disaster declaration, which was denied based on the legal requirement that **under the Stafford Act disaster** relief is available only for natural events, fires, floods, or explosions. The state is now actively reviewing the process for appealing the disaster declaration denial.

Instead of "additional funding" how about "additional resources". Also maybe add the reference to the Stafford act. See below in bold.

I like the rest.

Subject: Draft wording

LANSING, MI - Gov. Rick Snyder today requested support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan.

This request will enable the various programs, authorities and/or technical expertise held by federal agencies to be utilized in order to help the needs of the city of Flint. Such federal agencies may include the Department of Health and Human Services, Environmental Protection Agency, Department of Housing and Urban Development, and Army Corps of Engineers.

A critical component to building local and state response capacities is to develop a framework and strategy for government and non-government entities to identify and coordinate the resources necessary to support sustainable recovery solutions.

The current situation in Flint is one that may benefit from non-Stafford Act support...

Jarrod

FEMA Region V Administrator is Andrew Velazquez, cell: [redacted] He stands ready to receive the Governor's call.

I spoke with Andrew a few minutes ago.

Can start the call with, "I know you are familiar with the situation ...." Have the Governor confirm that this does not affect the potential for an emergency declaration and that these are two separate, parallel tracts (that is confirmed but he may want to mention it).

Subject: Next Steps

Importance: High

Jarrod:

For discussion on path forward.

1. The Governor calls FEMA Region V Administrator, Andrew Velasquez, to request FEMA for non-Stafford support to coordinate federal agencies to conduct research as to what resources the federal agencies can bring to bear (under their own authority) to address the lead issue.
   - I will have a document for the Governor on this and will send it as soon as I have some reviews completed.
   - Andrew has the authority to make the decision on this.
   - We should have this for an evening press release but it needs to start to be worked on.

2. Sign an EO (I am learning that Gen V may be able to do this without an EO) activating the National Guard. AG is en route and DMVA JAG is reviewing.
   a. Mission:
      - Take over distribution of supplies at the PODs (Fire Stations). Replace the ARC volunteers.
      - Assist with any transportation needs within the supply chains but we feel we have made good progress so this may not be needed. ARC Logistics is her and I have briefed her on short and long term goals.
   b. Cost is
      i. ~$70,896 for 7 days
      ii. ~$141,793 for 14 days
      iii. ~$303,843 for 30 days

3. Request an emergency declaration (G can ask Andrew for this on the call IF we have the declaration info needed ... not there yet.)
   a. NOTE: this is a 75/25% share.
      i. A truck of water from FEMA is $10,000 and for us it is $5,000. Based on the cost share it is better for FEMA to do it plus we can focus on long term recovery.
   b. Would allow us to shift water operation to FEMA
   c. Would include technical piece so FEMA can task federal agencies to do things versus just coordinate as listed above. They help come up with a long term viable solution.

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.

- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.

- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:

- Determine what federal agencies are already involved and their status
- Identify potential water supplies
- Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
- Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
- Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.

- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Thanks. We are talking with Mayor's team at 5pm.
We had heard different info on what Mayor was doing on Monday with FEMA. So we'll try and straighten that out this evening.

Subject: RE: Request for Governor to Provide Message - Diaster 4195 Deadline Approaching

Per FEMA, the ideal location for this event would be the DRC in Detroit:

FEMA Disaster Recovery Center -
Wayne County Community College
8200 Outer Drive
Detroit, MI 48219
Open till further notice

If this is not convenient, we also have a RSS location in Detroit:
La Sed
7150 Vernor Hwy, Detroit, MI 48209
1000-1700

Some talking points for consideration are below:

- There are still thousands of residents in the three county are with damage from the August flooding who have yet to register for possible assistance from FEMA. If you were affected by the flooding in any way, register online at disasterassistance.gov or call 800621-3362. FEMA grants may be available to you.

- FEMA assistance is available to homeowners and renters for major and minor damage that occurred during the August heavy rains storms Aug. 11 through Aug .13.

- I want to encourage everyone who has yet to register, go online or call FEMA and register. The registration deadline is fast approaching. I want to introduce Dolph Diemont, the Presidents appointee as lead federal official for the Michigan flooding disaster.

I have been advised that the Mayor of Detroit is looking to do some media event on Monday at 1 p.m. at the DRC. It is supposed to be about appealing FEMA's decisions on individual assistance which FEMA does not necessarily believe this event should occur.

Do you know about what time the Governor could do the event? FEMA has migrated to this being a media event versus what I believed was to be a recorded message. Which would you prefer?

Please feel free to call my cell if it is easier to discuss this.

Paul

We are in our last two weeks for IA registration and FEMA was hoping to have the Governor visit one of the DRC sites in Detroit this week (They are aware of the issues with his schedule but they wanted to at least ask). FEMA would like the Governor in front of a DRC with the FEMA flags in the background reminding survivors to register and that the deadline to register for IA is November 24th. The Governor made a video in the past so maybe that is a better option – for him to provide a video from his office like last time. Let me know your thoughts on this Paul. Thanks,

Importance: High

Seeking approval ASAP to deploy the NG as follows. TAG and I have coordinated this deployment and he has signed off on it.

- MISSION: Provide 200 personnel to staff Water Response Teams (WRT).
- We are planning for NG soldiers on the ground as WRTs in the field Wednesday-Saturday. NOTE: Tuesday and Sunday are their ramp up/down days.
- An Additional NG soldiers will start be in the field as WRTs on Thursday-Sunday. NOTE: Wednesday and Monday are ramp up/down days.
- Logistical support provided by existing plan in place.
- Vehicle signature will be civilian versus military.
- Personnel will be in uniform of the day with WRT credentials.
- Cost estimate: $391,000 for 200 troops for 6 days which includes direct billing for hotels.

Subject: NG Costs

Per our discussion tonight, I spoke with MG Vadnaise and he is going to start planning for a 200 personnel mission to assist with the Water Response Teams PENDING FINAL APPROVAL by the Governor.

Cost estimate is $425,376 for 6-7 days. I can have a better number tomorrow but this is based on our current costs.

We would start with some NG personnel on the ground Wed with more phasing in. Looking at final day of Sunday. This is also dependent on the NG planning team but I wanted to provide an idea of time in the field.

If this direction is good then we will continue. If this is not a good direction we can shift.

Chris,

A few of the most recent web links to your question about Flint's drinking water, most of the articles mention those with "severely compromised immune systems" infants and the elderly may face an "increased risk" and should seek advice regarding drinking water from their healthcare providers. Also says there currently is no "Boil Order"

Coordination of Resources in Non-Stafford Act Events

The State of Michigan has identified and planned for various natural, technological and man-made hazards that have, and will continue to, impact its residents. Given the scope, severity and magnitude of any of these hazards, the impacted local jurisdictions and the state may or may not have adequate resources and capabilities for which to efficiently and effectively respond to, recover from and mitigate against. A critical component to building local and state capacities is to develop a framework and strategy for government and non-government entities at all levels to identify and coordinate the resources necessary to support sustainable recovery solutions at the state, Tribal, and local levels.

Subsequent to a Stafford Act declaration, the state and federal government coordinate available resources to assist individuals and communities to respond to and recover from the disaster. Although resources made available through specific Stafford Act authorities would not be provided in a non-Stafford Act event, many resources are available to states, Tribes, and local governments that may be used to support jurisdictions.

The current situation in the City of Flint is one that may benefit from non-Stafford Act support. In a non-Stafford Act event the federal presence, if warranted, is typically limited to technical assistance. However, other federal agencies may have existing authorities, programs and resources that could be requested to address recovery priorities. In the context of this event, which primarily involves public health impacts and infrastructure degradation, there are a number of federal agencies that may be appropriate for further analysis such as the Department of Health and Human Services, Environmental Protection Agency, Department of Housing and Urban Development and the Army Corps of Engineers that maintain programs, authorities and/or technical expertise that may be able to support the needs of the City of Flint. In addition, the City of Flint is one of six cities selected in 2014 in the second round of the White House initiative, Strong Cities - Strong Communities, which is a targeted initiative to strengthen local capacity and spark economic growth in local communities, while ensuring taxpayer dollars are used wisely and efficiently. This initiative could be leveraged to take advantage of established local, state and federal agency relationships as they relate to coordination of available federal resources to address identified recovery priorities in this incident.

Also, state agencies may have existing programs or grants that in many instances can be re-prioritized to meet identified recovery needs and goals. In addition, private sector and non-governmental organizations, may have available programs and funding opportunities.

For an event that requires additional support, the state may request federal recovery coordination support through the Federal Emergency Management Agency (FEMA) Regional Administrator to share information or provide technical assistance. Federal recovery coordination support could include an individual with experience and expertise in recovery coordination. The individual could also provide relevant subject matter expertise and facilitate enhanced coordination between federal agencies and state, tribal or territorial recovery leadership.

That person could be the Federal Disaster Recovery Coordinator (FDRC). In the context of an event that does not receive a federal declaration, the Region V FDRC can play a facilitative role in the identification of federal agencies with authorities and resources that could address recovery priorities as well as provide subject matter expertise in assisting the state in identifying their recovery leadership structure and state agency engagement. In events where a federal role may be necessary to support the local, county and state, the FDRC can play a role as a focal point for incorporating recovery and mitigation considerations into decision making processes.

In this event, the Governor issued Executive Order #2016-1, establishing the Flint Water Interagency Coordinating Committee, charged with creating an incident action plan designed to assist state and local authorities in ensuring safe drinking water for the residents of the City of Flint and addressing the consequences of elevated lead levels in the drinking water and citizens. The FEMA Region V FDRC could serve as a liaison to this committee to support the coordination between federal agencies, state agencies/departments, and private sector and non-governmental organizations in the development and implementation of achievable courses of action to resolve the public health and infrastructure issues in Flint.

This non-Stafford Act process and the programs listed above are offered as a means for the State of Michigan to identify potential program and funding sources that might be available to address the recovery priorities identified by the state and the City of Flint.

The Honorable Dan Kildee
United States Representative
227 Cannon House Office Building
Washington, D.C. 20515

Dear Senator Stabenow, Senator Peters, and Congressman Kildee:

I would like to respond to your correspondence to Governor Snyder dated January 22, 2016. Thank you for taking the time to share information regarding a disaster declaration from the U.S. Small Business Administration (SBA). We are aware that SBA disaster loans may provide assistance to eligible businesses, homeowners, renters and non-profit organizations.

At present the State of Michigan Emergency Management and Homeland Security Division is working with the local jurisdiction and SBA on this and other assistance options. Within the Michigan Economic Development Corporation we have staff assigned to assist the City of Flint directly with economic development assistance and federal grant technical assistance. We have pulled an inventory of resources and are working in concert with the State Emergency Operations Center to ensure alignment and rapid deployment of this much needed assistance. We will do all we can to help Flint households and businesses mitigate the impact of the water crisis. Additional information is available via http://www.michigan.gov/flintwater.

Sincerely,

Steve Arwood

FEMA

January 22, 2016

The Honorable Rick Snyder
Governor of Michigan
Lansing, Michigan 48909

Dear Governor Snyder:

This is in response to your January 14, 2016, request for an emergency declaration for the State of Michigan as a result of contaminated water described in your request as beginning on April 25, 2014, and continuing. You specifically requested a declaration for the Individuals and Households Program and emergency protective measures (Category B), including direct federal assistance and reimbursement, under the Public Assistance program for Genesee County.

The January 16, 2016, emergency declaration FEMA-3375-EM authorized emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding. The emergency declaration authorized the federal provision of water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days for Genesee County. Additionally, the President offered assistance in identifying other Federal agency capabilities that could support the recovery effort.

After a thorough review of your request, it has been determined that additional Stafford Act assistance, beyond that which has been authorized under FEMA-3375-EM, is not appropriate for this event. Therefore, your request for the Individuals and Households Program and reimbursement for emergency protective measures (Category B) under the Public Assistance program for Genesee County is denied.

This denial may be appealed within 30 days after the date of this letter. Any appeal pursuant to 44 CFR § 206.46, along with additional information justifying the appeal, should be submitted to me through Andrew Velasquez III, Regional Administrator, FEMA Region V, located at 536 South Clark Street, Chicago, Illinois 60605.

Sincerely,

Elizabeth Zimmerman
Associate Administrator
Office of Response and Recovery

Congress of the United States

Washington, DC 20510

January 22, 2016

The Honorable Rick Snyder
Governor of Michigan
PO Box 30013
Lansing, MI

Dear Governor Snyder,

We write to urge you to immediately engage the Small Business Administration (SBA) to request a disaster declaration from Administrator Maria Contreras-Sweet which will allow eligible businesses, homeowners, renters and non-profit organizations impacted by the ongoing water crisis in Flint to apply for SBA disaster loans.

Disaster Loans are low interest, long term loans that are available to households, businesses or other organizations located in declared disaster areas that have suffered substantial economic injury or physical damage. As the Governor, you are able to request either a physical disaster or an economic injury disaster declaration. To receive a physical disaster declaration you would need to make a showing that least 25 homes or businesses have sustained uninsured losses of 40% or more. If the Administrator makes this declaration, homeowners, renters, businesses and non-profits in primary and contiguous counties could apply for disaster loan assistance. To receive an economic injury disaster declaration, you will need to certify that at least five small businesses in the disaster area have suffered substantial economic injury as a result of the disaster. Under an economic injury disaster declaration, eligible businesses would be able to apply for up to $2 million in long term, low interest loans, depending on their circumstances. These loan proceeds can then be directed to working capital needs like making payroll or replacing inventories. We have heard from some impacted firms that have experienced disruption to their operations due to the events stemming from the decision to alter Flint's water supply. This decision and its ensuing economic impact has only exacerbated economic challenges that were already confronting the hard working Flint community.

We urge you to begin the process of due diligence to identify the appropriate course of action given the declaration criteria above. We urge you to work with local stakeholders to make this determination of which kind of declaration is appropriate given the fast moving situation on the ground in Flint. We have already made the SBA aware of the issues identified for us by our constituents and time is of the essence. We strongly urge you to execute the required due diligence and subsequent formal request submission in order to speed the consideration process at the SBA.

The full impact of the unacceptable, man-made crisis in Flint will not be knowable in the near term. What we do know is that the crisis is affecting Flint's economy. It is critical that you prioritize this request for a disaster declaration so that all of our constituents can assess whether a disaster loan is appropriate for their home, business or organization and submit their applications. Disaster Loans are not silver bullets that will cure all of the economic ills impacting Flint, but they can be helpful components of a broader recovery strategy which will require sustained commitment from you and your Administration. We stand ready to provide any support that you may require in your ongoing response to this unfortunate series of events, but we urge you to begin this process immediately to help Flint households and businesses mitigate the harmful impact of the water crisis.

Sincerely,

Debbie Stabenow
U.S. Senator

Gary Peters
U.S. Senator

Dan Kildee
U.S. Representative

U.S. Department of Homeland Security
500 C Street, SW
Washington, DC 20472

FEMA

January 22, 2016

The Honorable Rick Snyder
Governor of Michigan
111 South Capitol Avenue
Lansing, Michigan 48909

Dear Governor Snyder:

This is in response to your January 20, 2016, appeal for a major disaster declaration for the State of Michigan as a result of water contamination described in your request as beginning on April 25, 2014, and continuing. You specifically requested Individual Assistance and Public Assistance, including direct federal assistance for Genesee County and Hazard Mitigation statewide.

After a thorough review of all of the information contained in your initial request and appeal, we reaffirm our original finding that a major disaster declaration under the Stafford Act is not appropriate. The request does not meet the legal definition of a "major disaster" under 42 U.S.C. § 5122, as implemented at 44 C.F.R. §§ 206.2(17). The incident was not a result of a natural catastrophe, nor was it caused by a fire, flood, or explosion. Therefore, I must inform you that your appeal for a major disaster declaration is denied.

As the President has directed, Federal agencies, including FEMA, will continue to assist the State however possible in addressing the needs of the citizens in Flint. Dr. Nicole Lurie, Assistant Secretary for Preparedness and Response at the US Department of Health and Human Services, the Federal government's senior response official, remains our main point of contact for coordinating these ongoing efforts.

Sincerely,

W. Craig Fugate
Administrator

BOTTLING, LLC

NIAGARA WATER IS SAFE

HERE'S WHY

Last week, we issued a voluntary recall of spring water produced at our two (2) Pennsylvania plants from June 10-18th, 2015 because the operator at one of our contracted springs failed to notify us that there was evidence of *E. coli* bacteria at his source.

Because there has been a great deal of misinformation reported and circulated over the last 24 hours, we felt it was necessary to issue this clarifying statement.

Niagara Bottling performs extensive testing on both incoming spring water as well as finished products. We have confirmed there have been no issues or *E. coli* contamination of any kind detected in our finished products or in the spring water that was delivered to our bottling facility.

Even if it had been present in the incoming spring water, we utilize quality systems and disinfection technology that would ensure that our product is free from contamination. Despite this, once we were informed of the potential presence of *E. coli* at the spring source, we immediately shut down our operations, disinfected our bottling lines and initiated a voluntary recall in an abundance of caution and in the interests of consumer safety.

This recall only relates to spring water produced in our Pennsylvania manufacturing facilities from June 10-18th, 2015. It does not relate to any purified water or any spring water produced outside of Pennsylvania or outside the June 10-18th, 2015 timeframe.

To determine whether your product is part of this recall, please visit Niagarawater.com and click on "Consumer Notice" at the top of the home page. This will take you to the notice of the recall and a list of codes of the water produced during these 8 days. If you don't see your product on the list, it was completely unaffected by the recall and is completely safe to drink.

Niagara has been family-owned and family run for over 50 years. Nothing is more important to us than consumer safety, which is why we voluntarily issued this recall.

If you have any additional concerns, please contact our Consumer Affairs Department at (888) 943-4894.

Tel 909 230.5000 Fax 909 354.3475 I 2560 E Philadelphia St. Ontario CA 91761 I www.niagarawater.com

Hollywood just called. Apparently Brad Pitt is sick (strep throat I think)...
They'd like Capt. Kelenske to escort Angelina on the red carpet this week.

I told them NO. He's busy.

FOR IMMEDIATE RELEASE
Tuesday, January 12, 2016

Public service announcement released today provides information on water resources

LANSING, MI - A Public Service Announcement was released today by Gov. Rick Snyder's office

in a priority effort to continue providing free water resources to all Flint residents.

The PSA, featuring Capt. Chris Kelenske from the Michigan State Police, provides information about the resources currently available for free to all Flint residents, including water filters, replacement filters, bottled water, water testing kits, and blood testing.

Click here or below to view the PSA:

Visit **www.michigan.gov/flintwater** or call 211 for more information. Residents who need transportation or any other assistance can call 211.

For more information, contact the Governor's office at 517-335-6397.

Subject: Thoughts Regarding Success

After being in the SEOC today, I see frustration in that anything we do is not enough. I am asking myself, what does success look like? At what point can emergency operations end? This morning, I believed that if we supplied the fire stations and distributed filters, we would be there. At this point, we do not know what the actual needs are and are struggling to determine how to accomplish this. The difficulty we are facing is that some individuals are reportedly going from fire station to station to pick up water. My sense is that water will be taken as fast as we can reload. Controls may or may not help. Based on current operations, our success path appears to have:

- Every household tested for lead contamination at every faucet and found to be free of lead.
- Every fire station supplied with bottled water and filters from now until January 31.
- Every child under the age of 6 is tested for lead poisoning.
- Every citizen in the city of Flint is tested for lead poisoning.

At his point, it is difficult to imagine achieving these objectives. I realize we may not be able to address these at this time, but we will ultimately need to do so.

Subject: Declaration Needs

Following are our needs to be directed to FEMA in our request for a Presidential request for **emergency declaration.**

Water

- While we are currently keeping ahead, the long term outlook is far from certain in terms of what demand will be given the level of governmental distrust. We have transitioned from donated water to purchasing water, but are required to have a balanced budget by law. Over the long haul, the cost of water combined with costs of filters, filter cartridges, and water test kits is not known and will likely end up as a large cost in the end. Each truckload costs $5500.

Filters

- Until issues with the Flint water distribution system are fully addressed, we must continue to provide filters and replacement cartridges to the public. Filters average $25; cartridges average $20. This will be a large cost.

Water Test Kits

- Our short term goal is to test every household on the water distribution system. This demand will decline, but not stop. This will be a long term continuing cost. The cost of each test is $26.

Personnel

- While activity will eventually decline, it is not possible to gauge when this will occur. We cannot sustain long term operations without assistance. We should consider EMAC to address this need. I estimate this will cost $75,000 for 10 personnel for one month of operation. Personnel will assist with SEOC operations and with logistics of securing additional resources to defray costs through donations.
- There is a fundamental distrust of government in the city of Flint, especially where state government is involved. A major hurdle will be reestablishing public trust to a point where there is confidence in water quality. The USEPA and USHHS will need to engage both short and long term to convince residents tap water is safe to consume.

If a Presidential **disaster declaration** is requested, the following information must be submitted.

- The city of Flint has submitted an estimate for the entire water distribution system ($780 Million)
- We need to develop a plan for long term health assessment and treatment. I have requested a preliminary cost assessment from MDHHS.
- Long term nutritional needs and associated costs are unknown, but must be considered.

Executive Order No. 2016-0_
Activation of the National Guard to Assist in Responding to the Emergency Relating to the City of Flint's Water System

Whereas, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the State of Michigan in the Governor; and

Whereas, Under Section 12 of Article V of the Michigan Constitution of 1963 the Governor is the Commander-in-Chief of the state armed forces and may call them out to execute the laws; and

Whereas, Section 151 of the Michigan Military Act, MCL 32.551, authorizes the Governor to order any members of the organized militia to active state service in the aid of the civil authority in times of public danger, disaster, crisis, catastrophe, or other public emergency within the State; and

Whereas, by Executive Proclamation 2016-01 the Governor declared a State of Emergency in the City of Flint and Genesee County resulting from the City of Flint changing its water source from the Detroit water system to its own treatment plant drawing from the Flint River; and

Whereas, this resulted in increased lead levels in the water distributed through Flint's water system; and

Whereas, lead can be introduced to humans through water, and elevated lead levels can result in significant health impacts, particularly for children, pregnant women, and the elderly; and

Whereas, the State's first priority in addressing this emergency is to limit potential exposure to lead in drinking and cooking water ~~by providing filters and/or bottled water to as~~

~~many citizens of Flint as possible,~~ to limit any potential exposure to lead in the City's water system;

Whereas, other priorities include: 1) directly informing as many Flint citizens as possible that filters, bottled water, information on lead, water testing ~~kist~~kits, and other resources are available; and 2) directly providing ~~water testing kits~~resources to Flint residents and following up with those residents to ensure that the water supply for as many residents as possible are tested. These tasks require that personnel go door-to-door in large areas of the City;

Whereas, due to the significant level of human and other resources required for these tasks, additional assistance is needed to supplement existing personnel and equipment; and

Whereas, by Executive Proclamation 2016-01, the Governor directed that the Emergency Management and Homeland Security Division of the Department of State Police, coordinate and maximize all state efforts, and call upon all state departments and agencies to utilize resources at their avail, to assist the City of Flint and Genesee County pursuant to the Michigan Emergency Management Plan.

NOW, THEREFORE, in consequence of the above, I, Richard D. Snyder, Governor of the State of Michigan, pursuant to the Michigan Constitution of 1963, the Michigan Military Act, 1967 PA 150, MCL 32.501 *et seq,* and the Emergency Management Act, 1976 PA 390, MCL 30.401 *et seq*, do hereby:

1. Direct the Adjutant General of the Michigan National Guard to order to active state service units and individuals of the Michigan National Guard that, in his discretion, he deems appropriate to meet general mission assignments as determined by the Director of the Department of State Police, or her designee.
2. The Director of the Department of State Police, or her designee, shall coordinate and maximize all state efforts, including such units and individuals of the Michigan National

Guard that may be activated to state service to assist the City of Flint and Genesee County in accordance with the Michigan Emergency Management Plan.

3. The Michigan National Guard is activated until such time as determined by the Adjutant General, after consultation with the Director of Department of State Police, or her designee.

This Executive Order is effective upon filing.

Given under my hand and the Great Seal of the State of Michigan this _____ day of January, 2016

_____
Richard D. Snyder
Governor of the State of Michigan

Time: _____

_____
Ruth Johnson
Secretary of State

SSB Captains

Please see the attached announcement from the Director.

Chris - I do not envision EMHSD taking part in this due to their commitment with the SEOC operations addressing this issue.

Dave and Mike – From an Operational Perspective
As I look at the staffing of both your Divisions, there are opportunities in both Divisions, but IOD is a bit more limited. I believe CVED will be in a better position to have personnel volunteer for this cause.

I am hoping for many of our employees to volunteer to give to a community in need.

I look forward to your leadership to encourage employees under your command to volunteer in the worthwhile effort.

Thank you

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

JOIN THE MSP

From: Colonel Etue [mailto:MichStatePolice@govsubscriptions.michigan.gov]
Sent: Tuesday, January 12, 2016 4:39 PM
To: Gorski, Gary (MSP)
Subject: Revised: Volunteers needed for water resource teams in Flint

Note: Dates are January 14 and January 15.

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Teams are being assembled for shifts on Thursday, January 14 and Friday, January 15. Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1 p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

This email was sent to gorskiq@michigan.gov using GovDelivery, on behalf of: Michigan State Police · 333 S. Grand Ave · P.O. Box 30634 · Lansing, MI 48933

Activation of the National Guard to Assist in Responding to the Emergency Relating to the City of Flint's Water System

Whereas, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the State of Michigan in the Governor; and

Whereas, Under Section 12 of Article V of the Michigan Constitution of 1963 the Governor is the Commander-in-Chief of the state armed forces and may call them out to execute the laws; and

Whereas, Section 151 of the Michigan Military Act, MCL 32.551, authorizes the Governor to order any members of the organized militia to active state service in the aid of the civil authority in times of public danger, disaster, crisis, catastrophe, or other public emergency within the State; and

Whereas, by Executive Proclamation 2016-01 the Governor declared a State of Emergency in the City of Flint and Genesee County resulting from the City of Flint changing its water source from the Detroit water system to its own treatment plant drawing from the Flint River; and

Whereas, this resulted in increased lead levels in the water distributed through Flint's water system; and

Whereas, lead can be introduced to humans through water, and elevated lead levels can result in significant health impacts, particularly for children, pregnant women, and the elderly; and

Whereas, the State's first priority in addressing this emergency is to limit potential exposure to lead in drinking and cooking water ~~by providing filters and/or bottled water to as~~

~~many citizens of Flint as possible,~~ to limit any potential exposure to lead in the City's water system;

Whereas, other priorities include: 1) directly informing as many Flint citizens as possible that filters, bottled water, information on lead, water testing ~~kist~~kits, and other resources are available; and 2) directly providing ~~water testing kits~~resources to Flint residents and following up with those residents to ensure that the water supply for as many residents as possible are tested. These tasks require that personnel go door-to-door in large areas of the City;

Whereas, due to the significant level of human and other resources required for these tasks, additional assistance is needed to supplement existing personnel and equipment; and

Whereas, by Executive Proclamation 2016-01, the Governor directed that the Emergency Management and Homeland Security Division of the Department of State Police, coordinate and maximize all state efforts, and call upon all state departments and agencies to utilize resources at their avail, to assist the City of Flint and Genesee County pursuant to the Michigan Emergency Management Plan.

NOW, THEREFORE, in consequence of the above, I, Richard D. Snyder, Governor of the State of Michigan, pursuant to the Michigan Constitution of 1963, the Michigan Military Act, 1967 PA 150, MCL 32.501 *et seq,* and the Emergency Management Act, 1976 PA 390, MCL 30.401 *et seq*, do hereby:

1. Direct the Adjutant General of the Michigan National Guard to order to active state service units and individuals of the Michigan National Guard that, in his discretion, he deems appropriate to meet general mission assignments as determined by the Director of the Department of State Police, or her designee.
2. The Director of the Department of State Police, or her designee, shall coordinate and maximize all state efforts, including such units and individuals of the Michigan National

Guard that may be activated to state service to assist the City of Flint and Genesee County in accordance with the Michigan Emergency Management Plan.

3. The Michigan National Guard is activated until such time as determined by the Adjutant General, after consultation with the Director of Department of State Police, or her designee.

This Executive Order is effective upon filing.

Given under my hand and the
Great Seal of the State of
Michigan this _____ day of
January, 2016

_____
Richard D. Snyder
Governor of the State of Michigan

Time: _____

_____
Ruth Johnson
Secretary of State

Subject: Non-Stafford Act Document

Final version attached.

Coordination of Resources in Non-Stafford Act Events

The State of Michigan has identified and planned for various natural, technological and man-made hazards that have, and will continue to, impact its residents. Given the scope, severity and magnitude of any of these hazards, the impacted local jurisdictions and the state may or may not have adequate resources and capabilities for which to efficiently and effectively respond to, recover from and mitigate against. A critical component to building local and state capacities is to develop a framework and strategy for government and non-government entities at all levels to identify and coordinate the resources necessary to support sustainable recovery solutions at the state, Tribal, and local levels.

Subsequent to a Stafford Act declaration, the state and federal government coordinate available resources to assist individuals and communities to respond to and recover from the disaster. Although resources made available through specific Stafford Act authorities would not be provided in a non-Stafford Act event, many resources are available to states, Tribes, and local governments that may be used to support jurisdictions.

The current situation in the City of Flint is one that may benefit from non-Stafford Act support. In a non-Stafford Act event the federal presence, if warranted, is typically limited to technical assistance. However, other federal agencies may have existing authorities, programs and resources that could be requested to address recovery priorities. In the context of this event, which primarily involves public health impacts and infrastructure degradation, there are a number of federal agencies that may be appropriate for further analysis such as the Department of Health and Human Services, Environmental Protection Agency, Department of Housing and Urban Development and the Army Corps of Engineers that maintain programs, authorities and/or technical expertise that may be able to support the needs of the City of Flint. In addition, the City of Flint is one of six cities selected in 2014 in the second round of the White House initiative, Strong Cities - Strong Communities, which is a targeted initiative to strengthen local capacity and spark economic growth in local communities, while ensuring taxpayer dollars are used wisely and efficiently. This initiative could be leveraged to take advantage of established local, state and federal agency relationships as they relate to coordination of available federal resources to address identified recovery priorities in this incident.

Also, state agencies may have existing programs or grants that in many instances can be re-prioritized to meet identified recovery needs and goals. In addition, private sector and non-governmental organizations, may have available programs and funding opportunities.

For an event that requires additional support, the state may request federal recovery coordination support through the Federal Emergency Management Agency (FEMA) Regional Administrator to share information or provide technical assistance. Federal recovery coordination support could include an individual with experience and expertise in recovery coordination. The individual could also provide relevant subject matter expertise and facilitate enhanced coordination between federal agencies and state, tribal or territorial recovery leadership.

That person could be the Federal Disaster Recovery Coordinator (FDRC). In the context of an event that does not receive a federal declaration, the Region V FDRC can play a facilitative role in the identification of federal agencies with authorities and resources that could address recovery priorities as well as provide subject matter expertise in assisting the state in identifying their recovery leadership structure and state agency engagement. In events where a federal role may be necessary to support the local, county and state, the FDRC can play a role as a focal point for incorporating recovery and mitigation considerations into decision making processes.

In this event, the Governor issued Executive Order #2016-1, establishing the Flint Water Interagency Coordinating Committee, charged with creating an incident action plan designed to assist state and local authorities in ensuring safe drinking water for the residents of the City of Flint and addressing the consequences of elevated lead levels in the drinking water and citizens. The FEMA Region V FDRC could serve as a liaison to this committee to support the coordination between federal agencies, state agencies/departments, and private sector and non-governmental organizations in the development and implementation of achievable courses of action to resolve the public health and infrastructure issues in Flint.

This non-Stafford Act process and the programs listed above are offered as a means for the State of Michigan to identify potential program and funding sources that might be available to address the recovery priorities identified by the state and the City of Flint.

Subject: SEOC Update 1/12/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
  - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.

- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
  - *Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)*
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse
    - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - *2,000 – Brita filter faucet mounts*
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - *10,000 – PUR replacement filters (3 pack)*
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - *11,000 – PUR vertical faucet mount*
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - *6601 unassembled kits arrived at GCCARD today, 1/12/16.*
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:
    - 217 Door Hangers
    - 152 Vacant Homes
    - 117 Water Distributions
    - 112 Filters
    - 3 Pitchers
    - 48 Water Test Kits
- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:
- SitRep 6

Key items for tomorrow to note are:
- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.

- The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

   - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
   - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
   - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
     - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
   - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
   - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
     - Debris Removal = ***self-explanatory and we do not have this***
     - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
     - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
  1. Ensure all households within impacted community have required resources.
  2. Ensure accurate tracking and accounting of all commodities.
  3. Improve and maintain public information strategy.
  4. Develop a long term public health and services plan.
  5. Ensure adequate staffing to support operational requirements.
  6. Identify possible assistance programs.
  7. Develop an approved GIS strategy.
  8. Maintain coordination between partner agencies and organizations.
  9. Enhance situational awareness and common operating picture of all activities.
  10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.

- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff ( ) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution

based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.

- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics

for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.

- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area
    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.

- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- *Operational period for the SEOC will be M-F, 0800 to 1700 at this time.*
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

LT,

Today we started out the day using two groups that consisted of approximately 10 people in each group.

We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group.

This made us a lot more efficient and we were able to set up a game plan.

The Sheriff had 4 U-Haul trucks we used and this was a lot more efficient than the 24' Semis. The Semis are too big to make it down the tight streets, so I set them up as a mobile filling station. When we ran low on supplies we were able to pull up to them and refill the U-Haul trucks. This is the game plan for tomorrow and the rest of the week. Saves us from driving all the way back to the HQ to fill.

Also we had way to many vehicles and it made us less mobile. Tomorrow the game plan is to meet at the Sheriff admin building and we will then bus the volunteers into the zone we will be working.

I will be meeting with the sheriff's team at 8am and we will discuss what are goal is for the day. We will discuss the most efficient way to map out the days route and plan the groups out.

Today we met at lunch time to determine our progress and what we would do in the afternoon. We will continue this at 12:30 each day (So the volunteers can get lunch and warm up) and we can continue to go over the maps/game plan to make any adjustments if needed.

Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources.

Thank you

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

RICK SNYDER
GOVERNOR

BRIAN CALLEY
LT. GOVERNOR

EXECUTIVE ORDER
No. 2016 – 02

ACTIVATION OF THE NATIONAL GUARD TO ASSIST IN RESPONDING TO THE EMERGENCY RELATING TO THE CITY OF FLINT'S WATER SYSTEM

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the State of Michigan in the Governor; and

WHEREAS, Under Section 12 of Article V of the Michigan Constitution of 1963 the Governor is the Commander-in-Chief of the state armed forces and may call them out to execute the laws; and

WHEREAS, Section 151 of the Michigan Military Act, MCL 32.551, authorizes the Governor to order any members of the organized militia to active state service in the aid of the civil authority in times of public danger, disaster, crisis, catastrophe, or other public emergency within the State; and

WHEREAS, municipal water in the City of Flint showed elevated lead levels after the City of Flint changed its water source from the Detroit water system to its own treatment plant drawing from the Flint River; and

WHEREAS, by Executive Proclamation issued on January 5, 2016, the Governor declared a State of Emergency in the City of Flint and Genesee County; and

WHEREAS, lead can be introduced to humans through water, and elevated lead levels can result in significant health impacts, particularly for children, pregnant women, and the elderly; and

WHEREAS, the State's first priority in addressing this emergency is to limit potential exposure to lead in drinking and cooking water by limiting potential exposure to lead in the City's water system; and

WHEREAS, other priorities include: (1) directly informing as many Flint residents as possible that filters, bottled water, information on lead, water testing kits, and other resources are available; and (2) directly providing resources to Flint residents and following up with those residents to ensure that they have access to safe water, are fully informed, and have their water supply tested. These tasks will require that personnel go door-to-door in large areas of the City of Flint; and

WHEREAS, due to the significant level of human and other resources required for these tasks, additional assistance is needed to supplement existing personnel and equipment; and

WHEREAS, by the Executive Proclamation of Emergency issued on January 5, 2016, the Governor directed that the Emergency Management and Homeland Security Division of the Department of State Police, coordinate and maximize all state efforts, and call upon all state departments and agencies to utilize available resources to assist the City of Flint and Genesee County pursuant to the Michigan Emergency Management Plan;

NOW, THEREFORE, in consequence of the above, I, Richard D. Snyder, Governor of the State of Michigan, pursuant to the Michigan Constitution of 1963, the Michigan Military Act, 1967 PA 150, MCL 32.501 et seq., and the Emergency Management Act, 1976 PA 390, MCL 30.401 et seq., order the following:

1. The Adjutant General of the Michigan National Guard is directed to order to active state service units and individuals of the Michigan National Guard that, in his discretion, he deems appropriate to meet general mission assignments as determined by the Director of the Department of State Police, or her designee.

2. The Director of the Department of State Police, or her designee, shall coordinate and maximize all state efforts, including such units and individuals of the Michigan National Guard that may be activated to state service to assist the City of Flint and Genesee County in accordance with the Michigan Emergency Management Plan.

3. The Michigan National Guard is activated until such time as determined by the Adjutant General, after consultation with the Director of Department of State Police, or her designee.

The Executive Order shall become effective upon filing.

Given under my hand and the Great Seal of the state of Michigan this 12th day of January, in the year of our Lord, Two Thousand Sixteen

RICHARD D. SNYDER
GOVERNOR

BY THE GOVERNOR:

SECRETARY OF STATE

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/13/2016 08:00:00
Operational Period End:	01/15/2016 08:00:00
Situation Report No.	7
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/12/2016 08:00:00
SEOC Hours of Operation End:	01/12/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 12):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

- Logistics
o Worked on maintaining supplies and track resources at each of the local PODs.
o Worked to establish a Red Cross warehousing team to assist at two new warehouse locations.
o 50,000 sq. ft. warehouse facility established and will begin accepting resources Wednesday January 13, 2016.
o Working with DTMB to locate vehicles needed for Water Resource Canvassing on Thursday, January 14, 2016.

- JIC
o Media was imbedded with a canvassing team today.
o Media coverage on the canvassing was very positive.
o Approved a MDARD fact sheet for distribution.
o The Governor's office has pushed out a video PSA lead by Capt. Chris Kelenske.

- Recovery Branch
o Working with MSP SEMC to expand door to door teams this week. Expanded canvassing scheduled for Thursday January 14, 2016.
o Canvassing today was successful and put 4 teams of 6 in the field.
o Totals resources distributed in canvassing operation for 1/12/16:
- 217 Door hangars.
- 117 Water (cases).
- 112 Faucet filters.
- 3 Pitchers.
- 48 Water test kits.

- Planning Section
o Developed real time tracking system for local resources.
o Working with GIS to include local POD numbers in live GIS distribution map.
o Completed IAP for the next operational period and the Situation Report for daily activities.

- Operations Section
o Fire stations up and running today and providing resources to the citizens.
o Water resources have been scheduled to fill the designated warehouses.
o Filter resources have been procured and will be delivered over the week to fill the warehouse.
o Second warehouse 100,000 sq. ft. has been procured.
o American Red Cross warehouse management team on site at GCCARD.
o Daily Numbers:
- Filters.
- 2,000 delivered.
- 64,700 ordered.
- Replacement Cartridges.
- 10,400 delivered.
- 184,300 ordered.
- Water (cases).
- 7,824 delivered.
- 19,152 ordered.
- Test Kits.
- 6,601 kits delivered.
- 1,000 ordered.
- Finance Section.
o Continuing to monitor SEOC staffing and costs incurred on a daily basis.
o Develop projection of anticipated costs for response and short-term recovery.

• GIS Branch Updates.
o Today we began migrating content to ArcGIS Online to streamline resource management operations.
o Deployed ArcGIS Online Collector App to field teams and tracked resources and site visits. Building a similar tracker for PODs to track the status of resources distributed.
o We continued to work on updating old mapping products to include newer infrastructure. Lead analysis is ongoing and is at 10% of the city lines.
o We have coordinated with local partners to develop a draft map of lead service lines to prioritize resources deployment. Finalized map will be developed by U of M Flint in mid-February.

DTMB:
• Procured additional filters/cartridges to maintain field supply and build supply in warehouse.
• DTMB real estate is finalizing lease of 100,000 sq. ft. warehouse for supplies.
• Incoming supplies by end of week.
o 39,500 faucet filters.
o 41,600 replacement filters.

DHHS-CH
• The Community Health Emergency Coordination Center (CHECC) has officially elevated its level of activation to "Level 2 - Partial Activation." Currently the CHECC is staffed with BETP leadership and Section Chiefs only. SMEs will be brought in as necessary.
• Coordinating with MDE and MDARD on nutritional planning communications.
• Coordinating with the CHECC to determine status of Environmental Testing and Consulting Lead Investigator(s) request.
DEQ
• 10,000 additional water testing kits have been ordered.
• Arranged for DEQ staff to deploy to GCCARD to supervise water kit assembly.
• Arranged for DEQ staff to deploy as a field observer to assist in tracking water kit supplies and samples.

Local EOC Update:
• Requested Red Cross warehouse teams for both warehouses.
• Working to establish a warehouse for local resource storage.
• Worked with SEOC to better track resource distribution and levels.
• Secured assistance for inventory management at GCCARD warehouse.
• 2-1-1 is rerouting calls for homebound seniors to Sheriff's office, resulting in approximately 100 home deliveries.
• Red Cross warehouse team on site at GCCARD today.

Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Upcoming Forecast

Forecast Update for Flint, MI Area: Posted 1030 am January 12, 2016

• Snow and blowing snow to continue off and on into Wednesday night (January 13). Hazardous travel expected at times.
• Very cold through Wednesday night (January 13). The cold could limit ability to remove ice from road surfaces.
• Time to frostbite from exposed skin will be 15 to 30 minutes through Wednesday (January 13)
• Bottled water stored outside or not in temperature controlled locations will freeze due to temperatures well below freezing through the week

Through Tuesday Night (Jan 12)
• Snow and blowing snow will create hazardous driving conditions in very low visibility and icy road surfaces. Up to an additional 2 inches of accumulation possible in the Flint area. Could see long periods without snow, or a long period of continuous snow.
• Snow will blow back on to treated roads. Rapid changes in visibility and road conditions are likely. This type of weather is typical of the weather that occurs when Michigan has some road closures and larger multi-car accidents.

Wednesday through Wednesday night (January 13)
• On and off snow showers. Less snow expected than Tuesday. Could see an additional inch of accumulation. Gusty winds continue through

Wednesday evening. Very cold air will remain in the area.

Thursday (January 14) through Saturday (January 16):
• Slight warming of temperatures to near 30 degrees during the day. Temperatures in the teens still expected at night. Off and on snow showers to continue into the weekend. Best chance for additional accumulating snow looks to be Friday afternoon (January 15) through Saturday night (January 16).

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 5 p.m. on Jan. 12. State agencies at the JIC included the Governor's Office, Health and Human Services, Michigan Department of Agriculture and Rural Development, and Department of Technology and Management and Budget, Natural Resources, and Michigan State Police.

Tasks accomplished during the operational period included:
• Held an 8:15 a.m. media event where media members had an opportunity to get footage and photos of the water resource teams as they go door-to-door to distribute free bottled water, water filters, water filter replacement cartridges and water testing kits to residents throughout Flint. A photographer/videographer was embedded with the team.
• Collaborated on a Governor's news release about a Public Service Announcement featuring Capt. Chris Kelenske from the Michigan State Police. The PSA provided information about the resources currently available for free to all Flint residents, including water filters, replacement filters, bottled water, water testing kits, and blood testing.
• Issued Web and social media content about the water resource teams.
• Reached out to local and nonprofit PIOs to become active participants in the JIC.
• Finalized MDARD letter and fact sheets to food establishments.
• Sent water filtration video to Comcast. Working to get a Dish Network contact.
• Arranged for an interview with the New York Times, including directors from DEQ and MDHHS.
• Began preparing a news release to include numbers, including teams, sites, local and American Red Cross.
• Monitored traditional and social media.
• Received 17 calls from the news media on the JIC media hotline.
• Expanded JIC staffing and roles.
• Confirmed digital billboard to encourage residents to call 211 for water resources and information.

Agriculture and Rural Development (MDARD)

Jan 12th - 1/12/16 - MDARD Activities: Food Safety: The updated guidance document for water in retail food and restaurants/food service is done and awaiting final ok in the JIC/SEOC; could go out in US Mail as early as Wed. MDARD Food staff will start scheduling water sampling and inspections for next week. MDARD has requested a map overlaying food facilities with the known areas most impacted to help prioritize follow up.
Animal health update: notifications to potentially impacted facilities are nearly complete. After further coordination with Genesee County Animal Control, the three animal shelters in the Flint area are not on City water. The Michigan Veterinary Medical Association notified all veterinarians in the region last week; MDARD will be individually following up with the two clinics. There are no kennels or pet grooming facilities in the City. Genesee Animal Control will be contacting pet stores and the known households that serve as animal rescue operations and does not need MDARD assistance.
MDARD is also looking at opportunities for assistance/guidance related to nutrition, including possible support through donations management.

American Red Cross (ARC)

Again today the American Red Cross provided volunteers to operate the distribution sites at the 5 fire stations. We added staff to this effort to be better able to manage inventory at those sites. We also brought in a warehousing team to manage inventory at the G-CARD site. Additionally ARC put together a team to work on assembling water test kits at the G-CARD site before the kits go out to the distribution sites. A logistics planner has now been deployed from the ARC national headquarters to assist the SEOC logistics Group Chief.
Tomorrow we expect to continue staffing the 5 fire station distribution sites, and will be standing up a volunteer reception center to process event-based volunteers. Assembly of the water testing kits will continue as needed.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities.

Community Health (MDCH)

Provided lead health impact information requested to planning section for presidential letter.

Tasked CHECC with coordinating with Sue Kangas and Farrah Hanley to track financial expenditures.

CHECC is working to ensure that contact lists are current in the MI-Volunteer Registry, should volunteers from the registry be needed. Tracking responses from MI-Volunteer Registry query.

Received confirmation from MDHHS Environmental Health regarding NSF certification requirement for filtering lead from water.

CHECC is coordinating with HHS to obtain EMPower data regarding medically dependent individuals in Flint.

Requested that the CHECC contact Lowes regarding the ability to purchase Brita faucet filters.

Confirmed that +100,000 sq. ft. is available in Lansing through MDHHS MOU with private sector partner. On standby if these resources are necessary.

"Enhanced Lead Testing Guidelines Recommended for Children in Flint, MI," developed by Dr. Wells, was sent to healthcare providers via Medscape - WebMD at 0700 today.

Community Health Emergency Coordination Center (CHECC) is activated at a Level 2 - Partial Activation, consisting of BETP leadership staff and CHECC Section Chiefs.

Corrections (MDOC)

The MDOC continues to monitor the situation and our staff as well as our clients in the community. Water will remain available at the office for both staff and clients to use whil at the Parole and Probation offices in the area. EM staff from the MDOC will contiue to monitor MiCIMS and attend briefings. We remain available to assist in addressing this situation.

Education (MDE)

MDE is distributing nutrition guidelines for "Help Fight Lead Poisoning with a Healthy Diet" handout. Additional MDE staff trained for SEOC. (1/11)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Kyle Guerrant, Deputy Superintendent, was on-site at the SEOC; January 10, 0915-1425.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities:
- Delivery of 6101 water test kits to GCCARD
- Verification of NSF/ANSI 53 certified filters for future ordering
- Arranged for DEQ staff deployment to supervise volunteers assembling water kits at GCCARD
- Arranged for DEQ staff deployment as a field observer to assist in tracking water kit supplies and samples
- Established additional vendors for supply of water test bottles

Human Services (MDHS)

Participated in AM & PM State Agency briefings,

Updated resource requests.
Confirmed delivery to GCCARD versus Home Depot to complete the delivery of 2000 filters, 18,400 replacement cartridges.
Arranged for DTMB to pick up around 700 (23) cup pitchers from schools surplus. Plan is to split these up between the FDs.
Made contact with Menards to identify filters and replacement cartridges and relayed that information to DTMB for procuring options.
Had conference call with MDHHS finance. They have concerns of the accountability of our purchases and who's driving the ordering. I explained the urgency and the process. They understand now and said carry on.
Identified 16 MDHHS staff volunteers who will be assisting in the door to door distribution operation for Wednesday, Thursday, and Friday.
16 local MDHHS staff participated in the mission of the Water Resource Teams today.
CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

LARA Excutive Staff met and was updated on the situation in Flint. This will be a weekly meeting.

Spoke with the Flint Superintendent of Schools, Mr. Tawwab regarding the faucet pilot program. He has approved us to move forward with this program.

Joe Madziar, LARA's Plumbing Division Chief, has provided a material list for Freeman Elementary. The list was provided to DTMB for procurement. We are awaiting an ETA from DTMB on the materials.

We are working with Tony Sitko, building manager for Flint, to coordinate a schedule for the Plumbing Division to be able to get into the school to complete the work.

I am communicating with the DEQ to schedule re-testing for Freeman Elementary pilot project.

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

Natural Resources (MDNR)

January 8, 2016
MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.
Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is:

Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concern about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

State Police (MSP)

Lt. Pummill, local EOC, has requested 3 additional box trucks for neighborhood delivery. Request has been sent to logistics, Request # SEOC - 1378446.

Resource request received for 4 additional MSP personnel to assist with distribution on Wednesday 1/13/16. Request has been forwarded to Lt. Pummill at the Local EOC. Staff has been identified and the personnel list has been provided to Recovery.

Task assignment has been submitted to Logistics to determine how many 5 person distribution teams can be supported on Thursday and Friday. Support would need to include filters, replacement filters, water, test kits, pamphlets, and trucks to transport.

MSP is in the process of identifying available staff to support this effort with the plan to staff up to the level that can be supported by logistics.

A request has been submitted to SEOC Logistics, DTMB, for approximately 20 smart devices that are network enabled that we can install the GIS application onto so that they activity can be tracked real time. These devices do not need to be connected to the state network.

Technology, Management and Budget (MDTMB)

DTMB Mail Services provided three additional drivers and trucks to assist with door-to-door supplies, this is in addition to the four drivers and trucks already working in the city. Also picked up additional water test kits in Lansing and delivered to Flint this afternoon to ensure kits were available at the distribution sites.

DTMB Real Estate assisted in procuring 100,000 feet of warehouse space and writing the rental agreement.
Procurement office acquired additional water filters and refill cartridges that will be delivered on Thursday to the warehouse for distribution.

Twelve trucks of water will be delivered tomorrow and water filters and replacement cartridges will be delivered on Thursday.

Working on resource request to acquire 20 tablets to send out with MSP personnel to help record supplies being delivered in the field.

Subject: A few thoughts...

I have been thinking of the success path to the Flint water event and wanted to provide the following for your consideration.

1. When the Flint water system was built using lead lines and solder, residents were exposed to and impacted by lead leached into drinking water.
2. At some point, scale was built on the insides of pipes and fixtures, effectively reducing lead leaching to levels established by the USEPA..
3. When the water source was changed to the Flint treated water in 2014, scale was gradually removed, again exposing Flint water users to lead leaching.
4. At some point, scale will be rebuilt inside of pipes and fixtures, effectively reducing lead leaching to levels established by the USEPA.

I informally discussed MDEQ, but I doubt they will be able to provide an answer. I also doubt USEPA will be willing to address until testing proves the system OK.

Subject: MSP Resource Request - Flint Water Response Teams

Capt. Kapp,

Per our discussion, the SEOC has requested MSP FSB coordinate and manage the Flint Water Response Teams for the City of Flint-Water Contamination / Shortage incident. The POC at the EOC is Ms. Michelle Kuzera, she will be able to assist with any questions or concerns. MSP FSB will be responsible for the following:

- Establish a Water Response Team Commander for all team operations.
- Coordinate and manage Water Response Team structure.
- Coordinate and manage Water Response Team resources.
- Coordinate walking routes with concentration in the most hazardous lead level areas.
- Coordinate logistics for Water Response Teams.
- Coordinate iPad distribution and tracking.
- Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
- Coordinate and manage team security with MSP and County personnel.
- Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
- Coordinate with Sheriff's department resources.
- Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
- Provide a daily report of all activities to include best practices and issues or concerns.
- Attend the 9:30 am and 4:30 pm SEOC briefings via conference call as well as any other conference calls necessary to complete the above mission.

In addition to the above Water Response Team objectives MSP FSB is still responsible for all previously assigned tasks and functions.

Please feel free to contact me if you have any questions regarding this assignment. Please forward the contact information of the commander you have identified for this mission as well as a schedule for staffing this position once it has been assigned and established.

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

Effective Coordination of Recovery Resources

The State of Michigan has identified and planned for various natural, technological and man-made hazards that have, and will continue to impacts its residents. Given the scope, severity and magnitude of any of these hazards, the impacted local jurisdictions and the State may or may not have adequate resources and capabilities to efficiently and effectively respond to, mitigate, and recover. A critical component to building local and state capacities is to develop a framework and strategy for government and non-government entities at all levels to identify and coordinate the resources necessary to support sustainable recovery solutions at the State, Tribal, and local levels.

Subsequent to a Stafford Act declaration, the State and Federal government coordinate available resources to assist individuals and communities recover from the disaster. Although resources made available through specific Stafford Act authorities would not be provided in a non-Stafford Act event, many resources are available to States, Tribes, and local governments that can be used to support the recovery of the City of Flint.

State agencies may have existing programs or grants that in many instances can be *re-prioritized* to meet identified recovery needs and goals. Following are several Federal agency grant programs that may be appropriate for further analysis as to this ability.

I. U.S. Department of Housing and Urban Development (HUD)

Community Development Block Grant (CDBG) Entitlement Fund. Awards flow from HUD to major urban areas (Entitlement Communities) and States. These funds are then allocated to approved projects or communities according to priorities or State formulas. Following a disaster, States and Entitlement Communities can shift funding priorities for unused funds, and approve projects that support individual and community recovery needs. All approved projects must meet certain criteria and address specific program goals; however, CDBG funds are flexible and can be used to meet a variety of needs.

This program provides annual grants on a formula basis to entitled cities and counties to develop viable urban communities by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for low- and moderate-income persons. Over a 1, 2, or 3-year period, as selected by the grantee, not less than 70 percent of CDBG Entitlement Program funds must be used for activities that benefit low- and moderate-income persons. In addition, each activity must meet one of the following national objectives for the program: benefit low- and moderate-income persons; prevention or elimination of slums or blight; or address community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community for which other funding is not available. CDBG funds may be used for activities which include, but are not limited to:

- Acquisition of real property
- Relocation and demolition
- Rehabilitation of residential and non-residential structures
- Construction of public facilities and improvements, such as water and sewer facilities, streets, neighborhood centers, and the conversion of school buildings for eligible purposes
- Public services, within certain limits
- Activities relating to energy conservation and renewable energy resources
- Provision of assistance to profit-motivated businesses to carry out economic development and job creation/retention activities

CDBG Entitlement Fund Expenditure totals:

2013 Flint	$ 4,371,483.60
2013 State of Michigan	$19,650,738.15
2012 Flint	$ 3,116,646.19
2012 State of Michigan	$25,341,157.66
2011 Flint	$ 3,456,222.17
2011 State of Michigan	$49,473,543.80

The identified agency for the administration of these funds is the Michigan Department of Environmental Quality (MDEQ). Recent CDBG Entitlement Fund allocations for the State of Michigan and City of Flint are reflected below.

HUD HOME Investments Partnerships Program

Provides formula grants to states and localities that communities use - often in partnership with local nonprofit groups - to fund a wide range of activities including building, buying, and/or rehabilitating affordable housing for rent or homeownership or providing direct rental assistance to low-income people. It is the largest Federal block grant to state and local governments designed exclusively to create affordable housing for low-income households. The program was designed to reinforce several important values and principles of community development:

- HOME's flexibility empowers people and communities to design and implement strategies tailored to their own needs and priorities
- HOME's emphasis on consolidated planning expands and strengthens partnerships among all levels of government and the private sector in the development of affordable housing
- HOME's technical assistance activities and set-aside for qualified community-based nonprofit housing groups builds the capacity of these partners
- HOME's requirement that Participating Jurisdictions (PJs) match 25 cents of every dollar in program funds mobilizes community resources in support of affordable housing

Participating jurisdictions may choose among a broad range of eligible activities, using HOME funds to provide home purchase or rehabilitation financing assistance to eligible homeowners and new homebuyers; build or rehabilitate housing for rent or ownership; or for "other reasonable and necessary expenses related to the development of non-luxury housing," including site acquisition or improvement, demolition of dilapidated housing to make way for HOME-assisted development, and payment of relocation expenses.

2015

Flint	$$666,059.00
Genesse County	$617,869.00
State of Michigan	$11,332,375.00

2014

Flint	$745,525.00
Genesse County	$ 627,811.00
State of Michigan	$12,767,518.00

2013

Flint	$725,741.00
Genesse County	$610,923,00

US Environmental Protection Agency (EPA)

Clean Water State Revolving Fund (CWSRF) provides funding under the Clean Water Act for the construction of municipal wastewater facilities and related infrastructure, and implementation of nonpoint source pollution control and estuary protection projects. Listed are recent State of Michigan awards:

2015 Dept. of Environmental Quality	$59,978,000
2014 Dept. of Environmental Quality	$60,287,000
2013 Dept. of Environmental Quality	$57,406,000
2012 Dept. of Environmental Quality	$27,263,000

Drinking Water State Revolving Fund (DWSRF) provides funding to assist public water systems to finance the costs of infrastructure needed to achieve compliance with SWDA requirements and to fund other activities to meet the public health objectives of the Act. Listed are recent State of Michigan awards:

2014 Dept. of Environmental Quality	$27,530,000
2013 Dept. of Environmental Quality	$25,579,000
2012 Dept. of Environmental Quality	$27,263,000
2011 Dept. of Environmental Quality	$28,608,000
2010 Dept. of Environmental Quality	$41,226,000

US Department of Treasury

Hardest Hit Funds Program - In 2010, the State of Michigan received $498.6 million federal dollars under the Troubled Asset Relief Program's Hardest Hit Fund to implement foreclosure prevention initiatives. This program was established to provide targeted aid to families in states hit hard by the economic and housing market downturn. It consists of three programs (Unemployment Mortgage Subsidy Program; Loan Rescue Program; Modification Plan Program) designed to provide financial support to homeowners meet their home loan obligations. The Michigan Homeowner Assistance Nonprofit Corporation (MHA) was created by the Michigan State Housing Development Authority (MSHDA) to oversee the distribution of the Hardest Hit Funds in Michigan, under the "Step Forward Michigan" name.

City of Flint Total award is $34.15 million since 2013.

White House - Strong Cities, Strong Communities (SC2) HUD, SBA, DOT, DOC, DOL

The City of Flint was one of six cities selected in of 2014 in the second round of the SC2 White House initiative, which is targeted initiative to strengthen local capacity and spark economic growth in local communities, while ensuring taxpayer dollars are used wisely and efficiently. To accomplish this, federal agencies provide experienced staff to work directly with local governments, the private sector, and other institutions to leverage federal dollars and support the work being done at the local level. T It focuses on three areas: economic development, blighted properties and public safety. The "Imagine Flint Master Plan," which provides a road map for the City's recovery, was instrumental in Flint receiving this designation.

Participating Federal agencies include representatives from the Department of Housing and Urban Development, Department of Transportation, Environmental Protection Agency, Department of Commerce, Department of Energy, U.S. Attorney's Office, Federal Bureau of Investigation, Bureau of

Alcohol, Tobacco and Firearms, and Drug Enforcement Agency. This initiative should be leveraged to take advantage of established local, state and Federal agency relationships as it relates to coordination of available Federal resources to address identified recovery priorities in this incident.

These programs are offered only as a recommendation to conduct internal dialogue to determine the possible availability of these funding sources to address the recovery priorities identified by the State and local jurisdiction.

In a non-declared event the Federal presence, if warranted, is typically limited to technical assistance following non-Stafford Act events; however, Federal agencies may have existing authorities, programs and resources that could be requested to address recovery priorities.
In the context of this event, which primarily involves public health impacts and infrastructure degradation, there are a number of Federal agencies such as US Health and Human Services, Environmental Protection Agency and Army Corps of Engineers that do maintain programs, authorities and/or technical expertise that could directly support the needs of impacted communities outside Stafford Act declaration.

Additionally, the State may also request the support of a Federal Disaster Recovery Coordinator or recovery advisor/liaison to provide technical assistance. When deployed or engaged, they can support the State by providing relevant subject matter expertise, and facilitating enhanced coordination between Federal agencies and State recovery leadership.

Subject:	Review of Draft Presidential Declaration Request
Attachments:	Declaration Request Cover Letter Template-1 Flint Water 2016 Emergency D....docx; FEMA Form 010-0-13 Presidential Declaration Request Flint Water 2016-01-....pdf

Attached for review and approval by your agency are two documents: 1) the letter to President Obama and 2) an associated FEMA request form. Both are based on information provided state agencies. Please review for content before they are sent to the Governor's office for final review and editing. This has been promised to the Governor by early afternoon, so please review as quickly as possible, but no later than by 1:30 PM.

Please let me know if you have any questions by calling my cell at 517-242-5371.

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION
COVER LETTER
MAJOR DISASTER OR EMERGENCY

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Section [Major Disaster citation (401), Emergency citation (501)]of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207] (Stafford Act), and implemented by 44 CFR §, Emergency citation (206.35)], I request that you declare an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint which was demonstrated in October, 2015.

Impact and Trauma

As a result of the cooperative monitoring efforts in place by the City, State and Environmental Protection Agency (EPA), and the painstaking work of doctors at Hurly medical center, elevated blood lead levels (EBLLs) were discovered, and the County issued a do not drink order on October 1, 2015. As of the most recent update 2,182 Flint residents have been tested for lead levels and 43 residents have exhibited elevated blood lead levels. Of those, 23 were children under the age of six, the most likely age group to be impacted long term. One child was hospitalized, treated, and released. No deaths have been associated with this emergency.

The situation becomes more complex as the Michigan Department of Health and Human Services has observed a spike in the Flint area of Legionella which also occurred in roughly the same time frame. This too will be investigated for any potential link to the water system. While unlikely to be related to the water system, this new problem adds to the negative psychological impacts on mental health that have become extensive.

Additionally, the economic and psychological impact this has had on the community is severe. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the populace. Mistrust in government is at a heightened level, and so, while water is safe for non-consumptive uses, people are understandably concerned. Special populations are especially vulnerable in this crisis as they are often unable to access available vital nutrition or water resources. Assistance with the Individuals and Households Program will be vital to recovery.

With the extent of time between the inception of Flint River water until the return to Detroit Water and Sewerage Department and re-treatment of the mains and pipes by the City, it is impossible to know the extent of those individuals who suffered the effects of EBLL. The duration of an EBLL can vary significantly depending on season, diet and other factors. The detection of substantial increases in EBLLs suggests a much higher rate over the duration of the emergency is likely.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate. The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management. On January 13, 2016, with the establishment of the (Volunteer Reception Center (VRC), the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) is conducting a conference call to determine how it can more fully activate (several member organizations have already activated). Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

A State of Emergency was declared on January 5, 2016 for the County of Genesee and City of Flint. Pursuant to Michigan's Public Act 390, both the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2015, respectively.

The effect of this emergency has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities. And it even includes all pets and other domestic animals living in the city.

The City of Flint has estimated the cost of replacing corroded infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization estimates of $25 per linear foot to remove and replace damaged private service lines. Both Individual Assistance – IHP, and Public Assistance – Category B, will be crucial to helping the city and her residents recover. The State has also invested over $10 million so far in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

Recognizing their responsibility to make their community as disaster-resilient as possible, be advised that all affected jurisdictions that are the subject of this request have in place a current, federally/FEMA approved, Disaster Mitigation Act of 2000-compliant Hazard Mitigation Plan. The plan was adopted January 26, 2015, and under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included in Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has also made a strong commitment to mitigate hazards and has met applicable federal standards: the Michigan Hazard Mitigation Plan was approved by FEMA on April 23, 2014 as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information is furnished on the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households.

EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – GIS Unit

On Friday, January 8, 2016 GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present needs significant updating before an accurate picture can be created.

DPW estimated that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, we have noted that newer sections of the city (post 1950) tend to be copper piping and do not have a prevalence of lead. In contrast, the older areas of the city tend to have sparse concentrations of lead, but often the records for these areas are incomplete.

In order to effectively determine where the affected area is EMHSD is working with DPW and the University of Michigan – Flint to digitize many of DPW's old analog maps to extract the pipe status. Even when this initiative is complete, it will remain unclear if the data will prove to be very accurate as the source data is considerably out of date. With the comprehensive water testing plan that the DEQ is implementing, problem areas for the city will be identified so that manual inspections of the underground pipes can be done to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services – Health (MDHHS – H)

MDHHS-H is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. The unique aspect is the potential additional impact to the department's work due to the water emergency.

The MDHHS continues to work closely with local partners to ensure that impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). Including working closely with the local primary care provider community and WIC clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The department updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October, community outreach was initiated for distribution of educational materials for parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready to Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

MDHHS-H has generated the potential expected impact of this emergency on future health costs. They include as much as $12,000,000 in secondary prevention – education; $1,575,000 in secondary and tertiary prevention – nutrition; Direct medical health costs are estimated at $18,280,849 with $120,875,000 in secondary and tertiary medical expenses;

Department of Talent and Economic Development (MTED)

MTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

Our combined efforts are focused on short and long-term assistance to the Townships of Mt. Morris, Flint, and Genesee; the Cities of Flint and Burton; and Genesee County through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources, MTED has assessed potential impacts to the economy of Flint resulting from the water crisis. We developed the attached analysis that looked at 4 potential long term costs associated with certain blood lead levels, which are:

- Lifetime earnings loss total
- Lead Health Care Treatment Costs
- ADHD Treatment Costs
- Special Education Costs

With input from the Department of Treasury, MDTED assessed that the most significant immediate negative impact will be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters will leave the city). Residents and businesses will also have to pay extra for bottled water, so the extra spending on water will take away from other spending. It is relatively easy for residents to move some of their economic/spending activity outside the city, so the Flint economy will be hurt. These impacts will create an economic downturn in Flint. In terms of personal income losses, a three to four percent loss in nominal personal income in the City of Flint seems a reasonable estimate, which would equal a negative impact of $85 million to $115 million per year in lost economic activity. Long-term, there will be the significant cost of a new water system. Direct health related costs, estimated by MDHHS, are in addition to this estimate.

Department of Environmental Quality (MDEQ)

On October 1, 2015 the State Chief Medical Officer confirms Hurley Children's Hospital blood lead level data. On this same date the Genesee County Health Department issued the customers of the Flint Water Treatment Plant a "Do Not Drink" advisory. On October 2, the state announces the Governor's Flint action plan. On October 15, 2015 the state legislature authorizes $9.35 million to help fund the City's return to purchasing treated water from the DWSD, and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services.

On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karegnondi Water Authority is scheduled to be completed in mid to late 2016.

MDEQ estimates cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Health and Human Services – Human Services (MDHHS- HS)

MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods. MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card and can utilize the double up food bucks but it still requires additional healthy fruits and vegetables. Some residents who have the elevated blood levels may not have a Bridge Card and purchasing fresh fruits and vegetables is a burden due to higher costs.

In some homes the plumbing is very poor; as a result the faucet filters may not fit. The cost of paying for city water that the residents can't use is astronomical. As a scenario, residents have to make a choice to *buy food, or pay for water to flush toilets, bathe, wash clothes etc.* A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of 4 with leaks etc. it could be about $150 or more per month.

Additional ongoing testing will be required for those with EBLs - treatment long-term, tutoring, behavior specialists, and mental health services are all long-term effects.

The state and city's poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially:
  - 2012: 31.8% - 2006: 25.4%
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 9.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP)
  - 2013: 47% - 2006: 35.4%
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data" shows the numbers of recipients of programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP)	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Agriculture and Rural Development (MDARD)

Part of MDARD's coordinated outreach includes contact with businesses, particularly food related businesses, to evaluate the safety of the water they use in their products.

Water safety also impacts animals. As a precautionary measure, MDARD included pets, service animals, and other domestic animals in their messages to families about water. They also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). In both cases we are identify higher priorities. All of those received a letter in October with guidance; all of them will receive revised guidance as soon as it is approved. There are 97 gas stations within the city which are within those food license numbers, but we are planning additional outreach to them as part of our efforts. MDARD will be working with on potential next steps with the Flint Farmers' Market.

No animal shelters exist in the water service area that we are aware of. The primary focus is and should be on residences where they also have pets. There are two vet clinics in the City, and we were making individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

MDARD has been in close coordination with DEQ, DHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Insurance and Financial Services (DIFS)

DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer.

The losses experienced in Flint would not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the Department of Environmental Quality of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges, 7 trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water - 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014.

The State, in addition to Stafford Act assistance from DR-4195, has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau successfully responded to the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit proper to continue rebuilds and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG) in cooperation with the Urban Studies Center at Wayne State University estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is nearly double the county's. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially of lead, which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5 year average a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Public and Individual Assistance

The relevant category under PA is B, Emergency Protective Measures.

In the October to December time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures are require approximately $9.55 million to keep Flint on Detroit water until Karagnondi is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, there is an estimated need of approximately $53,000,000 to help individuals eliminate damaged lead service lines on their properties.

The City's water system was damaged by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source decomposed and underlying lead pipes and lead solders began to leach into the water. Ultimately, this lead to the significant EBL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The map attached as Figure 2, shows pipe composition in the northwest part of the city (the newest), so the percentage would be lower here than in older parts of the city. The University of Michigan – Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance with Section 401 of the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that emergency federal relief assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies who's resources and expertise can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

OMB No. 1660-0009/FEMA Form 010-0-13

DEPARTMENT OF HOMELAND SECURITY
FEDERAL EMERGENCY MANAGEMENT AGENCY

OMB No. 1660-0009 Expires March 31,2016

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1. Request Date Jan 14, 2016

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). **NOTE: Do not send your completed form to this address.**

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R., §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).
Michigan	9,883,640

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A. Kelenske Office: 517-333-5042 Cell:

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office: 517-336-2686 Cell:

6. Declaration Request For: ☐ Major Disaster (Stafford Act Sec. 401) ☒ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date _____ End Date _____ or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g., United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide

☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must Include Enclosure D: Historic and Current Snowfall Data) ☐ Straight-Line Winds

☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm

☒ *Other (please specify)* Public Health

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

In early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer. Based on the 2010 U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children in under 6 are high-risk stage of growth for lead exposure. Approximately 2,182 residents have been tested for lead blood levels as a result of this incident with 43 exhibiting EBL. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

10. Joint Preliminary Damage Assessment*

☐ Individual Assistance Dates Performed **Requested** _____ **Start** _____ **End** _____

Individual Assistance Accessibility Problems (Areas that could not be accessed, and why)
N/A

☐ Public Assistance Dates Performed **Requested** _____ **Start** _____ **End** _____

Public Assistance Accessibility Problems (Areas that could not be accessed, and why)
N/A

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☒ Individuals and Households Program ☐ Crisis Counseling Program ☐ Disaster Unemployment Assistance

☐ All ☐ Disaster Case Management ☐ Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation).

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton; County of Genesee
We request all available programs. The Individual and Households Program will be needed to assist residents/water service customers with an estimated $53,000,000 to repair damaged lead service lines on private property.

For States, identify Federally-recognized Tribes in the requested counties (if applicable).
N/A

Please see **Enclosure A: Supplemental Information for Individual Assistance** for additional information in support of this request*.

**Not Required for Emergency Declaration Request*

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☐ Debris Removal (Category A) ☒ Emergency Protective Measures (Category B) ☐ Permanent Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation.

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton; County of Genesee
We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs in the range of $41,000,000.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable).

N/A

Please see **Enclosure B: Supplemental Information for Public Assistance** for additional information in support of this request*.

Indemnification for Debris Removal Activity

☒ I do not anticipate the need for debris removal.

☐ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance:
Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.
State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement ; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

Please see **Enclosure D: Historic and Current Snowfall Data** for additional information in support of this request*.

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* ☐ Statewide OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.
N/A

12. Mitigation Plan Information*

a. Mitigation Plan Expiration Date April 23, 2019 b. Type of Plan ☐ Enhanced ☒ Standard

13. Other Federal Agency Programs

☐ I do not anticipate requirements from Other Federal Agencies ☒ I do anticipate requirements from Other Federal Agencies

Please see **Enclosure C:** Requirements for Other Federal Agency Programs for additional information in support of this request*.

14. Findings and Certifications

☒ I certify the following:

a. I have determined that this incident is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on Jan 5, 2016 in accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.

15. List of Enclosures and Supporting Documentation

☒ Cover Letter ☐ Enclosure A (Individual Assistance)* ☐ Enclosure B (Public Assistance)*

☐ Enclosure C (Requirements for Other Federal Agency Programs) ☐ Enclosure D (Historic and Current Snowfall Data)

☐ Additional Supporting Documentation _____

Governor's or Tribal Chief Executive's Signature

Jan 14, 2016
Date

If anyone except the Governor or Tribal Chief Executive signs this document, please provide the documentation that establishes that this individual has the legal authority to act on behalf of the Governor or Tribal Chief Executive.

- **Michigan:** Full Activation *(Water Emergency)*
- **Minnesota:** Normal Operations
- **Ohio:** Normal Operations
- **Wisconsin:** Normal Operations

NATIONAL TERRORISM ADVISORY SYSTEM (DHS): Bulletin *(12/16/2015 – 06/16/2016)*

NOTEWORTHY EVENTS: Nothing significant to report

SIGNIFICANT WEATHER (NWS):

- **Tonight:** A of low pressure moving across the Midwest will bring a mix of snow, freezing rain and rain to the Great Lakes region, primarily over portions of Minnesota, Wisconsin, Michigan and southern Illinois.
  - Winter Weather Advisories are in effect across northwestern Minnesota and northwestern Wisconsin until noon tomorrow, and western Upper Michigan until tomorrow evening. Snow accumulations from 3 to 6 inches and wind gusts up to 30 MPH are expected; motorists should use caution due to slick road conditions and poor visibility at times.

- **Extended Outlook:** No severe weather or significant precipitation is forecast for tomorrow. On Saturday night, arctic air will make a comeback, with very cold weather expected to last into Tuesday. Bitterly cold wind chills, as low as 25 below zero, are expected both Sunday and Monday mornings, staying well below zero even during the day.

HYDROLOGIC CONDITIONS (AHPS): Flood Warnings and Flood Advisories remain in effect in Illinois, Indiana, Wisconsin, and Michigan due to recent flooding and possible ice jam flooding. Currently, all gauges are receding and none are at Major Flood Stage; no additional flooding is expected.

FIRE CONDITIONS (SPC): Nothing significant to report

REGION V DISASTER SUMMARY:

- **PDA Requests:** None
- **Declaration Requests:** None
- **Disaster Declarations:** None

Respectfully,

William M. Pillai

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION
COVER LETTER
MAJOR DISASTER OR EMERGENCY

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River in 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it can't be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate. The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate. Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – *Health Division*

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified

allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, MTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water in May 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help

address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The primary focus is and should be on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school. Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating replacement costs which could be as much as $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges, 7 trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water - 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuilds and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, there could be an estimated need as much as $53,000,000 to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan--Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief

assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

OMB No. 1660-0009/FEMA Form 010-0-13

DEPARTMENT OF HOMELAND SECURITY
FEDERAL EMERGENCY MANAGEMENT AGENCY

OMB No. 1660-0009 Expires March 31,2016

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1. Request Date Jan 14, 2016

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). **NOTE: Do not send your completed form to this address.**

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R.. §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).
Michigan	9,883,640

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A. Kelenske Office: 517-333-5042 Cell:

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office: 517-336-2686 Cell:

6. Declaration Request For: ☒ Major Disaster (Stafford Act Sec. 401) ☐ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date _____ End Date _____ or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g., United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide

☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must Include Enclosure D: Historic and Current Snowfall Data) ☐ Straight-Line Winds

☐ Tidal Wave ☐ Tornado ☐ Tropical *Depression* ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm

☒ Other (please specify) Public Health

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

In early May 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Executive. Based on current U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under 6 are high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting EBL. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

☐ Public Assistance Dates Performed **Requested** _____ **Start** _____ **End** _____

Public Assistance Accessibility Problems (Areas that could not be accessed, and why)
Expedited Major Disaster Declaration Request

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☒ Individuals and Households Program ☒ Crisis Counseling Program ☒ Disaster Unemployment Assistance

☒ All ☒ Disaster Case Management ☒ Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation).

Townships of Flint, Genesee and Mt. Morris; Cities of Burton and Flint; County of Genesee

We request all available programs. The Individual Assistance programs will be needed to assist residents/water service customers with an estimated cost as much as $54,619,500 to repair damaged lead service lines on private property. The damage estimate is based on damage assessments conducted by the City of Flint with the Genesee County Equalization Department.

For States, identify Federally-recognized Tribes in the requested counties (if applicable).
N/A

Please see **Enclosure A: Supplemental Information for Individual Assistance** for additional information in support of this request*.

**Not Required for Emergency Declaration Request*

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☒ Debris Removal (Category A) ☒ Emergency Protective Measures (Category B) ☒ Permanent Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation.

Townships of Flint, Genesee and Mt. Morris; Cities of Burton and Flint; County of Genesee

We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs which could be in the range of $41,000,000. The need is estimated for 90 days for water distribution ($10,335,808) and 1 year for the balance for filters, cartridges, and water test kits. Damage assessments conducted by the City of Flint with the Genesee County Equalization Department concluded that the total potential damages to the City of Flint water distribution infrastructure is estimated at $712,800,000.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable).

N/A

Please see **Enclosure B: Supplemental Information for Public Assistance** for additional information in support of this request*.

Indemnification for Debris Removal Activity

☒ I do not anticipate the need for debris removal.

☐ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance:

Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.

State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement ; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

N/A

Please see **Enclosure D: Historic and Current Snowfall Data** for additional information in support of this request*.

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* ☒ Statewide OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.

12. Mitigation Plan Information*

a. Mitigation Plan Expiration Date April 23, 2019 b. Type of Plan ☐ Enhanced ☒ Standard

13. Other Federal Agency Programs

☐ I do not anticipate requirements from Other Federal Agencies ☒ I do anticipate requirements from Other Federal Agencies

Please see **Enclosure C:** Requirements for Other Federal Agency Programs for additional information in support of this request*.

14. Findings and Certifications

☒ I certify the following:

a. I have determined that this incident is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on Jan 5, 2016 in accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.

15. List of Enclosures and Supporting Documentation

☒ Cover Letter ☐ Enclosure A (Individual Assistance)* ☐ Enclosure B (Public Assistance)*

☐ Enclosure C (Requirements for Other Federal Agency Programs) ☐ Enclosure D (Historic and Current Snowfall Data)

☐ Additional Supporting Documentation _____

Governor's or Tribal Chief Executive's Signature

Jan 14, 2016
Date

If anyone except the Governor or Tribal Chief Executive signs this document, please provide the documentation that establishes that this individual has the legal authority to act on behalf of the Governor or Tribal Chief Executive.

Not Required for Emergency Declaration Request

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION
COVER LETTER
MAJOR DISASTER OR EMERGENCY

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River in 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it can't be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate. The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate. Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance ~~—IHP~~, and Public Assistance ~~—Category B~~, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified

allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, MTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water in May 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help

address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The primary focus is and should be on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school. Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating the cost for replacement at $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges, 7 trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water - 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuilds and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, there is an estimated need of approximately $53,000,000 to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief

assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

OMB No. 1660-0009/FEMA Form 010-0-13

Gov. Rick Snyder seeks presidential emergency and major disaster declaration to help Flint residents

LANSING, Mich. – Gov. Rick Snyder today requested President Obama to declare [redacted] an emergency and [redacted] major disaster for Genesee County as a result of ongoing emergency water response efforts in the city of Flint.

Snyder requested supplementary federal aid in the form of Individual Assistance and Public Assistance to help eligible residents and state and local government entities to protect the health, safety and welfare of Flint residents.

If federal aid is granted, assistance can include grants for temporary housing and home repairs, low-cost loans to cover uninsured property losses and other programs to help people and businesses recover. Public assistance helps cover some of the costs incurred by state and local governments due to damage to public facilities and infrastructures, such as city schools and [redacted] water system.

"We are utilizing all state resources to ensure Flint residents have access to clean and safe drinking water and today I am asking President Obama to provide additional resources as our recovery efforts continue," Snyder said.

Snyder's request will be reviewed by the Federal Emergency Management Agency, which will advise President Obama whether an emergency and major disaster declaration should be granted. Ultimately, the president will determine whether to provide federal assistance.

Snyder declared a state of emergency on Jan. 5 for Genesee County, following the county's local emergency declaration on Jan. 4. The declaration makes available all state resources in cooperation with local response and recovery efforts in Genesee County as outlined in the Michigan Emergency Management Plan.

In addition, Snyder requested support from FEMA on Tuesday to help coordinate an interagency recovery plan with other federal agencies to provide resources to Flint. Snyder also activated the Michigan National Guard to assist with distributing supplies at five water resource sites established in Flint.

For more information on emergency efforts in Flint, visit www.michigan.gov/flintwater.

DEPARTMENT OF HOMELAND SECURITY
FEDERAL EMERGENCY MANAGEMENT AGENCY

OMB No. 1660-0009 Expires March 31,2016

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1. Request Date Jan 14, 2016

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). **NOTE: Do not send your completed form to this address.**

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R.. §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.	2b. *Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).*
Michigan	9,883,640

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A. Kelenske Office: 517-333-5042 Cell:

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office: 517-336-2686 Cell:

6. Declaration Request For: ☒ Major Disaster (Stafford Act Sec. 401) ☐ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date _____ End Date _____ or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g., United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide

☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must include Enclosure D: Historic and Current Snowfall Data) ☐ Straight-Line Winds

☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm

☒ Other (please specify) Public Health

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

In early May 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Executive. Based on current U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under 6 are high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting EBL. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

10. Joint Preliminary Damage Assessment*

☐ Individual Assistance Dates Performed **Requested** _____ **Start** _____ **End** _____

Individual Assistance Accessibility Problems (Areas that could not be accessed, and why)
Expedited Major Disaster Declaration Request

☐ Public Assistance Dates Performed **Requested** _____ **Start** _____ **End** _____

Public Assistance Accessibility Problems (Areas that could not be accessed, and why)
Expedited Major Disaster Declaration Request

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☒ Individuals and Households Program ☒ Crisis Counseling Program ☒ Disaster Unemployment Assistance

☒ All ☒ Disaster Case Management ☒ Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation).

Townships of Flint, Genesee and Mt. Morris; Cities of Burton and Flint; County of Genesee

We request all available programs. The Individual Assistance programs will be needed to assist residents/water service customers with an estimated $54,619,500 to repair damaged lead service lines on private property. The damage estimate is based on damage assessments conducted by the City of Flint with the Genesee County Equalization Department.

For States, identify Federally-recognized Tribes in the requested counties (if applicable).
N/A

Please see **Enclosure A: Supplemental Information for Individual Assistance** for additional information in support of this request*.

**Not Required for Emergency Declaration Request*

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☒ Debris Removal (Category A) ☒ Emergency Protective Measures (Category B) ☒ Permanent Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation.

Townships of Flint, Genesee and Mt. Morris; Cities of Burton and Flint; County of Genesee

We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs in the range of $41,000,000. The need is estimated for 90 days for water distribution ($10,335,808) and 1 year for the balance for filters, cartridges, and water test kits. Damage assessments conducted by the City of Flint with the Genesee County Equalization Department concluded that the total potential damages to the City of Flint water distribution infrastructure is estimated at $712,800,000.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable).

N/A

Please see **Enclosure B: Supplemental Information for Public Assistance** for additional information in support of this request*.

Indemnification for Debris Removal Activity

☒ I do not anticipate the need for debris removal.

☐ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance:

Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.

State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. *In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance:* (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement ; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

N/A

Please see **Enclosure D: Historic and Current Snowfall Data** for additional information in support of this request*.

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* ☒ Statewide OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.

12. Mitigation Plan Information*

a. Mitigation Plan Expiration Date April 23, 2019 b. Type of Plan ☐ Enhanced ☒ Standard

13. Other Federal Agency Programs

☐ I do not anticipate requirements from Other Federal Agencies ☒ I do anticipate requirements from Other Federal Agencies

Please see **Enclosure C:** Requirements for Other Federal Agency Programs for additional information in support of this request*.

14. Findings and Certifications

☒ I certify the following:

a. I have determined that this incident is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on Jan 5, 2016 in accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.

15. List of Enclosures and Supporting Documentation

☒ Cover Letter ☐ Enclosure A (Individual Assistance)* ☐ Enclosure B (Public Assistance)*

☐ Enclosure C (Requirements for Other Federal Agency Programs) ☐ Enclosure D (Historic and Current Snowfall Data)

☐ Additional Supporting Documentation _____

Governor's or Tribal Chief Executive's Signature

Jan 14, 2016
Date

If anyone except the Governor or Tribal Chief Executive signs this document, please provide the documentation that establishes that this individual has the legal authority to act on behalf of the Governor or Tribal Chief Executive.

Not Required for Emergency Declaration Request

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION
COVER LETTER
MAJOR DISASTER OR EMERGENCY

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River in 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it can't be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate. The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate. Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified

allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, MTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water in May 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help

address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The primary focus is and should be on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school. Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating the cost for replacement at $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges, 7 trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water - 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuilds and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of *Persons Below* Poverty Level*	Median *Household* Income*	Percent *Children* under 5	Percent Elderly*	Percent Disabled*	Percent *Pre-Disaster* Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, there is an estimated need of approximately $53,000,000 to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief

assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1. Request Date Jan 14, 2016

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). **NOTE: Do not send your completed form to this address.**

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 *U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R.. §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet* these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).
Michigan	9,883,640

3. *Governor's or Tribal Chief Executive's Name*	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A. Kelenske Office: 517-333-5042 Cell:

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office: 517-336-2686 Cell:

6. *Declaration Request For:* ☐ *Major Disaster* (Stafford Act Sec. 401) ☒ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date _____ End Date _____ or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g., United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide

☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must include Enclosure D: Historic and Current Snowfall Data) ☐ Straight-Line Winds

☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm

☒ Other (please specify) Public Health

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

In early May 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. *Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint* and confirmed by the State Chief Medical Executive. Based on U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under 6 are in a high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting EBL. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

10. Joint Preliminary Damage Assessment*

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☒ Individuals and Households Program ☐ Crisis Counseling Program ☐ Disaster Unemployment Assistance

☐ All ☐ Disaster Case Management ☐ Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation).

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton; County of Genesee
We request all available programs. The Individual and Households Program will be needed to assist residents/water service customers with an estimated cost as much as $54,619,500 over a period of 1 year to repair damaged lead service lines on private property.

For States, identify Federally-recognized Tribes in the requested counties (if applicable).
N/A

Please see **Enclosure A: Supplemental Information for Individual Assistance** for additional information in support of this request*.

**Not Required for Emergency Declaration Request*

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☐ Debris Removal (Category A) ☒ Emergency Protective Measures (Category B) ☐ Permanent Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation.

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton; County of Genesee
We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs which could be in the range of $41,000,000. The need is estimated for 90 days for water distribution ($10,335,808) and 1 year for the balance for filters, filter cartridges, and water test kits.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable).
N/A

Please see **Enclosure B: Supplemental Information for Public Assistance** for additional information in support of this request*.

Indemnification for Debris Removal Activity

☒ I do not anticipate the need for debris removal.

☐ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance:
Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.
State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement ; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

Subject: 1-15-2016 EMHSD Update

EMHSD UPDATE

Week ending: 1/15/2016

***2016 Division Meetings:**

Feb. 18, 2016 – 1-5 p.m. -TBD
April 14, 2016 – 1-5 p.m. - TBD June 23, 2016 – 1-5 p.m. -TBD
August 25, 2016 – 8-5 p.m. - Training Center

Aug. 25, 2016 – Staff Lunch 11:00 to 1:00 p.m.

Oct. 27, 2016 – 1-5 p.m. – TBD
Dec. 15, 2016 – 1-5 p.m.– TBD

Dec. 15, 2016 – Staff Lunch – 11:00 to 1:00 p.m. - TBD

*Division meetings are mandatory. Please make the necessary schedule adjustments to accommodate them.

Staff Luncheons are not mandatory.

The scheduled monthly switch test (generator check) will occur on the 1st Thursday of the month at noon. Please make sure all of your documents are backed up before noon so that you don't lose any information.

anks to everyone for your continued commitment and hard work ring the current activation. Once again you are offering excellent vice and assuring citizens they can count on us to help in times crisis. Good job everyone, it's very much appreciated.

General Information

VE DATE: The Non Essentials items will be moved on January 22 & 23 and the Big Move e January 29 & 30. Please do not come in either weekend to pack your cubicles, files, or nets unless you have prior approval from Command. The movers need to be able to euver around and we don't want to interfere with their plan of action. Thank you for your ideration!!

nge Crates: Please start packing, labeling, and preparing for the MOVE!!! More metal file ers are on their way.

Employee Appreciation Committee:

STAFF BULLETIN BOARD

- There is a staff "Suggestion Box" on the table across from Diane's desk. How about suggesting some EMHSD Team stress relievers??
- If you want to join the water fund, it is $5.00 a month to Pam.
- Coffee club members pay $5.00 a month to Joel Pepper.
- Trevor Hawks is the keeper of the EMHSD calendar. Please send items to him. We're avoiding conflicts and showing people how busy we are.
- The EMHSD INTERNAL PHONE LIST is for Staff Use Only – Please send revisions to OG.
- Remember to use MI HR to update your personal information with the SOM. This includes your address, emergency contact numbers, and beneficiaries. Welcome to

the MI HR Gateway

EMHSD Position Vacancies

If you are interested in any of the vacant positions above, or know a qualified applicant, please encourage them to view the posting on the state of Michigan's "Jobs" website where they can apply.

Subject: Revised Presidential Declaration Request Documents
Attachments: Revised Letter to President - Flint Water 2015-01-14 CLEAR DRAFT REV.DOCX; FEMA Form 010-0-13 Presidential Declaration Request Flint Water Emergency 2016-01-14 REV.pdf; FEMA Form 010-0-13 Presidential Declaration Request Flint Water Disaster 2016-01-14 REV.pdf

Attached are three documents for your use: 1) the revised correspondence requesting a Presidential declarations, 2) the declaration request form for an expedited Presidential disaster declaration for Public Assistance, and 3) the declaration request form for a Presidential emergency declaration.

Please let me know if anything else is needed.

Anthony P. Katarsky
Assistant Division Commander
Michigan State Police
Emergency Management and Homeland Security Division
517-336-2686

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River on April 25, 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it can not be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate. The American Red Cross has established a Disaster Recovery Operation and also is providing

warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate. Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MDTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MDTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, MDTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain

blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water on April 25, 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and

will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The current focus is on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school. Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating replacement costs which could be as much as $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges. Seven trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More of the above resources are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water – 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through *Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.*

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuild efforts and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, there could be an estimated need as much as $53 million to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief

assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction *Project (1660-0009). NOTE: Do not send your completed form to this address.*

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R., §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).
Michigan	9,883,640

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A. Kelenske Office: 517-333-5042 Cell:

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office: 517-336-2686 Cell:

6. Declaration Request For: ☐ Major Disaster (Stafford Act Sec. 401) ☒ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date Apr 25, 2014 End Date _____ or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g., United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide

☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must include Enclosure D: Historic and Current Snowfall Data) ☐ Straight-Line Winds

☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm

☒ Other (please specify) Contamination and Damage to Public Water System

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

On April 25, 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Executive. Based on U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under age 6 are in a high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting elevated blood lead levels. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

☐ *Public Assistance* Dates Performed **Requested** _____ **Start** _____ **End** _____

Public Assistance Accessibility Problems (Areas that could not be accessed, and why)
N/A

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☒ Individuals and Households Program ☐ Crisis Counseling Program ☐ Disaster Unemployment Assistance

☐ All ☐ Disaster Case Management ☐ Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation).

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton; County of Genesee
We request all available programs. The Individual and Households Program will be needed to assist residents/water service customers with an estimated cost as much as $54,619,500 over a period of 1 year to repair damaged lead service lines on private property.

For States, Identify Federally-recognized Tribes in the requested counties (if applicable).
N/A

Please see **Enclosure A: Supplemental Information for Individual Assistance** for additional information in support of this request*.

**Not Required for Emergency Declaration Request*

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☐ Debris Removal (Category A) ☒ Emergency Protective Measures (Category B) ☐ Permanent Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation.

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton; County of Genesee
We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs which could be in the range of $41,000,000. The need is estimated for 90 days for water distribution ($10,335,808) and 1 year for the balance for filters, filter cartridges, and water test kits.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable).
N/A

Please see **Enclosure B: Supplemental Information for Public Assistance** for additional information in support of this request*.

Indemnification for Debris Removal Activity

☒ I do not anticipate the need for debris removal.

☐ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance:
Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.
State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement ; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

Please see **Enclosure D: Historic and Current Snowfall Data** for additional information in support of this request*.

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* ☐ Statewide OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.
N/A

12. Mitigation Plan Information*

a. Mitigation Plan Expiration Date April 23, 2019 b. Type of Plan ☐ Enhanced ☒ Standard

13. Other Federal Agency Programs

☐ I do not anticipate requirements from Other Federal Agencies ☒ I do anticipate requirements from Other Federal Agencies

Please see **Enclosure C:** Requirements for Other Federal Agency Programs for additional information in support of this request*.

14. Findings and Certifications

☒ I certify the following:

a. I have determined that this incident is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on Jan 5, 2016 in accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.

15. List of Enclosures and Supporting Documentation

☒ Cover Letter ☐ Enclosure A (Individual Assistance)* ☐ Enclosure B (Public Assistance)*

☐ Enclosure C (Requirements for Other Federal Agency Programs) ☐ Enclosure D (Historic and Current Snowfall Data)

Water Resource Team: Concept of Operations and Support

Goal: Increase the number of households served per day by the Water Resource Teams through scalable resource optimization

How: Standardize and Support

1. Standardize the team composition and resource requirements
2. Provide end to end support to the Water Resource Teams

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (Vehicles, Members) Product
        ii. Priority: Wards/Precincts
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. *Lunch*
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: MSP
    c. Responsible: MSP Water Resource Commander, American Red Cross OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: MSP Water Resource Commander
    c. Responsible: All Water Resource Teams

Execution:

Team	Assembly Area	Hours of Operation	
MSP	LEOC 1101 Beach St, Flint	0900-1700	
ARC	ARC 1401 S Grand Traverse St, Flint	0730-Dusk	
Warehouse	4315 North Clio Road, Flint	0700-1900	

Critical Task: Assemble, coordinate, and monitor Water Resource Teams (WRT)
Tactics:

1. Assign team leaders, team members, and routes to teams
2. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings
3. Issue boxed lunch if available
4. Issue vest and badge to team members
5. Provide training to new team members
6. Conduct post-deployment debrief with team leaders and members
7. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

MSP WRTs will be issued lunch prior to team departure if available. If not, WRTs will return to LEOC to receive lunch

Reporting:

Tactics:

1. All WRTs will utilize ipads as primary reporting method and paper tracking as seconday method if ipads fail

Target Area Prioritization Map

Key

MSP	Black 1-7
ARC	Blue 1-6

Subject: SEOC Staffing

As I am completing DCDS for the week and reviewing my hours, I would like to share a few thoughts. This is the most politically sensitive significant event as we have had to my recollection, making performance of our roles as stressful as they have ever been. While we have backup in theory, in practice we are entirely on our own. I recommend we request F/Lt Johnson be temporarily assigned to assist in the Deputy SEOC Director role; he has functioned in this capacity in the past. This will allow us to provide relief for both you and me.

- If you are scheduled off, I can fill the director position and have F/Lt Johnson act as deputy.
- If I am scheduled off, F/Lt Johnson can serve as deputy to you.

As an alternative, we could stagger our start times and overlap at mid-day. If a Presidential declaration is issued, things will only become more hectic and stressful. I know we will try to transition out of our current role, but when and how this will occur are unknowns.

I would suggest Jim Porcello in this role, but he is off-limits due to the SEOC project.

Subject: Re: For Action: Water Resource Team Plan for Saturday, 01.16.16_V2.0_FINAL

Chris
This logistics piece looks great.

The leadership to implement at the operational level will be critical for success. As you and I know, there will be glitches and things will need to be addressed.

As the plan indicates, MSP is responsible for the execution. I like that. I think the MSP Command structure in the 3rd District has to have a plan for execution and the appropriate people to carry it out. I am not sure they have the appropriate command structure in place to do that. We have to think more globally from the MSP perspective. This is not just a Flint Post, EMHSD, and Public Affairs Section responsibility.

Suggestions:
-Thorough briefing, debriefings.
-Identify / Assign personnel for each water resource team, identify role within each team. This includes MSP Troopers. Water Resource Teams should be responsible to the trooper (s) assigned. The leadership, command and control I saw from Tpr. Jones is exactly what every team needs to experience out there.
- Monitor the process. If some are moving slow, how do we address that?
- Ability to make decisions / adjustments on the fly. What is moving quickly, what part of the process takes longer and requires reassignment of personnel on the water resource team. Example - Yesterday the distribution of water is what slowed things down. Knowing the numbers, we could better determine how many are assigned to handout filters, replacements and pamphlets. How many are needed in the truck to restock resource team supplies, how many are needed to distribute water. How many are needed to record. (We had 2 I-pads, and 2 using paper to write things down. Glad we had scribes, because the I pads were not working at some point, then later in the day the I pads were dead. These are the small things that need to be discussed in a debrief.
- Develop a follow up process for citizens. Addressing the needs of citizens related to the water crisis that extend beyond handing them a filter. There were a number of elderly residents. We did the best we could. It is my hope that follow up happened. I.e.; elderly female, cannot get out, requesting water.

Think about right to work. We briefed and debriefed every Platoon at the start and end of each shift.

I think EMHSD and the SEOC is doing a fantastic job. I am not criticizing Kish and Dehner, but based on what I saw, they were short staffed with MSP Command and could use some help.

We have a lot of people that want to help. The key to success is:
1. clear communication of the mission
2. Clear understanding of Command and Control
3. Maximizing the personnel at every level and accountability at every level.

As you know, I like to let those who do great work just go to work and stay out of their way. For the most part that is happening. I just offer up some suggestions based upon observations of where the gaps exist from the MSP and where we can make this a more efficient operation.

Based on how things go from here, let me know if you need me to work with Lt. Col. Sands to request additional resources.

If we want to let this play out through the weekend, I suggest that we set up a debrief on Tuesday to see where we are at overall, and what type of assignments we need to make.

Subject: SEOC Update 1/16/16 - Flint Water - Limited Distribution
Attachments: 2015-10-01 City of Flint Water Contamination-Shortage SitRep 11 2016-01-....pdf; Local EOC Bulets 1/16/16

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ had concern about testing kits not being with the teams today; test kits were assembled and available at the ARC HQ. This appears to be a disconnect in communications and will be addressed by Logistics.
- SEOC planning is asking if the 800 MHz radio has the event channel that they could communicate with local EOC on ground truth inventory.
- Information reported to the JIC:
  - As of 1/16/16 as of 7pm (start date was Tuesday, 1/12/16)

    1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

    2. Distributed:
       a. Number of cases of water 20,876
       b. Filters 47,935

c. Filter cartridges 167,401
d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. [illegible] Stat[illegible]s) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams---Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.
- Discovered disconnect in "request" for security at the warehouse overnight. Tonight it is being handled with Genesee County doing drive-bys throughout the night. Continuous security is required 7 PM to 7 AM from this point on. This will be resolved by virtue of a formal request being put in by the Local EOC.

I have also attached an email from Michelle Kuzera. I judged most inappropriate for inclusion in the overall summary.

FEMA Region V Evening Situational Awareness Report
DATE: 1/16/2016

REGION V RESPONSE STATUS:
- **RRCC:** Watch / Steady State
- **IMAT:** Deploying to MI SEOC (with elements of collateral IMAT Alpha)
- **LNO:** Cornelius Miller
  - *Two (2) LNOs are deployed to the Michigan SEOC*

REGION V SEOC STATUS:
- **Illinois:** Partial Activation (*Flooding*)
- **Indiana:** Partial Activation *(Avian Influenza)*
- ***Michigan:*** Full Activation *(Water Emergency)*
- **Minnesota:** Normal Operations
- **Ohio:** Normal Operations
- **Wisconsin:** Normal Operations

NATIONAL TERRORISM ADVISORY SYSTEM (DHS)**:** No active alerts.
- Bulletin (12/16/2015 – 06/16/2016)

NOTEWORTHY EVENTS: Nothing to report

SIGNIFICANT WEATHER (NWS, SPC)**:** An extreme arctic air mass will continue to move into the Region this evening which will result in dangerous wind chills. Wind chill indexes will range between 10 to 40 degrees below zero across affected areas. Wind Chill Advisories remain in effect for northern and northwestern Illinois and most of Minnesota and Wisconsin until Monday afternoon. Wind Chill Warnings are in effect for portions of southern and western Minnesota and northwestern Wisconsin until 1200 CST Sunday.
- **Michigan/Indiana:** Winter Weather Advisories remain in effect until 0900 CST Monday for portions of northern Upper and western Lower Michigan and northern Indiana. Up to 10 inches of snowfall is possible for advised areas in Michigan and up to 6 inches for Indiana. Wind chills as low as 15 degrees below zero are possible. Lake Effect Snow Warnings are in effect for parts of Upper Michigan until 1800 CST Sunday; most significantly, up to 20 inches of lake effect snow is possible for Alger County.
- **Ohio:** A Lake Effect Snow Warning is in effect for northeastern Ohio until 1200 CST Tuesday; up to 12 inches of snowfall is forecast between noon Sunday and noon Tuesday.

HYDROLOGIC CONDITIONS (AHPS)**:** There are 3 river gauges in Moderate Flood stage in the state of Illinois, all gauges continue to recede with no significant impacts reported.

FIRE CONDITIONS (SPC)**:** Nothing to report.

DECLARATIONS:
Michigan – Emergency Declaration

- **FEMA-3375-EM:** Provides emergency assistance for water, water filters, water filter cartridges, water test kits and other necessary related items for a period of no more than 90 days for Genesee County. Additional designations may be made at a later date if requested by the state and warranted by results of further evaluation.

DECLARATION REQUESTS:

Michigan – Major Disaster Declaration Request – Expedited (Under Review)

- On January 14, 2016, the Governor requested an expedited Major Disaster Declaration as a result of contamination and damage to the public water system beginning on April 25, 2014, and continuing
- The Governor is specifically requesting Individual Assistance & Public Assistance for Genesee County and Hazard Mitigation statewide

I have no read on what other states do. I doubt we will find any consensus one way or the other. I am no overly concerned as the "damage" estimate is already public. It would, however, make all state efforts and costs public.

Subject: Press release on Presidential Declaration

It's attached and below. To go out soon, so please edit for content.

President Obama grants Gov. Rick Snyder's request for emergency declaration in Flint
LANSING, Mich. - President Barack Obama today declared a federal emergency in Flint, based on Gov. Rick Snyder's request made on Thursday, January 14, providing resources to help provide residents access to safe, clean water. Obama denied an additional request for a major disaster declaration.
"I appreciate the President approving my federal emergency request and supporting Flint during this critical situation," Snyder said. "I have pledged to use all state resources possible to help heal Flint, and this additional funding will greatly assist in efforts underway to ensure every resident has access to clean water resources."
Snyder received notice from FEMA this afternoon that emergency relief has been approved in the form of water, water filters, filter replacements and water test kits. The period of assistance is up to 90 days. Under the Stafford Act, resources totaling $5 million can be used for federal emergencies, and the state is required to match 25 percent. If the $5 million is exhausted, Congress has the option to approve additional funding.
The governor had also requested a major disaster declaration, which was denied based on the legal requirement that disaster relief is available only for natural events, fires, floods, or explosions. The state is now actively reviewing the process for appealing the disaster declaration denial.

Subject: Local EOC Bulets 1/16/16

Tony,

Please see the Local EOC bullets for today:

Operations:

- Most of our staff was tied up in meetings all day. The meetings with Lauren were very helpful and hopefully have us on the right track. One thing that I could not believe was that she had no prior knowledge that the Sheriff's office was involved in the water response teams. Somewhere at the SEOC level that important piece was not shared with her. A press release went out saying "MSP teams" which didn't properly represent the sheriff's hard work. I believe that has been straightened out.
- I met with the ARC today and the VRC. My intent was to just deliver badges and ended up in a meeting with Dave Gutierrez and Keith Alvey (equivalent to FEMA regional administration). They are going to being conversations about local long term stability and voiced concerns about ARC and their limited resources. It was a good visit, we discussed ways to keep the local EOC and the VRC in better communication. Also spoke with Linda the backup SEOC rep. ARC is worried about their relationships with local and state EOCs and hopes that no bridges have been burned or reputations tarnished.

Personnel:

- Jay apologized to Lauren. All is well there.
- Jason and I have a really good talk about the processes that have and haven't been working. I believe we are moving in the SEOC is the right direction. Everything that he and I talked about is already in the process of being implemented in the SEOC through the updates procedures (e.g., Operations Branches, not using ESFs to manage EOC, etc.)
- Henrik and BJ were able to leave early today (7pm).

Water Response Team: Concept of Operations and Support

Mission: *Distribute filters and additional resources to all households within the impacted area*

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (example: Vehicles, Team Members, Product)
        ii. Priority: Priority locations for distribution within the impact area
            1. Priority locations are determined based on 3 projections: lead concentration, locations of vulnerable populations, and previous distribution locations
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Team Support (example: lunch, rain ponchos)
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: Genesee County Sheriff Office (GCSO)/Michigan State Police (MSP)
    c. Responsible: Water Response Team Officer In Charge (OIC), American Red Cross OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting

Execution:

Key Locations

Team	Assembly Area	Hours of Operation
GCSO/MSP	LEOC Genesee County Administration Building 1101 Beach St, Flint	0830-1600
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

GCSO/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety *briefings (refer to GCSO_MSP_Volunteer Assembly Information_V1.0_011716 for detailed* information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment

11. Conduct post-deployment debrief with team leaders and members
7. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

GCSO/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail. Refer to WRT Distribution Tracking Tool_V1.0_011716

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/17/2016 08:00:00
Operational Period End:	01/19/2016 08:00:00
Situation Report No.	11
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/16/2016 08:00:00
SEOC Hours of Operation End:	01/16/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 16):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Provide resources.
- Public Information Control.

-Logistics
o Fielded questions about whether to open the multi-pack filter replacement kit and give only one away or keep as a pack. Decision is no, otherwise we are accused of tampering. Request no multi-packs be ordered.
o Hashed out test kit assembly process with DEQ and ARC.
o Hashed out lunch process for the weekend.
o Moved out of GGCard, consolidated to Clio Rd. warehouse.
o Donation deliveries – 10 a.m. – 7 p.m.
o Update ICS 204's.
o Site visits in Flint to local EOC. Warehouse, ARC, and POC's.
o Observed warehouse operations to determine challenges.
o Provided the JIC with one of each filters.
o Discussed volunteer management coordination with MCSC and ARC.
o Requested Verizon boosters for warehouse.
o Requested 100 traffic cones for warehouse to direct traffic.
o Requested MICIMS access for state volunteer coordinator.
o Requested 10,000 nutritional pamphlets from FEMA.

-JIC
o JIC will be requesting daily numbers from the SEOC from the activities of the field teams and PODs.
o Working the emergency declaration and talking points for congressional/legislative conference call.
o FEMA External affairs FEMA will be on site soon.
o Working on inaccuracies from media on the declaration.

- Recovery Branch
o MSP coordinated 11 Flint Water Response Teams with 62 state employees today.
o Continued coordination with Red Cross on volunteers for Sunday and Monday.
o Confirmed team typing for Flint Water Resource Teams.
o Data is for 1/16/16 as of 5:00 pm.

Water Response Teams	TOTALS	1/16/2016
Occupied Homes	6,034	2,387
Vacant Homes	2,161	554
Unknown	3,129	909
Total Homes Visited	11,324	3,850
Resources Provided		
Door Hangers	4,384	1,745
Water - Cases	2,062	1,253
Water - Gallons (Jugs)	97	9
Filters-Faucet	2,973	1,247
Replacement Filter	2,040	770
Filter Pitchers	29	2
Water test kits	420	102

Total Resources Dispersed 12,005
Future sample test site 453 301

-Planning Section
o Lead morning and afternoon state agency conference call.
o Coordinated logistics of resource tracking.
o Developed projections based off of reporting and trend analysis.

o Published Sit Rep # 11.
o Participated in distribution process meetings.

• Operations Section
o Conducted SEOC Briefing and IAP Tactics meeting
o Worked with local EOC to fix trash issue at the stations.
o Worked with local EOC and SEOC logistics to clean up distribution quantities at sites to individuals.
o 91 American Red Cross volunteers are active across operation today.
o ARC processed 45 volunteers through the Volunteer Reception Center.
o warehouse Numbers:
❑ Clio St Warehouse (current stock)
-Replacement Cartridges 63,866
-Filters (faucet) 63,003
-Water (cases) 38,232
o point of Distribution (as of 7 pm)
❑ Contacts 1047
❑ Water (cases) 625
❑ Filters (faucet) 772
❑ Replacement Cartridges 486
❑ Filters (pitcher) 14
❑ Test kits 3

•Finance Section.
o Continuing to track personnel resources located in the SEOC and local EOC for use in spend plan development.
o Monitoring resource request board and Pipeline Collaboration Document for costs incurred by state agencies for inclusion in spend plan.
o Booked additional 18 hotel rooms for National Guard.

•GIS Branch Updates.
o Created a GeoForm and Feature Service to handle data from paper forms used in the field and forms used prior to our involvement.
o Gave training to Red Cross and Sheriff's Office teams on iPad data collection.
o Gave train-the-trainer training to National Guard on iPad data collection within the Points of Distribution(PODS)
o Created maps for ARC and MSP of individual team assignment areas.
o Created map of Residential Water Sampling Results from data provided by MDEQ.
o Created Precinct/Ward wall map
o Created Daily Team Progress map

DTMB:
• Provided management briefing and information on emergency declaration.
• 60 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
• Provided 450 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.

DHHS-CH
• Maintained coordination and information sharing with CHECC leadership by holding twice daily scheduled calls to report activities and updates.
• A resource request was submitted in the SEOC to logistics to order 10,000 of the EPA provided nutritional pamphlet.
• Discussions took place with the JIC Manager, MDHHS PIOs, and CHECC Disaster Behavioral Health Subject Matter Experts regarding the method for providing Disaster Distress support (i.e. a helpline) for the public and responders.

DEQ
• All available water test kits assembled and available for distribution.
• Provided guidance to City personnel for water sample collection sites.
• GIS map developed for water sampling sites.

Local EOC Update:
• Toured facility and discussed EOC operations with Lt. Governor Calley.
• Provided direction to Operations and Logistics Sections to initiate water sample collection at Fire Station PODs.
• Attended conference call with SEOC and ARC logistics management to clarify supply level tracking and receive further instruction on the issue.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

- Held a media availability at Fire Station #5 where Major General Vadnais announced Michigan National Guard efforts will be doubled to approximately 70 personnel by Monday to assist at water resource sites.
- Governor's Office issued a new release announcing the Presidential emergency declaration approval.
- Answered media calls about the state's resource distribution and activity efforts to date.
- Updated daily talking points to include the state's activity efforts to date and the Presidential emergency declaration.
- Coordinating with FEMA External Affairs to plan a Congressional call on January 17, in additional to a legislative call regarding the Presidential emergency declaration. Preparing talking points for the Congressional and legislative conference calls.
- Issued a news release with today's activity for the water resource sites and water distribution teams, as well as the increase in National Guard personnel.
- Preparing a news release by the American Red Cross and United Way regarding the volunteer resource center and how individuals can volunteer to help.

Agriculture and Rural Development (MDARD)

Saturday Jan 16th update: Primary activities today: coordination with FDA Detroit District on their and MDARD's upcoming activities related to food, inquiry into a possible animal facility requiring follow up; draft of a document outlining federal resources that may be available to assist with broader recovery issues.

American Red Cross (ARC)

Again today, the American Red Cross supplied reduced staffing at the fire station POD's supporting the National Guard mission.
The assembly of water test kits at ARC headquarters resumed today.
We deployed and supported additional teams for neighborhood canvassing (Water Response).
We supplied lunches for the Water Response Teams.
The volunteer reception center (VRC) was in full operation today. The VRC will be in operation from Noon to 5pm on Sunday, and Monday through Friday will operate from 11am to 6:30pm.
We continued warehouse and inventory management efforts.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities.

Community Health (MDCH)

Coordinated with the CHECC to continue working on various projects to include developing a timeline of MDHHS activities as they relate to the Flint Water situation, the ordering of necessary nutritional information materials to be sent to the local health department, identifying a MDHHS representative to serve on the Public Health Group meeting on Tuesday (1/19), and staffing the CHECC hotline for health-related calls the 2-1-1 is unable to answer (since the LHD is closed for the weekend).

Maintained coordination and information sharing with CHECC leadership by holding twice daily scheduled calls to report activities and updates. Will also provide a daily update email to MDHHS Executive Leadership. This update will include the announcement of the Presidential Emergency Declaration issued this afternoon.

In alignment with the ongoing nutritional planning being lead by staff in the CHECC, a resource request was submitted in the SEOC to logistics to order 10,000 of the EPA provided nutritional pamphlet called, "Flight Lead Poisoning with a Healthy Diet," to be shipped directly to the Genesee County Local Health Department. Additional orders for these pamphlets are anticipated; however, the necessary quantity has not yet been determined.

Discussions took place with the JIC Manager, MDHHS PIOs, and CHECC Disaster Behavioral Health Subject Matter Experts regarding the method for providing Disaster Distress support (i.e. a helpline) for the public and responders. This will be discussed further on Tuesday when SMEs are in the CHECC and reach-out to SAMHSA to coordinate.

Updated ICS 204 forms with new and updated tactics and work assignments. Participated in SEOC tactics and planning meeting.

Corrections (MDOC)

Brent Travelbee and Todd Bechler on duty SEOC today. We have filled all requests for vehicles, personnel and warehouse equipment to assist with water distribution; additional request for Hand Operated Pallet Jacks have also been filled. MDOC Director Heidi Washington is providing full support to our assistance efforts. We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources will be reporting tomorrow Sunday January 17, 2016 as requested.

MDOC RESOURCES PENDING DEPLOYMENT: Sunday, January 17, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(3) – 20' Box Trucks
(2) - 24' Box Trucks
(1) - 30' Box Truck (Lift gate broken but truck still on site, DTMB repairing)

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap
(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer
(1) – Pick-up Truck with 20' Enclosed Trailer

(4) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(2) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

(5) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability

Staffing

There will be 22 staff members on site 21 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

Education (MDE)

School enrollment and staffing spreadsheet added to Mi-CIMS.

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities:
- Sampling of Manley Head Start and Eagles Nest School
- All available water test kits assembled and available for distribution
- Provided guidance to City personnel for water sample collection sites
- GIS map developed for water sampling sites
- *Water heater information provided to Department of Labor and Regulatory Affairs and agency Public Information Officer's*

Human Services (MDHS)

Staying in communication with 211, addressing human service concerns and delivery of resources to the elderly and disabled.

Review and provide regular 211 updates to SEOC Ops.

Continue to receive water filtration devices and assist in replenishment.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Manley School, where some DEQ testing was done today, is actually "Manley Early Childhood Center". The facility is a Head Start program and is captured under LARA's licensed Child Care Homes/Centers, it is not a school. DEQ is aware of this

Two bubblers that were supposed to be overnighted and delivered to a Flint area Home Depot today did not arrive. Without these bubblers the Freeman School faucet replacement pilot cannot be completed; all other scheduled work was completed there today. DEQ testing will not be done at Freeman tomorrow, 1/17. DEQ is aware of this. Install could possibly be finished on 1/17 if parts arrive; with testing then being done on Monday since school is not in.

LARA is currently working with DEQ to create a schedule for LARA's Plumbing Division to help DEQ with testing of additional schools in the Flint area.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, and water test kits and collected water samples for analysis at five points of distribution.
Coordinated efforts with Genesee County EOC and Joint Information Center.

T-tal of Soldiers on State Active Duty:
t Genesee County EOC
=t Joint Information Center
at PODS

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples f-- analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. In-Process Soldiers to augment distribution operations at 1800 S. outer Drive, Saginaw, MI on 17 January 2016 at 1300. Conduct lodging and operations orientation following in-processing. Total of 2 Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016.

Raymond Stemitz
LTC. IN. USA

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings in planned only if significant changes in the forecast occur.

NWS support beyond this weekend being coordinated between NWS Grand Rapids and NWS Detroit. Hand off to NWS Detroit for morning conference call weather forecast likely before the end of January.

Natural Resources (MDNR)

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.
Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is:

Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concern about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

State Police (MSP)

Teams have been distributing water all day. 3902 homes have been visited today.

The EOC in Flint advised that Genesee County Sheriff Department did not have the resources to provide security for the resource warehouses in the evening. Lt. Pummill was notified at 9:19 a.m. regarding this issue. Lt. Pummill did not believe this would be an issue because the warehouses are fenced in.

10:24 a.m. - Lt. Pummill advised that Sgt. Keith Sparks, MSP Safety Officer is currently evaluating the security at the resource warehouses for this evening.

1241 p.m. - Sgt. Sparks has completed his assessment of the resource warehouse and he responded with the following; My assessment of the facility is that it is adequate to secure the Red Cross vehicles as long as the vehicles are locked up and the gate is closed and locked. It will also be beneficial for the security of the vehicles when the outdoor lights are brought back into working order. Note: Personnel are currently working on the lights issue. They will know if the light are in working order at the facility by 5:00 p.m. today. I contacted Lt. Pummill at 6:06 p.m. for status on lights at warehouse. Lt. Pummill is having MSP personnel check to see if the lights were repaired. 6:37 p.m. - There are now lights on the south side of the warehouse, per Lt. Pummill. The south side of the building are where the delivery trucks are parked.

1:35 p.m. - MSP was asked for the exact number or state agency volunteers that reported today (Saturday 1-16-16) and to also confirm they went out in 10 teams. This information was forwarded to Lt. Pummill at 1:41 p.m.

2:06 p.m. Lt. Pummill advised 62 volunteers were utilized on 11 teams today.

ICS 208 created for 1/17/16-1/18/16 to include updated weather information provided by the National Weather Service.

We have 114 state of Michigan employee volunteers scheduled for Sunday Jan 17th and 125 scheduled for Monday Jan 18th.

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

Provided management briefing and information on emergency declaration.

DTMB Mail Services has seven drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Drivers have agreed to work through the end of day Tuesday, January 19.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
60 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 450 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

SEOC Hours of Operation End:	01/16/2016 20:00:00

Executive Summary

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply, and the detection of elevated blood lead levels exceeding governmental standards. These conditions exist in the City of Flint, which declared a local State of Emergency and activated local response plans and their Emergency Operations Center on December 15, 2015. A public health emergency was declared by the Genesee County Health Department on October 1, 2015.

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to the Flint River as their primary water source. The corrosive river water caused the leaching of lead from lead pipes into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Elevated blood lead levels were observed in a significant sampling of young children in the City of Flint, and confirmed by the State Chief Medical Officer.

To mitigate the negative effects of corrosive river water on the water infrastructure in the City of Flint, the city switched back to DSWD as their primary water source on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone. MDHHS has increased surveillance of blood lead levels in children, addresses water issues in environmental investigations facilitated to identify lead sources in the environment of affected children, and provide health education and information to residents, health care providers and daycare/educational institutions. Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff, consolidate data from local sources into comprehensive databases, and providing mapping services that support incident analysis and forecasting. Data and maps will be made available regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, predictive blood lead levels for affected areas, demographics, etc.

Before December 16, 2015, $9.35 million were provided by the State of Michigan, and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While drops in lead levels have been observed since reconnecting to the DWSD system, water in the City of Flint is still not safe to drink, unless specifically filtered.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 10 p.m. on Jan. 14. On Jan. 15, the JIC opened at 8 a.m. and anticipates operating until at least 7 p.m.

State agencies at the JIC included the Governor's Office, Departments of Health and Human Services, Agriculture and Rural Development, and Technology and Management and Budget, Natural Resources, Environmental Quality, Licensing and Regulatory Affairs, Military and Veterans Affairs and Michigan State Police. The Genesee County Sheriff's Office was also present.

Tasks accomplished:
- Updated ongoing talking points about Flint water situation.
- Answered more than 10 media inquiries about topics ranging from the Governor's Flint visit to background information on the water response teams.
- Planned a 2 p.m. legislative and congressional conference call, including developing talking points.
- Monitored news media for misinformation and found none. Also monitored social media.
- Started drafting a news release about water response teams and items distributed to date.
- Continued establishing a staffing schedule through the week and into next week. The JIC will be open this weekend and on the Martin Luther King Jr. Day holiday.
- Continued to update www.michigan.gov/flintwater to add new content and make enhancements to the site.
- Created a GovDelivery account for dissemination of JIC news releases and began writing procedures.
- Continued pagination, editing and final approvals of "Lead in Flint Water" MDHHS fact sheet.

Agriculture and Rural Development (MDARD)

Saturday Jan 16th update: Primary activities today: coordination with FDA Detroit District on their and MDARD's upcoming activities related to food, inquiry into a possible animal facility requiring follow up; draft of a document outlining federal resources that may be available to assist with broader recovery issues.

American Red Cross (ARC)

Again today, the American Red Cross supplied reduced staffing at the fire station POD's supporting the National Guard mission.
The assembly of water test kits at ARC headquarters resumed today.
We deployed and supported additional teams for neighborhood canvassing (Water Response).
We supplied lunches for the Water Response Teams.
The volunteer reception center (VRC) was in full operation today. The VRC will be in operation from Noon to 5pm on Sunday, and Monday through Friday will operate from 11am to 6:30pm.
We continued warehouse and inventory management efforts.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities.

Community Health (MDCH)

Coordinated with the CHECC to continue working on various projects to include developing a timeline of MDHHS activities as they relate to the Flint Water situation, the ordering of necessary nutritional information materials to be sent to the local health department, identifying a MDHHS representative to serve on the Public Health Group meeting on Tuesday (1/19), and staffing the CHECC hotline for health-related calls the 2-1-1 is unable to answer (since the LHD is closed for the weekend).

Maintained coordination and information sharing with CHECC leadership by holding twice daily scheduled calls to report activities and updates. Will also provide a daily update email to MDHHS Executive Leadership. This update will include the announcement of the Presidential Emergency Declaration issued this afternoon.

In alignment with the ongoing nutritional planning being lead by staff in the CHECC, a resource request was submitted in the SEOC to logistics to order 10,000 of the EPA provided nutritional pamphlet called, "Flight Lead Poisoning with a Healthy Diet," to be shipped directly to the Genesee County Local Health Department. Additional orders for these pamphlets are anticipated; however, the necessary quantity has not yet been determined.

Discussions took place with the JIC Manager, MDHHS PIOs, and CHECC Disaster Behavioral Health Subject Matter Experts regarding the method for providing Disaster Distress support (i.e. a helpline) for the public and responders. This will be discussed

further on Tuesday when SMEs are in the CHECC and reach-out to SAMHSA to coordinate.

Updated ICS 204 forms with new and updated tactics and work assignments. Participated in SEOC tactics and planning meeting.

Corrections (MDOC)

Brent Travelbee and Todd Bechler on duty SEOC today. We have filled all requests for vehicles, personnel and warehouse equipment to assist with water distribution; additional request for Hand Operated Pallet Jacks have also been filled. MDOC Director Heidi Washington is providing full support to our assistance efforts. We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources will be reporting tomorrow Sunday January 17, 2016 as requested.

MDOC RESOURCES PENDING DEPLOYMENT: Sunday, January 17, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(3) – 20' Box Trucks
(2) - 24' Box Trucks
(1) - 30' Box Truck (Lift gate broken but truck still on site, DTMB repairing)

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap
(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer
(1) – Pick-up Truck with 20' Enclosed Trailer

(4) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(2) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

(5) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability

Staffing

There will be 22 staff members on site 21 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

Education (MDE)

School enrollment and staffing spreadsheet added to MI-CIMS.

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities:
- Sampling of Manley Head Start and Eagles Nest School
- All available water test kits assembled and available for distribution
- Provided guidance to City personnel for water sample collection sites
- GIS map developed for water sampling sites
- Water heater information provided to Department of Labor and Regulatory Affairs and agency Public Information Officer's

Human Services (MDHS)

Staying in communication with 211, addressing human service concerns and delivery of resources to the elderly and disabled.

Review and provide regular 211 updates to SEOC Ops.

Continue to receive water filtration devices and assist in replenishment.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Manley School, where some DEQ testing was done today, is actually "Manley Early Childhood Center". The facility is a Head Start program and is captured under LARA's licensed Child Care Homes/Centers, it is not a school. DEQ is aware of this

Two bubblers that were supposed to be overnighted and delivered to a Flint area Home Depot today did not arrive. Without these bubblers the Freeman School faucet replacement pilot cannot be completed; all other scheduled work was completed there today. DEQ testing will not be done at Freeman tomorrow, 1/17. DEQ is aware of this. Install could possibly be finished on 1/17 if parts arrive; with testing then being done on Monday since school is not in.

LARA is currently working with DEQ to create a schedule for LARA's Plumbing Division to help DEQ with testing of additional schools in the Flint area.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, and water test kits and collected water samples for analysis at five points of distribution.
Coordinated efforts with Genesee County EOC and Joint Information Center.

Total of Soldiers on State Active Duty:
at Genesee County EOC
at Joint Information Center
at PODS

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. In-Process Soldiers to augment distribution operations at 1800 S. Outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conduct lodging and operations orientation following in-processing. Total of Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016.

Raymond Stemitz
ITC, IN, USA

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings in planned only if significant changes in the forecast occur.

NWS support beyond this weekend being coordinated between NWS Grand Rapids and NWS Detroit. Hand off to NWS Detroit for morning conference call weather forecast likely before the end of January.

Natural Resources (MDNR)

MDNR is fully participating in all SEOC activities. Situational awareness is being maintained and the department stands ready to assist as needed.
Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is:

Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water.

Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concern about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

State Police (MSP)

Teams have been distributing water all day. 3902 homes have been visited today.

The EOC in Flint advised that Genesee County Sheriff Department did not have the resources to provide security for the resource warehouses in the evening. Lt. Pummill was notified at 9:19 a.m. regarding this issue. Lt. Pummill did not believe this would be an issue because the warehouses are fenced in.

10:24 a.m. - Lt. Pummill advised that Sgt. Keith Sparks, MSP Safety Officer is currently evaluating the security at the resource warehouses for this evening.

1241 p.m. - Sgt. Sparks has completed his assessment of the resource warehouse and he responded with the following; My assessment of the facility is that it is adequate to secure the Red Cross vehicles as long as the vehicles are locked up and the gate is closed and locked. It will also be beneficial for the security of the vehicles when the outdoor lights are brought back into working order. Note: Personnel are currently working on the lights issue. They will know if the light are in working order at the facility by 5:00 p.m. today. I contacted Lt. Pummill at 6:06 p.m. for status on lights at warehouse. Lt. Pummill is having MSP personnel check to see if the lights were repaired. 6:37 p.m. - There are now lights on the south side of the warehouse, per Lt. Pummill. The south side of the building are where the delivery trucks are parked.

1:35 p.m. - MSP was asked for the exact number or state agency volunteers that reported today (Saturday 1-16-16) and to also confirm they went out in 10 teams. This information was forwarded to Lt. Pummill at 1:41 p.m.

2:06 p.m. Lt. Pummill advised 62 volunteers were utilized on 11 teams today.

ICS 208 created for 1/17/16-1/18/16 to include updated weather information provided by the National Weather Service.

We have 114 state of Michigan employee volunteers scheduled for Sunday Jan 17th and 125 scheduled for Monday Jan 18th.

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

Provided management briefing and information on emergency declaration.

DTMB Mail Services has seven drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Drivers have agreed to work through the end of day Tuesday, January 19.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
60 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 450 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

Per our discussion tonight, I spoke with MG Vadnaise and he is going to start planning for a 200 personnel mission to assist with the Water Response Teams PENDING FINAL APPROVAL by the Governor.

Cost estimate is $425,376 for 6-7 days. I can have a better number tomorrow but this is based on our current costs.

We would start with some NG personnel on the ground Wed with more phasing in. Looking at final day of Sunday. This is also dependent on the NG planning team but I wanted to provide an idea of time in the field.

If this direction is good then we will continue. If this is not a good direction we can shift.

OGCS/MSP WRT Volunteer Assembly Information V2.0_011816

1. Volunteer check in at 8:30am at 1101 Beach Street, Flint, MI 48502 (Genesee County Administration Building).
2. Volunteers are able to park at the overflow lot of First Trinity Missionary Baptist Church located at 1226 Beach Street Flint, MI 48502. This lot is located directly to the east of the church. The parking structure to the east of 1101 Beach Street can also be used for parking. Parking tickets will be validated. Access to the parking structure can be gained on Eighth Street just east of Beach Street. Access to the building can be gained from the southeast and southwest doors on each side of the building. Upon entering the building *proceed to the basement for sign in.*
3. Assignments and briefing will follow between 8:30am and 9:15am. Efforts will be made to keep groups together if requested. Volunteers should inform their team leaders of any medical, security or other needs.
4. Teams will deploy to assigned areas. Volunteers should be able to walk long distances with difficult terrain. Transportation will be provided to and from the assignment location.
5. Teams will return to 1101 Beach Street for lunch from 12:30pm-1:00pm. Lunch will be provided.
6. Teams will redeploy to the field with afternoon assignments.
7. Shifts will end between 4:30pm and 5:00pm with a return to 1101 Beach Street. All items assigned to volunteers must be returned to their team leader at the end of the day. This includes high visibility vest, tablets/IPADS, stylus, lanyards, carrying bags and paperwork.
8. Appropriate clothing should be worn for the projected weather of the day. Boots, hats and gloves are strongly encouraged.

Water Response Team: Concept of Operations and Support V2.0_011816

Mission: Distribute filters and additional resources to all households within the impacted area

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (example: Vehicles, Team Members, Product)
        ii. Priority: Priority locations for distribution within the impact area
            1. *Priority locations are determined based on 3 projections:* lead concentration, locations of vulnerable populations, and previous distribution locations
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Team Support (example: lunch, rain ponchos)
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: Office Genesee County Sheriff (OGCS)/Michigan State Police (MSP)
    c. *Responsible: Water Response Team Officer In Charge (OIC), American Red Cross* (ARC) OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: Water Response Team OIC
    c. Responsible: All Water Response Teams

The below quantities are planning factors and will be continually refined based on data from WRT feedback

Team Typing

Type	Mission	Truck	Team Leader	Team Member	Team Transport Vehicle	Team Transport Driver	Patrol Car	iPad	Distribution Kit

Execution:

Key Locations

Team	Assembly Area	Hours of Operation
OGCS/MSP	LEOC *Genesee County Administration Building* 1101 Beach St, Flint	0830-1600
ARC	ARC *1401 S Grand Traverse St, Flint*	0730-1600

Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

OGCS/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to OGCS_MSP WRT Volunteer Assembly Information V2.0_011816 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment
11. Conduct post-deployment debrief with team leaders and members
12. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product *loads corresponding to Team Typing Matrix*

Lunch

OGCS/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail.

OGCS/MSP WRT Volunteer Assembly Information V2.0_011816

1. Volunteer check in at 8:30am at 1101 Beach Street, Flint, MI 48502 (Genesee County Administration Building).
2. Volunteers are able to park at the overflow lot of First Trinity Missionary Baptist Church located at 1226 Beach Street Flint, MI 48502. This lot is located directly to the east of the church. The parking structure to the east of 1101 Beach Street can also be used for parking. Parking tickets will be validated. Access to the parking structure can be gained on Eighth Street just east of Beach Street. Access to the building can be gained from the southeast and southwest doors on each side of the building. Upon entering the building proceed to the basement for sign in.
3. Assignments and briefing will follow between 8:30am and 9:15am. Efforts will be made to keep groups together if requested. Volunteers should inform their team leaders of any medical, security or other needs.
4. Teams will deploy to assigned areas. Volunteers should be able to walk long distances with difficult terrain. Transportation will be provided to and from the assignment location.

Subject: Staffing

Chris

I want you to put this on your radar for this week.

I anticipate the response to the Flint water crisis to be a long-term process. In order for us to sustain our effort, I would like to develop a staffing model that will provide relief to EMHSD staff and and key staff positions at the local EOC.

Our limited personnel are working within a structure that allows for a single point of failure in many areas. I want to ensure that we have personnel aligned to work on this project and develop a more workable schedule for everyone involved.

I would like to work with you this week to discuss the short term and long term response. We will need to review the ICS and look at key positions to bring staff in, get them up to speed and work in shifts. I know it doesn't seem like there is any time for this, but the longer we wait, the more difficult it becomes to implement this.

I know the supplemental budget request is the next big piece here. Once that is behind us we need to discuss. I will give you a call tomorrow to get your thoughts on this.

Gmg

Katie:

One recommendation for consideration—Michigan has a chartered ***volunteer*** State Militia that works for the Adjutant General. They basically exist for the purpose of managing domestic responses to declared civil emergencies. After the Dexter tornado in 2012, we had just over 60 members helping with the logistics operation for us, and it happened in about a day. It took a phone call. They have an organic vehicle capability, etc. Could be a stopgap/interim or even a longer-term solution to the logs issue. Here's a link. http://mivdf.org/site/

Thanks,
Chris

January 19, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

I am submitting this letter of appeal in response to FEMA Administrator W. Craig Fugate's letter to me dated January 16, 2016. In that letter, he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint. I respectfully submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, to request a reconsideration of that decision.

Respectfully, I appeal the determination that the event "does not meet the legal definition of a 'major disaster' under 42 U.S.C. § 5122." This unique disaster poses imminent and long-term threat to the citizens of Flint. Its severity warrants special consideration for all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program in order to facilitate recovery.

While the definition under 44 C.F.R. § § 206.2(17) provides examples of what might constitute a natural disaster, I submit that this disaster is analogous to the flood category, given that qualities within the water, over a long term, flooded and damaged the city's infrastructure in ways that were not immediately or easily detectable. Likewise, this disaster is a natural catastrophe in the sense that the contamination arose from the natural decay of Flint's aging infrastructure. These impacts will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. A narrow reading of this definition, restricting the hazards to which we can provide relief, does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope you will determine that providing assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline.

As additional support of this appeal, I offer the following information:

<u>State and Local Government Capabilities</u>

The City of Flint, County of Genesee, and State agencies have worked to provide short-term solutions to many problems related to this disaster. However, permanent solutions for much of the public water system damages can only come about with significant federal assistance made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by FEMA, those efforts are stop-gap measures which do not meet the long-term recovery needs of this disaster for the City of Flint.

Emergency Protective Measures

As indicated in my declaration request, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. The City of Flint also committed $2 million, and the Charles Mott Foundation committed $4 million. The State is in the process of approving a second appropriation.

The considerable needs brought about by this disaster greatly exceed the collective funding resources of local and state government. Unless a Presidential Major Disaster Declaration is granted and the Public Assistance Grant Program (PAGP) is activated there will be significant unmet needs as identified in the following areas of impacts. The only other possible option would be a special Congressional appropriation.

Long Term Public Health Threats

Although strides have been made in addressing public health threats brought about by this disaster, there are considerable lingering issues. The ability of a community to recover with such a large percentage of its citizens living in poverty requires the ability of those citizens to acquire proper health care, case management, legal services, and assistance in repairing the plumbing infrastructure in their homes that may have be damaged. Permanent solutions for these individuals and households will not come about in a timely manner without significant federal resources to restore, repair and stabilize their lives.

Damage to Infrastructure

The affected local communities and the State do not have the funding capacity to undertake the repair of an entire public water system. FEMA's PAGP provides the best source of funding for rebuilding these critical public facilities, and that program can only be activated through the declaration of a Major Disaster by the President. Any other Federal programs of assistance would be welcome.

Mitigation

With federal disaster relief, Michigan could provide funding under the Hazard Mitigation Grant Program or PAGP to the affected utility to implement cutting edge measures to mitigate the vulnerabilities of the water system against all types of physical threats. Without such assistance, such measures will not be possible.

Economic Injury

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."

The economic injury to the affected communities from this disaster is significant. As I indicated in my declaration request letter, impacts including further decreases in property values, lost business activity, loss of employment and further loss in population will severely impact Flint and Genesee County.

As part of the disaster declaration request, I included assistance from the Small Business Administration (SBA) to provide financial relief to the scores of businesses impacted by this disaster. If such assistance were approved, the low-interest loans would provide much needed working capital to many businesses to allow them to continue to operate until their business picks up.

This disaster also comes on the heels of another Major Disaster (4195-DR-MI) that occurred in August of 2014. The state and those nearby counties and local municipalities are still recovering from that event

and now they have another major disaster to deal with, and few available resources to address the significant impacts to the health of the citizens and damages to public facilities.

Direct Federal Assistance

The federal government is highly engaged in event responses, such as the BP Deepwater Horizon disaster. The federal government established a National Response Team of 16 federal departments and agencies, ranging from the EPA to the SBA to the Department of Labor. Such engagement was critical to restoring public confidence to avoid further economic damage from perceived contamination. In the BP case, fisheries, tourism, and other uses were afforded the benefit of technical expertise to minimize damage. In the case of Flint, residents are afraid to use water for washing because of their fear of further contamination and damage. The residents of the city of Flint need federal expertise to rebuild confidence in the use of tap water.

Conclusion

I sincerely believe that a Presidential Major Disaster Declaration is warranted due to the extraordinary circumstances involved in this disaster – the widespread and damage to public facilities, the potential long term damages to public health, and the substantial additional economic injury upon an already affected community. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act.

Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, continues to be my designated State Coordinating Officer for this request. He will work with FEMA on program implementation and provide further information or justification on my behalf, as requested.

Sincerely,

Richard D. Snyder
Governor

Flint Water Emergency Response
Talking Points for Capt. Chris Kelenske
Meeting with Republican Caucus

NOT INTENDED TO BE DISSEMINATED TO THE MEDIA OR PUBLIC IN THIS FORMAT

Chronology

- October 1, 2015: Public Health Emergency Declaration issued
- December 14, 2015: State of Emergency declared by City of Flint.
- January 4, 2016: Genesee County Board of Commissioners declared a local emergency
    - *In a separate document, Genesee County requested a Governor's* Declaration of Emergency
- January 5, 2015: Governor declared State of Emergency
    - State Emergency Operations Center activated in Lansing to coordinate state response
    - Joint Information Center (JIC) activated on January 6, 2016 in Lansing; moved to Flint on January 11, 2016
- January 9, 2016: Water resource sites established at fire stations
- January 12, 2016: Water resource teams began going door-to-door
- January 12, 2016: Governor Snyder issued an Executive Order activating the Michigan National Guard
- January 14, 2016: Governor requested Presidential declaration of emergency and expedited major disaster for Genesee County
- January 16, 2016: President Obama approved the Governor's request for a federal emergency in Flint.
    - Denied request for major disaster

Federal Support

- President Obama's approval of a federal emergency in Flint provides emergency relief in the form of bottled water, water filters, filter replacements, and water test kits. The period of assistance is up to 90 days.

- In addition, the state is working with the Federal Emergency Management Agency (FEMA) to coordinate an interagency recovery plan with other federal agencies to provide resources to Flint.

    - Coordination will include identifying federal agencies that have programs, authorities and/or technical expertise that could be utilized in the ongoing response and recovery efforts in Flint to be made available. Such federal agencies may include the Department of Health and Human Services, Environmental Protection Agency, Department of Housing and Urban Development, and Army Corps of Engineers.

Current Status/Update

- We are continuing to bring all state resources to bear to protect public health and safety.

- One of our most important messages and priorities continues to be making sure residents are aware of the information and free resources available to them, which include bottled water, water filters, replacement cartridges, water test kits.

- The one-stop shop for finding all these resources is by visiting www.michigan.gov/FlintWater or calling 2-1-1.

- To date, more than 21,300 homes have been visited by water response teams who are going door-to-door to distribute free bottled water, filters, replacement cartridges, and water testing kits.

    - Water response teams are a collaborative effort comprised of city, county, state personnel, American Red Cross personnel, and volunteers.

- The Michigan National Guard has been activated to assist with distribution efforts at the five water resource sites at fire stations in the city.
    - There are approximately 70 National Guard members handing out water resources at the fire stations in the city.

- Since January 9, the following resources have been distributed to residents, both at the water resource sites and by the water response teams:

    - More than 37,300 cases of water
    - More than 53,700 water filters
    - More than 7,300 water testing kits

- To help enhance the water testing process, Flint residents can now drop-off water samples to the five water resource sites at fire stations. Samples will only

be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- Water resource sites are open daily from 9 a.m. to 9 p.m. and are located at:

  Fire Station #1
  310 East 5th St.
  Flint, MI 48502

  Fire Station #3
  1525 Martin Luther King Ave.
  Flint, MI 48503

  Fire Station #5
  3402 Western Road
  Flint, MI 48506

  Fire Station #6
  716 West Pierson Road
  Flint, MI 48505

  Fire Station #8
  202 East Atherton Road
  Flint, MI 48507

Filters

- When used properly water filters remove 99% of lead in water.

- Residents are urged to use filtered water for drinking, food preparation, brushing teeth and watering pets. Unfiltered water may be used for bathing and cleaning.

- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced.

- The filters have a five-year, non-replaceable battery that operates the indicator light.

- There is a detailed video posted on www.michigan.gov/flintwater that explains how to properly install a water filter cartridge. An instruction sheet also has been provided to 2-1-1 to share with those individuals without internet access.

Resources for homebound individuals

- 2-1-1 is collecting a list of limited mobility or homebound individuals needing home delivery of water resources and is providing that information to the Genesee County Sheriff's Department, who is making these deliveries.

- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is also being coordinated through 2-1-1.

Outside Support Efforts – Volunteers and Donations

- There has been great cooperation on the ground in Flint by many local agencies, from the city and county to churches and public, private, and non-profit groups to help with this effort.

- The American Red Cross, United Way, 2-1-1, and many other organizations have assisted with water resource distribution efforts and the donations management process.

- The American Red Cross has established a volunteer reception center for those wishing to assist with ongoing efforts to distribute water, water filters, replacement cartridges and water test kits.
    - The Volunteer Reception Center is located at the Red Cross office at 1401 S. Grand Traverse St. in Flint.
    - This week, the Volunteer Reception Center hours are:
        - Monday - Friday, 9 a.m. to 7 p.m.
        - Saturday, 9 a.m. to 2 p.m.
        - Sunday, 12 p.m. to 5 p.m.

National Guard Mobilization

- Governor Snyder issued an Executive Order on January 12, 2016, to activate the Michigan National Guard.
    - Currently they are being used to staff water resource sites to support the distribution of bottled watered, water filters, replacement cartridges, and water testing kits.
    - National Guard is uniquely prepared and trained to respond quickly in emergency situations.
    - The first group of National Guard personnel arrived in Flint on January 13 to conduct assessment and get acclimated.
    - 30 more personnel arrived on January 15 and additional soldiers were added on January 18, bringing the current commitment to approximately 70 soldiers.

- This is the second time the Governor has activated the National Guard.
  - Last time was for the Duck Lake Fire in Luce County in May 2012.
- Per the Michigan Emergency Management Plan, the Michigan State Police Director or designee is responsible for coordinating all state efforts, including the Michigan National Guard.
- Activation of the Michigan National Guard allows the volunteers from the American Red Cross, who have been staffing the water resource sites, to join the water distribution teams.

Water Bills

- The City of Flint is responsible for issuing water shut-off notices for non-payment. Per the Mayor, the city has put a halt on all notices or disconnections. Shut off notices have not been mailed since the beginning of December.

- Water payment inquiries should be referred to the City of Flint.

Flint Water Response Team Plan for Tuesday, 01.19.16_V2.0_FINAL

Changes are highlighted in red

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
OGCS	Office of Genesee County Sheriff
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

WRT OIC	Lt. Pat Young	
ARC OIC	Robert Gaskill-Clemons	
Warehouse	Shawn Scott-Fitzgerald	

Plan

Agency	Team Types	Mission	Priority Distribution Areas
OGCS/MSP	5-6 Type III	3600 HH	Refer to 20160116_Team_Assignment_Areas_Update.jpg
ARC	10 Type V	1200 HH	Refer to 20160116_Team_Assignment_Areas_Update.jpg

Resource Status

Team Type & Quantity	Type: Type III Quantity: 5-6				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	5-6	5-6		1/18/16	
16ft box truck	5-6	5-6		1/18/16	
Truck Driver	5-6	5-6		1/18/16	
Team Member	40-50	40-50		1/18/16	
Team Transport Vehicle for 6-9 Team Members	5-6	5-6		1/18/16	

Team Transport Driver	5-6	5-6		1/18/16	
Patrol Car	10-12	10-12		1/18/16	
iPads	10-20	20		1/18/16	
Hand Warmers	144	382		1/18/16	
Vests	0	200		1/18/16	
Distribution Kit	1500-1800	1500-1800		1/18/16	

Team Type & Quantity	**Type:** Type V **Quantity:** 12				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**

Distribution Kit	1200	1200		1/18/16	

Execution:

Key Locations

Team	**Assembly Area**	**Hours of Operation**
OGCS/MSP	LEOC Genesee County Administration Building 1101 Beach St, Flint	0830-1600
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

OGCS/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in

3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to OGCS_MSP WRT Volunteer Assembly Information V2.0_011816 for detailed information on volunteer processing at LEOC)
    5. Provide training to new team members
    6. Issue vest and badge to team members
    7. Execute morning distribution assignment
    8. Lunch served between 1230-1330
    9. WRT OIC and Team Leaders midday brief
    10. Execute afternoon distribution assignment
    11. Conduct post-deployment debrief with team leaders and members
    12. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

OGCS/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail.

Water Response Team: Concept of Operations and Support V2.0_011816

Mission: Distribute filters and additional resources to all households within the impacted area

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (example: Vehicles, Team Members, Product)
        ii. Priority: Priority locations for distribution within the impact area
            1. Priority locations are determined based on 3 projections: lead concentration, locations of vulnerable populations, and previous distribution locations
    b. Accountable: SEOC Recovery Branch Director
    c. *Approval: State EM Director*
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Team Support (example: lunch, rain ponchos)
    b. Accountable: SEOC Logistics Section Chief
    c. *Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center*
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: Office Genesee County Sheriff (OGCS)/Michigan State Police (MSP)
    c. Responsible: Water Response Team Officer In Charge (OIC), American Red Cross (ARC) OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: Water Response Team OIC
    c. Responsible: All Water Response Teams

The below quantities are planning factors and will be continually refined based on data from WRT feedback

Team Typing

Type	Mission	Truck	Team Leader	Team Member	Team Transport Vehicle	Team Transport Driver	Patrol Car	iPad	Distribution Kit
Type I	500 HH	1 – 26' - 24' Box	1	10-20	1+	1+		1-2	500
Type II	400 HH	1 - 20' 18' Box	1	8-16	1+	1+		1-2	400
Type III	300 HH	1 16' Box	1	6-9	1+	1+		1-2	300
Type IV	200 HH	1 14' Box	1	4-8	1+	1+		1-2	200
Type V	100 HH	1 ARC ERV*	1	3-6	1+	1+		1-2	85**

* American Red Cross Emergency Response Vehicle
**Replenishment required to achieve mission

Distribution Kit per Household

Door Hanger	1
Water, case	1
Filter*	1
Test Kit	1
Replacement Filters	1

*If filter doesn't fit then distribute

Pitcher*	1

EMERGENCY MANAGEMENT

Effort to collect bottled water for Flint gets help from Detroit businesses
(MLive)
Flint, MI: Schools and religious groups in Metro Detroit have been collecting bottled water for shipment to Flint residents, who are facing a crisis of contaminated tap water, and a pair of influential figures joined the effort on Martin Luther King Day. Wayne County Register of Deeds Bernard Youngblood on Monday announced a call a collection drive at his office. "Over 80,000 people visit the registers office each year, and over of 500 individuals on peak days," Youngblood said. "If each person would bring in one bottle of water, collectively that adds up to a significant help." And by Monday afternoon, he got a call from Maria Gatzaros owner of Detroit-area restaurants Fishbones and the London Chop House, offering broader reach for the collection effort. Youngblood said bottled water donations will be accepted at Fishbones locations in Southfield, St. Clair Shores and in Detroit's Greektown. Another company owned by Gatzaros, LED lighting manufacturer America's Green Line, will be transporting the donated water to Flint, Youngblood said.

National Guard boosts presence in Flint to aid water crisis
(Associated Press)
Flint, MI: The National Guard is boosting its presence in Flint as part of an effort to assist in dealing with the city's drinking water crisis. The state says about 70 guard members will be stationed today in Flint, more than double the earlier number in place. Officials say teams visited nearly 5,000 Flint homes Sunday, providing free bottled water, filters, replacement cartridges and water testing kits. To improve water testing, the state says residents may drop off samples using official kits at five sites. The water became contaminated after Flint switched from the Detroit water system to the Flint River as a cost-cutting move. The corrosive water lacked adequate treatment and caused lead to leach from old pipes. On Saturday, President Obama signed an emergency declaration.

State Responds To Avian Flu In Dubois County
(WBIW)
Dubois Co, IN: United States Department of Agriculture's (USDA) Animal and Plant Health Inspection Service (APHIS) has confirmed the pathogenicity of eight of the nine H7N8 avian influenza detections announced on January 16. Eight flocks have been confirmed as low pathogenic avian influenza, with additional testing ongoing for the ninth. There were no new positive tests overnight, but aggressive testing continues inside the 10-km control area. In the last 24 hours, commercial farms have yielded an additional 100 negative tests for avian influenza. State and federal teams have visited 503 residences in the control area to identify any small flocks for testing. Tests are pending on 17 small flocks. Confirmed cases of Avian Flu have been found in Dubois County. State, local and federal agencies are working together on containment and depopulation operations. An estimated 119,500 birds have been humanely euthanized on four premises, with another six premises containing approximately 121,400 birds currently underway. The control area is primarily in Dubois County, and has expanded to include parts of Crawford, Daviess, Martin and Orange counties. All infected sites are in Dubois County. A Unified Incident Command Post (UCP) has been established in Jasper, Indiana. The post is staffed by a state Incident Management Team, along with federal and local partners. State Agencies supporting activities in the UCP: The State Board of Animal Health, Indiana State Department of Agriculture, Indiana Department of Homeland Security, Indiana Department of Natural Resources, Indiana State Department of Health, Indiana Department of Environmental Management, Indiana Department of Correction, Indiana State Police and mental health services teams

from the Family and Social Services Administration. The United States Department of Agriculture has approximately 50 representatives, along with private contractors, in Dubois County assisting with state and local efforts. A National Incident Management Team will be arriving in Indiana this weekend to help coordinate efforts.

U.S. deploys newly minted bird flu plan to protect humans, poultry
(Reuters)
Chicago, IL: U.S. farm and health officials are racing to assess the threat that a type of bird flu never before seen in the country poses to humans and poultry, employing emergency plans drawn up in the wake of a devastating outbreak in birds last year. The federal government sprang into action on Friday after confirmation overnight that the virus had hit an Indiana turkey farm, alerting other states to the danger and putting workers who might have been exposed to the virus under surveillance. Last year's outbreak led to the deaths of more than 48 million chickens and turkeys, either killed by the virus or culled to contain it. Even if the response is fast, the government's ability to contain the disease is far from certain. Officials have never dealt with this strain before, and wild birds are thought to spread the disease to farms through feces dropped from the air, making infections difficult to prevent. U.S. officials have taken to heart lessons from last year's outbreak, when USDA workers could not always kill infected flocks fast enough to contain the virus. Workers are now trying to cull sick flocks within 24 hours of diagnoses, following a goal the agency set in the autumn. Most turkeys at the infected farm were killed within a day, but it was 29 hours before all were dead, said Denise Derrer, spokeswoman for the Indiana State Board of Animal Health. No human infections associated with the new strain have ever been reported, according to the USDA.

REGIONAL WEATHER & IMPACTS

Frigid temperatures, winter weather spread across the country
(WTHR)
Chicago, IL: El Nino may have slowed the start of winter, but this week it is in full-force from the Midwest through the East Coast. Snow, ice and extreme cold have arrived for many, and on the way for many more. Plows struggled to keep the pace as snow and ice turned the morning drive into a demolition derby in Syracuse, New York, with more than three dozen accidents. It was a tough go in New England as well. Near white-out conditions led to accidents and some anxious moments behind the wheel in Connecticut. "It makes it dangerous, the roads slippery, just a hot mess, you're eyes get all watery," said Eryn Ifill of New Haven. Even walking was tough in places like Chicago, where sub-zero temperatures forced commuters to bundle up. Forecasters say conditions will get even worse by the end of the week.

Weather conditions were perfect for a deadly pileup
(MLive)
Hartford, MI: A deadly pileup occurred Sunday afternoon, January 17, 2016. The weather conditions were perfect for creating dangerous driving conditions. Lake effect snow was widespread in the western half of Lower Michigan Sunday, January 17, 2016. The drivers in the pileup area on I-94 around Hartford likely encountered rapidly deteriorating weather conditions. In fact, traffic coming from the west probably hadn't encountered much snow at all as they drove around the south end of Lake Michigan. As they drove into the stretch from St. Joseph, MI to Kalamazoo, MI, they started driving into lake effect snow bands. At some point in that stretch, possibly near the pileup at Hartford, the lake effect snow rapidly became heavy. Look at the high resolution satellite. It shows only scattered clouds at the south end of Lake Michigan. Just northeast, in Michigan, you can see the brighter, bumpier heavy lake effect bands. At the time of the crash there were spurts of moderate to heavy snow in that area, along with west winds gusting to 23 mph. Combine these two weather conditions with the nature of the snow, powdery and dry, and you have perfect conditions for whiteouts, or brief whiteouts created by vehicles. The west wind was a dangerous wind. This wind didn't produce lake effect in Indiana, like a northwest wind would. If drivers had encountered lake effect in northern Indiana, they likely would have been slowed down as they hit the dangerous stretch of I-94 in Van Buren County. Sunday's crashes occurred about 50 miles west of the site of a 193-car pileup in eastern Kalamazoo County during a winter storm Jan. 9, 2015. This stretch of I-94 has also been found to be the most dangerous stretch of I-94 in Michigan.
Additional Reporting: *Pileup shuts down part of I-75*

Snow, subzero wind chills continue to hit Muskegon; advisory remains
(MLive)
Muskegon, MI: The combination of lake-effect snow and subzero wind-chill temperatures is making for another blustery day in the Muskegon area. The area remains under a winter weather advisory through 7 a.m. Tuesday and a hazardous

weather outlook featuring slippery road conditions and reduced visibility. Based on information from the National Weather Service, about 7 inches of snowfall has been recorded since Saturday morning. For the month of January, that increases the Muskegon County snowfall total to nearly 28 inches, well above the normal total for January on this date of 16.2 inches. Nearly 30 inches fell in Muskegon County by this date in January 2015. Lake-effect snow showers are expected to create hazardous travel conditions for much of West Michigan for the rest of the day and tonight, according to the National Weather Service. An additional 2 to 5 inches of snow is in the forecast for today and Tuesday morning. For today and tonight, wind-chill values are expected to range from zero to 10-below. According to the weather advisory, snowflakes will continue to be relatively small, making blowing and drifting snow possible with 25 mph wind gusts.

Forecast: Wind chill advisory expires, moderately warmer weather on the way
(Chicago Tribune)
Chicago, IL: A wind chill advisory expired at noon Monday following dangerously cold weather in the Chicago area and northwest Indiana, but a break is coming. National Weather Service meterologist David Beachler said moderately warmer weather is on the way. "Tuesday, temperatures will be in the high teens and in the mid- to upper 20s on Wednesday," Beachler said. There is also the possibility of a dusting to an inch of snow Wednesday morning. The National Weather Service issued a wind chill advisory for Chicago stating that 20- to 25-below-zero wind chills were expected from 9 p.m. Sunday to noon Monday. Some suburbs near the city were expecting 30-below-zero wind chills. The coldest conditions were expected around daybreak Monday. Officials warn that exposing unprotected skin to those types of wind chills can cause frostbite in as little as 30 minutes.

The temperature has crawled above zero degrees at Minneapolis-St
(Associated Press)
Minneapolis, MN: The temperature has crawled above zero degrees at Minneapolis-St. Paul International Airport. The National Weather Service says the airport hit the zero mark around 2 p.m. on Monday, ending around 46 consecutive hours of subzero temperatures since 4 p.m. Saturday. It was still 1 above at 4 p.m. But the wind chills remain bitterly cold with minus-17 at the airport and in the teens below across much of Minnesota. Subzero wind chills are expected to linger into the night. Some schools that weren't closed for Martin Luther King Day canceled or delayed the start of classes because of the bitter cold. Forecasters expect temperatures to return to the 20s on Wednesday and say they could hit 30 on Saturday.

LAW ENFORCEMENT & CYBERSECURITY

Super Bowl Security: Federal Officials Mull Whether Attack on Fiber Optic Systems Connected to 'Plot' Against Super Bowl
(NBC News)
National: As Super Bowl 50 approaches, government security officials are examining whether recent attacks on fiber optic systems in California could be connected to a "more complex plot" against the game. A series of unsolved incidents -- in which fiber optic cables in the Bay Area were deliberately severed -- is one of several risks detailed in an internal memo shared by the FBI and U.S. Department of Homeland Security intelligence analysts in the lead-up to Super Bowl 50 on Feb. 7. The memo, obtained by the News4 I-Team, says "the FBI and DHS have no information to indicate any specific, credible threats to or associated with Super Bowl 50 or related events." But it also details the attacks against the fiber optic systems, the threat of drones against the game and potential game-day attacks in crowded spaces just outside Levi's Stadium in Santa Clara, the host site of Super Bowl 50. The memo acknowledges lone wolf attackers "are of particular concern" to the game due to their ability to remain undetected before attacking. The severed fiber optic cables "raise] the concern individuals may be using these incidents to test and prod network durability in conjunction with a more complex plot," the memo said. Separate FBI records reviewed by the I-Team show at least 10 fiber optics cables were deliberately severed between July 2014 and June 2015, and Michele Ernst, a spokeswoman for the FBI's San Francisco field office, said there have been 15 attacks against fiber optic lines in the region since 2014. Most of the incidents occurred in San Jose, Fremont and Walnut Creek, California. Though San Jose is within five miles of Levi's Stadium, the other incidents occurred more than 20 to 40 miles away. A U.S. Department of Homeland Security spokesman characterized the memo and its findings as an "assessment" of threats and risk. He would not comment on the specific implications of the fiber optic attacks. However, homeland security analysts caution against overreacting to such assessments.

PUIBLIC HEALTH & SAFETY

Frigid air slows efforts to euthanize turkeys in Indiana
(Associated Press)
Indianapolis, IN: Frigid temperatures are hampering efforts to euthanize turkeys at several southwestern Indiana farms where a strain of bird flu was found last week, freezing the hoses used to spread a foam that suffocates the affected flocks, a spokesman for a state agency said today. The H7N8 virus was discovered on 10 turkey farms in Dubois County, which is Indiana's top poultry-producing county, last week. Temperatures that dipped into the teens and single digits over the weekend stymied efforts to fill the affected poultry barns with the foam to a level just above the turkeys' heads to suffocate them, said Denise Derrer of the Indiana State Board of Animal Health. "The water's been freezing up. It's slowing things down, but we're doing the best we can," she said. Derrer said state workers, staff from the U.S. Department of Agriculture and others have been using carbon dioxide gas instead of the foam. Other turkeys are being killed manually with a device that delivers a fatal head injury, but that method is slow and inefficient, she said. As of today, nearly 120,000 turkeys had been killed on four of the farms, while efforts to euthanize about 121,000 turkeys continued on six other farms. The H7N8 strain is different than the H5N2 virus that led to the deaths of 48 million birds last summer, mostly in the upper Midwest. The first farm where H7N8 was found had a highly contagious form of the virus, Derrer said, but tests by USDA staff have shown eight of the other nine turkey farms have a "low pathogenic" form, meaning the birds are more likely to get sick but not die. The results also suggest that the outbreaks were caught earlier in the disease cycle before the virus had a chance to mutate and become more virulent. Test results on viral samples taken from the ninth farm are still pending. All of the affected farms were within six miles of the first one; officials are still monitoring other farms and backyard flocks within that distance, Derrer said.

FEMA REGION V OVERNIGHT SITUATIONAL AWARENESS REPORT (OSAR)
DATE: 01/19/2016

REGION V RESPONSE STATUS:
- **RRCC:** Watch / Steady State
- **IMAT:** Deploying to MI SEOC (with elements of collateral IMAT Alpha)
- **LNO:** Cornelius Miller
  - Two (2) LNOs are deployed to the Michigan SEOC

REGION V SEOC STATUS:
- **Illinois:** Partial Activation (*Flooding*)
- **Indiana:** Partial Activation *(Animal Health Emergency)*
- **Michigan:** Full Activation *(Water Emergency)*
- **Minnesota:** Normal Operations
- **Ohio:** Normal Operations
- **Wisconsin:** Normal Operations

NATIONAL TERRORISM ADVISORY SYSTEM (DHS): Bulletin (12/16/2015 – 06/16/2016)

NOTEWORTHY EVENTS: Nothing to report

SIGNIFICANT WEATHER (NWS):
- **Today:** Snowfall and a winter mix is forecast across southern Illinois and Indiana; 2-4 inches of snowfall is possible. Lake effect snowfall is forecast to diminish this morning in southwestern Michigan.
  - Winter Storm Watch is in effect for far-southern Illinois tonight through Wednesday morning due to moderate to heavy snowfall with periods of sleet and icing; up to 4 inches of snow and 0.1 inches of icing are forecast
  - Winter Weather Advisories are in effect from late tonight until the early Wednesday across southern Indiana, southern Illinois, and southwestern Ohio. Additional Advisories are in effect for southwestern Michigan due to lake effect snow until 1100 CST, today.
  - Wind Chill Advisories are in effect across Ohio through the morning hours, today
  - Lake Effect Snow Warnings are in effect until 0800-1100 CST, today for northeastern Ohio; 1-4 inches of additional snowfall are likely
- **Wednesday:** No severe weather or significant precipitation is forecast
- **Thursday:** Snowfall, winter mix, and freezing rain are forecast across southern Illinois, Indiana, and Ohio; 0.1-0.1 inches of icing and 2-4 inches of snowfall are possible. Isolated areas of far-southern Indiana could receive up to 0.25 inches of icing.

HYDROLOGIC CONDITIONS (AHPS): Flood Warnings, Watches, and Advisories remain in effect in Illinois, Michigan, Wisconsin, and Indiana due to previous rainfall and ongoing ice jam flooding. There are 2 river gauges in Moderate Flood stage in the state of Illinois; no significant impacts reported.

FIRE CONDITIONS (SPC): Nothing to report

REGION V DISASTER SUMMARY:

- **Disaster Declarations:** FEMA-3375-EM provides emergency assistance for water, water filters, water filter cartridges, water test kits and other necessary related items for a period of no more than 90 days for Genesee County, Michigan.
- **Declaration Requests:** None
- **PDA Requests:** None

FEMA REGION V OPEN SOURCE SUMMARY (OSS)

Regional Points of Interest

Tuesday, January 19, 2015

REGIONAL WEATHER & IMPACTS

Frigid temperatures, winter weather spread across the country

(WTHR)

Chicago, IL: El Nino may have slowed the start of winter, but this week it is in full-force from the Midwest through the East Coast. Snow, ice and extreme cold have arrived for many, and on the way for many more. Plows struggled to keep the pace as snow and ice turned the morning drive into a demolition derby in Syracuse, New York, with more than three dozen accidents. It was a tough go in New England as well. Near white-out conditions led to accidents and some anxious moments behind the wheel in Connecticut. "It makes it dangerous, the roads slippery, just a hot mess, you're eyes get all watery," said Eryn Ifill of New Haven. Even walking was tough in places like Chicago, where sub-zero temperatures forced commuters to bundle up. Forecasters say conditions will get even worse by the end of the week.

Weather conditions were perfect for a deadly pileup

(MLive)

Hartford, MI: A deadly pileup occurred Sunday afternoon, January 17, 2016. The weather conditions were perfect for creating dangerous driving conditions. Lake effect snow was widespread in the western half of Lower Michigan Sunday, January 17, 2016. The drivers in the pileup area on I-94 around Hartford likely encountered rapidly deteriorating weather conditions. In fact, traffic coming from the west probably hadn't encountered much snow at all as they drove around the south end of Lake Michigan. As they drove into the stretch from St. Joseph, MI to Kalamazoo, MI, they started driving into lake effect snow bands. At some point in that stretch, possibly near the pileup at Hartford, the lake effect snow rapidly became heavy. Look at the high resolution satellite. It shows only scattered clouds at the south end of Lake Michigan. Just northeast, in Michigan, you can see the brighter, bumpier heavy lake effect bands. At the time of the crash there were spurts of moderate to heavy snow in that area, along with west winds gusting to 23 mph. Combine these two weather conditions with the nature of the snow, powdery and dry, and you have perfect conditions for whiteouts, or brief whiteouts created by vehicles. The west wind was a dangerous wind. This wind didn't produce lake effect in Indiana, like a northwest wind would. If drivers had encountered lake effect in northern Indiana, they likely would have been slowed down as they hit the dangerous stretch of I-94 in Van Buren County. Sunday's crashes occurred about 50 miles west of the site of a 193-car pileup in eastern Kalamazoo County during a winter storm Jan. 9, 2015. This stretch of I-94 has also been found to be the most dangerous stretch of I-94 in Michigan.

Additional Reporting: *Pileup shuts down part of I-75*

Snow, subzero wind chills continue to hit Muskegon; advisory remains

(MLive)

Muskegon, MI: The combination of lake-effect snow and subzero wind-chill temperatures is making for another blustery day in the Muskegon area. The area remains under a winter weather advisory through 7 a.m. Tuesday and a hazardous weather outlook featuring slippery road conditions and reduced visibility. Based on information from the National Weather Service, about 7 inches of snowfall has been recorded since Saturday morning. For the month of January, that increases the Muskegon County snowfall total to nearly 28 inches, well above the normal total for January on this date of 16.2 inches. Nearly 30 inches fell in Muskegon County by this date in January 2015. Lake-effect snow showers are expected to create hazardous travel conditions for much of West Michigan for the rest of the day and tonight, according to the National Weather Service. An additional 2 to 5 inches of snow is in the forecast for today and

Tuesday morning. For today and tonight, wind-chill values are expected to range from zero to 10-below. According to the weather advisory, snowflakes will continue to be relatively small, making blowing and drifting snow possible with 25 mph wind gusts.

Forecast: Wind chill advisory expires, moderately warmer weather on the way
(Chicago Tribune)
Chicago, IL: A wind chill advisory expired at noon Monday following dangerously cold weather in the Chicago area and northwest Indiana, but a break is coming. National Weather Service meterologist David Beachler said moderately warmer weather is on the way. "Tuesday, temperatures will be in the high teens and in the mid- to upper 20s on Wednesday," Beachler said. There is also the possibility of a dusting to an inch of snow Wednesday morning. The National Weather Service issued a wind chill advisory for Chicago stating that 20- to 25-below-zero wind chills were expected from 9 p.m. Sunday to noon Monday. Some suburbs near the city were expecting 30-below-zero wind chills. The coldest conditions were expected around daybreak Monday. Officials warn that exposing unprotected skin to those types of wind chills can cause frostbite in as little as 30 minutes.

The temperature has crawled above zero degrees at Minneapolis-St
(Associated Press)
Minneapolis, MN: The temperature has crawled above zero degrees at Minneapolis-St. Paul International Airport. The National Weather Service says the airport hit the zero mark around 2 p.m. on Monday, ending around 46 consecutive hours of subzero temperatures since 4 p.m. Saturday. It was still 1 above at 4 p.m. But the wind chills remain bitterly cold with minus-17 at the airport and in the teens below across much of Minnesota. Subzero wind chills are expected to linger into the night. Some schools that weren't closed for Martin Luther King Day canceled or delayed the start of classes because of the bitter cold. Forecasters expect temperatures to return to the 20s on Wednesday and say they could hit 30 on Saturday.

LAW ENFORCEMENT & CYBERSECURITY

Super Bowl Security: Federal Officials Mull Whether Attack on Fiber Optic Systems Connected to 'Plot' Against Super Bowl
(NBC News)
National: As Super Bowl 50 approaches, government security officials are examining whether recent attacks on fiber optic systems in California could be connected to a "more complex plot" against the game. A series of unsolved incidents -- in which fiber optic cables in the Bay Area were deliberately severed -- is one of several risks detailed in an internal memo shared by the FBI and U.S. Department of Homeland Security intelligence analysts in the lead-up to Super Bowl 50 on Feb. 7. The memo, obtained by the News4 I-Team, says "the FBI and DHS have no information to indicate any specific, credible threats to or associated with Super Bowl 50 or related events." But it also details the attacks against the fiber optic systems, the threat of drones against the game and potential game-day attacks in crowded spaces just outside Levi's Stadium in Santa Clara, the host site of Super Bowl 50. The memo acknowledges lone wolf attackers "are of particular concern" to the game due to their ability to remain undetected before attacking. The severed fiber optic cables "raise] the concern individuals may be using these incidents to test and prod network durability in conjunction with a more complex plot," the memo said. Separate FBI records reviewed by the I-Team show at least 10 fiber optics cables were deliberately severed between July 2014 and June 2015, and Michele Ernst, a spokeswoman for the FBI's San Francisco field office, said there have been 15 attacks against fiber optic lines in the region since 2014. Most of the incidents occurred in San Jose, Fremont and Walnut Creek, California. Though San Jose is within five miles of Levi's Stadium, the other incidents occurred more than 20 to 40 miles away. A U.S. Department of Homeland Security spokesman characterized the memo and its findings as an "assessment" of threats and risk. He would not comment on the specific implications of the fiber optic attacks. However, homeland security analysts caution against overreacting to such assessments.

PUIBLIC HEALTH & SAFETY

Frigid air slows efforts to euthanize turkeys in Indiana
(Associated Press)
Indianapolis, IN: Frigid temperatures are hampering efforts to euthanize turkeys at several southwestern Indiana farms where a strain of bird flu was found last week, freezing the hoses used to spread a foam that suffocates the affected flocks, a spokesman for a state agency said today. The H7N8 virus was discovered on 10 turkey farms in Dubois County, which is Indiana's top poultry-producing county, last week. Temperatures that dipped into the teens and single digits over the weekend stymied efforts to fill the affected poultry barns with the foam to a level just above the turkeys' heads to suffocate them, said Denise Derrer of the Indiana State Board of Animal Health. "The water's been freezing up. It's slowing things down, but we're doing the best we can," she said. Derrer said state workers, staff from the U.S. Department of Agriculture and others have been using carbon dioxide gas instead of the foam. Other turkeys are being killed manually with a device that delivers a fatal head injury, but that method is slow and inefficient, she said. As of today, nearly 120,000 turkeys had been killed on four of the farms, while efforts to euthanize about 121,000 turkeys continued on six other farms. The H7N8 strain is different than the H5N2 virus that led to the deaths of 48 million birds last summer, mostly in the upper Midwest. The first farm where H7N8 was found had a highly contagious form of the virus, Derrer said, but tests by USDA staff have shown eight of the other nine turkey farms have a "low pathogenic" form, meaning the birds are more likely to get sick but not die. The results also suggest that the outbreaks were caught earlier in the disease cycle before the virus had a chance to mutate and become more virulent. Test results on viral samples taken from the ninth farm are still pending. All of the affected farms were within six miles of the first one; officials are still monitoring other farms and backyard flocks within that distance, Derrer said.

EMERGENCY MANAGEMENT

Effort to collect bottled water for Flint gets help from Detroit businesses
(MLive)
Flint, MI: Schools and religious groups in Metro Detroit have been collecting bottled water for shipment to Flint residents, who are facing a crisis of contaminated tap water, and a pair of influential figures joined the effort on Martin Luther King Day. Wayne County Register of Deeds Bernard Youngblood on Monday announced a call a collection drive at his office. "Over 80,000 people visit the registers office each year, and over of 500 individuals on peak days," Youngblood said. "If each person would bring in one bottle of water, collectively that adds up to a significant help." And by Monday afternoon, he got a call from Maria Gatzaros owner of Detroit-area restaurants Fishbones and the London Chop House, offering broader reach for the collection effort. Youngblood said bottled water donations will be accepted at Fishbones locations in Southfield, St. Clair Shores and in Detroit's Greektown. Another company owned by Gatzaros, LED lighting manufacturer America's Green Line, will be transporting the donated water to Flint, Youngblood said.

National Guard boosts presence in Flint to aid water crisis
(Associated Press)
Flint, MI: The National Guard is boosting its presence in Flint as part of an effort to assist in dealing with the city's drinking water crisis. The state says about 70 guard members will be stationed today in Flint, more than double the earlier number in place. Officials say teams visited nearly 5,000 Flint homes Sunday, providing free bottled water, filters, replacement cartridges and water testing kits. To improve water testing, the state says residents may drop off samples using official kits at five sites. The water became contaminated after Flint switched from the Detroit water system to the Flint River as a cost-cutting move. The corrosive water lacked adequate treatment and caused lead to leach from old pipes. On Saturday, President Obama signed an emergency declaration.

State Responds To Avian Flu In Dubois County
(WBIW)
Dubois Co, IN: United States Department of Agriculture's (USDA) Animal and Plant Health Inspection Service (APHIS) has confirmed the pathogenicity of eight of the nine H7N8 avian influenza detections announced on January 16. Eight flocks have been confirmed as low pathogenic avian influenza, with additional testing ongoing for the ninth. There were no new positive tests overnight, but aggressive testing continues inside the 10-km control area. In the last 24 hours, commercial farms have yielded an additional 100 negative tests for avian influenza. State and federal teams have visited 503 residences in the control area to identify any small flocks for testing. Tests are pending on 17 small flocks. Confirmed cases of Avian Flu have been found in Dubois County. State, local and federal agencies are working together on containment and depopulation operations. An estimated 119,500 birds have been humanely euthanized on four premises, with another six premises containing approximately 121,400 birds currently underway. The control area is primarily in Dubois County, and has expanded to include parts of Crawford, Daviess, Martin and Orange counties. All infected sites are in Dubois County. A Unified Incident Command Post (UCP) has been established in Jasper, Indiana. The post is staffed by a state Incident Management Team, along with federal and local partners. State Agencies supporting activities in the UCP: The State Board of Animal Health, Indiana State Department of Agriculture, Indiana Department of Homeland Security, Indiana Department of Natural Resources, Indiana State Department of Health, Indiana Department of Environmental Management, Indiana Department of Correction, Indiana State Police and mental health services teams from the Family and Social Services Administration. The United States Department of Agriculture has approximately 50 representatives, along with private contractors, in Dubois County assisting with state and local efforts. A National Incident Management Team will be arriving in Indiana this weekend to help coordinate efforts.

U.S. deploys newly minted bird flu plan to protect humans, poultry
(Reuters)
Chicago, IL: U.S. farm and health officials are racing to assess the threat that a type of bird flu never before seen in the country poses to humans and poultry, employing emergency plans drawn up in the wake of a devastating outbreak in birds last year. The federal government sprang into action on Friday after confirmation overnight that the virus had hit an Indiana turkey farm, alerting other states to the danger and putting workers who might have been exposed to the virus under surveillance. Last year's outbreak led to the deaths of more than 48 million chickens and turkeys, either killed by the virus or culled to contain it. Even if the response is fast, the government's ability to contain the disease is far from certain. Officials have never dealt with this strain before, and wild birds are thought to spread the disease to farms through feces dropped from the air, making infections difficult to prevent. U.S. officials have taken to heart lessons from last year's outbreak, when USDA workers could not always kill infected flocks fast enough to contain the virus. Workers are now trying to cull sick flocks within 24 hours of diagnoses, following a goal the agency set in the autumn. Most turkeys at the infected farm were killed within a day, but it was 29 hours before all were dead, said Denise Derrer, spokeswoman for the Indiana State Board of Animal Health. No human infections associated with the new strain have ever been reported, according to the USDA.

FEMA

MAY 20 2014

The Honorable Earl Ray Tomblin
Governor of West Virginia
1900 Kanawha Boulevard
Charleston, West Virginia 25305

Dear Governor Tomblin:

This is in response to your May 8, 2014, appeal for a major disaster declaration for the State of West Virginia as a result of the severe water outage following the chemical spill on January 9, 2014. You specifically appealed the denial of your request for emergency protective measures (Category B), including direct federal assistance, under the Public Assistance program for nine counties and Hazard Mitigation statewide.

On January 10, 2014, emergency declaration FEMA-3366-EM was declared as a result of the chemical spill during the period of January 9-20, 2014. The emergency declaration and subsequent amendments authorized emergency protective measures (Category B), including direct federal assistance, for the nine requested counties. The reimbursement for emergency protective measures was limited to those measures taken during the incident period of January 9-20, 2014.

After a thorough review of all the information contained in the initial request and your appeal, we reaffirm our original findings that the event does not meet the legal definition of a "major disaster" under 42 U.S.C. § 5122. Furthermore, it has been determined that the assistance provided under FEMA-3366-EM is sufficient to meet the needs of the event. Therefore, I must inform you that your appeal for a major disaster declaration is denied.

Sincerely,

W. Craig Fugate
Administrator

Attachments: 2016-2.pdf

Good afternoon everyone,

Just wanted to follow up regarding committee tomorrow (Wednesday) morning at 9:00 a.m. in the House Appropriations Room, 352 Capitol Building.

I just spoke with Chairman Pscholka's Office, and the committee now plans to take up the Flint emergency supplemental as their first order of business. They will have House Fiscal Agency do an overview of the whole supplemental, followed by testimony from Capt. Kelenske on Flint emergency efforts to date. They hope to avoid having to bring any other departments up for questions, but I told them that representatives from each department will be present should the need arise. Please let me know if you have any questions.

Thank you for all your help. See you in the morning.

SUBJECT: Supplemental Request 2016-2

Attached please find supplemental recommendations for fiscal year 2016 to address Flint emergency needs. Medium and long-term needs are still being assessed and will be addressed in a future supplemental request. This supplemental contains requests for the departments of Education, Environmental Quality, Health and Human Services, Licensing and Regulatory Affairs, Military and Veterans Affairs and State Police.

Action on this supplemental is requested by the end of January.

If you have any questions regarding this request, please contact Nancy Duncan at (517) 373-0870.

Sincerely,

John S. Roberts
State Budget Director

DEPARTMENT OF EDUCATION

(1) APPROPRIATION SUMMARY

GROSS APPROPRIATION	$	935,000
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	935,000
Federal revenues:		
Federal funds		0
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		0
State general fund/general purpose	$	935,000
(2) SCHOOL SUPPORT SERVICES		
Flint declaration of emergency	$	935,000
GROSS APPROPRIATION	$	935,000
Appropriated from:		
Special revenue funds:		
State general fund/general purpose	$	935,000

BOILERPLATE:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities:

(a) Hiring additional school nurses.

(b) In the intermediate school district in which the declaration of emergency has been made, providing Early On and special education

services, coordinating wraparound services, providing nutritional snacks to elementary students, and providing and coordinating communications for parents, educators, and the community.

EXPLANATION:

This supplemental provides partial year funding for the hiring of 9 additional school nurses for the School District of the City of Flint. It also provides funding to Genesee Intermediate School District to support the hiring of 2 Early On service coordinators, a psychologist, and a health professional to coordinate the provision of wraparound services. In addition, funding to Genesee Intermediate School District will provide fresh fruit and vegetable snacks to elementary students in Genesee County and allow for coordination of communication for parents, educators and the community.

	ENVIRONMENTAL QUALITY		
	(1) APPROPRIATION SUMMARY

GROSS APPROPRIATION		$	5,786,500
	Appropriated from:		
	Special revenue funds:		
State general fund/general purpose		$	5,786,500

BOILERPLATE:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities:

(a) Water system needs

(b) Potential payment to city of Flint to aid with utility issues

(c) Lab and testing costs

(d) Corrosion control procedures

(e) Infrastructure integrity study using outside experts

EXPLANATION:

This supplemental provides funding to address immediate needs resulting from the January 5, 2016 Declaration of Emergency which includes parts of the City of Flint within the County of Genesee. Specifically, this request includes funding for an infrastructure integrity study to assess the status of the infrastructure that supports the Flint water system and additional lab and testing costs in DEQ to handle the additional volume of testing required to address the emergency. Funds to assist the city of Flint include payment for corrosion control procedures for one year, potential payment to the city of Flint to aid with utility issues, and additional water system needs.

	HEALTH AND HUMAN SERVICES		
	(1) APPROPRIATION SUMMARY		
GROSS APPROPRIATION		$	17,207,000
	Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers			0
ADJUSTED GROSS APPROPRIATION		$	17,207,000
	Federal revenues:		
Total other federal revenues			2,845,000
	Special revenue funds:

Total other state restricted revenues			2,552,000
State general fund/general purpose		$	11,810,000
	(2) LOCAL HEALTH ADMINISTRATION AND GRANTS		
Flint declaration of emergency		$	17,207,000
GROSS APPROPRIATION		$	17,207,000
	Appropriated from:		
	Federal revenues:		
Total other federal revenues			2,845,000
	Special revenue funds:		
Total other state restricted revenues			2,552,000
State general fund/general purpose		$	11,810,000

BOILERPLATE:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities:

(a) Purchases of bottled water, water filters and replacement cartridges.

(b) DHHS field operations costs.

(c) Epidemiological analysis and case management of individuals with elevated lead blood levels.

(d) Nutrition support and community education.

(e) Support for child and adolescent health centers and Children's Healthcare Access Program.

(f) Assessment of potential linkages to other diseases.

(g) Food inspections.

(h) Crisis counseling and behavioral health services.

EXPLANATION:

This supplemental proposes a total of $17.2 million in the Department of Health and Human Services to address the water emergency in the City of Flint. $8.0 million is provided for the purchase of bottled water, water filters, faucet mounts, and replacement cartridges which will be distributed in partnership with the State Emergency Operations Center. Additional water resources are expected to be necessary during fiscal year 2016.

Remaining supplemental funding is expected to support local Community Mental Health organizations in the treatment of individuals with elevated lead blood levels, including diagnostic testing, nurse visits, environmental assessments, and crisis counseling. These funds will also support two existing child and adolescent health centers, the Children's Healthcare Access Program, and additional medical support services in every school in Flint as well as funding for nurse case management, community education and additional lead investigations. Funding will be used to support food inspections at licensed food establishments to be conducted by the Genesee County Health Department and increased nutrition support by Women, Infants,

and Children (WIC) Food and Nutrition Program staff, including education, screening, and a lactation consultant at Genesee County. These supplemental funds will also support two epidemiologists who will conduct blood lead level analyses on zip codes in the City of Flint and provide for assessments by contractual staff of potential linkages to other conditions such as Legionnaire's Disease.

Subject: Media at the warehouse

Capt and Tony, (I have not been in contact with the JIC so I'm not sure if they need this info or not)

I was informed at 8:30 pm that The Today Show (which actually is the 1/2 show before the Today Show) was broadcasting live at the warehouse tomorrow (1/20) morning. This was news to me, as well as you. After further investigation, it was determined that the JIC was aware of it but that it was the ARC PIO that set it up. The purpose of the piece was to highlight the volunteer reception center. I contacted Lauren Twohig with American Red Cross, who contacted the man in charge of that chapter or region, Dave Guiterrez. He was also unaware of this event. After some fact-finding, he contacted his PIO at HQ in Washington DC to get some advice on what to do. The PIO advised that the location should be moved to the ARC Flint HQ where the Volunteer Reception Center was taking place and it should not happen at the warehouse. He contacted the warehouse manager to tell her she was not needed at 4:30 am for set up and I confirmed. I also notified LT Russo who is down there assigned to the warehouse for the next couple of days to assist with an inventory project. He contacted the owner to notify him that the warehouse did not need to be open at 4:30 am. Again, I have not been in contact with the JIC at all, so I'm not sure if they need to know this or not.

I just wanted you to know how this all happened while it was still fresh in my mind. There are more details that I will share in person tomorrow. Goodnight.

Subject: SEOC Update 1/19/16 - Flint Water - Limited Distribution
Attachments: 2015-10-01 City of Flint Water Contamination-Shortage SitRep 14 2016-01-....pdf

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard/state/local agency, type 3 teams l), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 11 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- Information reported to the JIC:
  - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots.
   a. Number of cases of water 77,794
   b. Filters 69,730
   c. Filter cartridges 184,457
   d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard State type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Developed local EOC Sit Rep #9.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/19/2016 08:00:00
Operational Period End:	01/26/2016 08:00:00
Situation Report No.	14
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/19/2016 08:00:00
SEOC Hours of Operation End:	01/19/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 19):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics
o Worked with FEMA to order water and filter cartridges.
o Worked with DHHS to order filter pitchers for distribution.
o Coordinated resources and needs with donations management.
o Working with Red Cross to provide relief teams for warehouse manager.
o Continuing inventory monitoring and hot shots tracking.
o Projecting future orders of water resources and commodities.

- JIC
o Shared water activity map with Media last night and this evening.
o Issued news release concerning donations.
o Worked with FEMA external affairs to schedule Legislative and Congressional call for tomorrow.
o Comcast has put filter installation video on the On Demand section.

- Recovery Branch
o Continued coordination with Red Cross on volunteers and the Michigan National Guard for Wednesday and Thursday.
o Confirmed team typing for Flint Water Resource Teams.
o Sent out 5 type 3 and 10 types 5 teams to canvass today.

o Data is for 1/19/16 as of 5:00 pm:
o Total homes visited.
- 22,129 (total).
- 2,715 (today).

o Door Hangers.
- 9,851 (total).
- 1,163 (today).

o Water Cases.
- 6,103 (total).
- 789 (today).

o Replacement Cartridges.
- 3,795 (total).
- 322 (today).

o Faucet Filters.
- 7,394 (total).
- 730 (today).

- Planning Section.
o Published Sit Rep #14.
o Incorporated outstanding data from Red Cross, warehouse, and hotshots into daily total.
o Updated staff assignments for the Planning group.
o Identified staff to assist with data entry of daily Red Cross field team worksheets.
o Worked with FEMA to clarify data reporting method and schedule.
o Participated in daily SEOC briefings and distribution process conference calls.

- Operations Section
o Facilitated daily SEOC briefing calls.
o Held logistics meeting with FEMA in reference to resources available and need for ordering.
o Held logistics meeting in reference to National Guard deployment.
o 71 American Red Cross Volunteer active across incident today.

o Warehouse Numbers:
❑ Whole warehouse being inventoried, numbers will be available at 0800 tomorrow morning.
o Point of Distribution (as of 6 pm)
❑ Contacts.
• 1,822.
❑ Water (cases)
• 9,559.
❑ Filters (faucet)
• 1,409.
❑ Replacement Cartridges
• 534.
❑ Filters (pitcher)
• 89.
❑ Test kits
• 1,127.

• Finance Section.
o Continue to revamp spending plan and cost tracking.
o Work with FEMA to determine costs for possible reimbursement for Flint emergency.
o Meet with FEMA IMAT about Public Assistance.

• GIS Branch Updates.
• Revamped daily planning maps for Field Teams to refine operational areas and begin preparations for phase II team deployments.
• Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
• Configured an interface with AGOL to allow MDARD to live update food and water establishment statuses as it relates to the incident.
• Coordinated with Flint City GIS to gather total counts for buildings and units per parcel.
• Built a data entry tool and deployed to the documentation unit for paper forms from field teams.
• Met with FEMA GIS Coordinator, Scott Bailey. He will be granted access to the GIS viewers to prepare maps for federal partners.
• Built plan to revamp dashboards used in SEOC to accommodate large volumes of traffic and ensure stability.
• Received tasker for updating app for Phase II of team deployments.
• Fixed accounts for iPad's that were failing in the field and brought them back online.
• Coordination continued with U of M Flint.

DTMB:
• Drivers have been extended through Saturday to support the canvassing efforts.
• Working on securing space in the flint office building for FEMA staff.
• Additional vehicles being delivered to support the canvassing effort.

DHHS-CH
• Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint.
• Discussed with SAMSA to talk about grants available and the DBH hotline.
• Ordered EPA pamphlets concerning nutrition plan for distribution.

DEQ
• 7,200 sample bottles delivered today and 7,200 more coming in tomorrow.
• 14,000 sample bottles will be delivered tomorrow.

Local EOC Update:
• Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
• Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
• Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
• Developed SitRep #9.
• Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 19.

State agencies at the JIC today included the Michigan State Police, and Departments of Licensing and Regulatory Affairs, Insurance and Financial Services, Agriculture and Rural Development, Michigan Economic Development Corporation, and Michigan Community Service Commission. The Genesee County Sheriff's Office was also present.

Tasks accomplished:
- Pushed the 1/18 water activity map on social media.
- Issued news release #09 regarding donations.
- Posted social media content regarding donations.
- Worked with FEMA External Affairs to organize a congressional/legislative conference call for tomorrow at 2:30 p.m.

• Updated daily internal talking points and general talking points.
• Confirmed the water filter video is now on available on Comcast On-Demand. The public service announcement began running Monday, Jan. 18., although it may take a couple of days for all cable boxes to receive the updated content.
• Monitored news media and social media for trends and misinformation. No corrections to news stories were required.
o Topics being covered included:
□ Democratic debate mention by Hillary Clinton
□ Flint as Governor Snyder's Hurricane Katrina
□ Class-action lawsuits filed today against the state
□ State of the State speculation – Flint water plan
□ President Obama possibly meeting with Flint Mayor in D.C. today

• Drafted a news release with the nightly water activity numbers – however, a decision was made in consultation with the Governor's Communications Office that this release will be held until 8:30 a.m. tomorrow (1/20) so as not to conflict with the numbers the Governor gives during his 7 p.m. State of the State address tonight.

Agriculture and Rural Development (MDARD)

Tuesday Jan 19, updated and planned for MDARD FDD ICS sampling team and environmental assessment of the food and food service establishments in the Flint water distribution zone. Including location of training for the team and staging area for the sampling supplies and return of collected samples collocated at the Genesee Co. EOC. MDARD FDD ICS sampling team will be starting to do evaluations Wednesday afternoon. Additionally, we may start collecting water samples Thursday morning depending upon requests for samples from Food and Food Service establishments.

Resolved question about one of the locations in USA Herds with a Flint address appears to be in an area served by City water; though the premise is listed as inactive in our database, the firm was visited and found to inactive with no animals on site.

Continued coordination with the FDA Detroit District office for food establishments with joint jurisdiction in the Flint water distribution area.

American Red Cross (ARC)

The American Red Cross resumed assembly of water test kits today at ARC headquarters.
We deployed and supported 11 teams for neighborhood canvassing (Water Response).
We supplied lunches for all of the Water Response Teams today, and will feed all of the teams again tomorrow.
The volunteer reception center (VRC) was in full operation Tuesday. 31 volunteers were processed today. The VRC will be in operation on Wednesday.
We continued warehouse and inventory management efforts.
A total of 71 Red Cross volunteers were active on this operation today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Also monitoring media and coverage of rallies and events.

Community Health (MDCH)

White House press release identified the Department of Health and Human Services (DHHS) as the lead for the federal government response to the public health crisis in Flint. This means that HHS will, in collaboration with FEMA, will identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), and the Departments of Housing and Urban Development (HUD), Education and Agriculture (USDA) – that are already working to help residents in Flint.

The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure. HHS will have a team on the ground in Flint this week. The team will be led by Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR). Dr. Lurie will begin engaging with state and local officials today and will travel to Flint tomorrow (1/20/16).

In order to fully leverage the Department's strengths, the HHS team will include HHS Acting Assistant Secretary for Health Dr. Karen DeSalvo, whose office manages the President's Task Force on Environmental Health and Safety Risks to Children, and who will be the primary interface with state and local public health officials. Two U.S. Public Health Service Commissioned Corps officers will also help with the day-to-day responsibilities in Flint.

Confirmed with MDHHS PIO and Tom Page (Executive Director for 2-1-1) that two new websites (helpforflint.com and Flintkids.org) will be announced during the State of the State Address this evening, instructing individuals interested in volunteering or making a donation to go to those links to do so. Also, confirmed that the Governor's Office and 2-1-1 are prepared to accept an influx of calls as a result of the Governor's State of the State Address.

Updated resource request for EPA pamphlets, to include an order for an additional 3,000 in Spanish. Communicated this with logistics. Shipment locations and POC were confirmed with SEOC logistics. EPA confirmed that the shipment would be sent ASAP.

Commander Seligman, from SAMHSA, contacted MDHHS and confirmed the establishment of a Disaster Distress Helpline, which has been approved by the JIC. SAMHSA will issue the press release. This was communicated to the JIC and MDHHS PIOs. A conference call was held this afternoon with SAMHSA, CHECC DBH SMEs, and MDHHS EMCs to discuss getting the Disaster Distress Hotline up and running. Another call will be scheduled before the end of the week to discuss additional details before going "live." Genesee County Community Mental Health will also participate in this call.

The CHECC provided statistics depicting that the WebMD Medscape communication sent last week reached +64,000 healthcare providers in addition to +16,000 medical doctors, for a total of +80,000 recipients. This information was also provided to the MDHHS PIO.

Followed-up with LHD EPC regarding an inquiry received from the LEOC indicating that a family had been evicted from their home due to the children having high blood lead levels. The GCHD EPC was instructed to reach-out to the family in order to ensure, first and foremost, that if the children do have high blood lead levels that they receive the care and case management that is required. Secondly, to work with the local Health and Human Services office for housing assistance. The EPC was asked to contact the MDHHS EMC if this approach is unsuccessful, in order to close the loop.

CHECC provided a message on the MI-Volunteer Registry website that encourages registrants to volunteer to support Flint Water Response efforts taking place this week and into the weekend.

Corrections (MDOC)

Brent Travelbee, Mike Farmer and Todd Bechler on duty at the SEOC today.

OPERATIONAL PERIOD UPDATE: The new operational period is extended through Tuesday, January 26, 2016 at 0800 hours.

All previous requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution. Director Washington is providing full support to our assistance efforts.

We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources have reported today, Tuesday, January 19, 2016 as requested.

We are building up additional resources for Wednesday, January, 20, 2016. Additional vans will be needed for Water Resource Teams. We are working with DTMB to secure additional Fleet vehicles as well as reach out to facilities and parole/probation offices.

MDOC RESOURCES DEPLOYED: Tuesday, January 19, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(4) – 20' Box Trucks
(1) - 24' Box Trucks

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap

(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer

(1) – Pick-up Truck

(6) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks (This includes one that is broken and will be returning to Ionia tomorrow night for repair)

(7) – Hand Pallet Jacks

(6) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability

Staffing

There will be 22 staff members on site 21 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

Education (MDE)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

English Language Learners report from Flint Public School District (Flint Community Schools). Results show 338 total with 83% Spanish speakers; 6% Arabic; all others report less than 1%.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:
- Facilitated logistics for Michigan Department of Agriculture and Rural Development food establishment inspectors to meet at the

local Emergency Operations Center and provide for water test kits for their use.
• Facilitated logistics for bottle delivery and water test kit assembly.
• Coordination with ZeroWater, the Joint Information Center, State Emergency Operations Center staff and Michigan 2-1-1 for clarification for on Total Dissolved Solids meters.
• Coordinated sampling plan with local Emergency Operations Center and DEQ Drinking Water Laboratory for donated drinking water testing.
• Provided write up for definition of NSF/ANSI 53 certification and process to Operations Section Chief and Planning Section.

Human Services (MDHS)

Assist Logistics on obtaining model numbers and additional information regarding the Zero brand 23 cup and 8 cup water pitchers.
Zero 23 cup pitcher– Model #ZD-018
Zero 8 cup pitcher– Model #ZD-013D

Completed the delivery of two cell phones for MCSC to assist with their donation management processes.

Identified 2 conference rooms at Flint Stat Office Building for FEMA to use if they wish.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team.

The final two bubblers arrived at a Flint area Home Depot. They were picked up by LARA staff and successfully installed at the Freeman School today (1/19/16). LARA will now coordinate with DEQ to conduct water re-testing at Freeman Elementary.

LARA is continuing to work with DEQ to establish a schedule, for the next several weekends, to complete school water testing.

LARA / MIOSHA communicating with DEQ on possible use of MIOSHA lab and staffing.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed 33 Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of 67 Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of [Soldiers on State Active Duty:
at Genesee County EOC
-t Joint Information Center
at PODS
1 Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Ge see County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of ' Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Hand off to NWS Detroit for morning conference call weather forecast in progress. Estimated date when NWS Detroit will begin morning SEOC briefings and MICIMS posts is Tuesday, January 26.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

As of Friday, January 15th, VAAA and MDHHS-Adult Protective Services (APS) has provided AASA with over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

Prior to the State Declaration of Emergency, Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the GCARD, Genesee County Health Department and MDHHS, participated in the local ad-hoc response by helping organize local meetings and distributed water and water filters to VAAA Home Delivered Meal recipients. VAAA was also an I&A access point for receiving calls from homebound seniors who are not able to pick up water filters or needed assistance installing water filters. VAAA referred seniors needing filters to GCARD for follow-up. Because VAAA is a known and trusted local resource for older adults in Genesee County, they continues to receive calls from seniors needing access to water and filters.

State Police (MSP)

We had police agency teams that were deployed today with 11 Red Cross teams. 2770 homes have been visited today.

National Guard members will be at the Warehouse at 0830 on 1/20/16. Contact was made with Lt. Dehner with the request to have 10 patrol cars with troopers or deputies report to the Warehouse at 4315 N. Clio Road, Flint, at 0830 on 1/26/16.

Lt. Dehner has been advised that the SEOC is considering changing the hours of operation for the Water Resource Teams to 1000-1800 beginning on 1/21/16. Working with the recovery branch to coordinate logistics for this adjustment.

**MSP-SEOC-MDSP has submitted a MiCIMS resource request to GIS for this. The resource request number is SEOC – 8951057
Resource request is for the following:
Please prepare a GIS Map for Water Response Team use with the following layers:
Ward/Precinct
"Homes Visited" Resource delivered
Homes Visited, but "No Answer"

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Five (5) drivers on are available on Wednesday, January 20, six (6) drivers on Thursday, January 21 & Friday, January 22 and three (3) drivers on Saturday, January 23.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
91 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 650 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.
Provided armed security for Clio Rd. warehouse.
Providing server monitoring of MiCIMS servers.
Provided wireless router and printer for FEMA staff at SEOC.
Acquired a Verizon Wireless booster for the Clio Road warehouse.
Procured hand warmers for Water Response Teams.
Provided 2 cell phones to DHHS Michigan Community Service Commission to your for donation management.
Contacted Penske Truck Rental and acquired 23 donated trucks for use through Friday for water response teams.
Provided 2 portable bathrooms for use at the Clio warehouse.
Coordinated installation of DirecTV in the Flint State Office Building for the Joint Information Center.
Met with FEMA Logistics Chief to identify office space in Flint State Office Building. Waiting on confirmation from FEMA.
Provided 13 passenger vans for transporting Water Response Teams.

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

MDOT deployed 12 drivers to assist with door-to-door distribution for Tuesday, 1/19.

Executive Summary

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply, and the detection of elevated blood lead levels exceeding governmental standards. These conditions exist in the City of Flint, which declared a local State of Emergency and activated local response plans and their Emergency Operations Center on December 15, 2015. A public health emergency was declared by the Genesee County Health Department on October 1, 2015.

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to the Flint River as their primary water source. The corrosive river water caused the leaching of lead from lead pipes into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Elevated blood lead levels were observed in a significant sampling of young children in the City of Flint, and confirmed by the State Chief Medical Officer.

To mitigate the negative effects of corrosive river water on the water infrastructure in the City of Flint, the city switched back to DSWD as their primary water source on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone. MDHHS has increased surveillance of blood lead levels in children, addresses water issues in environmental investigations facilitated to identify lead sources in the environment of affected children, and provide health education and information to residents, health care providers and daycare/educational institutions. Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff, consolidate data from local sources into comprehensive databases, and providing mapping services that support incident analysis and forecasting. Data and maps will be made available regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, predictive blood lead levels for affected areas, demographics, etc.

Before December 16, 2015, $9.35 million were provided by the State of Michigan, and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While drops in lead levels have been observed since reconnecting to the DWSD system, water in the City of Flint is still not safe to drink, unless specifically filtered.

□ State of the State speculation – Flint water plan
□ President Obama possibly meeting with Flint Mayor in D.C. today

• Drafted a news release with the nightly water activity numbers – however, a decision was made in consultation with the Governor's Communications Office that this release will be held until 8:30 a.m. tomorrow (1/20) so as not to conflict with the numbers the Governor gives during his 7 p.m. State of the State address tonight.

Agriculture and Rural Development (MDARD)

Tuesday Jan 19, updated and planned for MDARD FDD ICS sampling team and environmental assessment of the food and food service establishments in the Flint water distribution zone. Including location of training for the team and staging area for the sampling supplies and return of collected samples collocated at the Genesee Co. EOC. MDARD FDD ICS sampling team will be starting to do evaluations Wednesday afternoon. Additionally, we may start collecting water samples Thursday morning depending upon requests for samples from Food and Food Service establishments.

Resolved question about one of the locations in USA Herds with a Flint address appears to be in an area served by City water; though the premise is listed as inactive in our database, the firm was visited and found to inactive with no animals on site.

Continued coordination with the FDA Detroit District office for food establishments with joint jurisdiction in the Flint water distribution area.

American Red Cross (ARC)

The American Red Cross resumed assembly of water test kits today at ARC headquarters.
We deployed and supported 11 teams for neighborhood canvassing (Water Response).
We supplied lunches for all of the Water Response Teams today, and will feed all of the teams again tomorrow.
The volunteer reception center (VRC) was in full operation Tuesday. 31 volunteers were processed today. The VRC will be in operation on Wednesday.
We continued warehouse and inventory management efforts.
A total of 71 Red Cross volunteers were active on this operation today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Also monitoring media and coverage of rallies and events.

Community Health (MDCH)

White House press release identified the Department of Health and Human Services (DHHS) as the lead for the federal government response to the public health crisis in Flint. This means that HHS will, in collaboration with FEMA, will identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), and the Departments of Housing and Urban Development (HUD), Education and Agriculture (USDA) – that are already working to help residents in Flint.

The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure. HHS will have a team on the ground in Flint this week. The team will be led by Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR). Dr. Lurie will begin engaging with state and local officials today and will travel to Flint tomorrow (1/20/16).

In order to fully leverage the Department's strengths, the HHS team will include HHS Acting Assistant Secretary for Health Dr. Karen DeSalvo, whose office manages the President's Task Force on Environmental Health and Safety Risks to Children, and who will be the primary interface with state and local public health officials. Two U.S. Public Health Service Commissioned Corps officers will also help with the day-to-day responsibilities in Flint.

Confirmed with MDHHS PIO and Tom Page (Executive Director for 2-1-1) that two new websites (helpforflint.com and Flintkids.org) will be announced during the State of the State Address this evening, instructing individuals interested in volunteering or making a donation to go to those links to do so. Also, confirmed that the Governor's Office and 2-1-1 are prepared to accept an influx of calls as a result of the Governor's State of the State Address.

Updated resource request for EPA pamphlets, to include an order for an additional 3,000 in Spanish. Communicated this with logistics. Shipment locations and POC were confirmed with SEOC logistics. EPA confirmed that the shipment would be sent ASAP.

Commander Seligman, from SAMHSA, contacted MDHHS and confirmed the establishment of a Disaster Distress Helpline, which has been approved by the JIC. SAMHSA will issue the press release. This was communicated to the JIC and MDHHS PIOs. A conference call was held this afternoon with SAMHSA, CHECC DBH SMEs, and MDHHS EMCs to discuss getting the Disaster Distress Hotline up and running. Another call will be scheduled before the end of the week to discuss additional details before going "live." Genesee County Community Mental Health will also participate in this call.

The CHECC provided statistics depicting that the WebMD Medscape communication sent last week reached +64,000 healthcare

providers in addition to +16,000 medical doctors, for a total of +80,000 recipients. This information was also provided to the MDHHS PIO.

Followed-up with LHD EPC regarding an inquiry received from the LEOC indicating that a family had been evicted from their home due to the children having high blood lead levels. The GCHD EPC was instructed to reach-out to the family in order to ensure, first and foremost, that if the children do have high blood lead levels that they receive the care and case management that is required. Secondly, to work with the local Health and Human Services office for housing assistance. The EPC was asked to contact the MDHHS EMC if this approach is unsuccessful, in order to close the loop.

CHECC provided a message on the MI-Volunteer Registry website that encourages registrants to volunteer to support Flint Water Response efforts taking place this week and into the weekend.

Corrections (MDOC)

Brent Travelbee, Mike Farmer and Todd Bechler on duty at the SEOC today.

OPERATIONAL PERIOD UPDATE: The new operational period is extended through Tuesday, January 26, 2016 at 0800 hours.

All previous requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution. Director Washington is providing full support to our assistance efforts.

We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources have reported today, Tuesday, January 19, 2016 as requested.

We are building up additional resources for Wednesday, January, 20, 2016. Additional vans will be needed for Water Resource Teams. We are working with DTMB to secure additional Fleet vehicles as well as reach out to facilities and parole/probation offices.

MDOC RESOURCES DEPLOYED: Tuesday, January 19, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(4) – 20' Box Trucks
(1) - 24' Box Trucks

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap

(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer

(1) – Pick-up Truck

(6) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks (This includes one that is broken and will be returning to Ionia tomorrow night for repair)

(7) – Hand Pallet Jacks

(6) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability (

Staffing

There will be 22 staff members on site 21 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

Education (MDE)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

English Language Learners report from Flint Public School District (Flint Community Schools). Results show 338 total with 83% Spanish speakers; 6% Arabic; all others report less than 1%.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:
• Facilitated logistics for Michigan Department of Agriculture and Rural Development food establishment inspectors to meet at the local Emergency Operations Center and provide for water test kits for their use.
• Facilitated logistics for bottle delivery and water test kit assembly.
• Coordination with ZeroWater, the Joint Information Center, State Emergency Operations Center staff and Michigan 2-1-1 for clarification for on Total Dissolved Solids meters.
• Coordinated sampling plan with local Emergency Operations Center and DEQ Drinking Water Laboratory for donated drinking water testing.
• Provided write up for definition of NSF/ANSI 53 certification and process to Operations Section Chief and Planning Section.

Human Services (MDHS)

Assist Logistics on obtaining model numbers and additional information regarding the Zero brand 23 cup and 8 cup water pitchers.
Zero 23 cup pitcher– Model #ZD-018
Zero 8 cup pitcher– Model #ZD-013D

Completed the delivery of two cell phones for MCSC to assist with their donation management processes.

Identified 2 conference rooms at Flint Stat Office Building for FEMA to use if they wish.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team.

The final two bubblers arrived at a Flint area Home Depot. They were picked up by LARA staff and successfully installed at the Freeman School today (1/19/16). LARA will now coordinate with DEQ to conduct water re-testing at Freeman Elementary.

LARA *is continuing to work with DEQ to establish a schedule, for the next several weekends, to complete school water testing.*

LARA / MIOSHA communicating with DEQ on possible use of MIOSHA lab and staffing.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of Soldiers on State Active Duty:
t Genesee County EOC
t Joint Information Center
at PODS
Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Hand off to NWS Detroit for morning conference call weather forecast in progress. Estimated date when NWS Detroit will begin morning SEOC briefings and MICIMS posts is Tuesday, January 26.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

As of Friday, January 15th, VAAA and MDHHS-Adult Protective Services (APS) has provided AASA with over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their *heat map and for local follow-up.*

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

Prior to the State Declaration of Emergency, Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the GCARD, Genesee County Health Department and MDHHS, participated in the local ad-hoc response by helping organize local meetings and distributed water and water filters to VAAA Home Delivered Meal recipients. VAAA was also an I&A access point for receiving calls from homebound seniors who are not able to pick up water filters or needed assistance installing water filters. VAAA referred seniors needing filters to GCARD for follow-up. Because VAAA is a known and trusted local resource for older adults in Genesee County, they continues to receive calls from seniors needing access to water and filters.

State Police (MSP)

We had · police agency teams that were deployed today with 11 Red Cross teams. 2770 homes have been visited today.

· National Guard members will be at the Warehouse at 0830 on 1/20/16. Contact was made with Lt. Dehner with the request to have · · patrol cars with troopers or deputies report to the Warehouse at 4315 N. Clio Road, Flint, at 0830 on 1/26/16.

Lt. Dehner has been advised that the SEOC is considering changing the hours of operation for the Water Resource Teams to 1000-1800 beginning on 1/21/16. Working with the recovery branch to coordinate logistics for this adjustment.

**MSP-SEOC-MDSP has submitted a MiCIMS resource request to GIS for this. The resource request number is SEOC – 8951057
Resource request is for the following:
Please prepare a GIS Map for Water Response Team use with the following layers:
Ward/Precinct
"Homes Visited" Resource delivered
Homes Visited, but "No Answer"

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Five (5) drivers on are available on Wednesday, January 20, six (6) drivers on Thursday, January 21 & Friday, January 22 and three (3) drivers on Saturday, January 23.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
91 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 650 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.
Provided armed security for Clio Rd. warehouse.
Providing server monitoring of MiCIMS servers.
Provided wireless router and printer for FEMA staff at SEOC.
Acquired a Verizon Wireless booster for the Clio Road warehouse.
Procured hand warmers for Water Response Teams.
Provided 2 cell phones to DHHS Michigan Community Service Commission to your for donation management.
Contacted Penske Truck Rental and acquired 23 donated trucks for use through Friday for water response teams.
Provided 2 portable bathrooms for use at the Clio warehouse.
Coordinated installation of DirecTV in the Flint State Office Building for the Joint Information Center.
Met with FEMA Logistics Chief to identify office space in Flint State Office Building. Waiting on confirmation from FEMA.

Provided 13 passenger vans for transporting Water Response Teams.

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

MDOT deployed 12 drivers to assist with door-to-door distribution for Tuesday, 1/19.

FEMA Region V Morning Brief
DATE: 01/20/2016

REGION V RESPONSE STATUS:
- **RRCC:** Watch / Steady State
- **IMAT:** Deployed to MI-3375-EM
- **LNO:** Cornelius Miller

REGION V SEOC STATUS:
- **Illinois:** Partial Activation *(Flooding)*
- **Indiana:** Partial Activation (*LPAI Outbreak)*
- **Michigan:** Full Activation *(Water Emergency)*
- **Minnesota:** Normal Operations
- **Ohio:** Normal Operations
- **Wisconsin:** Normal Operations

NATIONAL TERRORISM ADVISORY SYSTEM (DHS): Bulletin (12/16/2015 – 06/16/2016)

NOTEWORTHY EVENTS: Nothing significant to report.

SIGNIFICANT WEATHER (NWS, SPC):
- **Today:** Winter weather will continue to move eastward across Region V today, bringing additional snowfall to parts of the Great Lakes and Ohio Valley regions this morning and afternoon. In southern Indiana and Ohio, Winter Weather Advisories will remain active until about noon today; 1 to 3 inches of additional snow will be possible. In Lower Michigan near Grand Rapids, another Winter Weather Advisory is in effect until this afternoon. From 4 to 8 inches of snow is forecast for the area. A Freezing Rain Advisory is also active in northwestern Minnesota. Light freezing drizzle could make roadways slippery through this afternoon.
- **Looking Forward:** A winter storm will move across southern portions of Region V late Thursday into Saturday evening. Southern Ohio is expected to be the hardest hit, with 6 to 8 inches of snowfall possible for the area. Winter Storm Watches will be in effect from Thursday evening through Saturday for southeaster parts of the state.

HYDROLOGIC CONDITIONS (AHPS): Flood Warnings, Watches, and Advisories remain in effect in Illinois and Michigan due to previous rainfall and ongoing ice jam flooding. In Illinois, two (2) river gauges are at Moderate Flood stage. They are forecast to recede into Minor Flood stage by Saturday morning. No significant impacts have been reported.

FIRE CONDITIONS (SPC): Nothing significant to report.

REGION V DISASTER SUMMARY:
- **Declaration Requests:** None
- **PDA Requests:** None
- **Disaster Declarations:** FEMA-3375-EM provides emergency assistance for water, water filters, water filter cartridges, water test kits and other necessary related items for a period of no more than 90 days for Genesee County.

TRAINING EVENTS:

- **Jan 21:** Reconstitution Planning Workshop; Chicago, IL
- **Feb 9:** CPR, AED, First Aid, Bloodborne Pathogens; Chicago, IL
- **Feb 9-11:** L212 Hazard Mitigation Application Development; Chicago, IL
- **Feb 16-17:** REP Core Concepts Course (RCCC); Chicago, IL
- **Feb 17-18:** L-213 Application Review, Indianapolis, IN
- **Feb 17-19:** REP Plan Review Course (RPPR); Chicago, IL
- **Feb 29-Mar 1:** REP Core Concepts Course (RCCC); Manitowoc, WI
- **Mar 1-2:** L-276 Benefit Cost Analysis, Indianapolis, IN
- **Mar 2-4:** REP Plan Review Course (RPPR); Manitowoc, WI
- **Mar 3-4:** L-214 Hazard Mitigation Assistance Implementation & Closeout
- **Mar 21-24:** REP Exercise Evaluator Course (REEC); Madison, WI
- **Mar 25:** REP Exercise Controller Course (RECC); Madison, WI
- **Apr 4-7:** L580 Emergency Management Framework for Tribal Governments; Leech Lake Band of Ojibwe, Minnesota
- **Apr 18-21:** REP Exercise Evaluator Course (REEC); Springfield, IL
- **Apr 22:** REP Exercise Controller Course (RECC); Springfield, IL

EXERCISE EVENTS:

- **Jan 27:** FEMA Region V/Region II SL Devolution TTX; Chicago, IL
- **Apr 6:** Braidwood REP Ex; IL
- **Apr 20:** NSSE RNC SL TTX; Cleveland, OH
- **Apr 26:** Palisades REP Ex; MI
- **Apr 29:** America's Preparathon

Subject: State Commodities/Assets

Kendal and Jason,

Please source all EM approved commodities. These items are beyond our contract and purchasing capabilities.

Also, per our discussion, state assets are at all locations, see below:

State Staging: 4135 N. Clio Road
POD - Fire Station #1: 310 East Fifth
POD - Fire Station #3: 1525 Martin Luther King Ave
POD - Fire Station #5: 3402 Western Rd
POD - Fire Station #6: 716 West Pierson Road
POD - Fire Station #8: 202 East Atherton

Lastly, Captain Kelenske has indicated that all National Guard assets are state assets.

Thanks,

Wendy Galbreath
MSP/EMHSD
Logistics Section Chief

FWRT 2nd Round Operational Concept

Objectives

1. *Ensure all users of the Flint water distribution system have been personally contacted through* state efforts to be provided water filters, replacement filters, water test kits, and bottled water.
2. Obtain usable data to ensure full understanding of what has been accomplished by FWRTs.
3. Build public confidence by revisiting all areas previously covered.
4. Ensure standardized water filter use.

Single Family Residence

- Canvass using only National Guard personnel.
- Provide maps to each team daily to identify the area they are to canvass to avoid gaps and overlaps.
- Assign one person per team to collect data using the iPad application developed by GIS.
- Develop and use a standardized "script" will be to ensure consistency of
    - Replacement cartridges available
    - Number of cartridges available
    - Brand filter installed
    - Number of residents

Multi-unit residence

- Canvass using volunteer agencies using locations provided by City of Flint Building & Safety *Department.*
- Provide maps to each team daily to identify the area they are to canvass to avoid gaps and overlaps.
- Assign one person per team to collect data using the iPad application developed by GIS.
- Provide specialized training to team members.
- Develop a different approach than used in single family residence canvassing
- Contact each property owner or the designated agent (property manager) to identify the number of units occupied.
- Canvass each occupied unit at the address.
- Develop and use a standardized "script" will be to ensure consistency of
    - Replacement cartridges available
    - Number of cartridges available
    - Brand filter installed
    - Number of residents

Other Targeted Locations (Schools, Churches, Day Care Centers, Restaurants, Hospitals)

- Canvass using volunteer agencies using locations provided by City of Flint Building & Safety Department.
- Provide maps to each team daily to identify the area they are to canvass to avoid gaps and overlaps.
- Assign one person per team to collect data using the iPad application developed by GIS.
- Provide specialized training to team members.
- Develop and use a standardized "script" will be to ensure consistency of
    - Replacement cartridges available
    - Number of cartridges available
    - Brand filter installed

- Number of residents

Issues to Resolve

- Identify a lead contact for FWRT 2nd round operations.
- Establish a target date for completion for each of the target groups (single family residence, multi-unit residence, and all other targeted locations).
- Incorporate additional data fields into the iPad application and assign an individual to be responsible for developing data and coordinating with GIS.
- Develop a plan to address functional needs populations within each of the identified target groups.
- Determine how to effectively and accurately correlate from PODs with the data from other canvassing efforts.

Subject: Lead Toxicity Filtration System

Dear Captain Kelenske,

My colleague Ken Gruber contacted you about a possible solution for the water contamination problem in Flint, MI. Your office did call me but I was driving and could not copy down the contact information provided. I am the former Director of Health for the State of Ohio and served as an advisor and one of the authors of the Center for Disease Control report "Childhood Lead Poisoning Prevention".

As a physician and scientist I work with colleagues globally. When I learned about the situation in Flint I made inquiries regarding lead removal systems. I received a reply from a colleague in China describing a system used in China and possibly of value in the efforts to protect the people in Flint. The following explanation regarding this system was sent to me as follows:

" Dear Dr. Fletcher,

The KDF55 is a particle material system placed into a section of the water pipe. KDF55 uses ZnO_2 to create a chemical reaction with lead allowing it to oxidize, thus becoming PbO_2 and Zn, these compounds are not harmful to human beings. The filter can be used for 5-10 years. If the KDF55 filter becomes dark, changing from a yellow color, then the filter should be replaced or it can be treated with an acid until it returns to the original yellow coloration. A KDF55 filter pipe with a diameter of 50mm, length 635mm can treat 10 ton water per hour. It can be made larger or smaller depending on requirements. Can you ask the Government what kind of capacity they need? Where they would put the filter? Placed in the center pump line or put on the family pipe? The KDF55 is very inexpensive, but cost would be based on the size of the system. We can make the filter pipe and ship it to Michigan but you should tell me the pipe size and treatment capacity needs" (translated from Chinese).

If this lead treatment filtration system is something that may be of assistance, I can facilitate a conversation so you can have one delivered to Michigan as soon as possible.

Respectfully,

Dr. Ronald L. Fletcher
Founder and Director- The Fletcher Global Technology Group

Subject: RE: 2-1-1

Richard,

My technology manager pulled the statewide call records for last night and the single longest wait time for all eight regions was 14 minutes at the Detroit center. Detroit was not taking Flint calls at that time. If the governor's office can share the voice mail or provide the number the caller used, we can pull the specific call information and determine when they called and if there was some delay our reporting system somehow missed.

Today is another story.

We are experiencing long delays today and do not have any additional capacity available to meet the goal of answering calls in under two minutes. Every available agent in the state, as well as supervisors and managers are handling calls, but the demand is so high that wait times are as long as 25 minutes. We are using our callback feature to offer callers the option of keeping their place in the queue and having 2-1-1 call them back when an agent is available, but the times are still much longer than we would like. The volume today appears to be a combination of demand based on the governor's speech and direction from the state web site to call 2-1-1, along with today being the first day call 2-1-1 to schedule to appointments for free tax preparation.

We doing everything in our power to respond to callers in a timely manner, but unless the volume goes down or a way is found to increase 2-1-1's capacity, we are at our limits.

Richard,

We're checking the call records for last night to verify wait times. Michigan 2-1-1 had additional staff on duty until 8:30 pm last night to handle any surge in call volume resulting from the governor's state of the state address. Through 9:00 pm there was no waiting time to get through to 2-1-1.

Will let you know what I learn from the overnight shift.

FEMA Region V Evening Situational Awareness Report
DATE: 1/20/2016

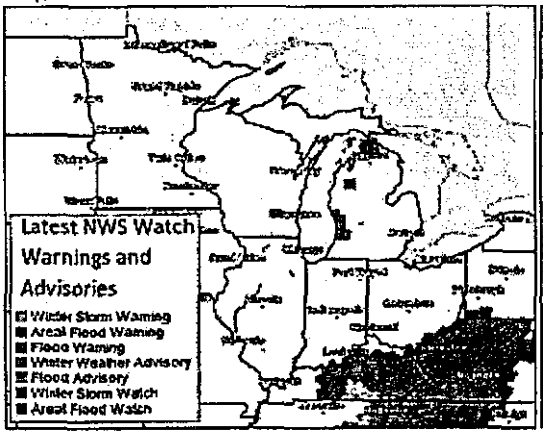
REGION V RESPONSE STATUS:
- **RRCC:** Watch / Steady State
- **IMAT:** Deployed to MI-3375-EM
- **LNO:** Cornelius Miller

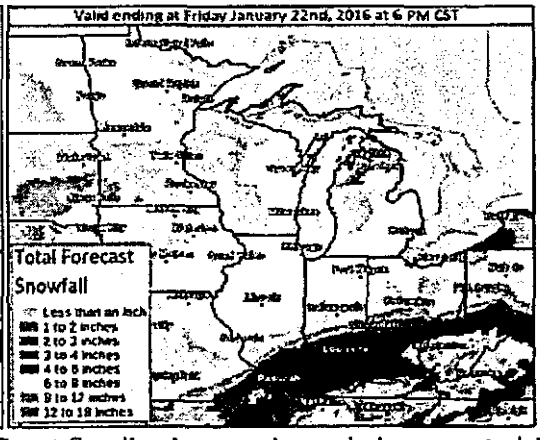
REGION V SEOC STATUS:
- **Illinois:** Partial Activation *(Flooding)*
- **Indiana:** Partial Activation *(LPAI Outbreak)*
- **Michigan:** Full Activation *(Water Emergency)*
- **Minnesota:** Normal Operations
- **Ohio:** Normal Operations
- **Wisconsin:** Normal Operations

NATIONAL TERRORISM ADVISORY SYSTEM (DHS)**:** No active alerts.

NOTEWORTHY EVENTS: Nothing significant to report

SIGNIFICANT WEATHER (NWS, SPC)**:** No significant weather is expected this evening. A winter storm is anticipated in the southern portions of Region V late Thursday into Saturday evening. In southern Ohio, 4 to 8 inches of snowfall is expected, while in far southern Indiana and Illinois, about a .10 of an inch or more of icing will be possible. *Winter Storm Watches* have been issued for small parts of southern Indiana and Ohio beginning late Thursday into Friday evening. Impacts are hazardous travel conditions due to reduced visibilities and snow accumulations.





HYDROLOGIC CONDITIONS (AHPS)**:** No significant flooding is occurring or being reported. The cold temperatures this past week caused river ice formation and ice jams across the northern portion of the region. The Regional Watch Center is monitoring areas of the Rock River at Afton, WI and Moline, IL where minor flooding is occurring. In addition, ice jams have formed on the Manistee River at Sherman, MI. However, no significant impacts are being reported.

FIRE CONDITIONS (SPC)**:** Nothing significant to report.

PDA REQUEST: None

DECLARATION REQUEST: None

DISASTER DECLARATIONS: FEMA-3375-EM provides emergency assistance for water, water filters, water filter cartridges, water test kits and other necessary related items for a period of no more than 90 days for Genesee County.

Governor Richard D. Snyder
George W. Romney Building
111 South Capitol Avenue
Lansing, Michigan 48909

Dear Governor Snyder:

This acknowledges receipt of your January 20, 2016 letter to President Obama appealing the denial of your request for an expedited major disaster declaration for the State of Michigan as a result of contamination and damage to the public water system in the City of Flint, Michigan. You specifically request all programs under Individual Assistance, and all categories of work (Categories A-G) under Public Assistance in the Townships of Mt. Morris, Flint and Genesee, and the Cities of Flint and Burton in Genesee County. You also request the implementation of the Hazard Mitigation Grant Program statewide.

We understand that while your request is being considered you will be providing assistance to your citizens and taking steps to reestablish government services. To the extent that you are engaging in work that may be eligible for reimbursement if the requested Federal assistance is approved, the applicant and sub-applicants must comply with all applicable laws and regulations, including applicable environmental and historic preservation requirements. We especially note the contracting requirements of 44 CFR Part 13 and the necessity to obtain applicable permits. We are available for technical assistance if needed.

Sincerely,

Andrew Velasquez III
Regional Administrator

Subject:	Captain Kelenske, Bottled Water, Hygiene Kits, Meals & Emergency Supplies update
Attachments:	EmergencyMeals (002).doc; HygieneKit.jpg; Female Hygiene Kit (2).jpg; MobileKitchen1.jpg

Below is an update of our current Emergency Supplies(**We are registered on SAM.gov under O'Shea Inc.). We have the capability to get bottle water by the truckload.**

We currently have the following items available: 36,000 Plush Animals, Several pre-cooked meal options, Hygiene Kit, Mobile Field Kitchens, Water Activated Flood Prevention Bags & many other supplies (inventories are constantly changing). Below the MRE's, Water Activated Flood Prevention Bags, & Hygiene kits are detailed out along with photos attached above. We are available 24/7 at **(800) 669-0903**

If you have any interest in the items listed below please let me know & if you are in need of any items not listed below let us know because we are an excellent sourcing company.

Hygiene Kits

There are 54 cases of Hygiene Kits per pallet packed 30 Kits per case:

- Hygiene Kit (picture above) includes Razor Twin with lubricating strip, Shave Cream assortment of .85 oz., .6 oz. and 1.5 oz. aerosol, Washcloth, Soap is Name brand 3 oz. bar, Shampoo Name brand is Dove and others, Mouthwash, Toothpaste, Toothbrush, & Comb. Kit bag is Standard zipper clear poly bag.

- Female kits are packed 24 per case 2 Tampons, 2 SPF 30 sunscreen sticks, 2 .75 oz conditioning shampoo bottles, 1 Toothbrush, 1 Tube of toothpaste, 1 bottle of mouthwash, 1 bar of Dove soup, 1 comb, 1 wash cloth

We can give you delivered price when you call with quantity of what you want.
Cost $4.25 FOB Plus shipping per kit on Reg. Hygiene Kits (44,280 kits avail.) You can order by case (30 Hygiene Kits) or Pallet (1,620 Kits) we ship UPS
& $4.75 FOB Kansas City on Female Kits (6,360 kits available)

MRE's

Available MRE: No Refrigeration needed (menu of 6 different entrée's). You can buy these by the Truckload 26,880 per truck (1,920 cases per truck). We have 1,600,704 MRE's available & (FEMA Spec MRE Kits) these kits pictured above were manufactured in 2012 and have an expiration date

beginning in 2017 up to 2019. There are 26,880 MRE Meals per truckload and packed 14 MRE meals per case (includes Heater element bag in each meal). Please let me know if you would like a delivered quote.

Water Activated Flood Prevention Bags:

There are approximately 80,000 Flood Prevention bags (pictures above)- this would be approx. 20,800 Flood Bags per truck and depending on size of Flood Bags you will be able to eliminate between 100,000 to 200,000 Gallons of Water within minutes with each truckload of Flood Prevention bags, please read below to see how this is done.

The Water Activating agent that is in each Flood bag is a water absorbent polymer which in fact can be used as a source of aeration for grass and plants after Flood bags have been used (they are 100% biodegradable). Our FB bags fill up with 4 gallons of water within 2 minutes & our RPD bags will fill up with 10 gallons of water in 3 minutes and then act to stop and redirect the water protecting your property from additional damage. Please view the video below at our website which demonstrates the bags capabilities.

http://www.osheaemergency.com/floodblockbags.htm

Your cost $1.80 per Bag FOB Kansas City (we can give you delivered price once we receive order- we can ship by UPS, LTL by the Pallet or Truckload).

Name	Dimensions & Cost
FB bags	size dimensions 25 ½ " L x 14" W) 25 per case x $1.80 = $45.00 case cost of 25 Flood Bag (FB1) + Shipping
RPD (Snake Style) bags	(size dimensions 97" L x 8" W) 30 per case x $1.80 = $54.00 case cost of 30 RPD Flood Bags + Shipping
Flood Kits	(Each Kit has 6 FB Bags & 2 RPD Bags for total of 680,000 bags) 8 per kit x $1.80 = $14.40 per Flood Bag Kit of 8 Flood Bags + Shipping

Every City should have a supply of our Flood Prevention bags in their Emergency Stock and when you view this short video I think you will see importance of what would have happened if they had been able to immediately access these bags (these bags fill up in less than 2 minutes). "What do we do with this excess water?". That is where our Water Activated Flood Bags come in to play, and each bag will absorb the water in 2 minutes (4 to 10 gallons per bag depending on size of bag) These Flood bags help redirect and contain the water from further damaging other Utilities (gas, electricity and roads), protect against public & private property damage, and the process that used to take 20 men with shovels filling sandbags can now be handled by one man and a pick-up truck full of flood bags. The ability to deploy these bags at a moment's notice would give your city the opportunity to prevent millions of dollars in damages, and hazards that would endanger lives!

This product is also completely biodegradable and environmentally safe. Besides flooding it is also excellent for chemical spills.

Below is breakdown of how many gallons of water are eliminated immediately with the quantity of bags we have available:

Bag	Dimensions	Water absorbed by bag.
Flood bags	25 ½" x 14"	will absorb 4 gallons of water into bag in 2 minutes = gallons of water(filling Flood bags in 2 minutes).
RPD Flood Bags	97" x 8"	will absorb 10 gallons of water into bag in 2 minutes = gallons of water (filling Flood Bag in 3 minutes).

Please let me know if you have any questions,

Subject: Senate Appropriations Committee Next Week

Good morning,

I just wanted to touch base and make sure you're all aware that the Senate Appropriations Committee plans to take up the Flint supplemental this coming Wednesday, January 27 at 2:00 p.m. Ideally, it'd be great if you all are able to attend this meeting too, since things went so well in House Appropriations. Please let me know if you're able.

Thanks again for all your help this past week.

FEMA Region V Open Source Summary (OSS)
Regional Points of Interest
Friday, January 22, 2016

Regional Weather and Impacts

Approaching winter storm brings widespread air and rail travel impacts
(NBC News)
National: "Historic" is an overused word, but it applies to the blizzard that's coming for the national capital region, large parts of which could get more than 30 inches of snow over the weekend. American Airlines canceled all of its Friday flights out of the Washington, Baltimore and Charlotte, North Carolina, airports, among almost 2,000 arrivals and departures that had already pre-emptively been scrubbed at airports up and down the Eastern seaboard. Two days in advance, more than 1,250 arrivals and departures had already been taken off the board for Saturday. Amtrak canceled several national services for Friday, Saturday and Sunday, including Crescent service from New York to New Orleans, Cardinal Service from New York to Chicago and Silver Meteor service from New York to Miami.

Water Sector

More money for water improvement added to federal budget
(The Blade)
National: The federal government is investing more money this year to help local governments improve their water systems, and about $80 million will go to Michigan next week, President Barack Obama told the nation's mayors today. The city of Flint, Michigan, has generated national attention because of high levels of lead in the water supply. The city's water source had been changed from Detroit's water system to the Flint River in a cost-cutting move and the water was not properly treated to keep lead from leaching into the supply. Obama said the additional money for cities came as a result of the bipartisan budget agreement that Congress passed in December. The White House said the administration moved to make sure the money is available to Michigan much more quickly than normal, though it is unclear how much, if any, of the money would go to Flint. States use the federal funding to make low-cost loans to local governments for drinking water and wastewater construction projects and have significant freedom in how they prioritize the projects.

EPA official "stunned" by failure to treat Flint water for lead leaching
(MLive)
Flint, Michigan: A U.S. Environmental Protection Agency official who sounded a dire warning about toxic lead in Flint's drinking water seven months ago says he couldn't believe the water wasn't being treated to make it less corrosive to lead service lines and indoor plumbing. "I was stunned when I found out they did not have corrosion control in place," Miguel A. Del Toral, regulations manager in the EPA's ground water and drinking water branch, said in an interview with The Flint Journal-MLive today, Jan. 21. "In my head, I didn't believe that. I thought: That can't be true...that's so basic. That's not possible." Del Toral wrote an interim report on high levels of lead in Flint water on June 24, 2015, months after other EPA officials had warned the state Department of Environmental Quality that the chemistry of Flint River water was appeared to be causing transmission pipes to leach contaminants such as lead into the water supply. The interim report also pointed to problems with Flint's water sampling methods, including pre-flushing before collecting samples in homes, a practice that he said underestimated lead levels and allowed city and state officials to tell residents their water met state and federal guidelines.

EPA orders state action on Flint water
(Detroit News)
Flint, Michigan: The nation's top environmental official ordered Michigan on Thursday to take "immediate action to address serious and ongoing concerns" with Flint's drinking water system.

The U.S. Environmental Protection Agency invoked its authority to compel action when "an immediate and substantial endangerment exists" and "local authorities are inadequate to protect public health." "EPA has determined that the City of Flint's and the State of Michigan's responses to the drinking water crisis in Flint have been inadequate to protect the public health and that these failures continue," the order reads. EPA Administrator Gina McCarthy addressed an accompanying letter to Gov. Rick Snyder, laying out specific steps that need to be taken to get the city's long-running lead contamination problems under control. She expressed concern over "continuing delays and lack of transparency," and directed the state to notify the EPA within a day of the state's intent to comply. "As you and I discussed, some progress has been made in addressing these recommendations, but there continues to be inadequate transparency and accountability with regard to provision of test results and actions taken, and those are critical for the people of Flint," McCarthy wrote. "In addition, there is an increasing concern about the capacity to carry out the recommended actions and to safely manage Flint's drinking water system."

EPA regional head resigns amidst criticism of Flint water crisis response
(MLive)
Chicago, Illinois: Susan Hedman, regional administrator for the EPA's Chicago-based region 5, resigned Thursday amidst mounting outrage over the Flint water crisis. Hedman's resignation is effective Feb. 1. "EPA Administrator Gina McCarthy has accepted given Susan's strong interest in ensuring that EPA region 5's focus remains solely on the restoration of Flint's drinking water," an EPA spokeswoman stated. While the Michigan Department of Environmental Quality has taken the brunt of criticism for its handling of the situation, Hedman was been attacked for downplaying concerns on her staff about the safety of Flint water. In particular, Miguel Del Toral, a water specialist at the EPA's Region 5 headquarters in Chicago, wrote a memo in June laying out the problems with Flint water. However, the final version of the memo left out Del Toral's criticisms that Flint was failing to follow federal regulations on corrosion control chemicals and testing for lead. On Tuesday, the EPA said it was reviewing its response to the situation in Flint. "Our first priority is to make sure the water in Flint is safe, but we also must look at what the agency could have done differently," the agency said in a statement

Environmental and HAZMAT Sector

Ammonia leak at soft drink bottling company quickly contained
(Cleveland.com)
Cleveland, Ohio: An accidental ammonia leak at the Coca-Cola bottling plant in Twinsburg Township Thursday was quickly contained by the Twinsburg Fire Department. The accident occurred about 3:15 p.m. at the plant on the 1800 block of Highland Road, according to a fire department news release. Plant officials told first responders that an electrical contractor who was installing new equipment accidentally nicked a small pipe, releasing a "leak of 40 lbs. of product from the 40,000 lb. tank," the release states. The plant was immediately evacuated, and emergency crews from Twinsburg as well as the Summit County Hazardous Material Team and Sheriff's Office came to the scene. Highland Road was temporarily shut down as a precaution, the release says. Within five minutes, a contractor for the ammonia system and Twinsburg fire officials shut down the leak using control valves, the release states. One worker was checked at the scene by paramedics for possible ammonia inhalation, but he refused transportation to a hospital, the release states. There were no other injuries reported and no hazard to surrounding businesses and buildings.

Law Enforcement and Intelligence

Suspicious package cleared at shopping mall
(14 News)
Evansville, Indiana: After investigating a suspicious package at Washington Square Mall Thursday, the EPD Hazardous Devices Unit determined it was not dangerous. The box contained poker chips. Police say a telemarketing company at the mall received the package. We're told the employees at the company called 911 because they weren't expecting the package and it looked odd. People are being kept away from south end of the mall while police investigate, but the mall is not shut down.

Communications/Cyber Sector

Flint hospital confirms cyber-attack as Anonymous threatens attacks over water crisis
(MLive)
Flint, Michigan: Hurley Medical Center has confirmed it was the victim of a "cyber-attack" a day after hacktivists threatened action over Flint's water crisis. The hospital confirmed the attack Thursday, Jan. 21, but few details were released. "Hurley Medical Center has IT systems in place, which aid in detecting a virus or cyber-attack," hospital

spokeswoman Ilene Cantor said. "As such, all policies and protocols were followed in relation to the most-recent cyber-attack on our system. Patient care was not compromised and we are closely monitoring all systems to ensure IT security is consistently maintained." The attack comes a day after hacktivist group Anonymous released a video threatening action against those responsible for the Flint water crisis. There has been no confirmation if the two events are connected.

Subject: Something to just check out on the bottled water

Mr. Session,

As the Logs Chief, I wanted to see if you could look into an issue. Dr. De Salvo and I heard heard from a community member that people are hearing there is E. Coli in the water. When I looked online all I could find was a Niagra bottled water recall from June 2015.

Could you please look into this and let me know the result, so we can put this concern to rest?

Do we have or have we handed out any of the contaminated water from the Niagra June 2015 recall?

Best,
Jamal

Subject: Michigan Water Donations

Dear Paul and Chris,
I'd like to introduce the two of you. Chris Kelenskec is the Michigan State Police/Director of Emergency Management and Homeland Security. Paul Calistro is director of one of Delaware's largest and most successful non-profit community organizations. A group of generous Delawareans have approached Paul to make a donation of water to the residents of Flint. Chris has offered to connect the Paul and the group to the logistics folks in Michigan.
Many thanks to both of you for the work you do and for the help you provide.
All my best,
Drew

FEMA Region V Evening Situational Awareness Report
DATE: 1/21/2016

REGION V RESPONSE STATUS:

- **RRCC:** Watch / Steady State
- **IMAT:** Deployed to MI SEOC (MI-3375-EM)
  - IMAT Bravo deployed Flint, Michigan (MI-3375-EM)
- **LNO:** Cornelius Miller

REGION V SEOC STATUS:

- **Illinois:** Partial Activation *(Flooding)*
- **Indiana:** Partial Activation *(LPAI Outbreak)*
- **Michigan:** Full Activation *(Water Emergency)*
- **Minnesota:** Normal Operations
- ***Ohio:*** *Normal Operations*
- **Wisconsin:** Normal Operations

NATIONAL TERRORISM ADVISORY SYSTEM (DHS)**:** Bulletin (12/16/2015 – 06/16/2016)

NOTEWORTHY EVENTS: Nothing significant to report.

SIGNIFICANT WEATHER (NWS, SPC)**:** A strong winter storm system will move through the Ohio Valley this evening through Saturday. Accumulations will be light to moderate and vary widely across southern Indiana and southern Ohio beginning late tonight and lasting through early Saturday morning. Heavy snow, in excess of 6-10 inches will be possible, specifically across portions of southern Ohio. The heaviest snowfall is expected on Friday afternoon and Friday evening. A Winter Storm Warning and Winter Weather Advisories remain in effect from Friday 0600 CST until Saturday 1800 CST for southern Indiana and southern Ohio. Hazardous road conditions in Region V warned areas, and widespread delayed air travel due to cancelled flights on the East Coast are expected.

HYDROLOGIC CONDITIONS (AHPS)**:** Flood Warnings and Advisories remain in effect in Illinois and Michigan due to previous rainfall and ongoing ice jam flooding. In Illinois, two (2) river gauges are at Moderate Flood stage. The river gauges are forecast to recede into Minor Flood stage by Saturday morning. No significant impacts have been reported or are anticipated.

FIRE CONDITIONS (SPC)**:** Nothing significant to report.

REGION V DISASTER SUMMARY:

- **Declaration Requests:** On January 20, 2016, Michigan's Gov. Snyder appealed FEMA's denial of his major disaster request due to lead contaminated water in the City of Flint. The appeal is under review.
- **PDA Requests:** None
- **Disaster Declarations:** FEMA-3375-EM provides emergency assistance for water, water filters, water filter cartridges, water test kits and other necessary related items for a period of no more than 90 days for Genesee County.

Cc: MSP-seocfgc; Jenness, Kevin (MSP)
Subject: Estimated Spend Plan
Attachments: Estimated Spend Plan at 1_22_16.xlsx

Attached is the spend plan that you have a hard copy of. The only info that is missing from this is DOC staffing and truck costs, DHHS staff costs and MSP costs for staff in the field that would incur overtime. Many of the costs are estimates, but I will have Kevin start pulling actual expenditures from MAIN tomorrow because the financial systems will all update overnight. The figures that are based on actual are for water, filters, replacement cartridges and pitchers.

Please let me know if you have questions. And . . . the line for Arwood Waste – Rental fees is for porta potties at the warehouse. Just sounds gross on a financial report.

Thanks,
Penny

FEMA

January 21, 2016

Overview

FEMA-3375-EM-MI

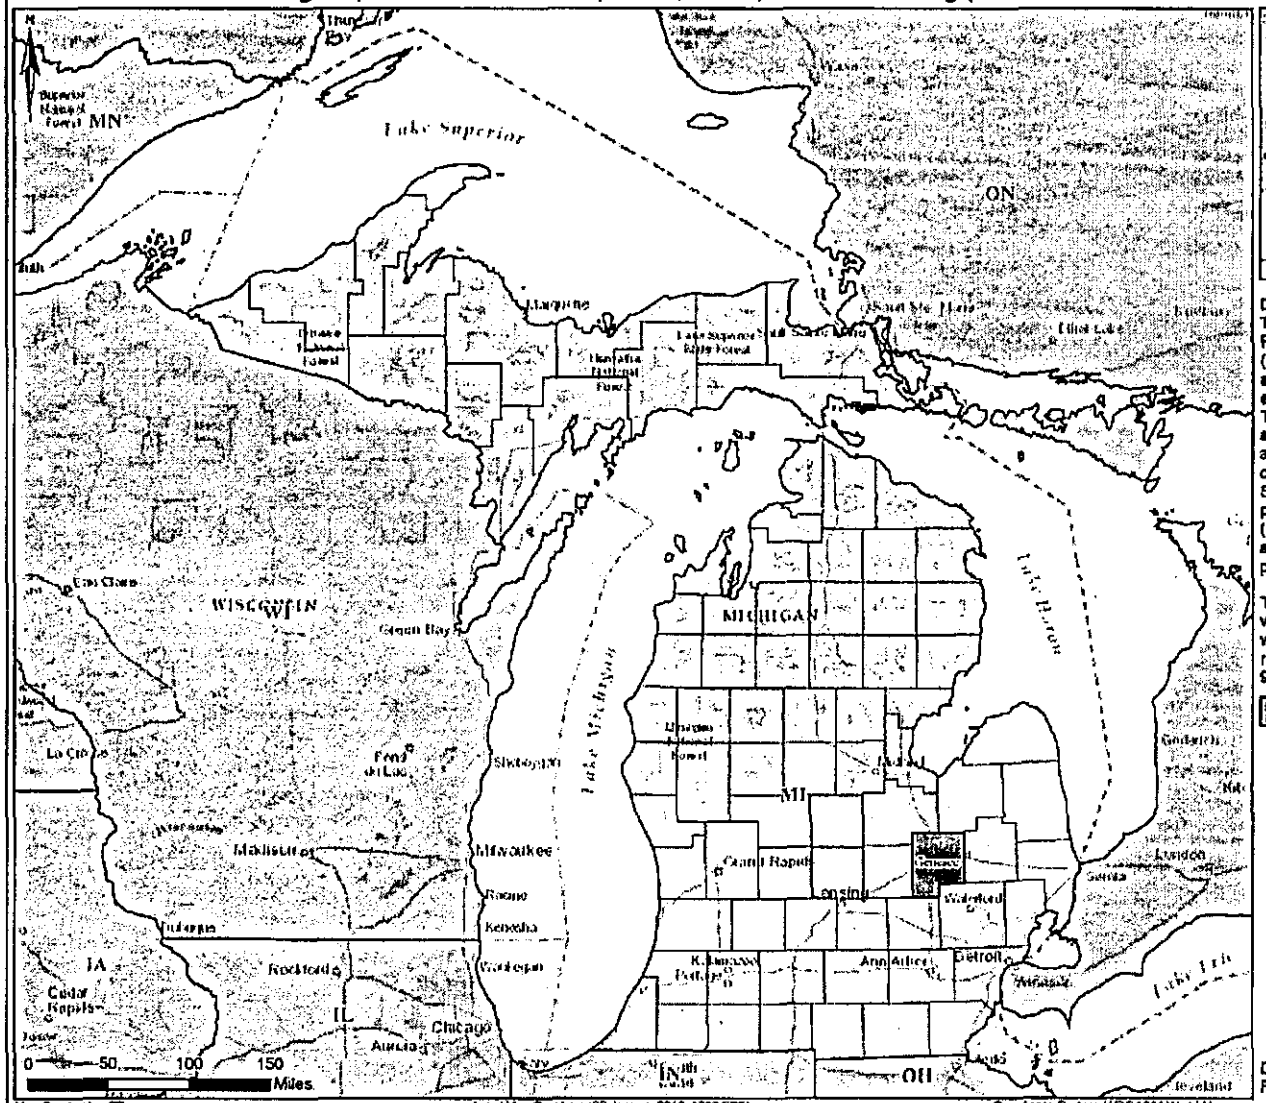
Event	City of Flint – Contaminated Water
Incident Period	April 25, 2014 and ongoing
Governor's Request	January 14, 2016
President's Declaration	January 16, 2016
Programs Authorized	Direct Federal Assistance, appropriate assistance to save lives and to protect property and public health and safety under Category B, emergency protective measures
FEMA-State Agreement and Amendments	In process; currently with the Governor's office

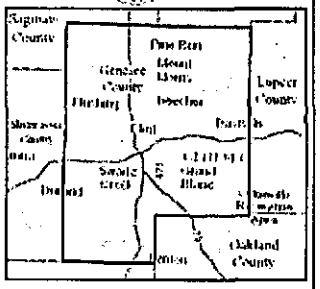
FEMA

Michigan Contaminated Water Emergency Declaration Map

FEMA-3375-EM-Michigan | Incident Period: April 25, 2014, and continuing | Declared: 16 Jan 2016

FEMA





Data Layer/Map Description:
The Department of Homeland Security, Federal Emergency Management Agency (FEMA), is authorized to provide appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in the designated area. Specifically, FEMA is authorized to provide emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding.

This emergency assistance is to provide water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days for Genesee County.

Declared County (Genesee)

Data Sources:
FEMA, ESRI, HSIP Gold 2015

OFFICE OF CHIEF COUNSEL

Linda Pollack

FEMA

OFFICE OF CHIEF COUNSEL

- What is the FEMA assistance pursuant to EM-3375-MI?
  - Limited to Direct Federal Assistance (DFA)
  - Limited to 90 days from date of declaration (1/16/16).
  - Cost share: FEMA 75%; State 25%
  - No back reimbursement to State prior to Declaration for any State cost
  - Limited to: water, water filters, water filter cartridges, water test kits, (commodities) and other necessary related items.

OFFICE OF CHIEF COUNSEL

- What is the meaning of the additional language "and other necessary related items?"

- It is not meant to expand the scope of this limited declaration.

- Will have to be decided on a case-by-case basis.

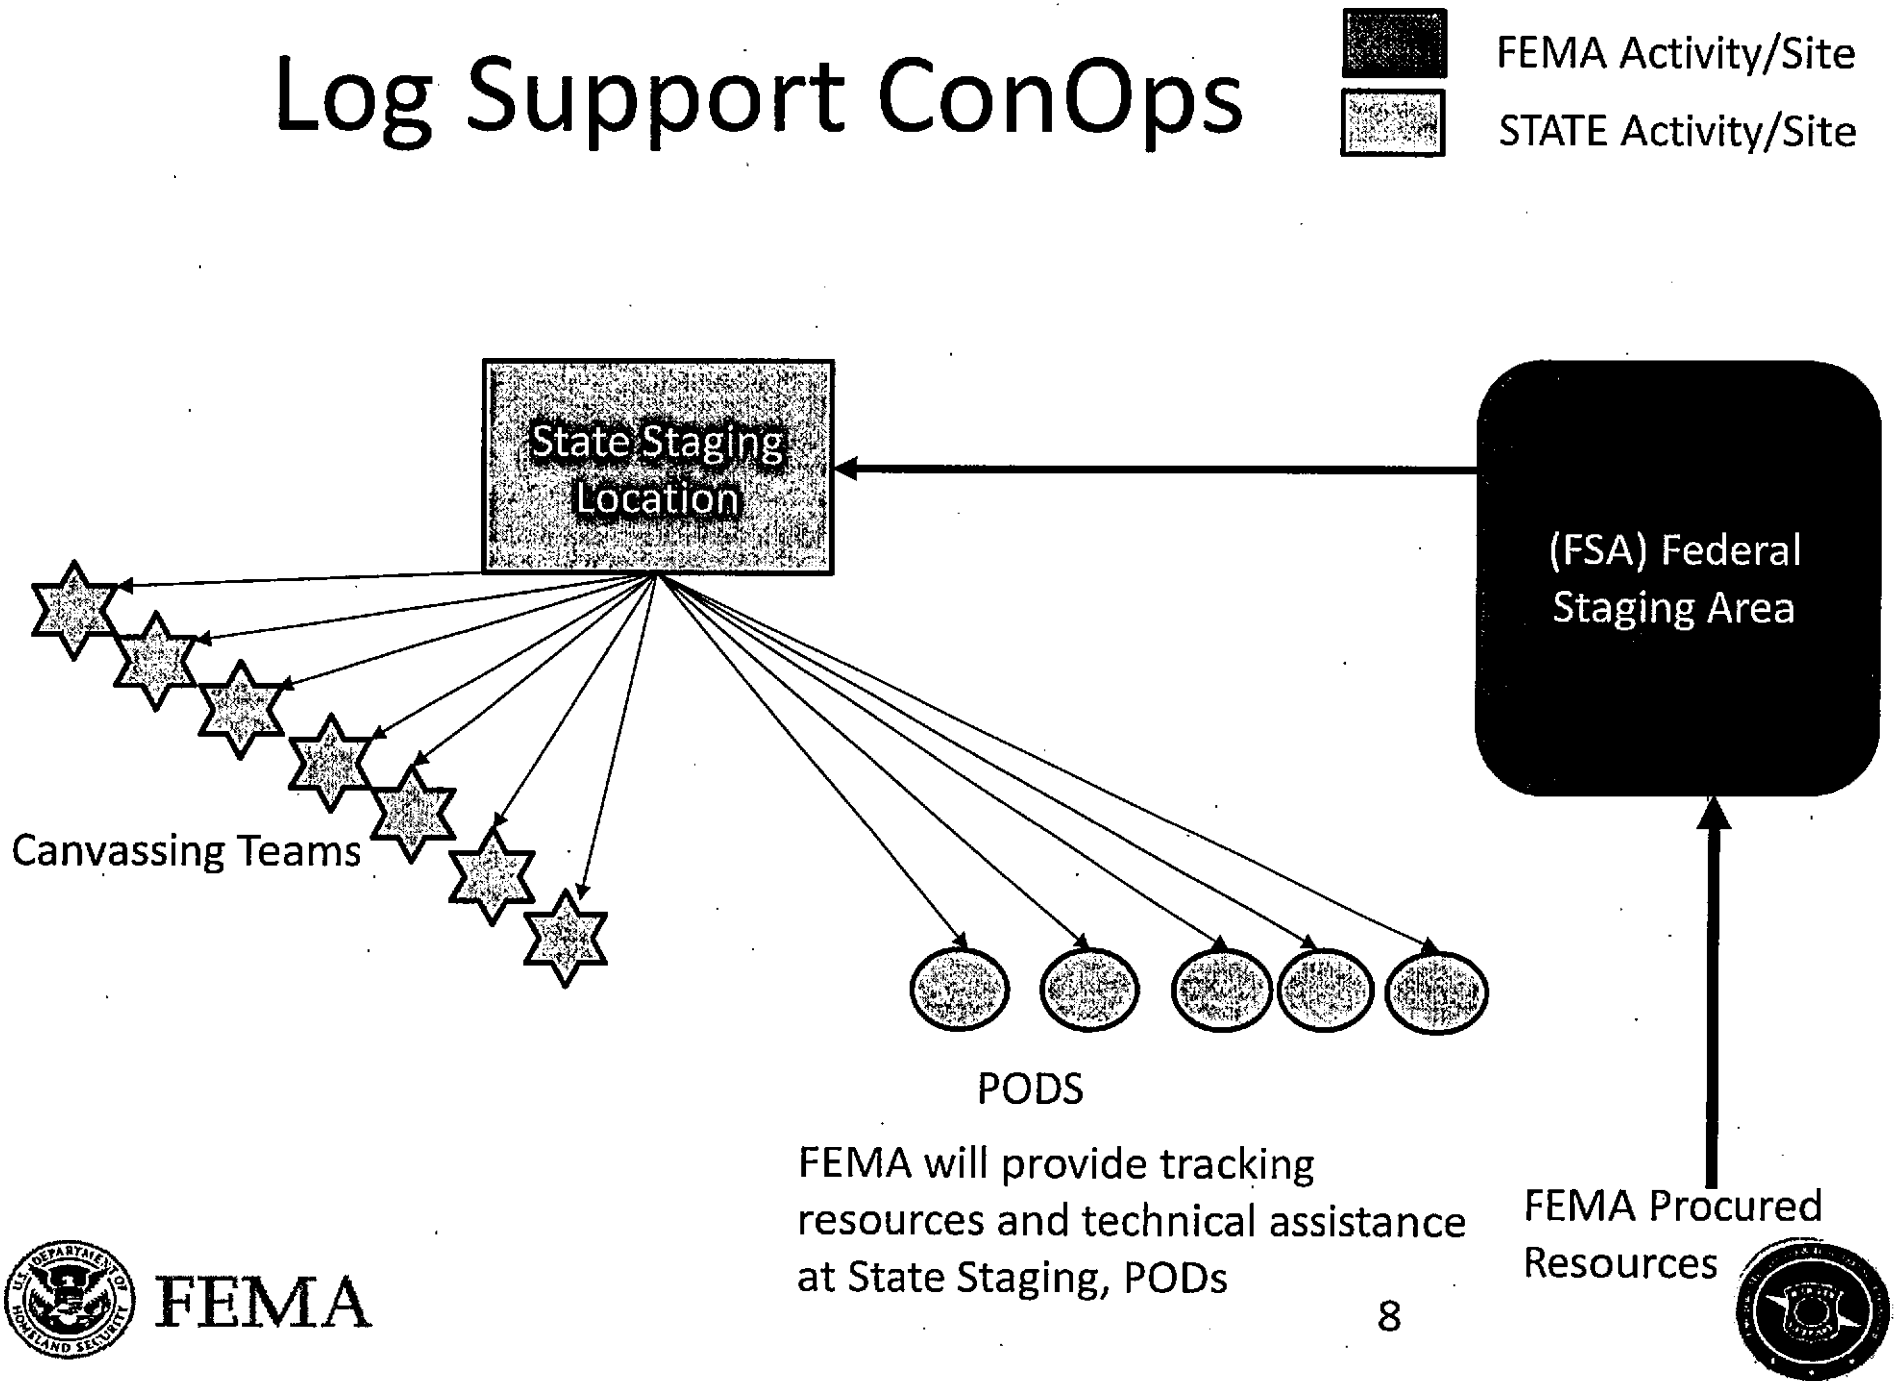
FEMA

Log Support ConOps



FEMA

Operations/Logistics

- Identify State unmet resource needs:
  - Water (bottled)
  - Water filters (PUR & Brita)
  - Replacement Water Filter Cartridges
  - Water Test Kits
- Execute commodity distribution strategy
  - 8 trailers water delivered daily to the state staging area (115,200 liters).
  - Filters, Replacement Cartridges, Water Test Kits through State initiated resource requests.

FEMA

Operations/Logistics

- Work closely with the State to determine the required supply of filter cartridges to sustain the impacted community for one year.
- Coordinate with the State to assist in the development of a long term replacement cartridge strategy.
- Provide technical assistance for resource tracking and inventory management.

FEMA

Resource Requests

Voluntary Agency Coordination

Kathryn Halliday

FEMA

Voluntary Agency Coordination

- Ensure transparent communication between all levels of government and voluntary, faith-based and community organizations (Local, State & National)
- Provide technical assistance to support State and Local plans for volunteer & donations management
- Provide technical assistance to develop State and Local plans for long-term distribution of commodities and individual & household support through voluntary agency partners

FEMA

Voluntary Agency Coordination

- Voluntary Agencies are supporting:
  - Warehouse management
  - Volunteer Reception Center
  - Water Response Teams
  - Water test kit assembly
  - Volunteer feeding
  - Collection of in-kind and monetary donations
  - Public information & referral services

FEMA

Voluntary Agency Coordination

- Key Voluntary Agency Partners To-date:
  - Michigan Voluntary Organizations Active in Disaster (MI VOAD)
  - American Red Cross
  - United Way of Genesee County
  - Food Bank of Eastern Michigan
  - Michigan 2-1-1
  - Catholic Charities of Shiawassee and Genesee Counties
  - Local faith-based partners

  - Maintenance of WebEOC ICS forms

FEMA

Incident Summary

- On April 25, 2014, the City of Flint, Michigan switched from the Detroit water system to the Flint River as a water source. The harmful effects of untreated water caused leaching of lead damaging the city's water infrastructure and potential negative health impact to the citizens. On October 16, 2015, The City of Flint switched back to the Detroit water system.

- On January 5, 2016, the Governor declared a State of Emergency for the City of Flint within the County of Genesee. On January 12, 2016, the Governor requested Non-Stafford Act support with the request being approved and a Federal Disaster Recovery Coordinator appointed. On January 15, 2016, the Governor requested an Emergency Disaster and a Major Declaration for the City of Flint, Genesee County, Michigan.

- On January 16, 2016 an Emergency Declaration was declared authorizing appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in the designated area. Specifically, to provide emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding.

Col

I have to be at a college visit with my son that day to meet with a football coach and hopefully get some $$. I cannot do this event.

To: Kelenske, Chris (MSP)
Subject: RE: HOLD - Possible Press Conference

Thank you, sir. We have reached out to the Col's office to see if she might be available. Do you have anyone from the operations group in Flint that might be available to speak to more technical/in-depth questions? If the Col. is

available, we will likely ask her to speak during the actual press conference but hoped that an additional person could be available for possible comments.

Thank you,
Morgan

Subject: Standing with Flint Event at Flint City Hall Today, 2 p.m.

Good Morning,

Again, they have indicated long rifles are not welcome at the event but uniforms, insignia, and side arms are acceptable.

This is expected to be a peaceful show of support to collect water for the citizens of Flint.

I will continue to monitor this event for public safety and situational awareness. I will send an update if new information is posted in the event page. Please let me know if you have any questions.

Thanks,

Sue

Send to: Planning, Michelle Kuzera (to find out the Food bank info), Pam/Mary K. Thanks!

Captain Kelenske has a Senate Appropriations Committee meeting tomorrow. So **by 10 a.m.** we need the following:

Current water inventory in our warehouse:
How much water has been donated so far at the warehouse:
Overall warehouse burn rates:
What has been distributed so far:

How much water is at the Food Bank:
How much water has been donated so far at the Food Bank:
Overall burn rate at the Food bank:
What has been distributed so far:

Current inventory of water at GCCARD:
How much water has been donated so far at GCCARD:
Overall burn rate at GCCARD:
What has been distributed so far:

Subject: RE: Supplemental Information

What is our water plan?
Food bank, NGOs, etc.

Currently a working group is being formed including EMHSD, local representatives, the food bank, and other community organizations to transition from the state run pods at the fire stations to community run pods at various community and faith based institutions which are in the process of being identified. We anticipate that this distribution of water and filters and cartridges from these community based pods could last for approximately one year until it is determined that the water from the system is safe and there is community acceptance of test results. Various methods of distribution are being investigated to make the process as simple and expedient as possible for both the community and the customers of the water system.

Subject: Supplemental Information

I spoke with John Roberts from budget. For the appropriations tomorrow we need to explain why we still need the funding with all the donations.

Estimate with donations how much water we think we will need in the next 2-3 months.
How long will our water last?
Explain where the donations are going?
What is our water plan?
Food bank, NGOs, etc.
Water averages, how much do people have?
What is our burn rate?
What is the burn rate at the Food Bank? Who else is providing water?
What do we have and how fast are we going through it?

We may be able to call John and tell him but we can discuss.

Subject: Filter totals by brand

Hello folks,

You might have this anyway, but considering that the Gov is having his press conference tomorrow, I am sure that you have been asked how many filters we have distributed so far.
If you have that number available, could you let me know?
Also, if you have that broken up into the different brands, that would also something I would be interested in.

Have a good night over there in Lansing.
Henrik

Subject: *Donations Numbers from Bills of Lading*
Attachments: Donations Through the Warehouse.xlsx

Attached is the data from the bills of lading, with the duplicates removed. There should probably be a disclaimer along the lines of "This data is a compilation for donations for which packing slips were provided. It is possible that other donations have come through our warehouse, but they were small amounts that do not make a significant difference in the total amount of donations." That language is really rough, but that's the idea I'm conveying. Hope this helps!

Alex
Intern, EMHSD
Michigan State Police

Subject: 2-1-1 Update Flint Water Response for Tuesday, January 26, 2016
Attachments: 2016-01-26 MI211 Flint Water Daily Update.docx

This is the daily 2-1-1 summary on the Flint Water Response for Tuesday, January 26, 2016

GENERAL INFORMATION:

- **Reminder: Anyone having difficulty dialing 2-1-1 can use the alternate toll-free number 844-875-9211.**
- On Wednesday, January 27 at 7pm MSNBC's Rachel Maddow will be hosting a broadcast town meeting at Brownell/Holmes STEM Academy, 6602 Oxley Dr., Flint. See link at http://www.mlive.com/news/flint/index.ssf/2016/01/what_to_know_about_rachel_madd.html

CORRECTIONS AND CLARIFICATIONS

None today

CALL VOLUME:

Call volume continues to be high, requiring extra staffing from other regional Michigan 2-1-1 partners and using managers at Central Michigan 2-1-1 to again take calls during the peak demand. Wait time today did increase around the noon hour resulting a 20-30 minute hold time for callers during that period. Callers did not express frustration or dissatisfaction with longer than average wait times.

Follow on 1/25/16 call volume: Jennie Pollak, Central Michigan 2-1-1 Manager, reported that during yesterday's peak demand there were a maximum of four (4) calls in queue for Flint Water Assistance. The major cause of high call volume over the past week is related to referrals for free tax preparation assistance.

- 2-1-1 is exploring options to address capacity issues with the SEOC and Michigan Community Service Commission, including utilizing volunteers or contracting with an out-of-state 2-1-1 provider to assist with water-related calls.

SPECIAL NEEDS/REQUESTS

- ☐ ***Callers continue to have many questions about various water filter options.***
  - ☐ Callers are asking about the efficacy of various water filters and whole-home filtration system to screen out lead. **Is there an state- or independently-vetted list of effective filters available for residents to reference.**
  - ☐ *There is high demand for shower filters due to reports of rashes and potential lead risk to children from using* water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**
  - ☐ Callers are asking about the availability of whole-home filtration systems. **Is there any guidance on whether this is being considered as an option for residents?**
- ☐ **FOLLOW UP:** SEOC is coordinating with Michigan 2-1-1 on a standard form to use for water resource delivery requests. A MI211 vendor is converting the form into an electronic that will allow 2-1-1 agents to collect the callers' needs and delivery information, then automatically send the individual requests in real-time to the Genesee Sheriff contact responsible for managing deliveries. **The vendor notes it is possible to automate work orders directly to an e-tablet or mobile device if this would be useful for tracking. Is there SEOC/Sheriff's Dept interest in pursuing this option?**
- A handful of callers have asked 2-1-1 specifically about FEMA relocation assistance. 2-1-1 has directed them to traditional relocation services such as DHHS with the caveat that this kind of support is minimal and that no formal relocation assistance has been established at this time for Flint residents due to the water situation.
- Callers are asking about reimbursement for medical expenses, such as previous co-pays, that are related to treatment or testing. Until further notice 2-1-1 is telling callers they are responsible for their medical expenses, but we anticipate this will be an ongoing concern.

RUMOR CONTROL

- ☑ **FOLLOW UP ON 1/25/16:** 2-1-1 is receiving calls from residents who are very confused and concerned about the statement from Attorney General Schuette that, "I would certainly not bathe a newborn or infant in Flint water".
  - ☑ SEOC provided a copy of the "Lead In Water" information sheet as a reference for 2-1-1 agents and posted the document at www.michigan.gov/flintwater under the "In Your Body" link.
  - ☑ **DHHS has issued the following statement on the safety of bathing in Flint water:**
    - Parents can maintain routine bathing practices. We do recommend that bath time be used for bathing only, after which children should be taken out of the bath rather than be allowed to play in the water for extended periods of time.
    - We are aware that there have been concerns related to rashes.
    - If a resident has a rash that they are concerned about, we recommend they contact their primary care doctor.
    - Currently, rashes are only reportable to MDHHS when there is a suspect infectious disease such as measles or chickenpox.
    - MDHHS is working together with the CDC and Genesee County Health Department to ensure we're monitoring health issues that may be related to water.
    - We will be building on our partnership with the local provider community to determine what additional supports and surveillance may be necessary.
- ☑ **FOLLOW UP ON 1/20/16:** Another rumor reported is that Legionella can be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes. **Can a health professional verify the risk of boiling Flint water or using it in an ultrasonic/cool mist humidifier?**
  - ☑ **RESOLUTION:** DHHS Medical Epidemiologist, Dr. McFadden, provided the following response:

Q: Can Legionella bacteria be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes?

A: Boiling water is one effective way to kill bacteria including Legionella, so steam that comes directly from a source of boiling water will not contain live Legionella and is not a source for Legionella transmission.

Inhalation of aerosolized water droplets containing Legionella is one of the ways that people get legionellosis. ***In-home portable humidifiers are known to generate aerosolized water particles that can then be inhaled. Dirty reservoirs and filters in humidifiers can quickly breed bacteria like Legionella.*** Use of tap water for these devices is strongly discouraged. Most manufacturer guidelines specify that only sterile water should be used in such devices (including rinsing of humidifier containers) and they should be cleaned regularly and thoroughly to prevent bacterial growth and transmission of potentially-aerosolized organisms like legionella. If these devices are used, manufacturer guidelines should be closely followed.

- ☐ **WHO FROM STATE OF MICHIGAN IS MONITORING SNOPES.COM?** www.Snopes.com is a popular fact-checking web site that works to identify the source of internet rumors, then verify or dispel them. It labels stories as 'True', 'False' or 'Unproven'. There is long article posted today on Snopes at http://www.snopes.com/flint-water-crisis-cps/ titled: ***"Flint Residents Told That Their Children Could Be Taken Away If They Don't Pay for City's Poison Water?".*** The label on the story is **'UNPROVEN'.**
  - **SEOC is following up with SNOPES after receiving an advisory message from 2-1-1.**
  - **Strongly advise a PIO or other communications professional is tasked with monitoring this site on a daily basis to address rumors as they emerge.**
- ☐ **Is there a contact in state government who is monitoring media who could feed news stories and updates to 2-1-1 to keep the system apprised of emerging stories?**
- **FOLLOW-UP ON 1/25/16:** 2-1-1 received a report that the e-tablets being used for real-time data tracking of water resource deliveries to homes have been taken away due to concerns that tracking data on the needs of homebound residents is a potential violation of HIPPA. **SUGGESTION:** 2-1-1 received a recommendation that e-tablets could have an electronic disclaimer that residents could sign when they receive their first delivery. This could also authorize regular deliveries of water-related supplies to homebound residents.
  - ☐ **Is there any discussion about establishing a regular delivery schedule for homebound residents, particularly those with a need for sterile water for medical devices like nebulizer? What issues need to be addressed to support this?**

UNRESOLVED

- ☑ **From 1/15/16:** 2-1-1 is trying to identify a resource *to pick up* test kits from homebound/senior residents who cannot drop off test kits at designated sites. **RESOLUTION: SEOC has approved inclusion of this need on the standard referral form mentioned above in the Special Needs/Requests section.**
- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.

- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☑ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.

RESOLUTION: See DHHS statement above in Rumor Control

- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**
- ☑ **1/21/16:** Calls continue to increase regarding how to recycle empty water bottles. A recycling vendor contacted 2-1-1 and was referred to United Way of Genesee County. **Does the City of Flint offer recycling? If not, what are the options for people to dispose of the empty plastic bottles? RESOLUTION:** Youngs Environmental has provided 2-1-1 with information on several recycling drop off sites.
- ☑ **From 1/25/26:** 2-1-1 has received several calls from individuals complaining about their interaction with National Guard members at water distribution sites. In one instance the caller, who works for the City of Flint, called the Fire Station to talk about the situation and was referred to 2-1-1. We understand there are two sides to these interactions and would like to handle them consistently and in an appropriate way. **Can the SEOC or National Guard provide guidance on handling concerns about residents' interactions with responders? RESOLUTION:** National Guard provided 2-1-1 a contact to report any issues. Jennie Pollak at Central Michigan 2-1-1 is the internal contact for collecting these reports, then forwarding them in a manner that protects the caller's confidentiality.
- ☐ **From 1/25/26:** Organizations distributing bottles to collect water samples report running out of bottles. **Is there a contact for individuals and organizations to get additional testing sample bottles?**

Just checking, since I haven't been here a while. About what time will the Parcel Contact Status map and the Parcel Filter Status maps be available?

Thanks!

Subject: bullets from logistics

Worked with FEMA/DHHS on warehouse tracking status/strategy:

- Identify alternate way for drivers to communicate Rapid Response orders (Radios instead of iPads)
- Processed Requests (RRF's) for water from FEMA.
- Discussions with Target on routine water deliveries.
- Resolved Blue Pallet issue (company pick up from warehouse).
- Warehouse option research with local EOC, FEMA and Target.
- Inventory quantity standardization--beginning Wednesday, 1/27, inventory will be counted in liters and by "each".
- Requested an optimal warehouse inventory staffing plan.
- Conference call with FEMA Inventory team and Logistics team.
- Secured 2 (DTMB and Belle Tire) out of 3 requested trucks/drivers for Food Bank.
- Working on replacement strategy for broken pallet jacks (4) at PODs.
- Created a table of document translations and printing requests and status.
- Review, assign, investigate and update resource requests.

Subject: Voucher Card Program

Hi Richard,

As part of the replacement filter program an idea for implementation is a water voucher program similar to the bridge card. Could you reach out to your agency to see if implementation of a voucher program is something that is feasible to develop and maintain? With the data we have been tracking it will help be able to provide the parameters for the locations that would qualify for the replacement program.

Please let me know if you have any questions.

Subject: 2-1-1 Update Flint Water Response for Monday, January 25, 2016
Attachments: 2016-01-25 MI211 Flint Water Daily Update.docx

This is the daily 2-1-1 summary on the Flint Water Response for Monday, January 25, 2016

GENERAL INFORMATION:

- ☑ Thank you to the PIOs and DHHS partners who offered to discuss the growing public perception that 2-1-1 is a state agency and how the state is promoting 2-1-1 for the response. I will work to coordinate a meeting or conference call later this week.
- *There are two major public meetings this week.*
  - Tuesday, January 26 at 5pm the NAACP is holding a Public Mass Meeting at University of Michigan-Flint, Northbank Center, 432 N. SAGINAW STREET, FLINT, MI 48502. The meeting will be hosted by Cornell William Brooks, national NAACP President & CEO.
  - Wednesday, January 27 at 7pm MSNBC's Rachel Maddow will be hosting a broadcast town meeting at Brownell/Holmes STEM Academy, 6602 Oxley Dr., Flint. See link at http://www.mlive.com/news/flint/index.ssf/2016/01/what_to_know_about_rachel_madd.html.
- The Flint Water Plant reported it is receiving the results of lead tests and is compiling the results from up to 100 tests per day. Processing the results is labor intensive as it requires converting the lab data into parts-per-billion, then preparing letters to residents with the results.
  - Water samples submitted for testing take up to three (3) weeks to process. The department is telling the public it is a 30 day wait for results.
  - Many samples are submitted with incomplete contact information, requiring additional research to get results back to the resident.
  - Organizations distributing bottles to collect water samples report running out of bottles. Is there a contact for individuals and organizations to get additional testing sample bottles?
- There are reports that residents using the free Lifeline phones (also known as Obama phones)are having problems using the abbreviated 2-1-1 dialing code. The Michigan 2-1-1 State Office is trying to verify this. If there is a problem we will work with the Lifeline vendor to correct the issue. Anyone having difficulty reaching 2-1-1 can use the alternate toll-free number 1-844-875-9211.

CORRECTIONS AND CLARIFICATIONS

None today

CALL VOLUME:

Jennie Pollak, Central Michigan 2-1-1 Manager, was out sick today and was not able to provide a report on call volume and demand. While call numbers are not yet available, the vendor who provides the statewide call platform notified the Michigan 2-1-1 office that 85% of our incoming and outgoing lines were in use, an indicator that volume was again very high. This 85% threshold triggers close monitoring of the system by the 2-1-1 Technology Director who can turn on additional capacity if needed, ensuring that callers can still reach the 2-1-1 system. 2-1-1 continues to use the 'call-back' feature that allows caller to keep their place in the queue without holding on the line, then be contacted by the first available agent.

SPECIAL NEEDS/REQUESTS

- See above request for a contact to get sample bottles for residents to submit water for testing.
- SEOC is developing a standard form for 2-1-1 to use for water resource delivery requests. Once the format is standardized, Michigan 2-1-1 will work with one of our vendors to convert the this into an electronic form that will allow 2-1-1 agents to collect the callers needs and delivery information, then automatically send the individual requests in real-time to the contact responsible for managing deliveries.
- 2-1-1 has received several calls from individuals complaining about their interaction with National Guard members at water distribution sites. In one instance the caller, who works for the City of Flint, called the Fire Station to talk about the situation and was referred to 2-1-1. We understand there are two sides to these interactions and would like to handle them consistently and in an appropriate way. Can the SEOC or National Guard provide guidance on handling concerns about residents' interactions with responders?
-

- 2-1-1 has received several questions from responders asking how we handle non-English speakers, as well as deaf/hard of hearing individuals.
    - There are a few 2-1-1 agents in the state system who are fluent in Spanish and Arabic. When these staff are available calls are routed to them. Otherwise, tele-interpreter services are available 24/7/365. It usually takes under one minute to connect with an interpreter in any of 180 languages.
    - 2-1-1 handles requests from deaf and hard of hearing individuals in several ways.
        - TDD/TTY is available at every center, but very few calls come in this way
        - 7-1-1 teleinterpreter is regularly used by callers to reach 2-1-1
        - Email is widely used as it allows direct communication between the deaf/hard of hearing person and the 2-1-1 agent
        - Live chat is available at most of the 2-1-1 partners which allows individuals to communicate directly and privately with a 2-1-1 agent in real-time

RUMOR CONTROL

- 2-1-1 is receiving calls from residents who are very confused and concerned about the statement from Attorney General Schuette that, "I would certainly not bathe a newborn or infant in Flint water". 2-1-1 contacted SEOC about how to respond and was informed the "Lead In Water" document circulated internally is the prime reference. . 2-1-1 agents have this document, but it *does not appear to be available on the state's web site. Can the SEOC provide a link where we can refer callers to read the* document, or give Michigan 2-1-1 permission to post it at MI211.org?
    - Hearing different messages from different state officials is causing concern and confusion for the public. Can PIOs provide any guidance as to how 2-1-1 should handle questions from callers about the reliability of information from these officials?
- 2-1-1 received a report that the e-tablets being used for real-time data tracking of water resource deliveries to homes have been taken away due to concerns that tracking data on the needs of homebound residents is a potential violation of HIPPA. Can the SEOC verify if this is correct? If so, who is working on a HIPPA-compliant process for tracking information on the needs of homebound residents and when is it expected to be available?
-

UNRESOLVED

- ☐ From 1/15/16: 2-1-1 is trying to identify a resource *to pick up* test kits from homebound/senior residents who cannot drop off test kits at designated sites. Possible Resolution: SEOC is considering inclusion of this need on the standard referral form mentioned above in the Special Needs/Requests section.
- ☐ From 1/18/16: Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ From 1/18/16: One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ From 1/18/16: Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.
- ☐ From 1/20/16: Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.
- ☐ From 1/20/16: Another rumor reported is that Legionella can be aerosolized and inhaled if people boil water on the stove or use a *humidifier to humidify the air in their homes. Can a health professional verify the risk of boiling Flint water or using it in an* ultrasonic/cool mist humidifier?
- ☐ 1/21/16: Calls continue to increase regarding how to recycle empty water bottles. A recycling vendor contacted 2-1-1 and was referred to United Way of Genesee County. Does the City of Flint offer recycling? If not, what are the options for people to dispose of the empty plastic bottles?

Subject: Statistics from Pairing of Parcel data to Data Recieved From the Field

We are tracking 38,144 residential properties within the city (noting large apartment complexes are classified as commercial). Of these:

- 34318 have been engaged by Flint Water Response Teams (90%)
- 23281 have led to a direct citizen engagement (61%)
- 5173 were not home during any attempt to visit and have not been recorded as having visited a POD (14%)
- 5864 of the properties the teams visited were vacant or destroyed (15%)
- The remaining 10% is going to be a focus for the teams in the near future

Additionally, we have been tracking the status of "Active Water Subscribers" from the Flint Department of Public Works. These are residential properties which have meters put on the homes by the city. Of the total 29,994 subscribers citywide, 26,673 have been confirmed as being on residential parcels. Of the 26,673:

- 18487 Have been confirmed as having received a filter by the Flint Water Response Teams (69%)
- 3928 Were not home when visited (15%)
- The remaining 16% we have no data to confirm or deny whether they have a filter
